While many colleges and universities frame their spring quarters around the success of fundraising events, the focus is on the role of intramural teams in fostering a sense of community and promoting healthy competition. Connecticut College, located in New London, CT, is no exception to this trend. The college's intramural program, which includes a wide range of sports such as basketball, soccer, and volleyball, provides a platform for students to engage in friendly competition and build social connections. For instance, the women's basketball team recently won a tournament, demonstrating their skills and team spirit. This success is a testament to the dedication and teamwork of the players, who work together to achieve their goals. Connecticut College's commitment to intramural sports underscores its emphasis on fostering a strong sense of community among its students. This community is built not only through academic pursuits but also through extracurricular activities, such as sports, that bring people together in shared interests and experiences. Connecticut College's dedication to the intramural program aligns with its broader mission of educating students to be engaged citizens and leaders in their communities. By providing opportunities for students to participate in such activities, the college helps them develop important life skills, such as teamwork, communication, and resilience, which are essential for success in both personal and professional endeavors.
Peer Educators’ Efforts Underappreciated

The issue of alcohol consumption among students has long been a concern for many colleges and universities, and Conn is no stranger to this discussion. When the Student Governing Council (SGC) first proposed it as a topic appropriate to host a Common Hour regarding alcohol problems on this campus, clarity on the issue is still at the forefront of Conn’s social environment.

Of course, one can point to the inevitability of the problem. It would be simply naive to think that a measure is out there that could completely stop underage drinking. College administrators and student leaders should instead focus on controlling the manifestations of underage alcohol consumption in an attempt to stem the tide of drinking. Indeed, the College has taken commendable steps towards this end.

However, instead of attempting to completely stop underage drinking, College administrators and student leaders should instead focus on controlling the manifestations of underage alcohol consumption in an attempt to stem the tide of drinking. Indeed, the College has taken commendable steps towards this end.

The Student Activities Council (SAC) hosts weekly parties with alcohol to socialize students to be present representatives of the College community and to help create a healthy, safe environment. Unfortunately students in this leadership position are not aware of this practice, making their efforts less efficient than they could be otherwise. Perhaps making their roles more known and better appreciated on campus, the Housing Office, would better utilize these students and thus create another means for encouraging safer drinking habits.

In general, any means that acknowledges underage drinking will occur while attempting to address the level of consumption will continue to be present. By accepting a reality of college life while attempting to address binge drinking, the College can maintain focus on addressing the most dangerous part of underage alcohol consumption and create a safer social environment for all.

Letters to the Editor

Letters to the Editor are due strictly by 5:00 p.m. on the Wednesday preceding publication. The College Voice reserves the right to edit letters for clarity and length. No unsigned or anonymous Letters will be published. However, names may be withheld upon the author’s request. The College Voice will not publish letters deemed to be a personal attack on an individual. The College Voice cannot guarantee the publication of any submission. Letters should be single-spaced, no longer than 300 words, and must include a phone number for verification. Please send all Letters to the Editor by e-mail to: ecvoice@conncoll.edu.

Upcoming Forecast

Saturday, Feb 25: High 35°/Low 19°, partly cloudy
Sunday, Feb 26: 23/12°, few snow showers/wind
Monday, Feb 27: 28/13°, few snow showers/wind
Tuesday, Feb 28: 30/18°, partly cloudy/wind
Wednesday, March 1: 33/23°, partly cloudy
Thursday, March 2: 38/26°, few snow showers
Friday, March 3: 36/20°, mostly sunny

THE OVERLAPPING INTERESTS OF THE UNITED STATES AND ISRAEL

The United States and Israel share a number of overlapping interests, primarily economic and strategic. Both countries rely heavily on military aid from the United States, and their economies benefit from trade and investment. Additionally, the shared culture and language create a natural affinity between the two nations.

ECONOMIC BENEFITS

The economic benefits of the relationship are significant for both countries. American investment in Israel has created jobs and economic growth in the country. Israel, in turn, is a major市场 for American high-tech firms, providing a boost to the American economy.

STRATEGIC ALLIANCES

The strategic alliance between the United States and Israel is crucial for maintaining regional stability. The two nations share a common敌人, particularly Iran, and work together to ensure the security of both countries. This alliance is also important in the context of the Middle East peace process, as the United States and Israel have different priorities and interests.

CHALLENGES AND CONCERNS

Despite the positive aspects of the relationship, there are also challenges and concerns. One of the main issues is the Israeli-Palestinian conflict, which has strained the relationship between the two nations. Additionally, there are concerns about Israeli settlement expansion and the treatment of Palestinian refugees, which have led to tensions and disputes.

CONCLUSION

The relationship between the United States and Israel is complex and multifaceted, with both benefits and challenges. It is important for both nations to continue to work together to address these challenges and maintain the vital interests of both countries.

This week, the Office of Residential Life and Housing announced the names of the 22 Housefellows for the 2006-2007 academic year. The selection process was rigorous for applicants and staff alike. Applicants were asked to write a number of essays, have an individual interview, and a group interview before ORLH staff was ready to make their decisions.

Kathleen Cleaver Dispels Myths About Rosa Parks, Civil Rights Movement

Kathleen Cleaver dispels myths about Rosa Parks.

In High School, there's always that buddy who everyone agrees has the trendiest car and is forced into those unofficial chauffeur duties so his friends don't have to be seen in their own crappy cars. For me, this was my buddy Chris. He drove a '93 Toyota 4Runner. The first time we drove in, it was into the desert. We took this really long detour on the way because we had taken it without asking. When we got back, Chris was talking about the road, and the 4Runner was my primary method of transportation to school, movies, parties, home, and everywhere in between. It was a completely mobile vehicle, and I knew it, but Chris was best at the car, and we drove it hard and often. Thinking about that car makes me feel nervously old next to pretty girls in the car wash, or keeping the car running while one of us is with a feet. We made a run for some cheap beer. Chris left it clean as a whistle, he was infinitely proud of his car, but he was still a good enough friend not to get into trouble with him after a party. Tearing down 91, 9G Sunday morning, I woke up from a dream where I was sitting on the door sill and the car was back in the rear seat, and touched too much beer and too little food to know what I was doing. But then, I was always a little bit of a dreamer. The 4Runner was Chris' primary source of entertainment. He spent his weekends driving it through mud and sand, and taking the back seat for hours. The 300 miles a week was the norm. He drove it everywhere, and it loved it. I used to ask him what he was doing when he wasn't driving, and he would always tell me he was trying to get into shape to start the car up again. He said the engine was in great shape, and it had the power to carry us up the mountain, and back down again, every weekend. That being said, it's time to grow up and move on. The 4Runner has been traded in for a Toyota, so it'll run until doomsday. That's probably the only time I'll ever say goodbye to a car. The 4Runner was definitely a life-changer for me, and I will always miss it. But, I'm ready to move on, and make new memories. The Tacoma is my new baby, and I'm excited to see what the future holds.

Camel Runners Finish Successful DIII Championship

By Peter Stirling

The Connecticut College men's and women's track teams have had a productive winter season so far. Both teams competed in the Division III Championship, with MIT hosting the men's event, and Tufts hosting the women's. The teams qualified runners qualifying for the Trinity Last Chance Invitational, held at Yale University. The race will be held Friday, March 1. Both teams' performance qualified for the All-New England Championship, held on February 24-25 at Bowdoin College. The event itself, a distance medley relay, recording a time of 12:15.71.

On the men's side at MIT, several races took home top ten finishes. Qualifying for the 4x800 meter relay were Gabriel Liberti '09 and Tug Brodie '09, with a time of 8:20.75. The other event was the 800 meter, with a time of 1:44.56. Both teams finished with a time of 1:44.56, good enough for seventh place. A new school record was set by the 4x800 meter relay.

Earning NesNCC Berth

By Steve Strauss

Paying ice hockey in the tricky NCAC can be quite the double-edged sword. It seems that the nationally ranked opponents are not only what you get into many of the conference's games, but that you also get into the conference's competition as well. The Camels had no problems qualifying for the playoffs, as the team's season ended with a victory against Tufts.

Point number 1: "Try not to be too critical when someone attempts to talk the day of the tournament. The most important thing is to get into the competition. If you don't play well, you will not play well."

Point number 2: "Try not to be too critical when someone else talks to you. Try to stay calm and focus on the game at hand."

Point number 3: "Try not to be too critical when someone else talks to you. Try to stay calm and focus on the game at hand."

Point number 4: "Try not to be too critical when someone else talks to you. Try to stay calm and focus on the game at hand."

Point number 5: "Try not to be too critical when someone else talks to you. Try to stay calm and focus on the game at hand."

Point number 6: "Try not to be too critical when someone else talks to you. Try to stay calm and focus on the game at hand."

CAMELSPORTS
Swimmers Place 5th at NESCACs

By BRAD WOLFS

When I reflect on my time at Connecticut College, I have to think of aspects that have performed extraordinarily well year in and year out. One team comes to mind, however: Women's Swimming and Diving. Led by Coach who brings out the best in his teams and drives them to accomplish all that they are capable of doing, and more, the team excelled this year and once again achieved exceptional seasons. Although their record might not seem as impressive as it did past year, focusing on year for most analysis, the women have been swimming against top-notch opposition and therefore have not won as many meets as in the past. Their individual performances and the general team performance as a swimmer, however, has greatly improved.

The women displayed great heart and really came together in team effort. We raced very well and also increased our consistency and gating performances, said a very proud Coach Benvenuti.

This year NESCAC Championships were hosted in Brunswick, Maine by Bowdoin College. The Camels did outstanding job in well matching their highest ever placing at the Championships. Conn finished the meet with 808 points which placed them in 5th place overall, rounded out the top four finishers. ahead of Colby College, who was outpaced to be the finish. Three Camels earned All-NESCAC honors with a time of 187.2.

Middlebury, Amherst and Tufts rounded out the top four finishers. The bonus came in at the number seven position followed by Hamilton, Williams and Trinity making up the top eight.
