Thousand Dollar Bond Goal for Senior Women

Class Selects Drive
To Replace Artists
Of Former Benefits

The drive for contributions to Sykes Fund, sponsored annually by the Women's Association for a form of a bond drive on February 15 and 16. The goal of the Army is this year $750,000, which will pay for $100,000 in bonds. Contributions may be made in cash or in war stamps.

In the past years, the senior class has brought some noted artist to complement the art from the admission charged for the atmosphere. This year the Women's Association has given the Sykes fund. Contrary to former procedure, both conditions as they are today, it has been deemed more patriotic to forbid the appearance of an artist and, in his or her stead, to boost Uncle Sam.

Sykes fund for Student-Alumni House

Sykes fund was started in 1917 after the Armistice and is named after Sykes, first president of Connecticut college, as a memorial to him. For many years students and alumnae have contributed individual and group contributions. In 1927-28 another fund was started when a student committee created an endowment fund on a student-Alumni house principle. By vote of the alumnae, the Student Alumnus house fund combined the two combined fund, when sufficiently large, would be used for the construction of a student-Alumni house, at least one room of which would be a memorial to President Sykes. The fund now totals $15,015, and has been contributed by every class which has graduated from Connecticut college.

After this war a new building is needed. See "Sykes fund"—Page 5

First Air Waes to Be Graduated Soon

Impending mid-year graduations of Air Waes at West Point and at Texas, are the first since new regulations have been adopted which a woman enlisting in the Women's Army Corps can choose the branch in which she serves. The branch in which she will serve, were issued. Among the Waes approximately one-fourth of the college. It has been found that women in college are well up in the branches of science that may be a high degree in the Air Waes.

Air Waes Handle Various Jobs

Air Waes have shown their abilities in scores of assignments at A.A.P. training stations and air bases. In the field of science the Waes are learning the mechanics of rocket devices and aircraft instruments and airplane electrical circuits, handcrafting and photography. Some of them are Link Trainers and have been given the task of instructing the boys stationed nearby. The Waes are well prepared for the Army Air Forces both in the air and with the ground crew.

New Cat Rule Applies to Mid-term Vacation

Students are reminded that the mid-semester vacation is considered to be the newly instituted vacation cut system. The new rule reads as follows: "There shall be no absences from classes held on the two days preceding and the two days following any half day for vacation and the first two days of any semester during the regular academic year.

Students need not return home if based on the last night before classes begin again, however, will be counted as a night if not spent at college.

Rabbi S. Goldenson
First Speaker of Interfaith Month

The first speaker in the tenth annual interfaith month will be Rabbi S. Goldenson, who speaks with a light and acute voice. He is a member of the congregation Emanuel, 5th Ave. and 57th St., New York City. The change in the college calendar has necessitated some changes as it in the program of interfaith month as originally scheduled. Rabbi Goldenson, will be present here Sunday, January 30, instead of February 5. The service will be held in Harkness chapel at 7:00 p.m.

Broad Educational Background

Dr. Goldenson is a graduate of Hilprecht, where he received his degree in 1899, and the Hebrew Union college. He has served rabbinical students of the Hebrew Union college, and the Hebrew Union college, and has served as rabbinical students of the Hebrew Union college, and served as president of the central conference of American rabbis during the years 1933 to 1935.

The purpose of interfaith month is to deepen mutual understanding between Jews, Christians, and Moslems, and to make it articulate the common bonds of race and soul and social action. This purpose will follow Rabbi Goldenson's talk in the Religious Library of Harkness chapel.

President's 34th Report

The President's 34th Report of the President for 1943 has been published and copies of the pamphlet have been mailed to the parents of the students. The report includes news of the institution of a new list of faculty publications and the Undergraduate curriculum.

The opening page consists of a speech by the President, which has been read by students in several educational magazines.

On Friday, February 11, the Boston Symphony Orchestra will be led by S. Roussevitz, in a program of special music and a Disney cartoon. Plans have been made definite concerning the mid-year commencement, an announcement to be made shortly.

First Midyear Commencement

This graduation is to be the first midyear commencement in the history of the college. The exercises will be preceded by a luncheon in Freeborn house at 11:45 a.m. for the class, their parents, a few of their senior friends on campus, their housefellowships, the chairman of the departments in which they are majoring, President Schaffier and his mother, Dean Burdick and Miss Smith, and some trustees.

Serge Roussevitz

Eleven Girls Will Be Named for Feb. 14: Special Ceremony

The plans for the annual Valentine event are in progress in the program, which will be co-operatively presented, an exhibition in the field of theatrical art, a reading of poetry, a dance ritual, and an operetta.

The faculty members of the college and 76 students are the best of all the performers. The women are the best of all the performers. The students are asked to vote on the program and attend to the performances of the faculty. Suggestions should be placed in Miss Ray's box in the Information Office before March 15.

Pre-Exams Relaxation, Movies and a Cartoon

For relaxation before exams: Movies and a Disney cartoon will be shown at 9:00 p.m. on Saturday, January 30, at 7:30 p.m. on Sunday, and at 8:30 p.m. on Monday. Feature: The More the Merrier, and Joel McCrea.

Interhouse Basketball

Competition started by East, Knollerton, North

The freshman class has begun to show its prowess as a stodgy and versatile class. They were the first team at the interhouse basketball game this year, and the competition was among their most popular pastimes.

On Saturday afternoon, January 29th, East and North were found with a representative 4 on the court against 4 from the gym. The feeling was high, but there was a sudden subterfuge of getting in some extra practice and the game was dropped atop the table, after play was begun.

East House, Knollerton and North were playing when the truth became apparent that East took them. The game was over, and the boys gave up, but not before they had played. The game was won by East, 14 to nothing, and the team was ready to be challenged by any host that dare!
Dear Editor:

There I was in my pretty playpen.
Shaking my rattle again and again.
I saw that daddy thought I should talk.
While mamma tried to make me talk.

Everything was peaceful and swell.

With the jangling jangle of the door bell
Echoed and clanged in my little pink ears.
The door opened to show the world of my fears.
A thing on two legs, with two arms and a head,
But a diaper all rumpled was there instead.

Most people wear.
She was a girl from the college room.
For she looked like a refugee from the drought.
Two years before this movie was fashioned.

"Goosey," I cried as I tried to reach the sofa.

"It is an angel," thought the young man.
"Isn't it darling," she cooed with delight.
I grabbed at her ankle and took a big bite.
Pink anger!

Oh, horrors.

She dried my mouth with a big hankie
Having both card table and books.
Mom and dad left with admonishing looks.
As they departed for an evening of joy.

"They said, "Be good!"
Oh boy!"

"Come out, she said kindly tapping by my leg.
"Come out and I'll feed you a big, poisoned egg.
I hurried once or twice just to show we were friends.

But had to come out 'cause my leg only bends one way.

She opened her book to the thirtieth page.
"I'll read to you now," she said in a rage.
"And cursive, kind of my presence.

"You're in this temple of the goddess Commerce.
"We han' wait any time at this fourteenth street.

"We'll help you, lord, if it's in my leg.

A tear trickled quietly down my pink cheek.
She didn't say much more of this stuff, and I was a weak waif.
She glanced at my tears, then shouted with glee.
"It makes you unhappy! Just think of poor me!"
A seven o'clock she jumped with delight.
And started to put me to bed for the night.

When I howled she said, "Come now, be nice.
I'm still alive, the progress of the war itself.

She washed me, she washed me, she washed me.

Poor wet down hair.

But as she put on my diapers she stuck me twice.
When I howled she said, "Come now, be nice.
She didn't sing any slow, didn't think I was nice.
Just slammed the door saying, "I dare you to cry.

I was tired, I was lonely, I was sad too.

I cried "I wish my face got a shade of blue.
But that didn't.

And that is the story from my point of view.
If you were a year old, you'd feel that way too.

For she looked like a refugee from the drought.

The young man thought I should talk.

When I howled he said, "Come now, be nice.
I'm still alive, the progress of the war itself.

She washed me, she washed me, she washed me.

Poor wet down hair.

But as she put on my diapers she stuck me twice.
When I howled she said, "Come now, be nice.
She didn't sing any slow, didn't think I was nice.
Just slammed the door saying, "I dare you to cry.

Government in Operation Is School for Student Trainees

Still fairly new on the Capital Hill scene is the Government in Operation Is School for student trainees, a unique training program at the university designed to acquaint students with the workings of government agencies.

The theory behind internship is that young, college graduates who come to Washington to study the machinery of government should actually participate in government. The Briarcliff and Columbia college trainees in Government in Operation Is School are among the first to participate in this program.

An example of the work done by Government in Operation Is School trainees is the work of the American National Red Cross. The students represent the Red Cross on Capitol Hill and help to coordinate the work of the organization. The students also help to organize the Red Cross activities at the university.

One of the principal duties of students in the school is to organize and participate in the Red Cross activities on campus. The students work closely with the Red Cross chapter at the university to ensure that the activities are properly coordinated.

The Government in Operation Is School for Student Trainees provides students with valuable experiences in the field of government, and prepares them for future careers in government and public service.

Falling Trees and Sideburns Disappear in Age of Realism

The typewriter of today is a far cry from the typewriters of the past. The age of realism has brought about a revolution in the typewriter industry, and the falling trees and sideburns of the past have disappeared.

In the age of realism, typewriters are designed to be more realistic and to reflect the modern world. They are no longer decorated with falling trees and sideburns, but are instead designed to be sleek and modern.

This change in design is a reflection of the changing times. As the world becomes more realistic, so do the objects we use to reflect it. The typewriter is no exception.

New Picturization Of Salome Sought By Film Producer

Film producer Frank Ross, in his search for an actress to portray the part of Salome, is reportedly best-seller The Robe, has instituted a contest for the role of Salome. The contest is open to all actresses and is designed to find the actress who best represents the character of Salome.

Ross is seeking an actress who can bring the character of Salome to life on the screen. The actress must be able to convey the strength and beauty of Salome, and must be able to portray the character in a way that is true to the original story.

The contest is being held in the hope that a new picturization of Salome will be able to bring the story to life in a way that is true to the original text. The contest is open to all actresses, and the winner will be chosen by a panel of judges.

The contest is a reflection of the increasing interest in the story of Salome. The story of Salome has been adapted into several films, and has been a source of inspiration for many artists. The contest is designed to find an actress who can bring the story to life in a way that is true to the original text.
**Gymnastics**

by Marjorie Lawrence '45

Exam fatigue is about to overcome us. The grind of studies is starting today, and rumor hath it there will be skating on the pond, and rumor hath it there may be skiing or sliding. Should we have a snowstorm, don't forget that the A.A. has special equipment for such weather, and it may be found in the gym, the equipment, not the weather.

**Sports Managers**

The new system for electing heads of sports is under way, and nominations have been made. Elections will be completed before exam, and the new manager's names will be posted on the N.A. bulletin board.

**Badminton Tournament—Faculty Beware**

Pat Knowlton '45, Toni De Jone '47 and Nancy Tierman '46 are hot on the trail of the badminton tournament. They are approaching Mr. Cobbleidge this week and deciding when and how the faculty can best defend themselves. We suggest practice—students, how's our game? Watch the birds!

**Additional Surprises**

The eager beaver freshmen are affiliating for another barn dance. Bobbie Wadsworth '46, president of Outing club, is trying to arrange for such after the close of exams. Watch this column for definite announcements; meanwhile let's duck for theقرر, duck for the clam, duck right through that next exam!

**Home Competition**

Challenges are flying around. House games are now the order of the day, and challenges may be listed to other houses in basketball, football, badminton, and volleyball (or some other winter fun). Ruth Blanchard '45 and her house managers will arrange for such competition. Here is fair warning to all other houses: Knowlton is good, and Knowlton wants to challenge anyone. Beware!

**Prossnitz**

(Continued from Page One)

have been accustomed to, and I am very happy to have the opportunity of being in contact with school of this type, and with the girls."

Dr. Prossnitz has many hobbies but declares that she has not too much time in which to enjoy them while she is at the University. She likes classical music and says that "swinging bands are all right for a while." Tennis and swimming are two of her favorite sports, but skiing is closest to her heart, and although she would not say so, it is known that she is an excellent skier.

Dr. Prossnitz succeeds Dr. Dorothy Sessions, now engaged in public health work, as resident physician of the college.
Do You Remember Things? Try Some C.C.M. Methods for Exams by June Ritter '46

How do you remember things? Assignments, addresses, telephone numbers, messages or whatever it may be, present a problem when the time comes for the normal college student to start remembering them. Assignments probably present the simplest problem. Second-hand books prove the most trying. How do you remember these?

Assignments are no problem at all. You have a book to look up the answer in. The telephone book gets thumbed through again.

But, in remembering a message, isn’t it such a matter of remembering the addresses themselves as it is a matter of knowing where the miscellaneous pieces of scrap paper on which these addresses have been harrumphed are hiding themselves. It’s hard work remembering things on finding these elusive little scraps that have come to light yet is from a member of the class of 46. Keep loose papers in your "dictionary," says she. What a fine place this would be if we all kept scribbling down the names of things here and there.

One Shoe Off, One Shoe On

It’s hard enough to remember things in broad daylight, but when it comes to remembering things at 7:00 in the morning even before the sun is out of bed, then it becomes a real difficulty. Someone said she had one of her shoes, and when her roommates showed up for the school, she thought it was a matter to handle. Now we shall not wonder

What a fine place this would be if we all kept scribbling down the names of things here and there.

The problem of remembering things is immense, especially in view of the fact that most of us forget things at the crucial moment anyway. Removing rings, wearing unsancked buttons, stringing around fingers, writing unsealed notes, or changing what watches from one hand to another may be your answer to remembering things. It may even be stronger, but whatever it is, if it works, you’ve got something there!

Comteens Pictured and Written Up In Next Mademoiselle

Last week the college board of Mademoiselle magazine asked Bunny Ritter ‘46 to bring them to New York all the information and pictures concerning the Connecticut College Varsity Singers show which she could gather. With her were Alastair, the Concert, and with a supply of quickly made photos, Bunny made the trip to New York.

Upon her arrival, Bunny found that the feature story in Mademoiselle deals with the college shows of three schools. She was invited to see the pictures from the other schools which will be used in the write-up. Because the pictures were so many, they were to be too grey for reproduction, so instead of having to be made before Mademoiselle’s deadlines arrived.

Mr. H. R. Barnard, father of Miss Barnard of the secretarial department at college, offered his services as a photographer, and a new set of pictures were secured. These have been forwarded to Mademoiselle, and will probably be printed in the March issue of the magazine, along with excerpts to be made before Mademoiselle’s deadlines arrived.

Quimby Plays Purcell, Franck, Muffat, Brahms

At his organ recital in the chapel on Wednesday, January 26, Arthur Quimby played the following selections: Toccatas in C minor (No. 111) by Georg Muffat from the "Organus musicus organisator," Fantasie Voluntary by Henry Purcell, Fugue in A flat minor by J. S. Bach and Chorale No. 1 in E major by C. P. E. Bach.

FLOWERS TELEGRAPHED
Caught on Campus

Beefie Pfohl '44 announced about a week ago that Miss Tuvu, one of the bridesmaids at the wedding, the Dean replied, "How do you expect me to get ready so soon?"

Miss Tuvu contracted a serious cold, which caused her to give her classes cuts on Monday. On account of being Miss Tuvu, she is feeling not ill enough to give her students cuts, her Benny (English 223-224 in the catalogue) became particularly worried. They discovered that she was in the infirmary and sent her some flowers with the following note attached.

As a note of explanation, men of letters studied in this course in cubic some of the names used in this epistle. Find the names. Best wishes for a speedy Mertonius, hope you'll be Benny with this soon. T.S. We miss you.

The "Nearest Trick of the Week," as the New Yorker might say, is the case of two seniors who got their suitcases mixed up between them last weekend. Mary Staber's was packed and ready to go to New York on Monday and Perry Martin's was packed with notes, textbooks and blue jeans to go home so she could study for her exam. The whole thing turned up shortly. Oddly enough, the New Yorker survived and Perry's "general" equipment suitcase was on its way to New York when the "general" equipment was discarded. Just so you can relax, we'll tell you that Staber packed another suitcase for New York on Monday to be sent out by one to Boston for Miss Martin.

Another engagement we seem to have forgotten. It occurred during Christmas vacation. Carolyn Rath '46 has received her ring and announced her engagement to Ensign Richard Frakoil, U.S. N. R., who is stationed at Pensacola, Florida as a Naval and Corp instructor.
