Connecticut College News

Concert Series Holds Exceptional Promise

The committee in charge of the College Concert Course has secured a series of concerts of most unusual merit for this season. The first number of the series is on November sixteenth when Lucrecia Bori is presented by the Metropolitan Grand Opera Company in the Connecticut Memorial Auditorium. Ms. Bori, a prima donna of the Metropolitan Grand Opera Company, has already an established reputation and is a popular favorite.

News of India Comes From Miss Williams

The last of June, Miss Dorothy E. Williams, formerly of the Zoology Department, who is now a student of Education in the University of Chicago, is at work on the problems of the kindergarten education experiences in the nursery schools of the United States. Her research is intended to lay down a foundation for the kindergarten education in India.

Connecticut College Delegates Tell of Junior Month

Last summer, twelve of us, all Junior College students, decided to spend the month of July in New York City to explore the world of work. We spent a month in the heart of the city, visiting various factories, offices, and museums, gaining valuable experience and insights into the world of work.

Senator Gives Expert Opinion on Aviation

On Tuesday afternoon, October 16th, at the regular Convocation Court, United States Senator, Hiram Bingham, Junior Senator from Connecticut, addressed the college on the future of aviation. He said that one of the greatest reasons why aviation has not progressed as fast as it should is because the American people are singularly lacking in knowledge of navigation. An understanding of navigation and its application to the air is necessary for becoming "air-minded" for the two fields of work.

A parallel may be drawn between the growth of the American people and aviation itself. A sea captain knows the danger of a lee shore, and he is always looking for open seas. He is able to prevent any harm because he is "air-minded." He is able to get away from the hard work and the dangers of the sea because he is "air-minded." If we are to gain the benefits of aviation, we must become "air-minded." This is the challenge to college students and the public.

NEW WHEATON STUDENT

Dr. John Edgar Park has been elected president of Wheaton College. He was elected to his new position on Tuesday, October 5. Dr. Park is known to many Connecticut students. He was a member of the Congregational Church, West Newton, Massachusetts. Dr. Park built one of the most beautiful churches in New England at West Newton and had a large congregation. The new president comes of distinguished scholastic ancestry. His father was minister of the leading Presbyterian Church in Ireland and his grandfather and great-grandfather were professors of theology. Dr. Park is a graduate of Queen's College, Belfast, and of the Royal University, Dublin, Ireland. He did postgraduate work in Leipsic, Edinburgh, Princeton and Oxford. He studied theology in the Assembly's College, Belfast, and in New College, Edinburgh. He took his M.A. from Tuffs College.

Dr. Park is known to Connecticut students at Weneese.

ALUMNAE COLUMN

One way of learning what Alumnae are doing is by asking their younger sisters who are now at college. There are several such sisters around, more than you would realize if you took the time to read the "Ivy Song," and "When Our College Was Young", which are in the Alumnae book. Ann's two-year-old daughter, Janet, is taught to read by twenty-two-year-old Janet. Hence, she is the sister of Joyce Frances, 26, who is now Mrs. William H. Duen, Jr., of Westwood, N. J. Charlotte Tracy, 25, has charge of the "Girls' Physical Education Department" at Addison Junior High School, Cleveland. Besides this she has organized a "Gym Leaders' Club," a guardian of a Camp Fire Group, and has joined a hockey team composed of Cleveland Physical Ed. Teachers. Barbara Tracy, 27, is her sister. More sisters are found on campus. They will appear next week.

Repression

In fear we waste away the years of life Allotted us to live; we hide the flame That soot of ours, because it might express A destiny that differs from the life That was allotted to us at birth. We lack the courage we must have to tell The inner voice that bids us break our bonds And tell the world what we believe is life: The sorrow and peace of living thus destroyed. The flame goes out and we have ceased to live. -Jenny Wathall in The Blazer, Antioch College.

**NEWS OF INDIA COMES FROM MISS WILLIAMS**

(Continued from page 2, column 2) brief stay was a delightful one. I found the people clean, courteous, and picturesque.

"Shanghai was terrific in contrast. The weather was atrociously hot, the sun blazed with extraordinary intensity, and there were few trees or shade to give relief from the heat. I found the people very much interested in the work of the Mission, and were eager to learn all about our work and the work of the various missions."
