Right to Left Opinions Given for a German Post War Peace

by Jane Bulter '46

The Senate just last week debated and acted upon a motion written by a student in the German class, the author, that we should have a German court. This should be a liberal peace, but it should be firm until this generation has been partitioned and that many after the war? Here are just what these college students are confronting them as the adults confronting us with the answers. "The sophomore class is divided as to whether we can't be soft with them. Kappel in the Economic and Political Classes.

New York Musician Will Give Concert

Thursday, Jan. 18

Miss Yelta Pees will present a harp program this Thursday evening in Palmer auditorium under the auspices of the Union of Russian War Relief. This is the second of the three concerts which will be given by the college through the Music Department. Miss Pees has well known in New York music circles and has made tours throughout the country. She has also heard over the radio.

Two New Instructors To Teach Economic Classes

For the Second Semester

Lettie Booe is the new instructor in Mrs. Chase Goodwood's class next semester. Miss Booe is recently graduated from Harvard and is now working down the continent as a duty partner. She has ridden, september and flown in the South African air force to show his motion pictures of his Africa. When invalided out of the army, he had to make a new world for himself. People at the New College, knowing his film work, suggested he come to show the real South Africa of today. Permission was sought and found, and he arrived here in May on liberty ship.

Mid-Winter Dance Plans Include Activities

For Entire Feb. 17 Weekend

Renee Fuller, Rose Rita Fitzgerald, Evelyn L. First, and Ellen Strohm. The important modern English woman authors will be featured. Her program will be postponed to another time.

Rev. W. H. Melish Will Speak Sunday

Speaking at the vesper service on Sunday, January 21, will be the associate rector of the Church of the Holy Trinity, Brooklyn, where his father has served as rector for forty years. Mr. Melish has come to this parish from a five-year pastorate in Cambridge and England, Mr. Melish has a long interest in international affairs, and especially in Soviet Russia. He is the author of many articles on Russian relations and sociological subjects appearing in The Churchman, The Witness, American Sociology, Diplomacy, and Politics in Soviet Russia Today, New Mexico and The Worker. He has spoken at innumerable public meetings and conventions.

Production Class Acts as Crew

Members of the cast include of Connecticut, members of the Miss Clegg, Miss Davis Peterson as Jane Clegg, Mr. Gill Holland as Ernest Henry Clegg, and Mr. Leo Kirshner as Mr. Morrison. Miss Janet Woodford and Mr. Owen Mahan will play the Clegg children. Jenny and Johnny; and Mr. Arthur Boulton will assume the role of the music. Miss Brower is also director of the play.

Dr. A. D. Winspear Has Pipe Dreams of Past

Tells Progress of Architectural Development

By Robert B. Reid

Dr. A. D. Winspear, former professor of art history at the University of Wisconsin, who is now teaching at the Connecticut College School for Adults in Chicago, Dr. Winspear told the students "What the Future of Liberal Education Will Be?."

But all of Dr. Winspear's talk was not mysterious or full of chimeras. Although the theme was "the pipe," he presented it as a useful thing, something that might fill a need in the college community.

"The pipe that I have," he said, "is not just a pastiche of the past, an imitation of the past. It is a pipe that has actual existence in the present."

Dr. Winspear related the story of how he began to smoke and how he continued to do so. He mentioned the different kinds of pipes that are available and how they can be used to improve one's health.

He also spoke about the history of smoking and how it has changed over time. He mentioned the different kinds of tobacco that were used in the past and how they have changed in the present.

He ended his talk by saying that the pipe was a useful tool that can be used to improve one's health and well-being. He also spoke about the different kinds of pipes that are available and how they can be used to improve one's health.

Dr. Winspear's talk was well-received by the students and they asked many questions about the pipe and its uses. The talk ended with a Q&A session, during which students were able to ask questions about the pipe and its uses.

It is her contention that Germany should be considered as a whole community, that the production of armaments must be done to maintain order. In conclusion, she says, work. The home industries should be allowed her own choice in government, but it should be subordinated to the United Nations; that the United Nations is not primarily a government, but an organization of nations, that the United Nations should be revised, but there should be no attempt at"" a German rebellion and communist sympathy. These should not be combined with the United Nations control nor permitted to interfere with the independent work of the independent countries.

Education a Prime Factor

Two of the five juniors who were asked their ideas did not want to be quoted. One of them said that education is one of the prime factors to be considered. He believes that more students should be enrolled for educational purposes and that the United Nations students should be allowed to participate entirely inside Germany. For this reason he thinks that the United Nations students should be allowed to participate in matters which are of common interest to all nations.

Further Ideas on (Continued from Page One)

Students at other colleges have been showing more interest in Germany than ever before, according to the Summer Session announcement. Requests for application blanks have reached the office from points as far away as Hawaii, Oregon, and New York. A Florida; a large number of trouble is coming from the outside world. New York women's colleges. It is expected that the Summer Session Bulletin will be available for distribution sometime in February.

Puffy Pockets Serve as CC's Packed Purses and Portfolio

by Betta Samuels '46

God blew the man who invented pocketbook or a likeness of these pretty pockets during these days, these pockets, for what better way is there to warm those hands that mittens cover than by plunging them into the cavernous recesses of the dapped gaps on either side of the pocket coat. This is taking for granted, of course, that there is a little room left in your pockets after a million and one other objects have been stuffed into them.

The number of things that fill up an ordinary pocket depends on the time that the coat is worn and also on pocket material. If the X's have been put out and at least one little note appeared in your pocket (even a disdainfully adverting memorandum), the pocket immediately becomes the recipient of the glad tidings. Rubbing the nal squash into the post office, the student ripped off the top of the envelope as she reached the door and stuffed it into her pocket. The first page is read on the way.

In conclusion Dr. Winspear said in the future America will be unified, not divided into the prejudiced groups. Also, he stated, we can look forward to an integrated world to serve universal humanity, not one class. In conclusion, he said, we will go forward with confidence, taking what is weighed balanced and correct, as it is of value in our own world, said Dr. Winspear in closing.

Winspear Says Education For Masses a Must

by Patricia McNutt '47

A presentation Tuesday afternoon, a number of us had dinner at Jane Adams with Mr. A. D. Winspear, the speaker on liberal education. Several of the girls asked what appeared to be leading questions and were apparently surprised when the speaker said that Mr. Winspear consented to salvage some of Plato, he means to cause most of the previously isolated ideas of education and start on a new basis.

This, of course, is diametrically opposite to the idea of Huxley and his belief, according to Mr. Winspear, in an integration of the humanities. "We are not, as a consequence, far superior to that of Miss Magnes' intrication. It is interesting to know that his violin is the famous "Weiler" Stradivarius, constructed by the famous violin maker at the age of eighty-nine. Both violins exhibited high technical virtuosity in the third movement. With the opening emphatic and vigorous statement of the theme in Beethoven's Grand Fugue in $flat major, Op. 133, it could be understood why this composition is so admired by the world. And the string orchestra, the best medium for this music, achieved an accumulative vitality of the theme which was captured by the Buchs Little Symphony. Particularly well done was the driving staccato notes of the third movement which contrasted to the quieter theme of the second movement.

Samuel Barber's Serenade for String Orchestra, Op. 1 with a role of equal importance, was beautifully expressed by the string instruments.

The program was the annual Leventritt award given to the New York Philharmonic Orchestra under direction of Artur Rodzinski on December 10, 1944. Therefore it was doubly interesting to watch this young man perform, and his performance left small douts as to his talent and future.

Palmer Radio Offers Variety of Subjects

The Palmer Radio program must have been presented at 6:15 p.m. Tuesdays and Thursdays and presented at 4:45 p.m. on the same days. The station will be the same, WNLC, 1490 on your radio dial. This change is effective as of January 18.

Concert

Continued From Page Three

pallnent. The first movement was based upon the interweaving of the theme, the violin, each having a role of equal importance. The second movement with broad melody and sustained mood was typical of a second movement. Here it was obvious that the ton of Mr. Beuller's violin virtuosity in the third movement.

With the opening emphatic and vigorous statement of the theme in Beethoven's Grand Fugue in $flat major, Op. 133, it could be understood why this composition is so admired by the world. And the string orchestra, the best medium for this music, achieved an accumulative vitality of the theme which was captured by the Buchs Little Symphony. Particularly well done was the driving staccato notes of the third movement which contrasted to the quieter theme of the second movement.

Samuel Barber's Serenade for String Orchestra, Op. 1 with a role of equal importance, was beautifully expressed by the string instruments.
