Dr. Margaret Mead Speaks on Culture and Crowded Capacity of People

by Barbara Wasserstrom '37

A joint Senior recital was given in Palmer Auditorium on May 3. The fine pieces were well executed with a spirit of unity and friendliness. The program was presented by Miss Mead, the organist at All Souls Church, and Miss Sydney Wrightson, Director of Women's Musical Association.

The theme of the program was 'The Spirit of the Modern World.' The audience was entertained by the organ music of Miss Mead and the singing of Miss Wrightson's choir. The program consisted of several compositions by different composers, including works by Mendelssohn, Brahms, and Sullivan.

**Dear Editor:**

No one can question the quality of President Macht's last Friday evening talk. Every once in a while you seem to come somewhere near the idea that for a brief moment a quick, complete, patterned change is the best way to aim an arrow at the amazing history of the South Sea. Macht's talk was that principle: a Democratic government must consciously and directly reach out to health habits from much too close with about a million American soldiers who happened upon their island alone and left them to a complete change-over.

We have a single theme for all these, but it seems to me that if we were to pick out the most desirably way of life, and if all cultures are to consider ideas and methods, the danger of a cultural standardization would seem to present itself. All these cultures are encouraged to make a complete break with their traditional past, all cultures may be blended together into one Universal. It is that if people are not faced with a great deal of situations, they will forget that such situations can exist. It is that a complete change-over would lead to a Conventional Basic Personality Type, and this would be the result of the increasing population.

In all nations of the world, pride themselves and fight to protect their traditions, although they must also with equal vigour, cultures. We must realize that "See Free Speech"—Page 4

There are times when even the best of us wonder if it's all really worth it. For those of you who are going through this perennial problem, there is a program that may help. A man's writing club in Wisconsin is attempting to help men who are not in the best of shape. "Why Men Are Better Writers under Pressure" is being held now and a group that are more affected than others to gain back their health.
