Rabbi Shankman Speaks At Vespers

The Rabbi Shankman of Temple Emanu-El, New Rochelle, opened the Interfaith-Month Vespers service Sunday evening, February 16, in the Aquarium Campus. Rabbi Shankman began his sermon by stating that his subject was "The Jews in a World at War."

"My subject itself," the speaker said, "indicates that there is a special aspect of this war which relates only to the Jew. Although Hitler, in 1933, charged the Jews for having unified Germany in the back, they were, in reality, only guilty for having given to mankind a religious civilization and for having given to the world the idea of justice. The Jew dreamed of Magnanimous the world and the world dreamed of the Jew. It was inevitable that the Jews should have been the first target in this war because Judaism dreamed upon Judaism, the fellowship of all men, the sanctity of man, the Sabbath day of rest, peace and life and the invincibility of human personality. The preaching of the Gospels is opened to all of the principles of Judaism."

Rabbi Shankman continued by describing how Germany was militarized twenty-five years ago. He then asked, "What would you and I have done in similar circumstances if we had not followed the Pied Piper? Let us not have too harsh a judgment of the Jew who, under the first target of this war and has suffered much."

Then the speaker told how the Jew reacted to this war. "The Jew has always suffered. He has learned to develop a philosophy of life which enables him to 'take it on the chin,' to be strong, to have a芯thoracious courage, an unrequer-

Membership In Musical Co-Operative Reaches Peak Of Seventy-Five

Dr. Charles Chakerian has announced that the membership in the new Musical Co-operative has reached seventy-five, although all reports are not in. "For a new organization in such a specialized field," he said, "the results are very gratifying."

Our shipment of records has already been doubled, and another is expected in a day or two. The day after it is in, a new order was due to the stock of the producers after the Christmas rush.

Catalogues to be used by the students in ordering records can be obtained at the campus Record Library, in Dr. Chakerian's office, Fanning 435, and in Miss Coehoe's office, Fanning 210.

Local Red Cross Prepares For Efficient Emergency Service

By Nancy Wolfe '42

Did you know that the national Red Cross supplies the wool, yarn, and other materials which are distributed by the workshop in the Chapel for British war relief? And did you know that in room 301 of the Palmer Auditorium the Red Cross is making and packing surgical dressings, under the direction of Miss. William Morgan of New London?

Maybe you are interested enough to know already that the Red Cross is conducting these two campus workshops, but I'd be willing to wager that few students know about the Disaster and War Preparedness committee, originally organized by the New London chapter of the Red Cross, in which Dr. Gerard Jenner, professor of English, and Dr. Mary McKee, professor of chemistry, are playing important roles.

Students Represent College In Inter-Collegiate Ski Meet

Thyra Magnin and Ann Storck were sent by the Connecticut College Outing Club to represent the college in a ski meet at Middlebury, Vermont, Thursday afternoon, February 13-14.

Thirty-three teams representing several countries competed in the slalom, the women’s downhill ski run in which ~21 competitors placed nineteenth. Saturday’s competition was held at the top of the slopes, a rain that produced ice on the slopes. Of the nine women’s colleges represented, the University of Canada proved the victor. Vermont won in the men’s division.

The Mountain Club of Middlebury did not let rain dampen the success of their meet. A carnival ball was organized to raise money for the expenses of the teams and entertain the spectators.

New War Phase

Recent events point toward a new phase of war, a phase, William Churchfull told the British Empire in a broadcast last week, of greater violence. Britain fears a German U-boat offensive on convoy carrying supplies, and German ships, driven through Spain against Gibraltar and through the Balkans against Greece. Factors which tend not good for the Allies are the situation in Yugoslavia wherein a conference between German officials and Yugoslavian representatives indicates pro-Nazi support and the shake-up in the Vichy cabinet which consistency might possibly pave the way for the return of pro-German Leval to the French cabinet.

Tension in the Far East seems temporarily allayed because President Roosevelt's press conference in which he minimized an impending conflict with Japan, and a like statement issued by the spokesman for the Japanese cabinet, Kei Tashio. Tension was partly due to an unfounded rumor that the Japanese government were preparing to evacuate its home from its American and British Embassies. The real issue at hand is Japan's probable thrust toward Singapore and the Dutch East Indies.

However, Italy has officially asked the United States to close its consulates at Naples and Palermo, because these cities are in the war zone and the Italian government wishes to keep all foreigners out of danger. Whether danger from enemy attack is the real reason or whether this measure is a means of cutting off sources of information is matter for speculation.

Booster Preserves Plan

Former President Hoover brought forth a plan to feed the Belgians as a test of whether or not supplies could be sent to the starving countries of Europe under Nazi domination. The German government has made no official statement about allowing the plan to go through but the British are opposed on the basis that the best way of winning the war is to prevent all food from going to Europe, thus preventing the probability of its falling into German hands.

Increased Taxation

The National Economy League proposed a 10 per cent increase in tax rates on individuals in a measure to permit the Treasury to declare war. Dr. Phoebe Morrison Presents Two Lectures On The Changing Legal Position Of Women In Society

Dr. Phoebe Morrison, research assistant with Monroe Borchard of the Yale Law school, presented two lectures on the position of women in society on Tuesday, February 17 and Wednesday, February 18 in Palmer Auditorium. In her initial lecture, "Changing Concepts of the Position of Women in the Community," Dr. Morrison explained generally the changing legal status of women since Victorian days. She devoted her second lecture, "Woman's Responsibilities to the Family and to the Community," to pointing out the more specific ways in which women's responsibilities have increased due to her changed position before the law.

In the first lecture, Dr. Morrison pointed out with representative examples from the Connecticut statute books, that the progress of women is today an inseparable factor in the prevailing laws of the state and that marriage is still the most important institution in their lives. Further, she pointed out the law as it stands today and the legal status of both husband and wife.

In her second lecture, she discussed the changes in this and other laws, Dr. Morrison emphasized that the knowledge of status is so important, as it is an important part of the legal specifications in marriage. It is also necessary that the knowledge of status is so important, as it is an important part of the legal specifications in marriage. It is also necessary that the knowledge of status is so important, as it is an important part of the legal specifications in marriage.

There are pro's that make you sad.

Such pro's are as rare as the latter.

Are but a trifling matter
