Fresmen Elect Class Officers

New Board Jills Old Faces

The Student Government Association (SGA) held the annual Freshmen Class Executive Board elections last week between September 14th and September 16th. Students could run for class President, Vice President, Student Activities Council (SAC) class representative, or Judicial Board representatives. Elections for positions that remained open from last April’s Executive Board elections for the classes of 2007, 2008, and 2006 were also held during this period.

Raja Kelly ’09 was elected class President. He commented on the length of the freshmen’s intense electoral season: “I love the enthusiasm that the freshmen class had for the election.” He also asserted that he believes achieving results is the top priority.

With regard to the other candidates for freshmen class positions, Newly elected President Kelly said, “I believe all the candidates involved had 2009 in their best interest. Talking to them, they feel equally qualified. I don’t think that any one of us could do a great job.”

Kelly also asserted he now wants to give his best to his position as President. “As I take the position as class President, I want to get to know [the freshmen]. I want to help them understand and respect what they want.”

Furthermore, with regards to the freshmen’s interest in the job, “Kelly said. He also asserted that the freshmen class had a lot of options. “I think that the freshmen class had a lot of options. I believe that everyone could be a winner, the enthusiasm shown by the freshmen in their efforts to put up the apprehension, who often have trouble filling all of their class positions, is admirable. The Village grants all of the freshmen class representatives and it represents everyone who filled vacant positions.

Oasis Celebrates Grand Re-Opening

Longtime NPR Host Liane Hansen Gives Sound Lab Foundation Lecture

Liane Hansen, NPR host of Weekend Edition Sunday, was a guest lecturer of the Sound Lab Lecture series this past Wednesday, September 21. To a full house, she briefly described her radio journalism origins, what we do not hear, and, of course, the impact of journalism on her life. The lecture was free flowing and candid, giving the listener an honest opinion of the business, its ups and downs, and the very personal level of the news itself.

Speaking with the easy regard that comes through many years of practice, Mrs. Hansen began the discussion of her career by developing the secret that it was an accident. With original dreams of acting, a stroke of luck brought her to the world of public radio and to that moment that she has remained faithful to for the past 30 years. Since her first big event to cover on the news, even agreeing to an interview, to make sure that the journalist’s job is to bear witness.” All news plays a role in life and, “a journalist’s job is to bare witness.”

According to Mrs. Hansen’s career, she received many serious stories she was privileged to cover. Mrs. Hansen also discussed the news that held a special place in her mind and heart, such as the first Iraq war, her husband being taken prisoner while on assignment in Saudi Arabia; the search for her husband continued.

Throughout her long career, Mrs. Hansen has interviewed a number of people including Gordon Parks, Camroy Hein, and Eugene McCarthy to name just a few, but she also knows how it feels to be on the other side of the questions. During the first Iraq war, her husband was taken prisoner while on assignment in Saudi Arabia; she found herself now on the receiving end of the news, even agreeing to an interview, to make sure that the search for her husband continued. Fortunately he was released without serious harm, but it was in those moments when news reports were flying about better shelter, that Liane Hansen realized that always, “accuracy trumps speed.” In other words, it’s better to know that what is being reported is fact, instead of saying whatever simply to be the first to break the story. She also expressed that it was okay to doubt, because even good news can be doubted. “Doubt leads to questioning and questioning leads to truth, and that truth is an elusive thing. The lecture ended with a brief round of question and answer session in which Mrs. Hansen answered questions about co-workers, proposed stories to cover, as well as the occasional joke about NPR’s position stance. As the discussion broke up and the multitude of thanks and gratulations were given and received, it was quite obvious that this was one of the best lectures to ever be given in the Sound Lab series.

New Class Schedule Creates Problems For Students

This year Connecticut College decided to change the academic schedule that had been in place for at least the past few years. This decision was made in part to accommodate the large number of new "fraternization seminars" introduced at the start of this year.

Although the freshman seminars are an attractive feature that should enhance the College's reputation, the resulting scheduling shuffle has interfered with class size and the daily convenience of many students. It is arguable that more classes are being offered, yet the only the freshman seminars map the benefits. Meanwhile, students who are lucky enough to get into their preferred courses are squeezed into overcrowded classrooms that often lack the necessary equipment.

In general, courses that are not freshman seminars are overcrowded. It has become common for students to sit in distant chairs along the periphery of classrooms or even on the floor. Courses that necessitate specific materials, such as film or science equipment, have also run into difficulties. For example, the smaller number of time slots before lunch has led to a scarcity of lab rooms for some science courses.

In the English and Government departments, a table number of seniors have exceeded their traditional limit of fifteen students. The value of a senior seminar is diminished when it is the same size as a normal class. For seniors who plan to go to graduate school, the experience of actively engaging in a class on that entails a material is essential. These students are in peril of becoming no more than just another 200 or 300-level class. We cannot imagine that professors are happy about accepting such detrimental changes in the seminar experience.

Outside of the classroom, students every day college lives are being impeded as well. The new class schedule forces too many students to eat lunch at the same time. Going to Harris for lunch between 12 and 1 o'clock has become a trying experience. Lines to enter the dining hall frequently extend outdoors and seating is consistently sparse. Are we supposed to just factor this unnecessary frustration into our daily lives here at school?

We acknowledge that this change in academic scheduling was made with the best intentions and in the interest of all students, but the fact is that this shift has interfered with the quality of the excellent liberal arts classes that the College has always valued. It is necessary to find a way around this for less than ideal way of academic and daily life.

THE TEXAS CHAINSAW MASSACRE"
This might make the album more
acceptable to some, but I'm not
sure whether it's a sign that Dredg
is starting to lose its teeth. Their first
few albums were about as good as
it gets, and I still enjoy them, but this
one feels like the start of a downward
slide. Dredg's unique sound and
style are still present, but there
seems to be a lack of focus and
coherence that was present in their
earlier work.

Nicholas Cage loses the Battle but Wins with Lord of War

It is the loyal old school fan's worst nightmare: repeated play on a television show or a radio station. It is set in the fictional country of Kandahar, a corrupt African government. The film is marked by the death of a major character — I won't spoil who — and Yuri's reaction at this point also seems very much out of character.

Pittsburgh could win in any fashion and cement itself as the team to beat in the AFC, thus getting the Pats a compensatory #2 pick from which they will most likely emerge with a playoff berth, but nonetheless show the vulnerability that teams like the Cavs and Sox showed in need to unseat them come playoff time. Men’s Soccer Shuts Out USCSCA, Wins First Whale Cup Trophy Since 1981

By Dan Dorgan

Despite its auspicious start for the Connecticut College Men’s soccer team, the week was a huge success after a victory over Canisius’s Route 32 teams, the Coast Guard Academy. Last Saturday, the Camels headed into their contest against Williams College looking for a good result, as Camels were handed their first loss of the season in their previous game against Middlebury College. Williams is consistently a national powerhouse among men’s soccer teams; going into the contest against Camels they were ranked #6 in the country under a Division III squad. However, the Camels had reason to hope for a winning result as they have played Williams well over the past few years. Unfortunately, this was not the case at Williamsport, MA, last Saturday.

Williams went on to a quick lead in the fourth minute of the match, and Williams Midfielder John Hillman #7 scored the first goal for the Camels, and added two more to complete a hat-trick. To make matters worse, the Camels two substitute players, Kit Friedburg added the Camels deficit to the #1 team in the nation, making the score 4-0 in favor of Williams. However, the Camels came back, pulling three goals short, and Williams rallied away with the victory, 4-3.

The Buffalo State College Invitational TBA is a tough opponent, but the Camels played well and showed their determination. In their next game, the Camels will face another tough challenge against a ranked team, so their victory over Buffalo State College Invitational TBA will be a crucial win for the team.

This Sunday’s game between the Patriots and Broncos is by no means the biggest game of the year for both teams. There will be no expected matchups and week 17 games that will miss play-offs no matter what.
