DR. MOODY SPEAKS AT VESPERTS.

Criticizes Partial Conception of God.

The speaker at this week's Vesper service was Dr. Paul Dwight Moody, president of Middlebury College, Vermont. Dr. Moody is the son of Dwight L. Moody, the noted evangelist.

Taking as his text 1 Kings:22:78, "Thus saith Jehovah: Because the Syrians have said, Jehovah is of the height of the hills, but is not God of the valleys, therefore will I deliver all this great multitude into thy hands, and shalt know that I am the Lord," Dr. Moody spoke on partial conception of God, and made a great plea of us needed to be delivered from such conceptions. "A partial conception of God applies not only to places but to times and persons as well." In reference to a partial conception of God in places, Dr. Moody said that some people believe that God is nearer here than there, for some places seem more sanctified than others. God is everywhere, he said, and in a faith in a God who is everywhere will fall one in the crisis of life, for sooner or later, to the person with this partial conception, God will be found in no place at all.

"As to time, some persons believe that certain times belong to God alone. Again we find a partial conception of God. Our forefathers talked a great deal about the 'Lord's Day', but this conception may sometimes come perilously near to blasphemy... We are all, however, more conscious of God at some times than at others."

Dr. Moody made the point that a partial conception of God in regard to places could be dangerous. The Evolution that God belongs to some people and not to others is as dangerous as the God of the drunkard as of the little children gathered around the Sunday school when God is of certain, special persons, but of all humanity. Missions are established because God is in the God of all, and we see it all to let them into the full conception of knowledge that we ourselves have. In regard to great modern beliefs, such as in evolution, students must realize this: That is God.

GUILD OFFERS PRIZES FOR UNPUBLISHED WORKS.

The Pioneer Writers' Guild of America, Charles St., New York City, will award prizes amounting to $1000.00 to writers and artists whose work has never been published. The award will be divided as follows: $500.00 for the best story, $250.00 for the best novel of fiction, $150.00 each for the best short story, poem, play and cartoon. This contest closes June 30th, 1934. For rules, address the Guild.

SERVICE ENDS MARCH 12.

Service League Song Contest closes March 12. Any song submitted should be a C. C. song. Decision will be announced Thursday, March 15. Hand in all entries to Miss Mildred Wild or Helen Hemingway by March 13.

MISSIONARY UNION MEETS AT SMITH.

Connecticut College was well represented at the annual conference of the Connecticut Valley Intercollegiate Missionary Union, held at Wellesley, Massachusetts, from March second to fourth.

The program was of unusual interest, including such speakers as Miss Jean MacKenzie, of Africa; President Mary E. Wooley, of M. H. Holyoke College; Rev. Ralph Harlow, of Smyrna, recently returned from the Near East, now acting as travelling Student Volunteer Secretary; Professor Kenneth Latourette, of the Yale Divinity School, formerly of Yale in many capacities. The conference was attended by Miss Helen H. Hay, Elizabeth MacDougall, Emily Gardner, Maud star, Helen Under- der, ex-'21, and Gertrude Avery, '23, were also in the delegation.

PROFESSOR DEDERER WILL BE CONVOCATION SPEAKER.

On March 13, Professor Pauline H. Dederer of our own college will speak at the Convocation on the subject of "The Modern Patron." Miss Dederer, professor of zoology, came to Connecticut College in 1914 from Barnard, her Alma Mater, where she had taught since 1900. Professor Dederer has been a persistent and progressive student in the field of zoological investigation. She is the author of several papers on zoological subjects, and research which she has pursued from year to year at Wood's Hole and similar stations. She is a member of Kappa Alpha Theta.

Professor Dederer has been secured to take the place of Dr. William Biese, who was forced to cancel his lecture engagement. The college await with interest this illustrated lecture by one of our own faculty members.

THE LIBRARY.

Upperman in the minds of a great many of us on the campus these days is the question, "When shall we be in our old quarters?" It looks now as if, provided all goes well, by the first of April we should be housed in our new building, given by Dr. Dwight L. Moody to Smith College by Mr. and Mrs. Smith.

It is with very little regret, but with great hope for the future that we enter our new quarters for the new, and with great hope for the future that we enter our old quarters in the history of Connecticut College.

STUDENT REFERENDUM ON AMERICA AND THE RUHR.

"What are the students of American thinking and doing at a time when the continent of Europe is alleged to be sinking into economic and material decadence? Would the students at your college accept or reject this implied proposition? What does it mean to them that the French have invaded the Ruhr? Is this a step toward peace or war? Do they believe that the United States is in any way concerned? Would they say that we should let Europe stew in her own disorders? Do they feel that this cooperation is a nobler role?"

The above is part of a letter from The National Student Form, organization is cooperating with those students who feel that the existing situation in Europe is a challenge to any who are sufficiently reflective to care whether or not national civilization survives its present stage of evolution.

Their interest is taking concrete form in a Student Referendum on America and the Ruhr through which students in all colleges may express their opinions and recommendations to President Harding and later in the week, if the concurrence of opinion calls for a, it, a resolution will be presented to the whole student body for discussion vote.

At the same meetings, there will also be a presentation of the resolutions passed by Vassar concerning American participation in League of Nations activities, and prevention of war.

Attendance at these meetings, especially that of the International Club Sunday evening is urged for important reasons.

First place, the general movement is essentially worthy of interest.

MANDOLIN CLUB ENTERTAINS AT NIANTIC.

In response to the request of the president of the State Women's Reformatory at Niantic, the Mandolin Club entertained the inmates of the reformatory. Mrs. Latimer Spencer, who entertained the girls were carried by bus to the institution where the Sinking Innates were already assembled.

The program consisted of selections by the Mandolin Club, vocal solos by Mildred Seely, clog dancing by Constance Parker, "Ten-ny-back Doodee" and "Liddle Loo" clogged by Edith Needer, Katherine Bailey, Laura Dunham, and Pauline Warner, and a Spanish dance by Katherine Culver. Of the orchestra's selections, the most appreciated were "The March of the Wooden Soldiers" and "Three O'Clock in the Morning." After the program, the C. C. girls gathered around the piano and sang "C. C. Blues," "China Love," and "Every Show." In return, the inmates gave the girls their own school song for the victors.

The band, after its return trip, reached the College shortly after eleven. Everyone felt that the evening's entertainment was a worth-while effort to give pleasure.

PROF. BENJ. ANDREWS PICTURES IDEAL HOME.

Gives Important Functions of Home Life.

Professor Benjamin B. Andrews of Teachers' College, Columbia University, expressed the belief that the "home" is one of many of these fields, and, since the arts of living are vital to everyone, this field is great in its educational possibilities. In this connection, negatively, the attempt must be made to stop crime and disease. Proctor of the home for develops the highest ideals. Secondly the home is opposed to the old patriarchal system, and recognizes the individual rights of every member of the family. This gives each one a chance to grow and to stand on his own special interests. Also there is the opportunity of partnership in the work of the home. Thelands there is the stability or solidariness of the American home.

Continued on page 4, column 2.

SOPHOMORE VICTORY.

Probably the fastest and most exciting basketball game ever played was in the gymnasmum, Wednesday night, when the Sophomore and Juniors met. The Sophomore was crowded to its fullest capacity, and a large number of guests from New London and elsewhere were present. Professor of the Sophomore was excellent throughout. The work of the guards proved to be a great obstacle for the Junior forwards. The Junior passing was not equal to that of the Sophomores and although their guards played excellent defense in their fine jumping, their passes were almost always broken up by the Sophomore guards who, in the opinion of the writer, were brilliant in their fine jumping, their passes were almost always broken up by the Sophomore guards who, in the opinion of the writer, were brilliant.

In this game, Ed. Warner played a very vital role in the game. His usual shooting was prevented by S. Crow's fine guarding, while W. Kendall scored many of the baskets for the Junior team. J. Goodrich played a pretty game forward, shooting some spectacular baskets.
CONVERSATIONS.

Are we vitally interested in the conversations of our intimate friends? This is a disheartening question. Some of us probably never thought of it. We may say that we like them so well we are interested in anything that they have to say. But what of vital importance do we for the most part say to each other? Our discussions of our studies, we amuse ourselves by debating some queer quirk in a professor; we tell again and again about the performance of a play or musical with which we were made our morning toilettes, or some such remarkable triviality for the edification of the public. Do not some of us often starve ourselves to find something of interest to say?

"Sprig," "Frosh," "Cub." These are the peculiar yet characteristic of our campus today. They are always with us. We are beset with them all day long—just as we are beset with them all day long—just as we are beset with them all day long—just as we are beset with them all day long—just as we are beset with them all day long—just as we are beset with them all day long—just as we are beset with them all day long. This is the strange world of which we have heard so much and which we know so little. Can we not find some more interesting subjects to talk about?

Dear Editor: It was suggested in "Edith Wynne Matthison Off Stage" that we at Connecticut College might establish an outdoor theatre. Is there any real reason why we should not? It might be fun to try it, and I am sure that the place would be a great hit.

The Editors of the Yews do not hold themselves responsible for the opinions expressed in this column.

Welcome to the Spring edition. It has been a long and eventful winter, and now it is time to look forward to the coming spring. We are all excited about the possibility of an outdoor theatre, and I think it would be a great addition to our campus life.

The Triumph of the Egg.

Eggs have always seemed rather commonplace things to me—interesting of course in a general way, but not very exciting. However, in the last few weeks, when Mr. and Mrs. Ancilpius Peeler started teaching here, I have become very interested in eggs. They are so much harder to find than they used to be, and I think it is wonderful that they are still available.

All those who are interested in improving their study habits and increasing their productivity should definitely check out this directory. It contains a wealth of information on various study keys and self-help books that can help you become more efficient and effective learners. The directory is organized in a clear and concise manner, making it easy to find the specific resources you need.

THE TRIUMPH OF THE EGG

Concluded from page 7, column 4
provides with evident pride and anxiety, that those five eggs can most assuredly lay claim to being the most talked of eggs that ever were. For after the five little Peepers poke their fluffy heads into this world, they mean to be spoiled as anv birds were spoiled before.

But just at present it is the eggs which occupy the center of attention. Mr. Peeper struts about in evident delight. Mrs. Peeper, Righteous indignant at such a display of feelings, scolds her spouse at frequent intervals. And Gloria—what does the eggs are and see how she takes it?

CONVOCATION

The unstinted enthusiasm with which Miss Matthesson was received by both the town people and the students proves conclusively the type of Convocation which is most enjoyed. Miss Matthesson is indeed an artist of unusual charm and talent, and it is not difficult to divine her ability, but could not endeavors be made to present more programmes of the same character?

Convocation, we assume, is for the enlargement and instruction of the greatest number possible. We therefore, whether lectures of a specialized type, though beneficial to those who have a technical knowledge of the subject being discussed, fulfill this purpose. At least we plead for much more of the literary and dramatic than has hitherto been presented.

PERSONNEL BUREAU

The first of the Departmental Conferences for the term will be held March 9th, when Professor Ann Mayson of the Department of Zoology of Mt. Holyoke College will be the guest. A Faculty tea will be served in Blackstone at four o'clock for Miss Morgan. After dinner Professor Morgan will speak to students of the Zoology Department and all others interested in the opportunities for college women in this field.

DRAMATIC CLUB MEETING

A special meeting of the Dramatic Club was called in the gymnasium, Wednesday, February 28. The resignation of Virginia Eggleston, '24, President of the club, who because of illness was forced to give up her office, was read and accepted. Caroline Frenckle automatically became president and Florence Bassevitch was elected vice-president.

JUNIORS DEFEAT FRESHMEN

It was with great interest that the college gathered to see the Junior-Freshman basketball game Friday, March 2, and the hopes were not disappointed. The game was excellent throughout, and although the Juniors won by quite a large score, 53 to 31, the Freshmen put up a splendid fight. The Juniors had the advantage in their passing and guarding, but the Freshmen showed speed, and made some pretty baskets. M. Cerlina did good work as forward. D. Haskell and K. Hamblet both played an unusually good game.

The Irving between the classes was especially friendly, and there was some fine singing between them in the time between the quarters. Between halves, the Freshmen brought their class banner to the floor. led by T. Hewlett and K. Hamblet both played an especially friendly game.

DINNER PARTY AT VINAL

On Saturday night, March 3, Dean Seay was the guest of honor at a dinner party held at Vinal Cottage. Dinner was prepared and served by the students, under the direction of Miss Helen Tryon. Decorations of red and green, were arranged by Miss Madelyn Smith. Miss Smith gave several readings and a pleasant evening was had by all.

AGAIN NORTH ENTERTAINS

February is the month of birthdays, not only for George Washington, but Abraham Lincoln's, but right in our own North Cottage the birthdays of Edgar Allen Poe, Edith Kirkland, Kirkland, Sunday night after Vepers a quiet celebration took place. There was a birthday cake and hot chocolate. Beside the birthday children there was Miss Shover as guest of honor.

C. C. GIRLS TOUR SOUTH AMERICA.
Elizabeth Armstrong '24, and Olive Hulbert '25, have left for a six months' tour in South America. The tour is the second in a series of tours arranged and conducted by the Board of Y. W. C. A. to awaken and interest among women in the work of the association in other countries. The itinerary includes Cuba, Panama, Valparaíso and Buenos Aires.

Dr. E. G. Abernethy
Professor Andrews also stated that an important phase of the home is the interchanging of each member of the family, the wife should be interested in the larger industrial concerns of the husband and the husband should not be indifferent to the larger social concerns of the wife. The relationship of the family to religion is also of vital importance. Here the concern of the family is the idea of brotherhood and a socialized responsibility.

Through the home everyone secures and expresses his standard of living. This standard is secured, in a large measure, in the family which is most contented, and in the number and kind of satisfaction which the members are able to secure.

In conclusion Professor Andrews said that, in spite of every modern appliance that has been invented for housekeeping, he believes that family and home always will remain. It is in the blood of all people for the institution of family life to last.

The sluggard replies.

"Go to the ant, thou sluggard," said the Industrious Man.

"Huh!" said the sluggard, as he yawned and turned over for another nap. "What's the matter with the ant? He's working to-day."—Cincinnati Enquirer.

In my tin bank I put a dime, And kept it there for quite a time, I let it stay a month or two, And shook my bank till it fell out. But when it fell upon the floor It was a dime—and nothing more. I thought, from what I heard Pop say, It would increase from day to day. And so, month after month I meant To keep my dime, and spend it, But when I found my bank would not, Nothing at all to what I had, I simply wasted no more time. But went right off and spent my dime.
