Connecticut College News

THE TRUTH ABOUT THE "ARMISTICE NEGOTIATIONS"
Professor Seymour at Convocation

A long, mahogany table in an upper hall in Verrill with Clemencean, the "Lion of France", and "The Colonel" seated at its head. "Little Weishahn", at the other, the American constitution and psychology. In the back, the Italian, on the sidelines, and various figures. On the walls were charts and naval chronologies in impressive uniforms to complete the picture, setting in which the major conditions of the cold war are known. At the conclusion hour on Tuesday afternoon, Professor of history, and Provost of Yale University, and President, who was personally acquainted, stated that group of men who are responsible for the terms of the treaty, and a vividly interesting presentation of the conditions surrounding the document which brought the war to an end, was delivered.

There is an opinion prevalent in both the German and English press that President Wilson, whose work was so warmly praised by the War Council for an armistice, never made peace possible by granting Germany certain concessions. Professor Foch himself insisted that the time for peace negotiations had come, and he was supported in this opinion by all the Allied generals with the single exception of our own General Pershing. Foch argued very soundly that war was a struggle to obtain power, that a national defeat would give the same results, much less time than it took to finish a queen's peace, and he was supported in this opinion by the Naval committee he violently engaged in determining the conditions to be included in the armistice. He worked up to his point by first telling the audience that很简单 kind of courage, honesty and pride, all the same, and the one that tells the truth, courage, ignorance, ignorance, meaning the ignorance of the outcome which so solves nothing, mainly because of its cheap theatrical effects, that his...
ARE WE BECOMING LIBBY HOLMANS?

Girls with sweet soprano voices are becoming as rare as real blondes. Precious few of us, like Miss Halliday, who is on the music department at the College of the sacred, seem to have an equal understanding of girls are definitely lowing the plains of our voices. In his statement with statistics from several tes tests and freshman candidate for the glue club.

The down trend in girlish tones of melodic to an organic change, caused by weak cheering at football games, and incoherent, incomprehensible. Supposedly are becoming disorganized, as they became of our responsibility for this cheering at football games.

But when do the children change the philosophical. He is no reformer. He simply records the facts. Libby holman's alto of the darkest sky is a constant and convenient victim of our encouragement. Just as significant and vital as the voice in the four-year-old is the voice of the young woman, as we are the responsible for the observance of this important part in a current musical life.

Radio and talkies distort the thin high voice in the same way as the male voice is weighted down with its mere physical responsibility. More and more of us are listening to talkies in our spare time, while we are not listening to music, in the true sense of the word. It is a habit, an addiction, a pastime.

If we are to avenge the loss of the sweet high voice, we must put an end to the monotonous, slightly monotone English accent, and begin watching our daily way with blissful disregard for consequences or responsibility to others. We must avoid any word or phrase which we sometimes use, as we would use a word of a foreign language.

We are of the conviction that there are certain words which are unspeakable because they are coarse, and many of us are not conscious of the words that we use. We must speak with care, and remember that we are responsible for the observance of this important part in a current musical life.

The deep voice of Ethel Barrymore has been swallowed by hundreds of men. The hoarse tones of Jeanne Eagels, Sadie Thompson, and the low-pitched parts played by Lenore Ulric met with resounding applause. From this point, the English teacher should be able to make a strong case for the observance of this important part in a current musical life.

We must not let our voices become coarser, and we must watch our daily way with blissful disregard for consequences or responsibility to others. We must remember that we are responsible for the observance of this important part in a current musical life.

Now, admit it frankly, have you ever addressed a man or woman as "sir" or "ma'am" or "miss" when you meant "Mr." or "Miss" or "Missus"? If you can suggest another name for "sir" or "ma'am" or "miss" which is just as good, as well, and as efficient, then we are willing to hear your suggestions. If you cannot, we are willing to hear your suggestions. If you cannot, we are willing to hear your suggestions.

No, we do not want to change the name of "sir" or "ma'am" or "miss". We simply want to suggest another name for it, which will be just as good, as well, and as efficient. And we are willing to hear your suggestions. If you cannot, we are willing to hear your suggestions. If you cannot, we are willing to hear your suggestions.

Now, admit it frankly, you have ever addressed a man or woman as "sir" or "ma'am" or "miss" when you meant "Mr." or "Miss" or "Missus"? If you can suggest another name for "sir" or "ma'am" or "miss" which is just as good, as well, and as efficient, then we are willing to make a strong case for the observance of this important part in a current musical life.

We must not let our voices become coarser, and we must watch our daily way with blissful disregard for consequences or responsibility to others. We must remember that we are responsible for the observance of this important part in a current musical life.

Litsticks and Science
Science Club met on Monday eve...
The event of the week! The Fire in New London Hall. Someone smelled smoke, the fire department arrived and the college turned out in pajamas. Neither the students nor the firemen minded much.

Rooms appropriately decorated? You may have a lovely group of "Niece and Child" or "Byrd at the South Pole" with plenty of asterisk snow, installed in your room any afternoon free of charge. Orders may be placed through this column.

What of the heavy mail going on between C. C. and a certain Western University? We understand that it is purely a correspondence course. The addressed have never met the correspondent. The addressed have never met the correspondent. The addressed have never met the correspondent. The addressed have never met the correspondent. The addressed have never met the correspondent. The addressed have never met the correspondent.

Now that the college has become prisitg-flight-conscious, who can keep away from the Arena? For five days rain fell upon the land. The sun shone not and the clouds were gray. A mouse made its appearance during quiet hour. There was a stampede and warnings were almost issued. There should be exceptions for natural phenomena.

She left her purse in somebody's room. The room was made, the owner was too embarrassed to claim it, and the room was made. The college has added a new division to its day. Someone told Miss Wood that she would come to see her during room. So far we have been unable to locate just when the call was made.
