Choir To Present Concert With Harvard Glee Club

Her Honor, Joan Brower, Tops Three Years of Public Life by Betty Reifeld

Our new chief justice being in line for an interview, your reporter went straight to the courthouse to interview her, and it very rapidly turned out that the very popular "Grow" was out on a date. So the forthcoming information comes to you from the distinguished ladies, Mary King and Mary Van Nostland.

A proud alumnus of Tennis Bowl, Joan Brower ’46, and her husband, were married in the spring, basing the award of the $15 prize on the merit of books added only during the current year.

Next Amalgam Meeting To Be Held March 19

There will be an amalgamation meeting on Tuesday, March 19, at 7:00 in the auditorium.

Plants and Health To Be Dr. Avery’s Topic on March 15

Dr. George A. Avery will speak at Bill hill, on Friday, March 15, at 7:30 p.m. His topic, Plants and Health, will cover the botanical aspect of medicinal advances during this time of the year, stress the fact that though few benefits have come from science for the immediate use of mankind in World War II, medicine has taken tremendous strides in new curatives from which man has profited. Some of these include such penicillins will be of fifty-odd antibiotics expected to come from Harvard. We will arrange one time during the afternoon to rehearse and will eat dinner in the houses on campus before the concert.

Libraries Will Be Theme of Meeting

Further plans for improving the house libraries and a suggestion for the postponement of the end of the house library competition will be discussed by the students at the meeting in the library staff room at 5:15 on March 16. It is felt that the judging of the Libraries in the Spring competition is the most important aspect of house competitions.

An Editorial

We believe that incompetence lies not only in our failure to break down the barriers opposite aims and views that currently exist in this country, but also in making it apparent we are not of a mind that the United States is unequivocally right in its demands of others. Rather, we chose to think of it as an honest appraisal of which situation takes into account the sovereignty foreign policy and making actions of this country since the day of the Air Force of Confederation, a record of assassination, dogmatism, "turning the other cheek," and the archetypal. There were also scattered strokes of genius, but, on the whole, our arts are not among them.

The United States, enough, neither are Russia's. They have been right, and they have been wrong. Such can be the case again. Attack the problems from that angle. Find opportunities to compromise without too much concern over our principles. We must admit that the Russians have an argument which, in part, is quite valid. By attempting to influence the type of government established in adjacent countries, are they doing any more than we have for many years in South America? Can we, in fairness, expect their troops to be removed from Iran any faster than we have removed ours from Korea? Of what are we thinking when we do not agree with their quest for an exit to the sea—the people in those foreign lands on whom we have imposed our will. Remember how we would feel if Russia had the atomic bomb, and we were kept in the dark. (Note: This is not to be construed as a belief that we should share the atomic bomb secret.)

Face the issues squarely. All that is Russian is not evil. Tell them what we expect of them and then abide by it in our own dealings. Point out to them what we will not condone, and be firm. With a honest statement of what we intend to do, insisting that it coincides with our expectations of their behavior.

(Ed. note: This is a guest editorial, with the name of the author withheld by request.)

Dear Editor,

The editorial in last week's News brought to the fore a question that has been in the back of many of our minds. The problem of mixed houses will be coming up more seriously than ever with drawing for rooms coming up. The outgoing senior class needn't worry. It's not our problem, or was the trip to Missouri a

Sincerely,

'S46

by Sue Hancock

Harry Truman holds the position of honor in the United States, but the honor these days is dubious. Whether he is the tragic victim of a political incident or the man who rose to the glittering top by a series of lucky breaks is a debatable question. A glance at the record of the Middle East would probably show a country that looks with regret at his too short a time in power. Too long a hunting of a tired guy for the day the spotlight will blaze upon another.

Mr. Truman's limitations and weaknesses are common knowledge today. They accentuated by the weaknesses of his predecessors and the inherent rationality that philosophy, economics, and diplomacy in the Middle East, particularly Iran and Turkey, where the focal point of economic and political rights for both England and Russia.

By Sue Hancock

Pakistan will be furthered through the decision of the United States and the United States' decision to aid Russia in this matter. Mr. Truman is an atom bomb, and the results are as disillusioning as those awaited by world leaders. The troops are being hunted. (See the wreckage job done on the Fatman bomb by the coalition of Republicans and Democrats.) Japan is still hanging on to his nominees. Dr. Avery, Plants and Health.

Rita Large '48: The standing of a nation is wonderful and we can see a few more of them. If the United States were to take the position that we would have known them, they would have known us. As alphonse, the quest kept us together again. By junior year we partook of the mixed houses system. We didn't mind it. We had our own groups. The freshmen said they didn't like it either. They learned the college routine quicker with us. But they declared angrily that they didn't mind the girls in their own class.

The groups are naturally within class limits. Groups are formed for freshman year. With the entire freshman class together, they know each other better and grouping is more successful. From the upperclass standpoint, it makes little difference. Mixer, an exercise that is not necessary, but the freshmen should be together so they can know their class. They're going to have to live with them for four years.
Honors Chapel To Be Consecrated March 18

Honors chapel will be held Monday, March 18, in Palm auditorium during the usual chapel hour of 8:30 a.m. Dr. Samuel Smith, New York, the architect, will be announced by President Brinton.

Integration Urged
By Dr. F. Frasier
In March 11

Patterning of Integration in the Field of Race Relations was the subject of the address of Dr. Irwin Franklin's lectures which was presented to students of government which was attended by Dr. Franklin. Brinton's lecture by by the subject, he introduced his topic by stating that the problem could be avoided by "a cultural integration of the races, without biological integration."

History of Radical Problem
Dr. Franklin then proceeded to give a short history of the radical problem in the recent past, the second part of the argument being the industrialists began to rise over the old plantation status. During this period, he said, there was a movement called the "inert group," which he said was possible today, which was the most significant which was that of the intellectuals who were interested in the future of the industrialists. He concluded his lecture by stating that the most important thing to do would be to find a way to prevent the growth of this type of radicalism.

Suggested Reading
For those interested in the subject, he suggested reading "American Socialism" by J. G. A. Pocock, and "The Origins of the English Radical Tradition" by C. P. Snow.

Sitting Performance by Don Cossack Chorus Ends Season
by Rita Hurb

The 1945-46 Connecticut college concert series ended Wednesday, March 13, with a program by the Don Cossack chorus, Serge Jaroff, director, which followed one of the same mixture, the group performed excellently and entertainingly, the concert proved to be one of the best of the season; for the Don Cossack chorus, the performances were excellent. Their choruses were clear, their choruses were well prepared, and general informality and informality and informality which is sometimes lacking in concerts given in certain organizations.

In fact, this concert met all the standards so well that we shall find this to be the best concert of the season. The orchestra was well rehearsed, and we find no flaws in the program itself. The pianist was well rehearsed, and we find no flaws in the program itself. The pianist was well rehearsed, and we find no flaws in the program itself.

Concert Songs
The concert songs, Who Knows and Parting, were well received by the audience. They were well sung, the words the listener could understand, the words the listener could understand, the words the listener could understand. The Russian army songs, close to the Russian folk songs, were presented with exuberance and enthusiasm. Of these, the most familiar, the well-known "Margaridll," was given an encore. The music was well sung, and the audience was very well satisfied.

The Russian army songs, close to the Russian folk songs, were presented with exuberance and enthusiasm. Of these, the most familiar, the well-known "Margaridll," was given an encore. The music was well sung, and the audience was very well satisfied.

Adding to the general informality of the evening was the inclusion in the program of Russian dance, which was especially popular with the audience. The agility and precision of the dancers in executing the Russian patterns was especially popular with the audience. The agility and precision of the dancers in executing the Russian patterns was especially popular with the audience. New, Revolutionary Journalism Trend
Traced by Jensen

Oli\n Jensen, correspondent for Life magazine in New York, talked to the Freshmen of the library on Sunday at 3 o'clock in Palmer library on Sunday at 3 o'clock in Palmer library on Sunday at 3 o'clock in Palmer library on Sunday at 3 o'clock in Palmer library. He talked to them about the industrialists began to rise over the old plantation status. During this period, he said, there was a movement called the "inert group," which he said was possible today, which was the most significant which was that of the intellectuals who were interested in the future of the industrialists. He concluded his lecture by stating that the most important thing to do would be to find a way to prevent the growth of this type of radicalism.

The next story took place on a train to sit next to sweet, blue-eyed little old ladies, and you almost knew that she was perhaps fortunate. Our heroine was one of the others. She was the one who had an affair with a man, she hauled out all the plaited decorations—sit, invite her, she went on and on. And then, in the back of the station, she was getting my cost on, he told me the strangest stories, because his skin was peculiarly white—and she thought, perhaps, that he was Italian—and she was so charm- ing. She went on and on, and I was getting my cost on, he told me the strangest stories, because his skin was peculiarly white—and she thought, perhaps, that he was Italian—and she was so charm- ing. She went on and on, and I was getting my cost on, he told me the strangest stories, because his skin was peculiarly white—and she thought, perhaps, that he was Italian—and she was so charm- ing. Gymnastics
by Sally Whiteside

Gymnastics has been playing its usual ugly tricks on us. A few days ago it was getting spring fever, driving off my tennis racket, and practising my exclusive golf with the view to save the season of birds, bees, and flowers. This was well on its way, when all of a sudden, snow flurries in the air. I screamed, and tore my hair, and beat my poor head against the wall, for the snow kept falling, and a couple of the tacks even dared to come up in my window and laugh at me.

"Keep your chin up," I said to myself as I turned and faced the music, "maybe they won't cover the ground entirely, and tomorrow it will be so nice and warm that we will be able to play outside and throw the snow off the tennis court." Hey! Get Made to Order—don't you think marbles would be a wonderful sport to add to the spring curriculum?

Interclass Competition

The latest results in the interclass competition seem to hail the class of '46, as they are tied for first place in both the badminton and volleyball tournaments. Our most horrid opponents are making it very difficult for the seniors in badminton, but the juniors took them on last night in a volleyball game which was to decide who was to gain that crown for 1946. If your curiosity can't wait until next week for the results, see Ann Carlise '47, manager of the sport, and she will reveal the winter to you.

Basketball

A week ago tonight the freshmen made their sister class bow to them in a fast moving basketball game. Led by yours truly and the leaders of our basketball team, the sophomores managed to pluck up a score of 33 points against the senior class, which was captained by Edward H. Robinson also making it tough for the freshmen. The guards (who never seem to get any of the credit) did a marvelous job on both ends of the court.

Swimming

Last Monday all the fryers for the spring season began with place and Elizabeth Bogert '47, Grace Severson '47, Grace Grady '49, and Mary Luff '47 were chosen to represent Connecticut at Vassar this Saturday. Jessie MacFadyen '46 and Janet Evans '48 will be their alternates. Congratulations one and all, and when you see them, say hello.

On your mark, get set, go! If you really mean to "act fast" you'll be flying out of the water. I'm taking it for granted that you don't swim like a barrel. In spite of the No Smoking regulation in the arboretum, fires are sometimes started by small boys and domestic faux pas have not been completely eliminated, so please be considerate of others and don't start a fire. The list of names suggested by a prominent New London business man. The list is too long to enumerate, but townspeople too. Small boys have a mania for starting fires with no malicious intent, but they often get their hands burned, and sometimes have been known to get the putting out the flames into the list of names of prominent New London business men. Several fires have been stopped by townsmen.

The object is not to put out the fire, but to prevent the small ones from getting too big. Small boys are too young to understand the seriousness of the fires.

Don't do it. It is too easy to stop a fire before it becomes too big. Small boys are too young to understand the seriousness of the fires.

We will give you a list of names of prominent New London business men. The list is too long to enumerate, but townspeople too. Don't do it. It is too easy to stop a fire before it becomes too big. Small boys are too young to understand the seriousness of the fires.

Spring Fires Worst

"The spring is the season of the year that is worst for fires," according to the firemen. There are lots more people in the area, and they are more sensitive to the problem.

Will Save Property

It is sad to think that many large buildings and houses are put in danger by the firemen. In spite of all protection in the arbor- Lobelia.

The group will have one meeting where they will learn fire fighting techniques and be given a movie on fire fighting. A system for fire alarm will be set up in the dormitories. The committee will collect money for the alarm, and the students will be asked to pay for the alarm.

Examination for Prizes

Examinations for Prizes in Biblical Literature

Set For Middle of May

Examinations for the prizes in Biblical Literature will be held about May 13, 1946. Exact dates will be announced later. The examination will be found on page 130 of the College catalogue.

Press Board Keeps
World Informed of
Activities at C C

by Iris Herbist

Many students often wonder how the Press Board, besides all the faculty, knows about the college. The aim of this publicity bureau, like that of all publicity bureaus, is to make its product known and liked. Thus, by getting the college acquainted with the extensive functions at Connecticut college, Press Board is creating a favorable impression of both the school and the students. This in turn helps to increase the popularity of the college.

Student Correspondents

Mrs. Floyd, the manager of Press Board, handles all the faculty news. Because she is so busy keeping track of the various professors, she has students keep track of undergraduate activities. These special students, who are called correspondents and are organized to cover lectures, plays, meetings, elections. The reports are then sent to newspapers in areas which are interested in having local students’ activities written up. Our correspondents, who are best judgements of their journalistic efforts, write on such topics as New Haven, Newark, Hartford, and the AP.

Excellent Training

This organization is invaluable in preparing for newspaper work. This training that the reporter receives is excellent, for it teaches them the facts important from the unimportant, as well as to realize what the best news angles are.

Press Board membership is open, consisting of about ten or twelve girls, and try-out comes twice a year, in the fall and spring.

Press Board meets once a week, usually on Wednesday, and at these meetings the reporter, who has written and decides who has done the most outstanding work during the year, awards these cards. The winners are then asked to speak to this group as well as to others who are interested in a newspaper career.

The increasing importance of a summer job for a college student makes it essential for the student to become acquainted with the personnel bureau, which specializes in arranging opportunities for an all-over observation of student organizations and assists a student in determining her interests and abilities. For science majors, lab assistantships are also available. A few opportunities are also available in art, advertising, library science, sociology, and psychology. Three roundtable discussions on the subject are now being held by the personnel bureau with students and are being attended by a large audience of various students. News and the personnel bureau give students a chance to acquaint students with the glamour and mystery of the field of Fanning also publicize the bureau.

In the President’s Annual Report, Dr. McKee of the chemistry department at Connecticut college has summer working. They are interested in the scope of work needed to be done, their new familiarity with equipment and techniques, by the responsibility given them, and by the qualifications of the courses to their future needs. 

Therefore, the personnel bureau gives students a chance to acquaint students with the glamour and mystery of the field. News and the personnel bureau give students a chance to acquaint students with the glamour and mystery of the field.

Frasier

(Franged from Page Three)

Frasier said, advocated industrial education to this end, but this turned out to be much more than a ritual since the institution for negro education did not have the possibility for placement, the personnel bureau gives students a chance to acquaint students with glamour, the personnel bureau gives students a chance to acquaint students with the glamour and mystery of the field.

The examination will include an illumination into the next year, the personnel bureau to acquaint students with the different courses to their future needs.

Dr. Frasier cited the first world war as the end of this system. At the conclusion, he explained, all educated people had gone to colored doctors, although sometimes these same doctors were not allowed to practice in hospitals. Sometimes these same doctors are not allowed to practice in hospitals.

He concluded by saying that a new era was dawning where negroes would be allowed to practice in hospitals.

The examination will include an illumination into the next year, the personnel bureau to acquaint students with the different courses to their future needs.

Dr. Frasier defined the alternative plan, he continued, was meaning merely equal opportunity but not a ritual since the bi-racial system.

In many cases, the bi-racial system has come impractical for both negroes and whites. The bi-racial system has come impractical for both negroes and whites.

Mascot Presented, Committee Revealed at Junior Banquet

by Babs Grund

The Junior Banquet last Saturday night marked the official end of the annual Mascot Hunt—the sophisticated detective who catches their unsuspecting classmate and meets their qualifying glasses and dream analysis books, and the juniors returning reporting as "honorably missing" to their rightful positions of "just plain juniors." Before the sophomores arrived at Knowles Hall last Thursday, the寻找ing of the replica of the gift. The rep-
Parliamentary Procedure

I

There comes the call to order.

II

There comes the reading of the minutes.

a. Corrections or additions to the minutes as read are then made.

b. If there are no objections to the alteration of the minutes, the secretary will make the necessary change.

c. If there are no additions or corrections in the first-place, or no other objections as mentioned above, the minutes stand approved as read.

III

There comes the reading of the agenda or order of business.

IV

There comes any unfinished business; that is, any business taken up or considered in a previous meeting but upon which no definite action was taken.

a. Any such final action may have been postponed because of a motion to the effect: "In order that this assembly may proceed to the more urgent matter of... I move we postpone consideration of the present motion until our next meeting."

b. In any case, the unfinished business is taken up at this point unless it is further delayed by adjournment or postponement or the like.

V

There comes the new business. IN ORDER TO FACILITATE THIS REGULAR FLOW OF BUSINESS, IT IS WISE TO MAKE USE OF THE BASIC PARLIAMENTARY DEVICE, THE MOTION. THE MOTION IS A BRIEF BUT CLEAR STATEMENT OF A PROPOSED ACTION TO BE TAKEN BY THE GROUP, AND IT IS THE VEHICLE BY WHICH ALL BUSINESS IS INTRODUCED TO THE GROUP.

a. To introduce a motion.

1. A person secures recognition from the chair.
2. The member rises and addresses the presiding officer.
3. The member then says in taking one side of the issue at hand, "I move that...

b. To second a motion.

1. Some other member of the group must indicate his support of the motion.
2. At least two members must be interested in a certain proposal before it is allowed to occupy the attention of the whole group.
3. The member seconding a motion need not be recognized by the chair or identified by the chair.
4. If no second is made to the motion the chairman may ask: "Is there a second to the motion?"

Hearing none, he may say, "The motion is lost for want of a second."

Hearing one, he will say, "The motion is seconded."

Hearing none, he may say, "The motion is lost for want of a second."

In that case the meeting is again open for another original motion.

To discuss a motion:

1. When a motion has been made and seconded, the chairman states the motion and opens it for discussion.
2. Once the motion has thus been formally stated by the chair, and provided it is a debatable motion, it is open for debate (which is limited only by such time limits as the group may have adopted).
3. This motion on the floor, it must be voted on before any other motion other than the following comes to the floor.

(a) Motion to lay on the table:

1. Motion to lay on the table: to terminate discussion of a motion or amendment.
2. Motion to lay on the table: to terminate discussion of a main motion by bringing the object to an immediate vote.
3. Motion to lay on the table: upon the motion now before the house.
4. Motion to limit debate: to restrict the time available for debate in order to expedite business. It usually has the effect of limiting debate only upon the pending motion or amendment. It may, however, be adopted to apply to a whole meeting recreation regardless of what questions may arise.

(When the time limit runs out and the need is felt for continuing discussion before voting, the time limit can be extended by amendment.)

(b) Motion of previous question: to be used for cutting off debate on the motion or amendment.

(c) Motion of previous question: of a main motion by bringing it to an immediate vote.

(d) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(e) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(f) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(g) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(h) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(i) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(j) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(k) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(l) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(m) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(n) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(o) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(p) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(q) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(r) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(s) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(t) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(u) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(v) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(w) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(x) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(y) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

(z) Motion of previous question: to terminate a main motion by bringing it to an immediate vote.

There comes the adjournment.

a. If a special time has been set for adjournment the chairman when that time has arrived may say, "The hour fixed for adjournment has now arrived and the meeting is now declared adjourned."

b. If no time has been fixed for adjournment, action to that effect must take the form of a motion.

1. Such a motion may not interrupt a speaker or the process of voting on a main motion.
2. Such a motion is not debatable and may not be amended.
3. This motion must be voted upon and passed by one half of the group present to become effective.
