Our "Fabulous 50th" is now a part of the Reunion Record of the College and it is hard to believe that it is all over. The memories of this happy occasion will

linger on forever . . . At the present time our class numbers exactly 100 (including the ex-members) and we had 51 classmates, with 17 husbands, return to campus for this reunion. We

believe that it was the largest 50th on record.

The whole weekend was a tremendous success. In the first place, the weather was just perfect and this contributed to our happiness and enjoyment. The reunion entertainment began with President Ames' reception for all the reuning classes in the wonderful new library courtyard and this was followed by the Alumni Banthalia Harris Pafestory. This was a very large courtyard and this was followed by the Alumni Ban-quet held in Harris Refectory. This was a very large and pleasant affair—delicious food and good camara-derie. President Ames was the speaker and made us all feel very welcome. Cassandra Goss Simonds, president of the Alumni Association, was master of ceremonies. Mr. William Griswold, Chairman of the Board of Trustees of the College, paid tribute to the three trustees who are in the Class of 1927—Sally Pithouse Becker, Janet Paine, and Helen Lehman Buttenwieser, and pre-

Janet Paine, and Helen Lehman Buttenwieser, and presented them with orchid corsages. We all are very proud of these illustrious women who have served our college

so well for so many years.

The Agnes Berkeley Leahy awards were presented by Cassandra Simonds to Helen Brogan, Class of 1952, and to Lyda Chatfield Sudduth, Class of 1927. The award is a small sterling silver Paul Revere bowl, and a suitable citation created in calligraphy. Also the recip-

Since this was also graduation weekend, there were several available simultaneous programs. The reuning classes were welcome to attend all the College affairs— Class Day, Baccalaureate, and Graduation, as well as the scheduled events geared to alumni participation. It all was very flexible and ones response was based on personal inclination. There was plenty of time just to talk and renew old friendships, as well as observe our

old college in its present day activity. Saturday noon was an all-college and reunion joint picnic on the Harris Green. Here is where all the generations gathered together and closed all the gaps in mutual enjoyment. Saturday evening we held our Class Dinner in Harris, as we were too many for Knowlton dining room. Gertrude Noyes joined us for this affair and represented our sister class of 1925. She read the following Mailgram "Dear Golden Girls, You're still 'deep down in our hearts.' All our best to you and have a grand reunion." Gretchen Snyder Francis, Reunion Chairman, read several messages and the names of classmates who could not return to reunion but sent their greetings. Barbara (Bob) Tracy Coogan gave a brief "Resume of the Resumes" mentioning many of the unusual activities and accomplishments of the class over the last fifty years. The Remembrance booklet was distributed to everyone present and will be mailed to all the other members of the class. remembered with love our fifteen deceased members. After dinner a brief Class Meeting was held and, as we had started the meal with one verse of "Now the Day is Over" we closed our fiftieth celebration by holding hands and pledging the Mizpah benediction "May the Lord watch between me and thee while we are absent one from another." Amen.

In May Karla has invited us for a picnic on her beach." In 1975 Jo made a "wonderful big trip to the Orient" and in 1976 trips to Atlanta and San Francisco which represented visits with her children. Between tripping, Jo golfs, enjoys bridge, "sews up a storm," reads, knits and plays the piano at least once a day (good for arthritic fingers). Lois (Bo) Day Allan's annual toy fair trek to Germany and Australia was interlarded with incredible experiences in remote places. I went out to the western coast of everything is so different, where I can't speak the lan-guage nor read signs. I went out to the western coast of the Nato Peninsula and also to the island of Sado. There, in hand sign language, the hotel manager of-fered to take me to see some country dancing. I was advised to wear the kimonos and coat provided by the hotel. Dressed up, I felt like a corsetted, ankle-tied seal with the additional hazard of geta on my feet. I minced my way down some stairs and into the car but nearly collapsed with laughter and frustration walking from collapsed with laughter and trustration walking from the car park to the village hall. Another funny experience was a stay in a large spa where the hotel was several floors high and built on the side of a mountain overlooking an island-filled bay of exceptional beauty. The steam baths and hot pool for all the ladies was on the top floor. I overcame my shyness and joined all the other lady guests in the hot pool. This particular pool

was circular, with a fountain in the center. Surprisingly, it revolved so that all the naked ladies basking in the hot pool could have an equal opportunity to enjoy the view of the bay through the floor length windows! Last year was the Year of the Drought. "I was lucky to live in this Thames Valley (England) where we never had our water actually cut off. This summer I have been re-designing "Fuzzy-Felt boxes and incorporating German and French in the titles. Now I am busy getting ready for the 1977 toy fairs."
