A dairy is the only place where one can be sure of finding a hearty breakfast, in the midst of our new surroundings, it is the only place where one can be sure of finding a hearty breakfast. WHAT ABOUT THESE CLUBS?

DEBATING CLUB

All Fall terms are opened. That is, granted, an erroneous impression. But it is not nearly so peculiar as the fact that is necessary to have a lawyer for a father. You yourself need not be a published dinner-dance speaker, nor need you have an experienced debater. In debating club meetings we hope to discuss current political and social events. The faculty will tell us something about the foundation of the debate. There will be an opportunity to have extemporaneous debates and discussions open to subjects of student interest. Our schedule for the year is not yet completed, but we are planning to debate University of Edinburgh, Vermont, Smith, and other Trinity or Wesleyan. Debating is Connecticut’s only intercollegiate activity. We want not only speakers but also those students who are interested in redating. We need a good number of students who can have a success in debating. We plan to have extemporaneous debates and discussions open to subjects of student interest. The first meeting of the debate club will be held in the first week of fall term. The meeting will be in the auditorium. All students are invited to attend.

MATH CLUB

The Mathematics Club cordially invites the Freshmen and new students to attend and participate. At the meetings, talks are given and interesting papers read on topics not covered in the classroom. The meetings are open to anyone desiring to attend or anyone interested in educational, Refreshments, a Christmas party, a picnic. Last year some were given by several of the Mathematics Club.
