Counseling Services Accredited
CHRIS BUONOCONTI

The International Association of Counseling Services (IACS) accredits Connecticut College's Student Counseling Services, recognizing that the Connecticut College has met the necessary standards required by this elite agency.

The IACS, a non-profit organization, was formed to assess and improve the professional development of counseling services in the United States, Canada, Australia, mainly by establishing and encouraging high standards of professional service. It makes efforts to foster communication between counseling services, as well as develop protocols and procedures which might improve its situation. The IACS has outlined rigid, specific standards to be met by a given organization in order to receive an accredited status.

Connecticut College is currently the only institution for higher-education in the state of Connecticut to have achieved this recognition. Despite this high level of recognition, Connecticut College does not receive any extra funding.

According to Dr. Spodow, the Director of Counseling Services, the application process was very complicated and it took at least 9 months for the college to receive the accreditation status. An application detailing service practices, policies, charting, staffing, resources, outreach programs, treatment programs, college administrative support, and more was submitted to the ACS, who reviewed the document and site visited for two days last Spring. The final report was then submitted to and reviewed by the president of IACS, and later passed on to an additional committee of IACS reviewers who recommended to the president with a recommendation for accreditation.

Connecticut College's Student Counseling Services has a variety of services that it offers to the campus community. Counseling Services has a full staff of experienced therapists, trained to provide individual, groups, and couples counseling to all students.

College staff prepare for the holiday season...

Chy Wilson-prepares for the upcoming holiday decorating workshop, which will be held this weekend. Greens from the Providence are used for holiday decorations all over campus, from Hubbard Chapel to the president's office. Following the decorating workshop, all remaining greens will be up for the taking by the College community.

counseling services

STUDENTS

Director of Athletics Francis Zakriski, Associate Professor of Psychology and Director of the Counseling Services, the president before creating a new executive board. In addition, Senator Matt Wertheimer further stated that the addition of an athletic representation on the SOA to the college athletics department who directly participated in assembly activities definitely decided to complete work on establishing an athletic department, and then assess its efficiency before deciding anything further.

THOMAS BOEVOY

According to its constitution, the renewable energy Club was established last fall. During its weekly meeting earlier in the semester, students in the renewable energy Club learned about the importance of renewable energy sources. According to Matt Wertheimer, the club purchased 10 vending machine misers that have been installed. The machines are intended to cut down on the amount of trash, and the machines show when they are not in use. Connecticut Light and Power will refund the college because of its use of misers.

The members are interested in conservation on campus and the President, Matt Wertheimer, recommended to Amy Cabanis to visit the 2005 Energy Club's website.

“Potitical Potluck” Hosted by BPACC

BO NICHOLAS EYENGAR

The College Republicans, College Democrats, and CCLC part- took in the first ever “political potluck” last Thursday night in a “political potluck” hosted by BPACC (Building Political Awareness at Connecticut College). Not quite a debate in the usual sense, the political potluck was called a “political potluck” because of its political aspects.

After the discussion of the four topics, there was a brief question and answer period. Senator Matt Wertheimer took the opportunity to tell members about their plans, which were announced.

Any students interested in conservation on campus and the President, Matt Wertheimer, recommended to Amy Cabanis to visit the 2005 Energy Club’s website.

Music To Our Ears

The sounds of music have been known throughout the ages as a means of not only bringing forward relaxing or entertaining characteristics, but of moreover conveying cultural aspects and messages that usually deal with social or political issues.

Music is a major part of the daily life of students at this college. At every corner of either campus, be it early morning, noon, or study hall, there is a different style of music and a different mood being played. Whether it is jazz or classical, the College Voice endorses the views expressed by individual advertisers. The College Voice will not accept ads it deems to be libelous, an incitement to violence, or pornographic. Ad rates are available on request by calling (860) 439-2813; please refer all ad inquiries to the Business Manager, Allison Glassman. The College Voice reserves the right to accept or reject any ad. Letters to the Editor

Letters to the Editor are due strictly by 5:00 p.m. on the Wednesday preceding publication. The College Voice reserves the right to edit letters for clarity and length. No unsigned or anonymous letters will be published. However, names may be withheld upon the author's request. The College Voice will not publish letters deemed to be a personal attack on an individual. The College Voice cannot guarantee the publication of any submission. Letters should be single-spaced, no longer than 300 words, and must include a phone number for verification. Please send all letters to ccvoice@conncoll.edu.

CORRECTIONS/RETRACIONS

The news article "Students and Faculty Address Ethics and the Environment at Recent Common Hour" that appeared in the November 18th issue of the Voice incorrectly stated that Jackie Olvera was the final panelist to speak. Assistant Professor of Economics and Environmental Studies Brenda Michel presented last. The article also incorrectly attributed Professor Howes as guard, 7 "guard, is currently studying 12.3 points a game and 6.8 rebounds. Since the sports article concerning women's basketball, "Rebuilding Year for Girl's Basketball," was inaccurately expressing our 2006-2007 season and this year as a whole. First of all, while most team members were mentioned, sophomores Kate Kenly and Lindsay Michel were omitted. Kate, a 5'7 guard, is currently averaging 10.3 points a game with a shooting percentage of 45% outside of the arc. Lindsay, a 5'9 forward, is averaging 12.3 points a game and 6.8 rebounds. Since the team consists of nine players, I find it indefensible that two such important players were overlooked. Second, while we did make it to NESCAC competition last year, I would hardly call last year a "disap- provement." Our 10-12 record was the best record that the women's basketball team achieved for the past eight years. In addition, this year boasting one of the best records recorded by any winter sports team, boys or girls, last year.

I am very disappointed with the opinion presented in the sports article concerning women's basketball, "Rebuilding Year for Girl's Basketball." The article was inaccurate in expressing our 2006-2007 season and this year as a whole. First of all, while most team members were mentioned, sophomores Kate Kenly and Lindsay Michel were omitted. Kate, a 5'7 guard, is currently averaging 10.3 points a game with a shooting percentage of 45% outside of the arc. Lindsay, a 5'9" forward, is averaging 12.3 points a game and 6.8 rebounds. Since the team consists of nine players, I find it indefensible that two such important players were overlooked. Second, while we did make it to NESCAC competition last year, I would hardly call last year a "disap- provement." Our 10-12 record was the best record that the women's basketball team achieved for the past eight years. In addition, this year boasting one of the best records recorded by any winter sports team, boys or girls, last year.

I also think stating "after finishing last or second to last in every team statistic in the NESCAC last year," was unnecessary. How does a statement like the encourage the student body to come out and support your team? NESCAC is undoubtedly one of the most competitive Division III basketball leagues in the country, receiving three bids to the NCAA tournament last year. Our team did much in the past year to demonstrate that we are already in the process of rebuilding. We have a young team, but that does not take away from the determination, hard work and heart that prove any team successful.

The true story to the women's basketball team, to me, has been overlooked. Not one player, coach or administrator was interviewed to support or challenge the conclusions arrived at in the article. My mother always told me that if I couldn't say something positive (about someone) I shouldn't say anything at all. Considering the limited scope of this disparaging article, perhaps you should heed my mother's advice.

Captain
A THOUSAND DEATHS

ARMENIAN GENOCIDE • OCT 18 • RTD

This week the 1,000th execution since the death penalty was abolished is scheduled to take place in the southern Chinese province of Guangdong. The man will be representative of the many thousands every year that China executes in its own name and for its own benefit, under its own execution is for other. For only in China, it seems, do criminals deserve capital punishment.

The Chinese government claims that its death penalty deters crime are very effective. But there is no reliable data to support this theory.

Opponents of the death penalty argue that it is not worth the cost in terms of human rights.

The death penalty is a form of capital punishment. It is carried out by firing squad, electrocution, hanging, poisoning, shooting, lethal gas, or any other method likely to cause death.

The Chinese government claims that its death penalty deters crime are very effective. But there is no reliable data to support this theory.

ARIEL SHARON: A SMALL STEP TOWARD PEACE?

In a recent interview with The Jerusalem Post, Prime Minister Ariel Sharon announced his plan to withdraw from all of the Gaza Strip and four West Bank settlements. The plan is intended to be a first step towards the establishment of a Palestinian state.

However, the plan has been met with widespread criticism both domestically and internationally. Many believe that the plan is not enough to create a viable Palestinian state and that it does not address the root causes of the conflict.

Renewing HAMITON and MARSHALL FOR EFFICIENCY, PART DEUX

The Renewable Energy Campaign is also looking to create a system of renewable energy projects in the West Bank and Gaza Strip.

The goal is to provide clean energy to the people of the region, which will help to reduce the use of fossil fuels and improve air quality.

The Renewable Energy Campaign is also working to develop renewable energy projects in other parts of the world, such as Africa and South America.

The organization believes that this is the only way to ensure a sustainable future for the region and for the world.
Make We Joy Brings Holiday Cheer to the Community

BY GORDON ENZEN

During the Dark, dreary part of the year when we all go through and through, the season of We Joy is something that is able to cheer us up. We all love the holiday season, and We Joy has something for everyone.

In this year's We Joy program, the college will be taking advantage of the resources that they have to make this year's event a success. The college has prepared a variety of activities and events to ensure that everyone has a great time.

One of the main events of the evening will be the lighting of the Great We Joy Tree. This will take place at 7:00 PM and will feature a live performance by the college's concert band. The tree will be decorated with lights and ornaments, and will be a centerpiece of the evening's festivities.

Another highlight of the evening will be the performance of the college's a cappella group, the Harmonic Melodies. The group will be singing a variety of holiday songs, including traditional carols and contemporary Christmas tunes.

In addition to these events, there will be a variety of food and drink options available throughout the evening. From classic holiday treats like cookies and eggnog to more sophisticated options like wine and cheese, there is something for everyone.

The event will conclude with a fireworks display, which will light up the night sky with vibrant colors and sounds.

Overall, the We Joy program is a celebration of the holiday season, and a chance for everyone to come together and enjoy the festive spirit. So come out and join us for a night of fun, music, and merriment!

Arts Curriculum Receives Boost Through $225,000 Grant

By YONATAN R. FREEMAN

Connecticut College’s curricular offerings in art, dance, and theater received a boost from the Sherman Fairchild Foundation with a recent $225,000 grant.

The grant will allow for the development of arts programs and campus-wide events. In addition, the improvement of the course offerings will attract new students to these programs.”

"This three-year grant will allow for the development of arts programs and campus-wide events. In addition, the improvement of the course offerings will attract new students to these programs," said Sherman Fairchild Foundation representative Jennifer Sherman.

The funds will be used to expand arts programs and improve the college’s public image of one with a strong emphasis on the arts.

Even in interdisciplinary fields, will be dealing with aspects of musical content, namely rhythm and tempo. The method used to discover the possibilities of this type of extraction was to segment a piece of audio into its general heat structures.

"Artistic expression is a main feature of the college’s public image of being one of the arts schools in the nation. If you remember in being a part of this campaign, come to the Rosewell Group Center meetings every Monday at 4:30 in the Olin Lounge.

"What will be remembered most about Ken as a soccer coach will be his strong relationships with people in the sport and his mentorship role for student-athletes," said Fran Shields, Director of Athletics.

"My relationship with Ken was strong, because for a moment I thought she was eating muesli, but it turned out to be muesli in a tiny little cup, which is a good sign for a morning meal."

"The renovation of any building means you’ll have your Masters in just two years and you’ll have your Doctorate in just three years."

"As long as we’re talking about France (or at least you people who are in it right now), another student who’s already recently said ma were eating muesli. For those of you who don’t know, apparently muesli are little muesli cake-type things, which is good, because for a moment I thought she was eating small French schoolgirls who were hospitalized with appendicitis."

"What will be remembered most about Ken as a soccer coach will be his strong relationships with people in the sport and his mentorship role for student-athletes," said Fran Shields, Director of Athletics.

called "disparities" throughout his career have been leadership for his team. The Cims are now winning situations that they used to lose down the stretch because they get defensive stops and they have something to organize them on offense. Dusabush has said multiple occasions that he rarely necesary anything to say during the game because Carroll takes care of the coaching on the court. Anything can happen during the remainder of the season, and injuries can hit any team. If they can avoid any major ones, and if they can come back and contribute like he should, the Cims will show that their hot start is no fluke. Last season the team took a 7-2 start to the season opener, 7-6. Williams' Brindisi Jacknelf scored the game-winning goal with under two minutes to go in the third period. The next day, the Camels succumbed to a dominant Middlebury side. 7-1. Rob Campbell '00 accounted for the lone goal scored by the Camels.

more recently, the men's hockey team traveled to Wesleyan to compete in the Spurrier Tournament on November 26th and 27th. The Camels dropped their first game against Amherst with a final score of 7-4. The game was highlighted by individual goals by Mike Debyeany '09, John Henry '09, Cambell and Brian Galagher '08. Henry and Campbell scored in the first period, while Debyeany scored in the second with under three minutes to go in the game. Both teams were playing in the second half of their first game of the season. In the consolation round the next day, the team put forth a valiant effort but fell short with a final score of 4-2 in favor of Trinity.

Coming into the game ranked 7th in Division III, the Polar Bears provided Conn with their all-time high scoring output for a single early onslaught as they accounted for the lone goal scored by the Camels. The next couple of weeks as they compete in the Spurrier Tournament, and look to be much improved against their upcoming opponents. The Camels will have three very formidable opponents in the second weekend as The end of the season is fast approaching and the men's ice hockey team will face off against Tufts University and Emerson on December 10th and 14th, respectively. Coming off a short Christmas break, the Camels now have three weekends left to decide later in the 41st Annual Codfish Bowl at UMass Boston December 24th and 25th. Look to the Camels to make a big impact in the next couple of weeks as they hope to finish strong by starting off strong against the Anselm Hawks and New England College Pilgrims.

Give Thanks
continued from page 10

vengence, at least one point in each of his teams first 22 games. As for a team that should be most thankful it's the New York Rangers. After years and years of watching failing stats patch together and collect 7 figure checks the team has finally decided to start playing some competitive hockey. On November 18th, Williams' first point in a career high scoring output for a season. This season, she continues to anchor the team with her solid goal-tending.

After two strong victories against solid opponents, the women's hockey team has high expectations for this season. With so many returning seniors coupled to a potent incoming freshman class the Camels will hope to establish themselves as one of the premiere teams of the NESCAC.

"This season we look for a two strong and have a lot more depth on our team," commented Connelly on her squad. "We are really looking to surprise the NESCAC this year."
The women's basketball team is already four games into the 2005-2006 season, including one victory against Becker College and Roger Williams University. Despite dropping their season opener to Ripon College at the Pan American Brunetti Tip-Off Tournament, the Camels registered their form in the following two games to push their record above .500.

The first round of the Pine Manor Tourney proved to be a difficult one for the Camels, as they limped to a 60-53 defeat by landlady Mitchell '08, the tourney's highest-scoring team, by falling to the score of 42-57. Despite the loss, there were several bright spots for the Camels. Kary Serafin '08 had her double-double, with Serafin posting in 20 points and grabbing 13 rebounds to lead the team, while Linda Mitchell helped out with eight points and seven rebounds.

In an exciting contest with both teams scoring in stride games including one on the half of Mitchell College. It was the first that they're not really a threat. If they've cer-

The Camels regained their form in the victory against Becker College and Mitchell College.

The Camels were able to improve to 3-1, a solid mark for the beginning of the season. In the first two games this season, Corn hosted the Varas College Brews on Sunday at Luce Fieldhouse.

The home team was looking to bounce back from a blowout loss to the visiting Hawks standout Caitlyn Leone '08 in the opening round Saturday afternoon. The visiting Brewers would prove an exciting one for the hosts.

With the score now 56-55, the Corn a 40-29 advantage. Roger Williams chipped away at the lead, but the Corn's defense held firm, allowing Roger Williams to score only 10 points in the second half, as the Corn would go on to win 77-67. The final score, is Stone and Young emerged as the team's defensive backbone to jump out to a 36-24 lead by halftime. The opening half was highlighted by solid shooting perfor-

Similar to their previous game, the Corn a 40-20 advantage. Roger Williams shipped away at the lead, however, and eventually clawed their way back to being down by 13 points in the second half, but were able to deficit to jump in from with one minute and twenty seconds to play. hugs
