Improvements In Catalogue Cited By Pres. Blunt

Information About General Examinations And Curricular Changes.

In a letter to the Tuesday morning President Blunt announced that the new edition of the catalogue will be ready for mailing by Saturday, March 19.

"There are an unusually large number of new points for the students this year. The faculty believe that considerable progress has been made in curriculum changes."

Miss Blunt pointed out that for the first time there is a statement about general examinations. There is a paragraph saying that they will be given for the first time in early March of 1899. Under each department will be found a statement saying that the examination will cover for major students. Some departments include a minimum of eighteen points, others twenty-four, but almost all give a good deal of choice. Some schools in which a general examination is not the whole major, but only certain departments, are planning to help you make a success of this new plan and they are bound to introduce this further step in examinations. I hope to talk later to the Juniors more about it.

There are a few slight changes in graduation requirements. The School of Social Science, now termed Government, may be taken to fulfill a history requirement. There is more elasticity in the language requirements. The fact that tests in languages may be taken to do away with a requirement has been given a more conspicuous place in hope that more students will want to take them.

Entrance requirements have been modified. Instead of giving the psychology tests of the class of 1935, all incoming freshmen, entering this fall will be tested by the School of Science. The Test in April as given by the College Board. This is more of a change than a modification.

Alumnae Chapters To Hold Dinners During Vacation

The Chicago Chapter of the Connecticut College Alumnae Association will sponsor a tea dance on Saturday, April 16, from 3:30 to 6:00 p.m. in the Vassar Hall Towne Room at the Diana Court Building, Michigan Boulevard, Chicago. The tickets for the tea dance, by proxy, evening music will be provided, and all students of Connecticut College are welcome to attend. The Alumnae President is Mrs. John Howell, formerly Jane Williams VanDusen, nee M. VanDusen, of New Haven, Connecticut.

Music Club Host To High School Girls

The Federation of New England High School Glee Clubs and Orchestras will hold a concert on Thursday, March 18, through Saturday, March 20, in the gymnasium, and from orchestras from all over New England will be on hand. Two public concerts at Saturday on Buell Hall—one in the afternoon, and one in the evening, the same program. Massed groups and soloists will offer renditions.

The boys of the groups are to be the Coast Guard Academy, the girls the Connecticut College campus. On Thursday afternoon there will be a tea for the boys in VanDusen Hall living room sponsored by the Music Club.

H. P. VanDusen, Noted Theologian, Vesper Speaker

The speaker at the Vesper service on Sunday, March 20, will be Dr. H. P. VanDusen, professor of systematic theology and the philosophy of religion in Union Theological Seminary, New York. He is also dean of men in the same institution. A Philadelphia by birth, Dr. VanDusen was graduated in 1919 from Princeton University, and in 1921 from Union Theological Seminary. He has been graduated from Union Theological Seminary since 1924.

The next two years he spent in religious work in American colleges. (Continued to Page 4, Column 2)

Music Club Instructor Has Article In Harvard Magazine

Harvard Orchestra Presents Concert; Dance to Follow

Here Two Years Ago; Harvard Long Famous For Music Programs

The Harvard University Orchestra with Malcolm H. Holmes conducting will present a concert on Saturday evening, March 19, at 8 p.m. in the gymnasium, and a dance will follow at 9:00 p.m. in Knowlton Saloon. The Harvard University Orchestra gave a concert on C. C. campus two years ago and made a most favorable impression. This year their program is particularly attractive including as it does a classical overture, a Haydn symphony, and other representative modern works. The orchestra numbers forty performers and is made up of the standard instrumentation, capable of presenting virtually the entire classical repertoire except for some modern works of larger scope. The orchestra makes several short tours every season and has been well received wherever it has appeared. Harvard's other leaders in fostering music as an extra-curricular activity. It is one hundred and thirty years since the Pilgrim Sodality, on amateur musical club, Nursing Society, and the Men's Glee Club, an organization which has been active ever since. For nearly a generation the musical societies of Harvard have taken front rank among student organizations of the United States.

Harvard has been due largely to the fact that serious and competent leaders have directed them.

The entire program will be as follows:

Overture to Der Wegweiser

Two C. C. Alumnae Will Speak Friday To Science Group

Two C. C. Alumnae, Virginia Case '31, and Bernice Wheeler '87 will give their work since graduation at 4:00 p.m., Friday, March 18 in Room 809, New London Hall.

As We Enter

We in the Connecticut College News for the past year we have seen them work with "w.r. and wisdom" to raise the standards of News, to improve it in all ways. Under the leadership of Dinny Sendt the paper has been "dramatically" improved in the past year, after the fashion described at the Associated College Press Convention in Chicago last fall. The News has improved its staff and is striving for a better understanding of correct style, as have been shown in the copy that we print this year. We wish to commend the efforts of the News in this direction.

We consider it our business to present to the college community the news of the college and the world, and to give a voice to the students. We are prepared to cooperate toward that end. It is our wish to be able to carry on the high standards set before us that we present the first issue of Connecticut College News for which we are responsible.

Live and Let Live

Spring, 1938. Emotions, pent-up during the winter, find expression in the study of topics and the release. To us who are near to nature and humanity the season brings a flood of love: love of life, love of the land, love of the people of fellow humans love and forgiveness. But around the "green tables" of the world capitals, diplomats are planning their dreams of peace and the sea, and the world is a war-plotted place. It is a strange world of nationalism, shaken into motion by the petty jealousies of the gentlemen of the "green tables," defies control and is sweeping human reason with its changed course. Under the assumption that war is inevitable, we are led up to believe that if we do not do something the world might be wise for one more person to say that we are supposed to be approaching adulthood, if we have not already reached that stage. What we do in college is going to have a great effect on us and others when we leave here. I would hate to think that one of the situations that arise would happen later in life, so let me here, and of the effect they have both on the person and on the community. This college has a splendid reputation, one that we can point to and pride. Let us remember that we not only hurt ourselves by the actions, but we hurt all around us. Again let us remember that we are adults, and should behave accordingly.

Dear Editor:

Perhaps there are a few things to be said on the subject of our great problem of the moment, the drinking and smoking and the pelvic. It might be wise for one more person to say that we are supposed to be approaching adulthood, but that we have not yet reached that stage. What we do in college is going to have a great effect on us and others when we leave here. I would hate to think that one of the situations that arise would happen later in life, so let me here, and of the effect they have both on the person and on the community. This college has a splendid reputation, one that we can point to and pride. Let us remember that we not only hurt ourselves by the actions, but we hurt all around us. Again let us remember that we are adults, and should behave accordingly.

Dear Editor:

If other colleges either have a choice of meat or fish on Friday nights, I just don't see why we should have to go out for dinner once a week when the great majority of us don't like fish, at least not every week.

Why can't the dietitians find out how many people need to have a choice? Just prepare that much, or cater to the majority of us and have meat instead? For three years now I've either eaten out on Fridays or "suffered in silence." I don't appreciate if someone would think this over. There is a good deal, won't you dietitians reply in this column, please?

Make Living Force Out of Education Says Pres. Blunt
President Blunt, in Chapel Thursday morning, quoted a sentence of Thomas Mann which she emphasized as good educational idealism. "What to us is information becomes to him a living force," She pointed out that most of us learn information and let it remain just information, but a great man turns information into a living force.

"There are two ways of study. The first is to learn accurately, correctly, systematically, and let it go at that. The next step is to make a living force out of it."

Miss Blunt said that she, as a student in a secondary school, while studying the Halogen family for chemistry, had seen the orderly beauty of science. That information became a vital force to her. "You have illumination in history perhaps you get a glimpse of the development of civilization and perceive man growing through the ages. In Social Science class you may find something to make you become a Social Worker."

Miss Blunt concluded by saying that we can cultivate the habit of thinking and make life mean a great deal more as a result. "Develop the habit of thinking right now about the significance of your work, and it will become a vital force in your life."

Dr. Fay Lectures On Anaesthetics
Dr. Marion Fay, professor of Physiological Chemistry at the Women's Medical College of Pennsylvania, lectured on "Anaesthetics" Thursday afternoon. She presented a rather general discussion starting with a brief but clear review of the development of anaesthetics.

Their history shows that after many years of experimentation people were finally convinced of the good effects produced by anaesthetics and their use spread rapidly in all countries.

Dr. Fay discussed the inter-reaction of cells and anaesthetics. In general, it is believed that they become absorbed into the surface of body cells and interfere with their normal chemical activities. The anaesthetics themselves, however, are not affected or changed in any way by the brief absorption into cells.

As for the presentation of which the audience participated, Dr. Helen Ingley, professor of Pathology at the same university, gave a short lecture on glands and their actions. She pointed out that excitement, especially in the fast-moving world of today, has a great effect on the action of certain vital glands. Dr. Ingley illustrated her lecture with amusing cartoons of people and animals.

Dr. Bryant Speaks On Famous Parks
Dr. Harold Bryant spoke on National Parks, at the Ornithology Club meeting Thursday evening, showing colored slides of the famous parks and the wondrous life found in these parks. Crater Lake was a scene of the many-capped type of mountains such as Mt. Whitney were among some of the most beautiful slides.

DR. BRYANT SPEAKS ON FAMOUS PARKS

After a brief discussion of the many parks throughout the United States, Dr. Bryant pointed out that our national parks are one of the greatest contributions we have made to the world. They are places where we can escape from the cares of everyday life and enjoy the beauty of nature.

"The parks are a reminder of the importance of preserving our natural resources. They serve as a reminder of the beauty of America and the richness of our cultural heritage."

Hold Positions In Extra Activities, Scholastic Honors
(Edited Note: This article is reprinted from the New London Day of Saturday, March 12.)

Scholastic attainments are not the only achievements of the students who hold scholarships at Connecticut College. Leaders in many of the extra-curricular activities of the college, those students abide on the playing fields, at social functions, in dramatics and in students organizations as well as in the classroom. At the same time, practically all of them are earning a part of their college expenses.

Hazel Sundy
The editor-in-chief (Ed. note: Miss Sundy's term ended with the last issue of News) of the Connecticut College News, Miss Hazel Sundy '38, of West Willington, holds a scholarship. Each week she spends many hours going over the material turned in by the reporters, coordinating it into an accurate, interesting account of campus activities. She is a member of the cabinet, the governing board of the student body. Last year, as chairman of the religious council of the college, she did a great deal to stimulate student interest in the spiritual side of college life.

Rutherford, N. J.

Mr. Frederic opened his program with the redoubtable "Symphonic Etudes" of Robert Schumann, and established a standard to which he adhered the rest of the evening. Of these Etudes, which chez variations on a theme from the works of a man Schumann greatly admired, Mr. Frederic played seven, illustrating the best of the composer's work in a series of delicate, minute, virtuoso imitations. Here were flights of fancy, depth of feeling, imagery, and withal an order might be reduced to terms of planned outline, solidity, and meditated, drawn forms of rhythm. An exceptional dynamic control was the tool with which Mr. Frederic delved into the minutest gems of the delicate third and ninth Variations, the brilliant coloring of the Final. Throughout the variations the artist drew on his ample stores of finished technique, imagination, and dramatic sense; and he seemed never to run short of any. The warm tone of the melodies in these numbers appeared to advantage in the statement of the Chorale of the Liszt Variations on a subject by Bach; and reappeared in the slow song of the Chopin G Major Nocturne. The mechanical Little Mouse Box was admirably described, while it was a far cry from the spectacular brilliance of the Hummel Etudes, which closed the written program, drew on all the pianist's resources, and brought roars of applause from an amused audience. Mr. Frederic was called on for encore, and be gave three.

Was Criticism Justified
Mr. Frederic has been severely criticized for the amount of seemingly unnecessary and distracting phrasing that he has depended on the more taxing and emotional passages; and also on the abuse of classic line and form that seemed a necessary part of such instances as the Bach Chorale; but it must be considered that the kind of writing for which Mr. Frederic has found his best subjects and to which medium his interpretations find their fullest expression is consistently of a heroic nature, demanding in many instances the "sound and fury" in which the "fighter" trenches find insincerity; and to which they direct their fire. In the last analysis of his interpretations, in the final recollection that remains and is called to memory, it is not the "extraneous" that is prominent, but an ability and understanding of the music that few artists to date—if any—have approached or equalled in the recent concert series.

Panel Discussion Broadcast From New Haven

On March 14 the Intercollegiate Peace Panel on the American Policy in the Far East was broadcast over WEIL, sponsored by the Departments of History and Government. Dr. Robert Luccock of Yale was chairman of the program. The three panel speakers were Anne Oppen-heim of Connecticut, Frank Scuita of Yale, and Robert Arnold of Wec- sayer.

Those who answered the questions presented by the panel were Betty Andrews of Connecticut, Henry Gemelli of Yale, and Donald F. Healy of the Union Theological Seminary. Oppen-heim presented the case for Neutrality and Isolation, insisting that the responsibility of the United States in the matter of war is by national security and by keeping out of war-term, dangerous areas. Congenial maintenance that peace must be preserved, but it is to be a peace with protest against war in China, and the boycott is the popular measure that may be used by the American people. The Amer- can people evidence. Wesleyan, on the other hand, pointed out that peace for the American people and the American people are only to be gained by peace for the world. Then, only in collective action is this possible.

On March 13 the panel was given an opportunity to express his opinion, spoke for Connecticut, and Ruth Chazen and Ethel Blauhoy partici- pated.

Forum Discussion On Examination Changes (Continued from Page 1, Column 1)

The proposal that there be a two week period between the mid-year examination period and the commencement of the summer examination was the main topic of the discussion on this subject. It was sug- gested by one member of the student body that the time between the mid-year examination period and the commencement of the summer examinations would be better for students, in that they would have a chance to review their work. Another member of the student body suggested that a two week period between the mid-year examination period and the commencement of the summer examinations would be better for students, in that they would have a chance to review their work.

The fourth plan was that mid-year examinations be left out of the regular examination period and that the examinations would be held in the summer. This plan would also be more convenient for students, as they would have more time to prepare for the examinations.

When the discussion was opened to the floor, several suggestions relating to the General Examination were made. One was that the examination should be held during the summer, as this would give students more time to study. Another suggestion was that the examination should be held during the summer, as this would give students more time to study. Still another suggestion was that the examination should be held during the summer, as this would give students more time to study.

Improvement In Catalogue Cited By Pres. Blunt

(Continued from Page 1, Column 1) have also been added in the depart- ments of Psychology, Mathematics, Physics, and Art.

Miss Blunt expressed the hope that the students would agree with the faculty in thinking that, on the whole, the catalogue is more interesting than here-to-for.

Beer Jazket -- in color BLUE -- WHITE -- RUST ALSO --

Slighty Examined Subject of Talk by Dr. Haynes

There’s no iceless ice and fastless fast, and all the rest made out of limo- stoned,” stated Dr. William Haynes, author of Men, Money and Mole- cules, in opening his lecture last Friday evening. A discussion of the economical function of chemistry followed.

All chemistry of manufacturing Gals into two great groups, labor- etering and processing. The textile industry is one in which both of these are used, to save time and labor. The bleaching process was first done by the sun; the towels and later by ammonia in the temples of Amon. The Ammon used sulfuric acid, but the Religion in Utopia and in the bleaching process containing chlorine did not come until 1785. Dr. Haynes showed a number of synthetic products which have no basis in nature. When in- dustry adopts them, it does not re- turn to the natural products. “Syn- thetic products are constant in their qualities and steady in their price,” never upsetting the market. Synthetic chemistry saves time, money and raw materials and gives better and cheaper products. The meeting closed with a pertinent dis- cussion of the way in which artificial silk stockings lose their tensile strength in washing and thus rip. Rabbits are parasites upon the suds. Even wool from trees may soon be worn.

H. P. VanDusen,
Noted Theologian, Vesper Speaker

He has been teaching in Union The- ological Seminary since 1916. He is a fellow of the National Council on Religion in Higher Education and a member of the Board of directors of the Philadelphia Society of Princeton University. He has been a leader at various student conferences including those at Northfield. He has been active in student Y. M. C. A. work and is a frequent contributor to the Intercollegians. With T. W. Graham, he wrote "Forces in Vain: The Journey of a Man and a Woman," and the book "Only One Way to the South.

Cought on campus this week-end—everyone who was not in New Haven. A happy time was had by all! 

Jane Keppra and Middy Weitlich—all set for New Rochelle and Rockefeller, Pa., plus any faces are cruddy to friends. Hope they are fun, kids.

Peg Goldsmith making swimming records and records for the south.

Dr. Hutchison talking about the "dont" policies of the United States.

What Sophomore in Plaist made an arbitrary game of it the past few days.

Cought on campus—Dusty Jones, Ray Geller, Peg Goldsmith, period, afternoon.

A hundrd radius tuned to the world broadcast of latest develop- ments abroad. The girls of C. C. are turning political-minded! 

Do you know why the president of Johns Hopkins' debating team wants to start a similar team at C. C.? Ask Doris Hart—he might be able to give you the information.

It must be fun to be one of Ruth Rossel's correspondents. She has almost all her letters "special." 

No, Peg Young hasn't just given up going up to classes. She drives to Providence every week-end to see her family and then stormy weather won't let her come back for a few days.

But Betty Barton got to that dis- covery of all, in spite of the fact that she wasn't allowed any more gym cuts. Miss Priest had to go away that same week-end. It was a lucky break, Betty!

We're glad Anne Oppenheim finally got her Panel League girls to the Union Bank and they did have lots of worrying, didn't you Anne?

GAMES MARCH 11th

Pat Alvord played the Sophomore first team to a 34-14 victory over the Junior first team on Friday, March 11. No fouls were made during the entire game, but somehow the play lacked coordination. Perhaps the excitement of the close score in the second game prompted the Seniors and the Freshmen detached from the other game. The two teams played a drawn score of 80 each, and at the end of each quarter the Seniors led by the small margin of one point. The final score was 25-23 for the Seniors much to the delight of their loyal cheer section.

Some Cash Prizes In
Essay Contest

An all-expenditure trip to Detroit, plus a total of $1,000 in cash prizes, is being offered to students in a prize competition for essays on "How Advertising Benefits the Consumer," which is now being conducted by Advertising Age, national advertising newspaper.

The contest is open to all undergraduate students in colleges and universities in the United States and Canada. It is designed to induce college men and women to give more intelligent and thoughtful thought to the functions and value of advertising in the social and economic life of the nation, and will be judged by prominent representatives of the consumer, educators, and business executives. There is no entry fee, and nothing to buy.

Essays are limited to 1,000 words, and must be mailed before midnight, April 17, 1938, to be eligible. The writer of the best essay will receive $250 in cash, plus an all-expenditure trip to Detroit, whereas his essay will be presented before the annual convention of the Advertising Federation of America.

Second prize is $100, third prize is $50, and ten honorable mentions of $10 each will also be awarded. Identical prizes will be awarded in a similar contest for high school students, which will be judged separately.

Complete details of the contest are available upon request from the Secretary, 100 East Thirty Second Street, Chicago.

Favorable Reports Result from Final Swimming Meet

Mollie Brown, W. Valentine, and Miss Hartshorn can breathe freely again, for the telegraphic swimming meet is behind them. The final meet on Wednesday, March 9, was run off as smoothly as the one on the previous week, and several of the swimmers lowered their former times. None of the times broke existing records, but they are sufficiently low to give hope for our placing in the meet. The following is the report which will be sent in as our results for the National Inter-collegiate Telegraphic Swimming Meet.

10 yard Breast Stroke
1. Augusta Straus '38, 33.8"        20 yard Free Style
1. Peg Goldsmith '40, 24.2"         2. Jessie Ashley '41, 23.7" 2. Bobbie Curtis '38, 23.8"

30 yard Back Stroke
1. Polly Frank '40, 30.2"           2. Jessie Ashley '41, 11.93" 3. Augusta Straus '38, 35.0"

100 yard Free Style
1. Polly Frank '40, 1:19.3"         2. Emmie Thompson '38, 1:28.7" 3. Augusta Straus '38, 1:58.8"

Other Relay
B. Curtis '38, L. Pagel '40, J. Ashley '41, M. Goldsmith '40, 46.5".

College-trained women have tried to be objective in a field in which objectivity is obviously at its minimum. They have not allowed themselves really to feel and have any emotions. We don't have to confuse mother love with another love, and just because we have revolted from over-sentimentality, we don't have to eliminate sentiment entirely. Mrs. Sidnie M. Grunberg, educational director of the Child Study Association of America, gives her views on mother love, promoted by the recent controversy.

Winifred Valentine
Another scholarship student who is prominent in athletics is Miss Winifred Valentine ’39, of Shelton. She is the vice president of the college athletic association. Miss Valentine plays on the Junior basketball team, and is one of a group of advanced students studying the modern dance.

Irene Kennel
The president of the Sophomore class, Miss Irene Kennel of Cleveland, was chosen as a Robinson scholar when an incoming freshman. Miss Kennel is a member of cabinet, and a member of the Student-Faculty forum.

Miriam Brooks
Miss Miriam Brooks ’40, of Windsor, also a former Robinson scholar, was recently awarded a scholarship for three months’ study at the University of Heidelberg in Germany this summer. Miss Brooks is secretary-treasurer of the German Club. She is a member of Student-Faculty forum, of the curriculum committee, and of the Outing Club board.

Winifred Valentine class, Miss Kennel is a member of the Student-Faculty forum.

Elizabeth Fielding
Miss Elizabeth Fielding ’38, of this city, who holds a scholarship, is noted among her classmates for efficiency and ingenuity. Since she has been the college postmistress, she has introduced a number of time-saving devices which make for smoother handling of the mail. As moster chairman in her junior year, Miss Fielding was in charge of the committee choosing the gift, which was given to the college by the class of ’38.

Wilhelmina Foster
The vice president of Service League, the organization which carries on the social service and religious work of the college, is Miss Wilhelmina Foster ’38, of Princeton, N. J., who was awarded a scholarship. She is in charge of organizing students to assist in community service at the B. F. Learned Mission. Miss Foster is president of the Italian club, and is a member of the Outing Club board.

Marjorie Hanson
The director of the Outing Club, Miss Marjorie Hanson ’38, of Kansas City, has held a scholarship during her entire four years at Connecticut College. Miss Hanson plans interesting ski trips, hikes and boat rides for groups of students, thus stimulating interest in out-door activity. Last June she was chosen as a Windrip scholar; she was one of four Juniors to receive the Phi Beta Kappa key at that time.
