By Sophie Mathewson

I've been extremely pleased that the students have taken a leadership role in this activity. This is a big deal all the more when you consider how very high for the classes that follow, and it will be a real home run for this class for the Class of 2007. I'm very proud of everybody.

I have been extremely pleased that the students have taken a leadership role in this activity. This is a big deal all the more when you consider how very high for the classes that follow, and it will be a real home run for this class for the Class of 2007. I'm very proud of everybody.

SML: Well, one success has been the Senior giving plan.

LB: The senior giving rate is phenomenal.

SM: What are your expectations?

LB: It's still ongoing. I've been extremely pleased that the students have taken a leadership role in this activity. This is a big deal all the more when you consider how very high for the classes that follow, and it will be a real home run for this class for the Class of 2007. I'm very proud of everybody.

SM: Has there been anything especially challenging about this class of 2007?

LB: The interactions with the students and faculty, and staff have been the best part of this job, it's been tremendous to work with the students and faculty, and staff have been the best part of this job, it's been incredible.

LB: The interactions with the students and faculty, and staff have been the best part of this job, it's been incredible.

SML: If you were to give one piece of advice to a senior who has not graduated yet, what would it be?

LB: The interactions with the students and faculty, and staff have been the best part of this job, it's been incredible.

SML: If you were to give one piece of advice to a senior who has not graduated yet, what would it be?

LB: The interactions with the students and faculty, and staff have been the best part of this job, it's been incredible.

SML: What do you think of the students that are a part of this community, certainly the students. It's just a very special group of people. It's just a very special group of people. It's just a very special group of people.
As another academic year meets its swift and bitter-sweet end, now is the time for moving out and moving on.

In a few days, the Conn campus will be drained of underclassmen. In a few more days, the Class of 2007 will conclude its collegiate experience in an extraordinarily beautiful ceremony on Harkness Green. Most of all thoughts are bent on what lies ahead. We aretypically consumed by questioning what the next week, month, year and life phase will hold.

While it is natural to focus on the immediate own, let's make a conscious effort to remember what the past year has held. In the news, Conn has been host to an unprecedented boom in environmental activism; students have rallied in unbelievable numbers, with incredible conviction to a bevy of local, national and international causes; it is widely believed that the community's vote swayed the local Congressional election; and Conn received a record number of applicants the same year its graduating class demolished the previous record for participation in the Senior Pledge Program.

Reporting the news on a weekly basis, we have an especially intimate relationship with "happenings" on campus. Still, it doesn't theneed to fill column inches to tell that this has been a historic year at Conn. The writing is on the wall.

Putting a newspaper together each week has been a beautiful and unforgettable experience. We'd like to thank everyone who gave us something incredible to write about. Transforming the energy on this campus to narrative form truly was a special privilege. Last, and most of all, we'd like to thank the staff of The College Voice. This has not been an easy year, and we are unspeakably grateful for your time and effort. Thanks again, and good luck to the Class of 2007.

-Steve and Pete

To Be Or Not To Be...

At the beginning of the A.D. 2000's, many of us thought that this day would come. It seems we could not have imagined how quickly it would arrive. Today we take part in one of the longest and largest marches in American history. This is a special day, our nation's first official holiday, observe...
When did you start writing? Was it a hobby or a calling? I have been writing seriously since I was a child. My parents always encouraged me to express myself through writing.

What was the first thing you wrote? The first thing I wrote was a short story about an adventure in a faraway land.

What goals do you have for the future? I aspire to be a published author and to have my work recognized in the literary world.
Jet, BYARETI A. SAKELLARIS
be a co-editor
how did you get
then major labels started coming at me, and I was like thanks but no thanks because people just get comfortable going, keep growing. I think I can speak for the campus."

The first sentence of the text seems to be incomplete or unclear, but it appears to be a question about music and the music industry. The text continues with a discussion about the music industry, with references to labels, music critics, and the perspective of a musician or music industry expert. The text is written in a conversational style, with occasional use of direct quotes and references to specific musicians or trends. The text touches on topics such as music distribution, the role of labels, and the music industry's response to new technologies and trends. The overall tone is informative and engaged, with a focus on providing insights into the music industry's current state and future prospects.

The text is written in a narrative style, with a focus on the music industry's history and evolution. It discusses the impact of technology on music distribution, the role of labels in the music industry, and the challenges faced by independent musicians. The text also references specific musicians and events, providing context and examples to support the arguments made. The text is well-organized, with clear sections and subsections, and uses a mix of direct quotes and narrative descriptions to convey the information.
May 5th brought with it the three-year anniversary of Florida, a day to look back at our recent past and consider our student body and disdain by many colleges across the nation, an event so unique and unexpected. It was a day to celebrate the work ethic, sportsmanship, and community of our students from Florida. They did not come for the party, the food, or the music, but they did leave with stories to tell. They leave this day with a renewed appreciation for the activities, or even the music (although this certainly adds to it). The biggest thing that makes Floralia great and memorable to me is the fact that we emerged as one solid student body in a city where many central celebrations take place. There are side parties forming on all areas of campus, celebrating together. There are no poisonings or other casualties. Students this year watched out for their friends, would not stand for others disrespecting our community, and had a safe and fun Floralia. I hope this sets the tone for years to come.

As someone who has many diverse experiences at Connecticut College, attending lectures and having brilliant professors, competing in intramural sports, and varsity sports, and holding several leadership positions, some of my fondest memories come from Floralia. It is not because of the party, the food, or the music (although this certainly adds to it). It is not because of the party, the food, or the music (although this certainly adds to it). It is the fact that we emerged as one solid student body in a city where many central celebrations take place. There are side parties forming on all areas of campus, celebrating together. There are no poisonings or other casualties. Students this year watched out for their friends, would not stand for others disrespecting our community, and had a safe and fun Floralia. I hope this sets the tone for years to come.

The weather and picture perfect campus; dividing sports teams, supporting positions, some of my fondest memories come from Floralia. They come more for the activities, or even the music (although this certainly adds to it). They leave this day with a renewed appreciation for the activities, or even the music (although this certainly adds to it). The biggest thing that makes Floralia great and memorable to me is the fact that we emerged as one solid student body in a city where many central celebrations take place. There are side parties forming on all areas of campus, celebrating together. There are no poisonings or other casualties. more, cool and collected, well spoken and aggressive in his win to will that Michael Schumacher, Off-crit-
ized for his ultra-competitive nature, Schumacher was constantly accused of cheating. He would argue that his aggressive style and determination are merely a representation of his will to win. The willingness to "bend" the rules beyond recognition has made him loved and hated alike.

The question becomes "Who's next?" The top four teams in Formula 1 are as follows: Ferrari, Williams, Renault, and McLaren. With Michael Schumacher gone as well as Ross Brawn, and Jean Todt (the three men responsible for Ferrari's dominance in the new mil-
dennium) it will be difficult for Ferrari to maintain the past achieve-
ments. Having said this, the team does have a veteran driver in Kimi Räikkönen (the Finnish speed demon) at their disposal and in Formula 1 speed is half the battle.

Last season, Ferrari picked up where they left off, eventually bringing home the 2007 season championship title with the Italian team running away with the spoils of victory. The seasons to come will be tough for the Italian team as several of their drivers are set to leave the team. However, they are just now using their skills to improve the team around them, and hopefully a birth into the top five.

NBA Playoffs

continue from page 5

Regardless of how the Camels finish in the first round, this team is still highly enter-
prising both on offense and defense. Most Camel fans have been able to improve the team overall in the team's first round of the season. As for my dream job? Well, who wouldn't want to drive at 300km/h for a few hours and some races? However, I can't see Renault being a force to be reckoned with this year.

Ferrari in the second half of the sea-
son after their controversial mas-
sembler system was declared illegal. Nevertheless, Flavio Briatore's team (which is translating to wins on the track) managed to produce 29 DNFs (Did Not Finish), with two places left for Michael Schumacher being their best results.

My take is that Ferrari and McLaren will battle it out for top honors. I can not see Renault being competitive without Alonso and Räikkönen. McLaren and Ferrari have the best drivers in Räikkönen and Alonso.

7/11 will take the F1 circuit to 17 countries, including Australia, Malaysia, Bahrain, Spain, Monaco, Canada, USA, France, Britain, Germany, Hungary, Turkey, Italy, Belgium, Japan, China, and Brazil. As for my dream job? Who wouldn't want to drive at 300km/h while getting pumped by beautiful pit-girls and globe trotting for seven months of the year across 17 nations and five continents? I know I would. In only 10 days, 8 hours, 7 minutes and 29 seconds till Melbourne, Australia.

CAMELSports
Men's and Women's Lax Rounds Out Season

BY BY NELL BURT

After suffering from the start of the season, eight game losing streak, the Camels put together a second straight win to finish the regular season. The second win in a row came after beating the visiting St. Lawrence University 15-10 in the last game of the season. The win was the Camels' third win in the last four games, as they struggled for the first month of the season. The win was a much-needed victory for the team, who were looking to build on their momentum heading into the ECAC Championships.

The game itself was a close one through the first quarter, as both teams scored only one goal each. In the second quarter, the Camels took over and scored five goals to take a 15-8 lead into halftime. In the third quarter, the Camels scored four goals to increase their lead to 19-10, and in the fourth quarter, they scored four more goals to seal the win.

The win was an important one for the Camels, who were looking to build on their momentum heading into the ECAC Championships. They will face a tough test in the tournament, as they will face a team with a winning record. However, the win was a much-needed victory for the team, who were looking to build on their momentum heading into the tournament.

Girls in Action/Women's Lax (Mitchell)

BY ERIC DEBEAR

After a surprise victory against a solid William & Mary College side, the women's lacrosse team returned home to play their season finale against Trinity College at Stilton Field. The Bantams entered the game ranked 14th in the country, but they were upended by the grinding Lady Camels who took the season's 19-14 victory. With the win, Trinity is also able to lock up #2 seed in the ECAC conference tournament. It was a hard-fought battle, but the team was able to take the edge at the expense of the giraffes from New London.

Trinity jumped out to a quick lead in the game, as they were up by 5 with a little over four minutes to go in the half. Much of this was due to the stellar play of senior attackman Lauren Malnich who scored five goals and four assists on the afternoon. Her teammate Cassandra Yanofsky helped out five assists of her own. Despite the efforts of their opponents, the Camels were able to hang tough and win the game. The win was an important one for the Camels, who were looking to build on their momentum heading into the conference tournament. They will face a tough test in the tournament, as they will face a team with a winning record. However, the win was a much-needed victory for the team, who were looking to build on their momentum heading into the tournament.
