C. C. To Participate In Model League Of Nations

To Represent Countries of Yugoslavia and Colombia

Mount Holyoke Host
Thirteen Students From C. C. To Attend

Connecticut College representing Yugoslavia and Colombia will this year take a central position at the Model League of Nations. It is at least the first time that the college has had an opportunity to participate so actively. We are sending thirteen delegates who leave on Friday for the conference. The designation is headed by Betty Gerhardt, '30, this year's participants are actively at work this week before the delegates are finally chosen on whom will represent the college.

The list of questions scheduled for discussion at the Model League which is to meet at Mount Holyoke on March 8 and 9, reveals material of unusual importance to present world affairs. The topics which are being debated are:
The current conflict of opinions regarding war and peace are apt to leave the average individual in a quandary as to what attitude is preferable. We go to the movies where almost every news reel is an advocate of large defensive programs. The New Republic points out in a recent issue, the political attitude and like learning in the picture. The Air Force Hearst is at the back of most of the movie propaganda, but nevertheless he represents, to a large extent, the monsieur's point of view. On the other hand, impolite polemics of college students are brought to our attention, not only to leave us at a loss as to how to remedy this. By merely taking a greater interest in current affairs, seeing the fallacies in war programs, and by influencing our friends to think as we do, we are building up what will eventually be the only point of view. We are continually told that soon our generation must take over the helm of political affairs, but it has become one of those trite statements to which little attention is paid. Just pass a moment and let the freshmen have a glorious time.

The freshmen suggest a vote of thanks to Dr. Leb for the use of his duck at the basketball game. He makes a mighty fine masac, according to the freshmen.

Our sophisticated "young things"...

Music—

NEW SCHEDULE

Jacey Kelling’s voice could be heard on the basketball courts last Tuesday night, cheering the Freshman victory. And why not? She’s official cheerleader and a good one, too.

Further investigations about the "civilian" Lacey House took her way to the Dartmouth Carnival. If you look closely in a certain corner of the library, you’ll discover this freshman has a glorious time.

The freshmen suggest a vote of thanks to Dr. Leb for the use of his duck at the basketball game. He makes a mighty fine masac, according to the freshmen.

The argument has been brought up that one well-chosen program, sponsored a talk by Mrs. James W. Jones, an American Harvey House. Miss Jones gave those Spanish poets and those interested in the province. Her talk was a travesty of the art of achievement, and presented a clear idea of what those who have written plays, and those who have written our understanding of the good music.

If music is to be given the enjoyment they have a right to expect from it, then it is a matter to which consideration should be given. It is true that we should have one or two great artists who does this. But merely the performer himself who does this. But it seems to me that one well-chosen program, which not many of the concerts that we have heard this year, should be given.

I think that one well-chosen program, with whom we admire or the good music—

If music was the only performer himself who does this. But it seems to me that one well-chosen program, which not many of the concerts that we have heard this year, should be given.

I think that one well-chosen program, with whom we admire or the good music—

If music was the only performer himself who does this. But it seems to me that one well-chosen program, which not many of the concerts that we have heard this year, should be given.

than the attempt of the different ... which would, in turn, effect a ... to Paraguay. The resolution adopt-
... as the aggressor ... so well developed by France, and managed currency, with which the United States and Great Britain have been experimenting.

The I. L. O. will be discussing a topic which is of interest to the United States in particular, in view of her having recently joined this organization. The subject of the forty hour week is of special inter-

in view of the present debate in this country over hours of labor.

The papers and periodicals are carrying daily reports pertaining to each of these questions, and the Model League does well to concen-

trate its attention on problems of such timely interest and importance.

With such a programme of challeng-

ing material, we are anticipating some contributions of real merit to be made to all of these international problems.

WHAT'S YOUR DEGREE?

To what degree are you correlating your studies to the reading of a good newspaper that is fitted to the needs of college students?

A good newspaper broadens your education; it places before you, everyday, accurate reports of what is happening in the world.

The Sun is such a paper. It has long been the favorite New York evening newspaper of college undergraduates and college graduates. It is noted for its interesting style and for its accuracy and completeness. It meets the requirements of the intelligent group which you represent.

Because it is an evening paper, The Sun brings you today's news, not tomorrow, but today, while it is still fresh and important. Enjoy it at your leisure after classes; use it for your next day's studies.

The Sun

The Newspaper of Distinction in its Readers, its News and its Advertising.

DARTMOUTH WINTER CARNIVAL REPORTED
(Continued from Page 1—Col. 4)
It might well have been "Home Port" because "everybody" was there.
Saturday morning, when some of us were catching a few winks, there were hockey games and ski races.
The Intercollegiate Ski Jumping Tournament held at three o'clock brought out Carnival guests en masse.
Saturday night we found ourselves back at the Fraternity Houses dancing.
There were a million and one things to do. Given two weeks we might have covered them all, tobingeil, skating, to say nothing of Gilbert and Sullivan's "Pirates of Penzance" which was given by the Dartmouth Players.
The snow sculpturing was very lovely. Almost everything imaginable was represented—a sphinx, the north wind, several nude ladies who looked very cold, and one huge King Kong, so tall we couldn't figure out how it was built. The graceful figure of a girl on skates, won first prize.
So it was really a great success, this Dartmouth week-end. Let's have more funny customs, if that's what you call them, and as for the northern accent (we call it a line), the southern drawl doesn't have a chance from now on.

TWO SPEAKERS DISCUSS WOMEN IN POLITICS
(Continued from Page 1, Col. 2)
machine dictates, otherwise he is liable not to run again for office. As it is, about 90% of the people in our nation do not vote in the primaries, and as a consequence the machine is able time and again to carry the vote.
So far the number of women who have successfully entered politics is very small. If any woman wants to ever work her way into a desirable position, she will have to first establish her reputation in another field, as Miss Frances Perkins did in the field of social work. Miss Matthews emphasized the fact that women have not as yet shown sufficient interest or initiative to justify the tremendous fight that was waged to secure for them the privilege of voting.

Mrs. Morrison has taken an active part in the suffrage movement, having served as first Vice President of the National League of Women Voters, President of the Illinois League of Women Voters, and Secretary of the National Women Suffrage Association. At present she is a member of the Institute of Pacific Relations, Tokyo.

Knox and Monmouth college football teams met on the gridiron for the fiftieth time Thanksgiving Day.

Just what is meant by cross-blending tobaccos... and how does it make a cigarette milder and taste better...

Well, in blending you take two or more tobaccos and mix them together—a rather simple process. But cross-blending goes a step further...
