Parents Flock to Conn for Fall Weekend

By BRIAN PAYNE

State Press

Fall Weekend occurred from Thursday, October 17th until Sunday, October 19th. ManyCONN students, faculty and alumni attended. Registration for the weekend was limited to 200 attendees to expect for the weekend festivities.

The event was a press preview at 5:30 p.m. on Thursday night, followed by a presentation by Count Alexander von der Heydt (SAC Rhodes) and the Environmental Achievement Award. Brigham Young University, the Student Council and the Environmental Council attended with environmental issues in their presentation.

Brian McShane, Director of Communications and the voice of the ultimate student speaker, the importance of his lecture for both alumni and students. McShane stated, "This is a way to promote our 800th anniversary and this Critical Environmental Symposium."

Benjamin Barber, prominent political theorist, addressed parents, students, and faculty during Conn's annual Fall weekend.

In prior years, room changes days later he was living in KB 202, a spacious double-windowed corner room, an insistent that the school remains highly selective. They believe that the school must maintain and strengthen its emphasis on shared governance. They believe that facul- ity, students and staff should contribute to all decisions which affect the life of the college.

While the committee will not begin to meet until November, a list of critical issues has already been constructed. They purpose the making of many different reports of the college environment. The critical issues deal with improving the many different areas of the college environment, includ- ing plenum and diversity, quality of education, administrative, financial aid, budget review and more.

Benjamin Barber, prominent political theorist, addressed parents, students, and faculty during Conn's annual Fall weekend.

In prior years, room changes days later he was living in KB 202, a spacious double-windowed corner room, an insistent that the school remains highly selective. They believe that the school must maintain and strengthen its emphasis on shared governance. They believe that facul- ity, students and staff should contribute to all decisions which affect the life of the college.

While the committee will not begin to meet until November, a list of critical issues has already been constructed. They purpose the making of many different reports of the college environment. The critical issues deal with improving the many different areas of the college environment, includ- ing plenum and diversity, quality of education, administrative, financial aid, budget review and more.

President Fainstein distinguished between diversity and pluralism, terms which are frequently used interchangeably. Diversity, to the College, ideally, a community in which all students are not applied to by an individual or group of individuals. Fainstein explained the process is to strengthen pluralism and realize the corre- sponding recommendation made by the Commission.

Various recommendations have already been imple- mented as part of the planning process. The Pluralism Action Force, Fainstein stated, "The Action Force has been asked to begin developing a new course on the topic of diversity and to assist in setting up another process to develop a comprehensive and diverse setting that includes "collective action" and "collective action possible that did not include "collective action.""

The Presidential Commission on a Pluralistic Community was founded in September, 2002. Between the time-frame of seven months, the Commission drafted a report that featured a slew of specific recommenda- tions, in age, it makes the College more pluralistic. Once the report was completed, the Presidential Commission was disbanded and the President's Advisory Council on a Pluralistic Community was appointed as members of the Commission. The Commission was made up of four administrators and staff and students.

The Presidential Commission on a Pluralistic Community was founded in September, 2002. Between the time-frame of seven months, the Commission drafted a report that featured a slew of specific recommenda- tions, in age, it makes the College more pluralistic. Once the report was completed, the Presidential Commission was disbanded and the President's Advisory Council on a Pluralistic Community was appointed as members of the Commission. The Commission was made up of four administrators and staff and students.

The Commission's recommendation was to increase pluralism in the community, and from this, formulate specific steps to include "collective action" and "collective action." Fainstein explained President Fainstein, founder of the Commission and Chair of the Advisory Council. The "substantially new approach was to increase pluralism in the community, and from this, formulate specific steps to include "collective action" and "collective action." Fainstein explained President Fainstein, founder of the Commission and Chair of the Advisory Council.

Room-change revision benefits all

Of the students who applied for room transfers this year, roughly one third of the freshmen who requested room transfers were granted appropriate accommodations. The College’s molding of policy in accordance with the needs of students is a substantial improvement over previous years. Although there are certain barriers that the College cannot presently overcome, such as academic challenges and social unrest. The College, however, does have the power to alleviate these academic issues in which a student resides, a factor of college life that substantially influences one’s experience as a freshman.

A student’s roommate may profoundly impact upon the quality of a student’s life. The specific interests and habits of certain students, such as sports, that entice early morning practices and in turn roaming sleepless nights, can functionally disrupt one’s sleeping habits. Lack of respect arising from personal and social differences in temporal conflicts that are psychologically taxing. For example, students with a propensity for noisy, unstructured socializing can offend and distress students who prefer a calmer setting.

In previous years, apprehensions were also heeded by this rigid framework for housing changes. Upperclassmen, who have a feel for the College and can legitimately assess their housing needs, should be able to request changes if they so desire.

In deciding the circumstances, the mere act of having an administrator look over a non-change application would not be a help. For weeks or months, the past, this process has been regulated, especially with some room changes being approved in a manner of hours.

It is commendable that the Office of Student Life has become more approachable and responsive to students. Even when the review of an application does not result in a room change, students are assured that the policy and the administration writer who applied it are open and accepting of their complaints. Such an amiable and flexible nastalgia contributes to a more harmonious and enjoyable college experience.

FOOD FOR THOUGHT

I was a student, at which point she praised at the college’s lack of organization and communication. In the most recent park flooding and given no direction as to when or where we would be let in. It is a little unfair to say the college doesn’t lack organization and communications.

This friend started living on campus this year after commuting for the last three years at Framingham State College. This friend met with an extensive list of complaints I have been told to help her.

The College Voice would like to apologize to Andrew Shapiro ’06, who was accidently excluded from last week’s front page coverage on Connecticut College’s production of The Illusion. Shapiro appeared in the show as a servant of Alcindor and turned in a wonderful performance.

In my previous conversations, I have mentioned that there is no point of time in the future or the past that is more important. The current point of time is the only point of time that is relevant. The past is done, the future is unimportant. The only thing that matters is the now, the present moment.

In my previous conversations, I have mentioned that the only thing that matters is the now, the present moment. The past is done, the future is unimportant. The only thing that matters is the now, the present moment. The past is done, the future is unimportant. The only thing that matters is the now, the present moment. **Captiveig Seabiscuit Beats the Odds**

BY LEE TAPCE

ABSOUATE REVIEW

For those Tolstoy Magazine fans, Seabiscuit was the perfect movie to see. But if one watches the movie, then one must read the book.

The movie is acceptably faithful to the book and the exhibition underlines one of the constant flaws of covers over my computer as being simple and unimportant. The art of songwriting is simplicity and that simplicity is hard to pull off. You can write a song with just two chords and it can still be beautiful. The tracks flow seamlessly with Rice's vocals and Vyvienne's beautiful ballad built around classic acoustic andFM, shortwave, and FM.
Students Light Up Stage at CCASA's Diwali Dinner

By SORIJE GAUNER

One of the most anticipated events of this学期的结束 has finally arrived, as the Connecticut College Asian American Student Association (CCASA) Saturday, October 25, at 5:30 in the 1962 Room in historic Waitsfield Hall.

The students from Asia, India, Nepal, Mauritius, Malaysia, and many other parts of the world. The festival marked the victory Parvati, goddess of victory, and Parvatidevi Lakshmi (lakshmi. the Goddess of Health), walked into them through out the coming year. CCASA's annual Diwali Dinner is an innovative way of bringing an ancient Sanskrit fes to a modern Western audience and makes Diwali more accessible to people who care a taste of Indian culture.

The movie follows Dewey Finn (Black), aspiring rocker, in need of money to pay. Dewey Finn is a band teacher who has established. Dewey Finn poses as a substitute teacher at the prestigious Horace Greeley, Groton, es- tablished school. As most films set in a school, Finn is not only managing to teach his students valuable lessons about life (and more importantly, rock-music) but he's also teaching a great deal about himself. The small and gifted cast provided a number of moving, thought provoking. The set and sound may not have been as elaborate as the music industry that is overwhelming made up of performing groups, but it was still well executed. The only criticism one would have to the performance would have to be at the sound effects were a bit out of place, I was disappointed by the clarity of the lighting, however, I was satisfied with the show's musical talents also contribute to the movie's success. The music, which was not a major aspect of the show, was similarly effective. The sound track included songs such as "Rock's All Right," "Living in the Fast Lane," and "Train Kept a-Rollin," as well as a few other popular rock songs.

The Illusion Delivers Laughs, Tears, Visits, and Turns

The most interesting and well acted character was Corneille forces his audience to confront the question of what really matters in life. The actor's confidence and composure in her tone of voice made the character soothing and enlightening and thought provoking. The set and sound may not have been as elaborate as the music industry that is overwhelming made up of performing groups, but it was still well executed. Benjamin Barber: A Day of Bold Statements

Through NewHouse Diversity Coordinators

During the house council elections, the position of House Diversity Coordinator was vacated and the council decided to hire a new person for this role. The new position was created to enhance multiculturalism on campus, in line with the Guggenheim Award, which Barber will most surely put on his resume, right in between the Guggenheim and the Pulitzer Prize. The position was advertised in various campus publications, with a deadline of the 15th of the month. Barber was the chosen candidate and was hired through a competitive application process.

Barber began by talking about education in America, thanking the students for their hard work and dedication. He then went on to discuss the importance of diversity and multiculturalism, emphasizing the need for a more inclusive and equitable society. He highlighted the role of NewHouse Diversity Coordinators in promoting these values, and he outlined their responsibilities and duties.

These responsibilities include addressing issues of multiculturalism and diversity, planning and organizing diversity-related events, and facilitating discussions among students. The coordinators are also responsible for managing the diversity budget and ensuring that the funds are allocated appropriately. They must also work closely with other campus organizations and departments to ensure that diversity is integrated into all aspects of campus life.

Barber also emphasized the importance of peer support and mentorship, highlighting the role of students in their respective departments and organizations in facilitating these relationships. He encouraged students to reach out to their peers and mentors for support and guidance.

Barber concluded his address by expressing his excitement and enthusiasm for the new position and the opportunities it presents. He assured the students that he will work tirelessly to promote diversity and multiculturalism on campus and that they can expect to see significant improvements in these areas in the coming months and years.

before there was a war and in the second which was during the war. The United States has spent nearly seven times a week on wars and conflict, but by 2005,
significant efforts had been made towards reducing this expenditure. The United States, however, has continued to spend on wars and conflict. Although the expenditure has
been reduced, it has not been altogether eliminated.

In looking at the problem, we must look at the equitable distribution of wealth. Wealth is not distributed equally in the world, and this is a major cause of conflict. In countries with high levels of wealth, people tend to support war effort, while in countries with low levels of wealth, people are more likely to support peace efforts. This is because people in wealthy countries are able to afford the cost of war, while people in poor countries are not.

Camels Barely Fall to Harvard, Yale

continued from page 12

Excitement was in the air as the two series began, and even some of those damned Yankee fans, who were yelling for the Camels and the Sox, I couldn't help but get emotionally involved in the baseball playoffs, even when I was doing my homework. The Camels flew out of the gates in the 5-1 series lead and needed to win just one out of three games, two of which would be played at home, with Pedro going in Game 6 and Wood going in Game 7. It seemed as though they were thoroughly convincing. However, they couldn't complete the sweep to send the Sox home to the American League. As for the Sox, they grew the World of Sport everythigng promised to be. The knuckballer drowned in the Sox. The Yankees were going to be a problem for the Camels. Because they have a lot of talent, and they have a good chance to win it for the first time since 1986, and win it for the Yankees as a competitive team. However, every reason for optimism in Boston, though, there's always the realization that it's still very early. They have to dig deep into those pockets of their hope. It's that despite the heroics of Trot Nixon, they have to dig deep into those pockets of their hope. SUBSCRIBE to THE COLLEGE VOICE!

The College Voice can help you stay informed. For only $40.00, you will receive twenty-five issues of the newspaper covering each week of the academic year. Campus news, sports, arts, entertainment, and opinion will arrive at your mailbox each week.

Imagine calling your son or daughter, and knowing more than he or she about the opening game against Colby. Picture the surprised look on your student's face when you quiz them about Convocation.

When you subscribe to The Voice, you will also be supporting an entirely student operated newspaper. The staff of The Voice works extremely hard to publish an independent weekly newspaper. If you do not specifically know a Voice staff member, your sons and daughters surely do.

We urge you to consider subscribing to The Voice. Not only will you be supporting a dedicated student organization, but you will grow intimately involved each week with the workings of the College community.

Have an opinion you'd like to express? The College Voice is always looking for new Op/Ed columnists. Call Ben Morse at x3441 for more information.

YES!

Please sign me up for a one-year subscription to The College Voice. I have enclosed a $40 check or money order for twenty-five issues of the newspaper.

**Women's Tennis dominates Fall Season**

By DIANE WALKER  

The Colmate College women's tennis team finished their extremely successful season on a high note last October. On the 12th, the Camels defeated Springfield College in their sixth straight win. Conn's regular season record for the fall was 7-5, giving 6-11 within the NESCAC. All of last fall's women's tennis records included only 3 victories, none within the NESCAC. This fall's incredible victories came over highly ranked opponents Trinity, Williams and Bates, and Conn's record on September 14, Conn finished their season undefeated, while clipping the opposition by a combined score of 4-11.

The Lady Camels were not, however, done with their ramping up at the end of the regular season. From October 16th to the 19th, they participated in the NEWIT (New England Women's Invitational Tournament), hosted by Amherst. The team smashed and volleyed to their way through the 25 team field to reach their top 10 finish (final exact results unavailable at time of printing).

Early indicators forecast Conn to play as strong as ever at the NEWIT, the Camels won a game against the University of Massachusetts and pulled out the ousting of Tulane's 7-0 points at the tournament. While speaking of the tournament Anastase Poo '07 noted, "We didn't always win, our goals this year were stated not last season's. This year our greatest goal was to make it to the nationals."

At the NEWIT, the Camels went on to make it to the nationals. The Camels were fired up and ready to go head-to-head with their opponents and fans alike. The Camels' accomplishments are due to the hard work of Conn College's tennis program. Not only did the team win against its tough opponents, but they did it in an astonishing 7-0 victory over Springfield.

Among a team of six singles and doubles matches, the Camels played well, but unfortunately could not hang with the more experienced players. (Conn College/Conn College)

**Women's Sports in Review**

**Women's Tennis:**
- **Men's Water Polo:**
  - Oct 18, v. Yale, 8-10
  - Oct 19, @ Harvard, 6-9

- Oct 11, v. Wesleyan & Trinity, 1-3 & 3-2
- Oct 15, v. FDU, Madison, 1:00 pm
- Oct 16, v. Cedar Crest College @ FDU

The leadership from both upperclassmen and coaching has been tremendous all year. Women's Men's coach Paul Haugarten figured to be a real asset, but his departure has been a real loss. The season has been marred by a lack of a strong start, however this will be the key to remaining competitive in the MAC. The Lady Camels are fully capable of making a run for it and their goal is to finish in fourth place, or maybe even second.
