Revere Cappellini '60 Wins Woodrow Wilson Fellowship

Renee Cappellini '60 has recently been awarded the Woodrow Wilson Fellowship competition. As a winner Renee will be able to spend one year at the graduate school of her choice. Funds totaling $4,000 will be paid. The Fellowship requires that a winner give serious thought to college teaching.

The Woodrow Wilson Fellowship competition is held annually for students nominated by their college or university. Renee is one of 100 winners selected this year; she was selected to enter the foreign by the English Department.

Renee hopes to do her graduate work at Harvard next year and is looking forward especially to studying Medieval Philosophy. She has been an English major here, with special emphasis on medieval studies. Her immediate plans are to complete her master's degree at the college at a position where she can continue her studies.

Born in Alexandria, Louisiana, and presently a resident of Cleveland, Ohio, Renee came to Connecticut as a transfer student from Georgetown Visitation Junior College last year.

Her special outside interest is the theater and while at Connect-

College Radio Observes Tenth Anniversary; New Sound Broadcasting to Start March 14

WCNI, the local campus station, licensed in 1950 by the Federal Government, is introducing a new sound conversion from the college power plant to City of New London power sources two years ago. Now, the new WCN!, which broadcasts at 630 AM to the entire Radio Room in the Auditorium, continues from listeners about its Im- possible to receive. The signal was brought to the attention of the Radio Club; the need for a more effective broadcasting system. Various ideas were offered for conversion of the old system to the use of popular visit and dormitory residents, were suggested by Mr. Clayton W. Howard, the college technician. After a visit to the radio station at the University of Connecticut by Mrs. Josephine Ray, faculty advisor to our Radio Club, the program was presented by President of WCNI, Marion Staf- fers, and Mr. Howard, and a successor comparative visit to WYAL, in New London. WCNI, it was revealed that the best solution would be to build seven inexpensive, 25 watt radios, which are more than sufficient funds promised the administration.

Mr. Kinnebrew has recently developed an adequate system of broad- casting through the use of the old system. During February, WCNI, a special converter box which is now in storage and how to present this box is located in the basement of Smith-Burdick and Inga.
Lost Paradise

Thinking of probability—we wonder how much an imposed isolation has a beneficial effect on a student—actually, wonder how much it is founded on those principles which can best help a student in academic difficulty—the fact remains clear that such difficulties are caused in most cases, not by a lack of books or a lack of a definite type of resource, but by a lack of desire—yet such lack of desire can be caused by extracurricular activity—and which in connection with those who are just plain bored and think that a policy of isolation is not advantageous—restriction offers no incentive for a student to study, he would rather be allowed or induced to channel interests into one area where they are most active, and discouraged those outside activities which lie outside this area—you cannot simply turn a girl into one particular path of college life where her interest has been clearly unmanifested, and expect a sudden awakening of interest—a change for the better academically is not an overnight phenomenon—it requires a self-preparation by the party involved—this is the thinking that is most efficient—more likely than anything else, it is partially because the student feels that this is all that she is expected to do—even more, that is all that she is allowed to do—the self-analysis is not to be used with the purpose of picking out the area of failure and self-defeat—it forms a deadly combination with the very thing that is most needed—just how many people succeed in overcoming a probation by a genuine interest in their work, and how many are really trying to perform, on the hope that what she is capable of success—we wonder too not much which motivates them, but the more they are cultivated by more leniency in vital areas and perhaps with more special consideration of individual cases—J.E.M.

The following samples of hands are concerned with opening lead:

1. You are West with: S: 6 3 2 8 6; H: 6 4 3 2; C: 9 8 7 6 4 3 2; D: 10 9 8 7 6 5 4 3 2.

2. You are East with: S: 6 3 2; H: 5 4 3 2; C: 9 8 7 6 4 3 2; D: 10 9 8 7 6 5 4 3 2.

3. You are North with: S: 6 3 2 8 6; H: 6 4 3 2; C: 9 8 7 6 4 3 2; D: 10 9 8 7 6 5 4 3 2.

4. You are South with: S: 6 3 2; H: 6 4 3 2; C: 9 8 7 6 4 3 2; D: 10 9 8 7 6 5 4 3 2.

The bidding has been: South - Pass, East - Pass.

Junior And Senior Compet Plays Reviewed

The Seniors put on the second act of Saroyan's Cave Dwellers last night. Two Misses, one Junior and one Senior, played the parts of the Principal Characters. The Juniors did The Bald Soprano by FOSSON. The Seniors played with less success than the Juniors. The girls on the first act, played by the Juniors, did their best, and managed to pass the time. But their acting was not up to standard. The girls on the second act, played by the Seniors, played much better, and managed to pass the time.

Sideline Sneakers

On campus, sports competitions are going on all the time. Football, basketball, bowling and volleyball are all popular on the heels of athletics; and the games provide interest and a chance for the spectators to enjoy without disturbing some nearby student. Winners and runners up will be announced at the A. A. Winter College event which is to be onboard everyone's schedule. The event will be held in Crozet-Williams, Thursday, March 17.

Religious Fellowship

The last in the series of discussions sponsored by Religious Fellowship, the topic was "Religion and Mental Health." The series will conclude with a discussion of "Religion and Morals." The last discussion will be given by Dr. Abraham Stollman, head of the Toxicology Laboratory of the State Department of Health, and will speak on "How Science Can Solve Crime." Wednesday, March 16 at 7 p.m. in Crotzer-Wil- liams. This lecture is being sponsored by the Science Club.

Help your hair to better health! New medicated preparations contain a chemical invented by Esso Research that helps in controlling dandruff. Grooming hair or pampering cars... Esso Research works wonders with oil.
The 1 out of 20 that didn't get smoked

There's a lot of satisfaction in pointing out something good to a friend. That's why it often happens that one cigarette out of a pack of Dual Filter Tareytons never does get smoked.

People break it open to demonstrate its unique Dual Filter containing Activated Charcoal. They may not know why it works so well, but they do know this: It delivers far more than high filtration... it brings out the best taste of the best tobaccos — and you can save from $1.00 to $1.75. For that reason alone, no single filter can do.

Try a pack of Tareytons. We believe the extra pleasure they bring will soon have you passing the good word to your friends.

HERE'S HOW THE DUAL FILTER DOES IT:
1. It combines a unique inner filter of ACTIVATED CHARCOAL... definitely proved to make the smoke of a cigarette mild and smooth...
2. With an efficient pure white outer filter. Together they bring you the real thing in mildness and fine tobacco taste!

NEW DUAL FILTER Tareyton

Howard Mitchell, Grant Johannesen, To Appear Tuesday

Tuesday, March 15, at 8:00 p.m. the Connecticut College Concert Series will present the National Symphony Orchestra conducted by Howard Mitchell. The first half of the program includes Mozart's Overture to "The Magic Flute" and Grieg's Concerto in A Minor for piano and orchestra with soloist Grant Johannesen. The second half of the program includes Fischer's Contrasts for orchestra and Beethoven's Symphony No. 7 in A Major.

Piano virtuoso Johannesen has made repeated performances with the New York Philharmonic-Symphony, San Francisco, Boston, Cincinnati, Philadelphia, and many others. This distinguished young artist, born in Salt Lake City, of Norwegian descent, is a virtuoso of major proportions with running techniques and interpretive powers. "One of the younger pianists interpreting the mantles of Backhaus and Gieseking" comments the San Francisco Call-Bulletin. "Johannesen can be ranked among the major artists in his field. His technical mastery is comprehensive and impressive," declares the New York Herald Tribune.
