# Conn Census

Vol. 49—No. 1

New London, Connecticut, Thursday, September 26, 1963

## From The Editors

Each year, it has been the custom of *ConnCensus* to extend a special welcome to new students. We welcome you with assurance. We have no doubt, since all have been, that you are also, the best class ever. As you have undoubtedly been told, you are brighter, cleverer, more articulate and taller than your predecessors. You bring with you the traditional new blood destined to relieve the iron deficiency anemia from which we, by implication, suffer.

To *ConnCensus* you are now life, new thoughts, not yet influenced by long standing college tradition and pattern. You come to us bringing with you a variety of backgrounds and experiences which may serve to jar us from our academic complacency. Those who have come before you have had their opportunity to act; many have done so. Your opportunities, however, lie ahead. You are the new, and particularly as such, you are welcomed.

To you, over one quarter of the college community, we would like to introduce ourselves. We are the weekly voice of this campus. We fathom ourselves progressive, clever, liberal and lucid. Some see us as aggressive, precocious, permissive and transparent. There is no doubt that we are controversial.

*ConnCensus* is a growing institution. Within the last year we have doubled our size, have vastly increased our audience and have won the acclaim of intelligent readers. We have covered those subjects, both on and off campus, which we think are of importance. Our features and editorials reflect the opinions of individuals concerned with the world around them, individuals who are committed to their ideas. Each week our staff produces the finest newspaper that Connecticut College has to offer. We hope that you enjoy the future editions of our paper. We hope that you will contribute to them.

The Editors
