MRS. RAYMOND BROWN SPEAKS AT CONVOCATION.

On Tuesday, October 18th, Mrs. Noel Brown introduced as speaker of the Convocation period, Mrs. Raymond Brown, Matron of The Women's College. Mrs. Brown began her address on "Women's Best Contribution to Citizenship" by speaking of the new force which has been set free in our country since the ratification of the nineteenth amendment. The speaker emphasized the point that although women cannot bring the millennium, they do know when there is a way of doing it, and they will soon tell. At the present time women are shy because they feel keenly the importance of their situations. Nevertheless, they are bringing to the government of the country some qualifications which men possess in a much smaller measure. For instance, women display more common sense and give more attention to detail than do men. Also, women are thrifty. To quote Mrs. Brown, "The moment a man has money is going to be spent, it shall be spent in the right way." Moreover, as she pointed out, women have more leisure and men of this very fact. It will not be long before the men will be coming to the women for information about their political problems. If we have the courage to vote as our consciences dictate, we will bring an invaluable contribution to our country.

Mrs. Brown stated emphatically that no woman has any excuse for saying that she does not find government interesting. "Every detail of our government is the most personal affair any man (or woman) can have," she said. "They that say she has no interest in her children, inserted in women of America are organized, they have a power to put anything through that they would wish to. They are and go about it in the right way," Keep in dependence action. Mrs. Brown urged, Mrs. Brown, "Don't be led. It is the best contribution we can make to our national life."

THE SOPHOMORE CABARET.

There was the spot-light, the smooth polished floor in the center, surrounded by tables and chairs and places for two, refreshments (nothing special, just orange juice because this was Freman night); the tall, good-looking waiter; all the atmosphere of a cabaret. And the entertainment—well, there was a bit of everything from our own last year's musical comedy to the Broadway Folks. We never knew there were so many good-looking men in the Freman class until last night. Most of them had evidently had a hard day at the golf course and the rest were the Alumni whose faces one could admire and flirt with the hostess at rose garden at the first glimpse, and then wished more had followed her example—"at the woman in the even-

MRS. VIROL PRESENTS NEW DORMITORY.

Mrs. G. B. Virol, of Middletown, is presenting to the College a new thirty thousand dollar dormitory which will be located on Mohegan Avenue, opposite and north of the stone steps. Work on the building, an English timber and struc. ture, was begun many days ago and will be completed in early spring. The dormitory will be added to the north of the recently finished dormitory. Miss Robinson of the English Department is also living at the new dormitory.

CONNECTICUT PARTICIPATES IN DISARMAMENT CONFERENCE.

It is very fitting at such a critical period of history as the present, when the fate of nations, should they persist and go on, hangs in the balance, that the colleges of the country take some action in expressing and making known their opinions with regard to the many talked of subject of disarmament. With this end in view, students of Connecticut College assembled to consider the approaching conference for the Limitation of Armaments, adopted the following resolutions, which will journey to Vassar along with the two representatives, Jeanette Sperry and Julia Warner. It runs as follows:

Whereas, It is our belief that the failure of the Washington Conference to secure at least a substantial reduction of national armaments would greatly increase the chances of wars among the nations and revolutionize the situation within the home, Therefore, be it resolved, That we earnestly urge upon the representatives of the United States in the said Conference the necessity for promoting at every influence and means of the World League for Peace, the words of the Literary Digest "that we who make war must also make peace," and by every influence, pressure, and means of this character, endeavor the necessity (or promotion of peace and prosperity."

DISARMAMENT A WORLD PROBLEM.

The most vital issue of the day because of its influence on the present economic situation and future happiness of the world is disarmament. The League of Nations at its headquarters at Geneva, Switzerland, appears to be taking the situation very seriously, and every influence and means of the World League for Peace, and all the other organizations doing work of the same kind, are growing, we think, the conviction that the wisest means of maintaining peace and prosperity. Only by Congressional law can such a system be established. The present time have facilities to accommodate the two million young women who would have to be trained annually if a portion of the time be spent by young students in taking care of patients in the hospitals. After due training the pupil nurses should be allowed to visit the patients and see the "care of patients outside the hospitals."

HOSPITAL SUPERINTENDENT DE- SIRES COMPULSORY TRAINING.

That women need and should use the vote, required by law, as an incentive for nursing as a compulsory training for every young woman who would be enrolled to divide the stands.
"NOW THE DAY IS OVER."

A very lovely custom has been started at Connecticut this year. The singing of an evening hymn as a blessing at dinner seems to bring to a fitting close, a day full of study, comradeship and loyalty to our Alma Mater.

Many are the days when we have chatted through an hour at the post office, waiting for the mail to be sorted, and giggled away a period in the library. It is so easy to slump down on the couch after gym with a Saturday Evening Post. Who can resist the temptation to let one's mind wander from History maps to the sparkling river and the sun-bathed hills beyond? These little broodings are not frivolous in themselves. But do we ever count up the number of times we have daydreamed that we would go to Paris and become artists, in the hopes of earning a living and bringing back the glory of our alma mater? Sometimes we let our minds wander for a long time, and the next thing we know is who played Romiet to Cath-

DO YOU READ "EXCHANGES?"

Are you interested in seeing what other colleges are doing? Do you wish to know what other students are saying and thinking? If you are, and you have thought to be, you will find satisfaction in the pile of papers on a certain shelf in the library, a place doubtful to your students. The college year from October to June, except during mid-years and vacations.

2. A pledge by the League of Na-
tions to make common cause with any
one of its members which should be
the victim of an unprovoked aggression.

3. An additional specific pledge by
Britain and the United States to aid
the cause of a renewal of un-
provoked German aggression.

H. Eileen Fitzgerald

It was in consideration of these
three things that France somewhat
reluctantly agreed to abandon the idea
of attempting to form an independent,
unarmed, neutral "buffer" state be-
tween the White and the French fron-
tier. Now, France experiences com-
plete disillusionment. The disarm-
ament of Germany has proved extreme-
difficult. Unofficial military organI-
izations have sprung up all over Ger-
many. The League of Nations, by its
inertia, is purely paralyzed, and the tri-
ple guarantee pact, which is the ideal of
every Frenchman, by the refusal of the
United States to sign it, has never
come into effect for Britain's accept-
ance of it was made conditional on
that of the United States.

ALUMNAE NOTES.
Emma Wispert and Zerely Green, '26, are selling Old Lyme candy in the Harvard High School for the benefit of the Endowment Fund.

Winona Young, '19, has just been appointed the position of supervisor of the Frankfort Mill. Find activities of the Connecticut Children's Aid Society.

Marion Kofsky, '19, and Fanchon Hartman, '20, are selling pencils to the business men of the state for the bene-
fit of the Endowment Fund.

ME AND MYSELF.
Last night Me and Myself had a long conversation. Myself is a gorgeous old chap and so he did most of the talking. They were discussing the C. O. N. A. and Me is a reporter for that ex-
cellent paper. This is what Myself said. Do you agree?

"I think that the Yves ought to con-
tain news."

Me agreed.

"I think that everybody ought to write for the paper. It is a college paper but it cannot represent college opinion if the only people who express their opinions in it are the reporters."

Me nodded vigorously at this and clasped his hands.

"It seems to me that the new Fresh-
man class ought to make an effort to support the Yves in this way. Probably there are many of them who can write even if they have never done so before. Let them show their ability and help the good cause by con-
tributing news articles, jokes, literary articles—anything." Me agreed again and Myself, because he could not say anything to startle Me, stopped talking.

Do you agree with what he said, and if you do, how can you show it?

To You, C. C.
Your field is purely scholastic, mine is merely commercial. Might I offer you during the coming weeks a little something from each sphere? Will you look forward as kindly to reading them as I will to writing them. I wonder.

Mandolin Club Try-Outs

Try-outs for Mandolin Club were held Monday nights, October third and tenth. The girls accepted were as follows:

Mandolin—Sally Crawford, Margery Field, Elizabeth Allen, Lena Clarke, Henrietta Barnes.

Violin—Grace Demarest; Ferialn Hulbert.

Guitar—Olive Hubert, Gloria Hot-lister.

The first regular meeting was held Tuesday evening, October eleventh, in the gym. The possibility of having regular meetings on some night other than Tuesday was discussed. The Club is beginning the year with increased enthusiasm, and the girls will start immediately on the music which will constitute the program for the regular annual concert, to be held in March. The purpose of the club is to create among the girls an opportunity to increase their musical ability so as to be of service to the college social functions, and also to have a social time together.

Press Board Being Organized

On Monday evening, October 17th, the group interested in the organization of a Press Board met in New London Hall to discuss plans and to get information. Mr. Edward F. Loomia, who has been in this line of business since 1899, spoke on the different kinds of material which might be used by the members. Mr. Loomia also told something of the organization and business methods of other Press Boards which he has known. After his remarks, the members were given the opportunity to ask questions and the meeting ended with a general discussion of further methods of procedure.

Hockey Teams Are Chosen

Junior and Sophomore Hockey Teams Chosen

Tail Lights

What with parties tonight, the Freshmen have got us all green with envy, that we cry secretly into our pillows at night and long for the gay and hectic days of the past when Lizzie decided she'd go as a boy if Twentieth-day would roll up like a lady.

Pay day is over, thank goodness! (Deep and profound sigh!) Now we can really look upon our meagre resources with the fond eye of possession—that is, for a while.

Miss Rector thinks that an unhung bulletin board which spends its time banging instead of hanging against the wall is absolutely no use at all unless for foot notes.

Economics 11-12—C. C.'s new battle-ground, where there is more than a minute than in a Woman's Club in a month.

The History Club has celebrated with its first picnic. Now we're all waiting breathlessly until the Spaniards announce the date of their Ice Cream Festival.

The Faculty are resolved to wrest victory from the Seniors at any cost. Already, grilling on the soccer field has begun. We long to see once more Dr. Hurd's little red cap on the ground, where there is more said in a month than in a Woman's Club in a year.
