State Traffic Commission Approves Traffic Light For Mohegan Ave. Entrance

Mr. Corbin Lyman, Connecticut College business manager, said Thursday that the State Traffic Commission has approved the installation of "some kind of traffic light" at the college entrance.

"We expect the light will be installed within the next few weeks," he said, noting that the specific type of light will depend upon the suggestion of the traffic engineer.

The Connecticut College administration requested that a traffic light be placed in this location in November 1964. The application had to be approved by the City of New London, the State Highway Department and the State Traffic Commission. Mr. Lyman said it appeared that the present time, that the city and the state will share the cost of the light.

When asked about the possibility of a cut walk or tunnel for crossing Mohegan Avenue, Mr. Lyman replied that he could not make a statement about the future. He said he feels certain, however, that "a traffic light is the best way to cope with the situation at the present time."

The comments made last week by a member of the mathematics department interested faculty interested in the Mohegan Avenue situation.

Mr. Ernest Schlesinger, associate professor of mathematics, who lives on Mohegan Avenue, said the best possible situation would be a series of traffic lights synchronized to keep the speed of traffic under control.

"A single light, activated by pedestrians, might either be ignored or tend to give pedestrians a false sense of security," he said. Residents, he continued, have long feared that a speding cut might jump the curb.

He added, however, that the problem concerns not only pedestrians but also residents of Mohegan Avenue and the side streets. These people often experience difficulty in coping in the flow of traffic.

Consequently, he said, the solution lies not in mere police patrol but rather in effective twenty-four hour protection.

A recent Conn Census survey revealed a number of facts concerning the amount of student pedestrian traffic in area.

Betty Braly, house president of Vinal Cottage, revealed that the 13 students living in this house from Mohegan Avenue between six and twelve times per day. These are, in addition, 50 students enrolled in applied music courses.

Mr. William Dale, Associate Professor of Music, pointed out that many of these student trips occur at dusk or after dark. The building is open three nights a week until 9:15 p.m. for listening courses.

Mr. Dale stressed the need for traffic lights on Mohegan Avenue in front of Emily Abbey, as well as at the top of Desert Street, instead of at the entrance to the campus.

Mr. Dale also pointed out that the absence of sidewalks on the east side of Mohegan Avenue (Continued on Page 2, Col. 5)

Dean of Cambridge Theological School
To Be Speaker At Sunday Vespers

Dr. John B. Coburn, D.D., dean of the Episcopal Theological School, Cambridge, Massachusetts will speak at a vesper service of Evening on Sunday, February 27 at 7:00 p.m. in the College Chapel.

The topic of Dr. Coburn's address will be "A Model and the Cambridge Chapel." The St. James Episcopal Church Choir of New London, directed by Mrs. Beatrice Fisk, will provide music for the service.

Dr. Coburn received his A.B. degree in politics with high honors from Princeton University and his M.A. and Ph.D. degrees in English from Harvard University.

Colloquium, Seminars, Panels To Highlight
Connecticut's Second Conn-Quest Weekend

Several students living in Emily Abbey House stated that each of the 25 students living there makes 35 or more trips per day between the dorm and the main campus.

A statistical survey made of student traffic between main campus and Hall House has revealed that the 78 students enrolled in Music 101 could make as many as 624 crossings of Mohegan Avenue during the week.

That is, if every one of these students attended all three weekly meetings of the class and made one trip to the music building to pick up recordings, the above total would be accurate in individual crossings of the street.

Registration in the Music Department's courses, housed in Holmes Hall, totals 178 girls in eight classes. There are, in addition, 50 students enrolled in applied music courses.

Mr. William Dale, Associate Professor of Music, pointed out that many of these student trips occur at dusk or after dark. The building is open three nights a week until 9:15 p.m. for listening courses.

Students, faculty, and three distinguished outside speakers will gather at Connecticut College this weekend, February 26-27, for a Conn-QUEST weekend, the topic "Can Imagination Survive in an Over-Mechanized Society?"

CONN-QUEST speakers Dr. Henry Margenau, Dr. B. F. Skinner, and Dr. Arthur J. Vidich will head the opening colloquium Saturday afternoon at 2:00 p.m. in Palmer Auditorium.

Dr. Margenau, Eugene Higgins Professor of physics and natural philosophy at Yale University, is the author of Open Vistas and is a member of the Institute for Advanced Study.

Dr. Skinner, Edgar Pierce Professor of psychology at Harvard University, is an acknowledged authority on the behavior of animals. Experimentation with pigeons and rats has revealed a number of facts concerning the mind's ability to shape their own destinies. In fact, in an experiment conducted by Mr. Dale, a pigeon was able to learn to "read" the printed word, "Pigeon," by means of a member of the mathematics department.

Dr. Bower Publishes Mathematics Textbook
Designed to Appeal to Liberal Arts Student

Introduction to Mathematical Thought by Professor John Ellen Bower, Chairman of the Mathematics Department, was published in 1964 and is a standard text for mathematics courses. In 1963 a new semester of work at the University of Chicago allowed Professor Bower further experimentation with math thought as subject matter for courses.

"I think one of the most significant developments in the field of mathematics in recent years is the realization that mathematics is not simply a collection of abstract ideas, but rather a coherent and unified body of knowledge," Dr. Bower said in an interview.

"Mathematics is not merely a tool for solving problems, but rather a language that can be used to express and understand the world around us. Mathematics is not simply a bunch of facts and theorems, but rather a way of thinking about the world. Mathematics is not simply a set of rules and procedures, but rather a way of understanding the world. Mathematics is not simply a set of symbols and equations, but rather a way of understanding the world. Mathematics is not simply a set of concepts and theorems, but rather a way of understanding the world. Mathematics is not simply a set of problems and solutions, but rather a way of understanding the world. Mathematics is not simply a set of results and conclusions, but rather a way of understanding the world. Mathematics is not simply a set of ideas and concepts, but rather a way of understanding the world. Mathematics is not simply a set of strategies and techniques, but rather a way of understanding the world. Mathematics is not simply a set of tools and methods, but rather a way of understanding the world. Mathematics is not simply a set of problems and solutions, but rather a way of understanding the world. Mathematics is not simply a set of results and conclusions, but rather a way of understanding the world. Mathematics is not simply a set of ideas and concepts, but rather a way of understanding the world. Mathematics is not simply a set of strategies and techniques, but rather a way of understanding the world. Mathematics is not simply a set of tools and methods, but rather a way of understanding the world. Mathematics is not simply a set of problems and solutions, but rather a way of understanding the world. Mathematics is not simply a set of results and conclusions, but rather a way of understanding the world. Mathematics is not simply a set of ideas and concepts, but rather a way of understanding the world. Mathematics is not simply a set of strategies and techniques, but rather a way of understanding the world. Campus Interest Heightens As Student Government Elections Approach

Student Government elections for the 1966-67 academic year will be held February 24, 8:00 a.m. to 3:30 p.m., in all dorms. The election will be a series of district voting, and all candidates for Student Government positions will be present at their district polling place on election day, February 24, 8:00 a.m. to 3:30 p.m., at the Student Center. District voting on election day will be attended by all campus residents. Voting will be held in all dormitories on election day, except for the chapel. The chapel will be open from 8:00 a.m. to 3:30 p.m., and ballots will be distributed at the Student Center. Voting will be held in all dormitories on election day, except for the chapel. The chapel will be open from 8:00 a.m. to 3:30 p.m., and ballots will be distributed at the Student Center.

Here are the candidates for the various positions:

**Presidential:**
- **President:** Carol Friedmao, an English major from Dallas, Texas. She has served as Junior Class President in the past and is an active member of the Student Senate. She has a strong background in government and public relations.
- **Vice President:** Ginger Nehring, a business major from Colorado. She has served as Junior Class President for the past year and is a member of the Student Senate. She is an active member of the Student Senate and has a strong background in government and public relations.

**Class Representatives:**
- **Freshman:** Sue Endahl, an English major from North Haven, Conn. She has served on Representations, the paper of Grace Smith the past year and is a member of the Student Senate. She is an active member of the Student Senate and has a strong background in government and public relations.
- **Sophomore:** Suzie Zobel, an English major from East Orange, N.J. She has served on Representations, the paper of Grace Smith the past year and is a member of the Student Senate. She is an active member of the Student Senate and has a strong background in government and public relations.
- **Junior:** Jade Schappals, a Russian major from Nashua, N.H. She has served on Representations, the paper of Grace Smith the past year and is a member of the Student Senate. She is an active member of the Student Senate and has a strong background in government and public relations.
- **Senior:** Dorec Hardy, a Government major, is an active member of the Student Senate. She has served on Representations, the paper of Grace Smith the past year and is a member of the Student Senate. She is an active member of the Student Senate and has a strong background in government and public relations.

**Executive Assistant:**
- **Executive Assistant:** Cindy Silva, a sociology major from Maplewood, New Jersey. She has served as the President of the Student Senate for the past year and is a member of the Student Senate. She is an active member of the Student Senate and has a strong background in government and public relations.

**Speaker of the House:**
- **Speaker of the House:** Diane Cole.

**Student Government elections**

The election will be held on election day, February 24, 8:00 a.m. to 3:30 p.m., in all dormitories. The election will be conducted by Ballot Box, a student organization that distributes ballots to all campus residents. The ballots will be distributed at the Student Center. The election will be held in all dormitories on election day, except for the chapel. The chapel will be open from 8:00 a.m. to 3:30 p.m., and ballots will be distributed at the Student Center. The election will be held in all dormitories on election day, except for the chapel. The chapel will be open from 8:00 a.m. to 3:30 p.m., and ballots will be distributed at the Student Center. The election will be held in all dormitories on election day, except for the chapel. The chapel will be open from 8:00 a.m. to 3:30 p.m., and ballots will be distributed at the Student Center.
Winter Weekend Snows Another... Were You There?

"Of course I can walk... Fund drive needs a lift - new methods of raising funds are needed."

Don't Forget Student Government Panel Wednesday

RELIGIOUS FELLOWSHIP:

Muffin Marshall

"This College ought to have a chaplain, someone whose main duty would be to run chapel activities, with a lower responsibility to teach. The chaplain would be available for informal consultation and discussion with any girl on a purely person-to-person basis, with no red tape involved. Because of its instrumental and vital position in the enactment and execution of laws regarding the chapel and the religious life of the campus, I strongly recommend that Religious Fellowship retain its seat on the Student Government Cabinet as a voting member."

Carolyn Yeaton, a Child Development major from Barrington, New Hampshire, is serving presently as Junior Honor Council president.

Her campus role, in addition to work chairman last year and as team sports coordinator of A.A. A., is serving as team sports coordinator of the Athletic Association. She was also Service League rep, sophomore year and has worked at Learned House both years. Liz Gaynor is a psychology major from Owings Mills, Maryland. She has been dorm rep, and Secretary-Treasurer of Service League.

"The function of the president of any organization is administrative. It is her job to notify her members of events. This year, while Service League is in the midst of re-organization, the job of the president is even more important. Service League has its fingers in many pies, some of them not appropriate for a Service Club. At the same time, there are other worthwhile projects which can feasibly be coordinated under the direction of Service League which are not at present. In addition, the Community Fund drive needs a lift - new methods of raising funds are needed."

Heather Woods, a Botany major from Wellesley Hills, Massachusetts, is serving presently as Junior Honor Court president.

"I would like to see our house councils, which now carry little responsibility, take over the consideration and punishment of small infractions such as lateness. This would bring Honor Court closer contact with the dorms and make the student body more aware of the workings of Honor Court."

There is also a need for reorganization in our rules. Rather than delivering every move a girl can make, let's cut down the rules and leave some decisions up to the good judgment of each individual."

Winter Weekend? This is a "Heat Wave!"
Students, Fanning Stage Play Extras in Summer Filming

By Jane Collingham

Hollywood came to New Lon- don this summer when, United Artists, Inc., filmed the movie version of Mary McCarty's novel on the Col-
egem. campus.

The College's summer staff ran the film, which will be shown in Palm Auditorium on March 3 at 4:15 and 8:00 p.m.

The players who played the roles of the now infamous Vassar girls included Candy Berger and Mary Knight. They appeared on the set in black make-up, wearing slacks and looking very much like the typical Conn. girl. The starlets, however, were a bit nervous at first and turned to the make-up men and attendants for reassurance.

The Vassar scenes were taken at Knowles' dorms, the Winged Victory statue, and the dorm scenes were taken at Knowles. In the dorms and art history lecture will be shown Conn. class rooms.

The Conn. campus, staff and students were exposed to the program and culture-the basic concept of the film's effort to generate greater campus interest in the movie. "There are some primary issues involved in these elections," Tousi said. "We hope that this panel will bring them out."

"For instance, what is true student representation? Why does student government exist at all? Is the Honor Code working? Should it be revised or thrown out altogether? Should some provisions be changed? What about cars on campus?"

"These matters are often ignored in the student government. We hope to deal with them."

Viet Nam Nam Symposium

By Didera Didiell

Representing the conservative side of American foreign policy at the Viet Nam Symposium was Mr. Moser, a staunch supporter of Diem. At the Tuesday night in Palmer Auditorium, Moser was in attendance to argue for the "status quo" position, which he attempted to counter with the North Viet Nam Communist infiltrators in South Viet Nam. These infiltrators established Viet Cong forces which, in 1959, subdued the Diem regime. Consequently, in 1964, the U.S. was faced with the decision to continue or withdraw. Moser's arguments were based on the need for a consistent foreign policy, the free elections that were to be held in South Viet Nam, and the desire to overthrow the Diem regime. Both Miss Civi and Mr. Moser agreed that the pursuit of the "anti-status quo" position, according to the liberals, would enable them to do so.

The future. Under the present ister Ngo Dinh Diem, stalled by trying to re-establish the status quo that Mr. Nicolaus pointed out that Communist aggression rather than poverty and feudalism. Mr. Moser pointed out that the French also devised the Viet Nam the privilege of electing their own officials in a demo-critique process that had been the custom since the 15th century. The French finally withdrew in the conference of nations, including the U.S. France, and Russia, met in Geneva to decide the fate of Viet Nam. If the terms agreed upon were that all foreign troops were to be withdrawn from Viet Nam, and that free elections were to be held in 1958. These elections were never held because of U.S. inter-ference. All of North Viet Nam and 60 per cent of South Viet Nam was Communist that had been the United States argued that if the people voted in a Communist regime, then the elections were not really "free". In addition, the United States didn't support the withdrawal of troops from the area, and refused to do so. The Administration wanted to withdraw to avoid creating a coalition capable of re-starting a military situation in South Viet Nam, which would in turn be able to restore a non-communist government, even though the people were against it. The Viet Minh in control. The U.S., as a result, set up a puppet regime under Prime Min-ister Ngo Dinh Diem, drafted by the registrar of that cemetery. (Continued from Col. 3)

Far East House

Frances - From June 17 to July 20 in Paris at the Cite Universitaire, a center for students from all parts of the world, Modern French Literature, Art, Philosophy taught in English, French Language taught in French by Sarah Lawrence College professors at 9 a.m. to 3 p.m., except Sunday. Board, room, tuition, and two excursions. $700.00.

For information and applications write: SARAH LAWRENCE COLLEGE, BRONXVILLE, NEW YORK 10709

Deadline Date: MAY 1, 1966

Creek Tour

After inquire about the tour of Crete and the Greek Islands following the summer sessions - July 30 - August 12. Arriving by ship from Venice and return.

$410.00.

Poet Ruby Zagoren "43 To Autograph Her Book

An autographing party will be held for Ruby Zagoren "43 in the bookshop Friday afternoon, March 25, from 4 to 5 in honor of the publishing of her book of verse, NEW ENGLAND Sampler. Published by the Golden Quill Press, the book's dedication reads: "To Dr. Gerald E. Jensen, a genius, scholar, inspired teacher," (Dr. Jensen's spin of service in the English Department of Conn- cut College lasted 30 years from 1918 when he came as an instruc- tor to 1948 when he retired at a full professor.)

Ruby Zagoren is a member of the editorial board of the Alhambra News. She has been writing since the age of 9, as a newspaper re- porter, feature writer, and poet. She now resides in Torrington, Connecticut, with her husband and two children.

ConQuest

(Continued from Page 1, Col. 5)

A special registration for Conn-quest is expected to at- tend the colloquium, the banquet, seminars, entertainment, the stu- dent panel and lunch on Sunday.

Dianita Dunn and Jo Ann Hass, co-chairs of Conn-quest, anticipate "a successful conference with three excellent speakers and dynamic, active participation. We hope that the events of Conn-quest weekend will result in worthwhile discussion, and, more than that, tangible action and re-action."
