ANTI-WAR CONFERENCE IS RESULT OF SMITH SESSION

CONN. COLLEGE FACULTY GIVE THEIR VARIOUS OPINIONS ON WAR

DR. H. W. LAWRENCE REVEALS HOW NOT TO AVOID A WAR

The faculty have expressed the following opinions on war:
- "The United States of America is a mature and a powerful nation. It is now in the act of building an adequate navy. It has world-wide political and economic interests. It deals justly with all nations, and there is every reason why we should demand justice from all. We must defend our national honor and the rightful rights of our citizens—their lives and their property—anywhere in the world. Let us not retreat, for the coward, from exercising our universally admitted right to travel unmolested on the high seas, and to trade with any neutral country, however adversely it may trade the effects of neighboring countries at war. If any belligerent nation attempts to deny us these rights, let us courageously defend them with all our military might. If any country shall claim exclusive rights in the exploitation of China, for instance,

C. C. HOLDS SPECIAL CHAPEL SERVICES DURING THE WEEK

An anti-war conference is being held at Connecticut this week, and a special service will be held at nine other colleges throughout the country at the same time. The anti-war conference movement was begun by the inter-collegiate war meeting at Smith College recently. The following article is pertinent to the conference, presenting one of the many points of view which will be presented.

The issue of a campaign against war must be clear-cut. It should be against war; it should not include us as essential collaborators plans to alter the present type of civilization. These things may or may not be desirable; but they are certainly not easy and not difficult. Their inclusion in a drive for peace may well antagonize or discourage sincere advocates of the outlawry of war.

War is largely the outcome of fear; fear leads to hate; hate leads to war; war brings its own private gain.

As a result of these conferences, the faculty have expressed the following opinions on war:

NEW YORK PROFESSOR TALKS ON EDUCATION IN KNOWLT, FRIDAY

MILLER FROM COLUMBIA STRESSES NEEDS FOR CHANGE Socially

Professor Clyde R. Miller of Teachers’ College, Columbia, spoke Friday evening in Knowlt on the topic "The Responsibilities of Colleges for Social Change." Alice Galante, president of Education Club, introduced him.

A meeting of the Progressive Education Association and the National Education Association’s Department of Supervintendence was held in Cleveland on April 7. As a result of this conference, Professor Miller brought out the importance of proclaiming “the imperative need for a substitution of a plan of cooperation for the present economic anarchy.” The schools and colleges must lay the foundation of this new organization, because it is only through educators and intelligently trained citizens that we can hope to develop a private capitalism for private gain.

EDITORIAL
Carrying although Easter is past the idea of newness and freshness is, a synonymous with the Easter time is still felt. It is the custom at Connecticut College and of various colleges of the various student organizations to assume charge after the Easter vacations. By now various officers have been officially installed and have begun to carry on the work of their predecessors.

These new leaders come with fresh ideas which they want to incorporate with former policies to make their respective organizations more effective. The small group cannot foster new ideas by itself alone, however. The support of the student body as a whole is needed.

Recently President Blunt stressed the importance and worth of officers for the college. “If it lapsed for one day,” she said, “it would have to start up again.” The faculty respect the officers and help in every way possible. We, the students, likewise heartily approve of such a governing organization. We have chosen the various officers to represent our ideas as a student body. We do not live up to our duty as students unless we uphold ourselves as a group and do our share in present ideas, and unless we live up to the rules we must realize it is not of the work that is the object of such a movement. which does not en-croach on the rights and privileges of any class of individuals. When we pause to consider whom it is we hear of most frequently in our newspapers, we must remember that the majority of the working class, the constructive movement, which does not en-croach on the rights and privileges of any class of individuals.

The college students of today are the leaders of tomorrow, so we are told. It is, therefore, the sacred duty of the students to study the facts as they exist, to decide upon a definite course of action, and to pursue it regard- less of public or personal pressure. You ask justly, “What is being done?”

Throughout the United States, interested college stu-dents, irrespective of political party affiliations, are working up a movement of the year. Read the Preamble and Resolutions of the Connecticut Valley Student Con-vention Against War. These resolu-tions are a beginning. If each student in Connecticut College took this movement to heart, swept out of the lethargy that envelops us of the whole, the better our condition heartily, sincerely, resolved to fight against the advent of an...

Speaker of the House, Josephine Merrick; and the six new Honor Court judges. The speakers will explain their intention to uphold the oaths of their respective offices. Harriette Webster then received from President Blunt the gavel, symbol of authority and influence.

President Blunt spoke of the absolute necessity for Student Government at this college. This form of legislation is essential in all respects. Its main interest is in making the student as an officer or merely as a member, and the sense of responsibility, pride, and devotion is inculcated. Along with such a community make for good citizenship not only here but everywhere. It is therefore the duty of officers and those of whom the officers are representatives to do all in their power to uphold such a fine institution as Student Government and to make Connecticut College even greater.

ART SOCIETY CAVES BRAWNS “REQUIEM” ON TUESDAY, APRIL 10

A large audience gathered in the auditorium of the Second Congregational Church on April 10 to hear Brahms' Requiem given by the New London Art Society under the direction of Mr. Lambdin of the Boston Symphony. The choruses assisted by soloists from New York, Margaret Olsen, soprano and Pauline Misic, contralto. Last year at this time the Requiem was given by the same group with a few changes this year. As before, the music, though difficult to sing, was presented admirably by both choruses and soloists, and was considered a “brilliant rendition.”

The following students and faculty members from C. C. partici- pated: Rev. Mr. Lambdin, Rev. F. E. Johnson, Winifred Burroughs, Mildred Waghorn, Dean Burdick and Dr. Laubenstein.

On Monday, April 9, in the regular Music Appreciation hour, Dr. Erb spoke on Brahms and the music which led to severals from the oratorio. People from town and faculty members attended the class as well.

C. C. TO BE REPRESENTED IN INTERCOLLEGIATE ITALIAN READING

Edith Canestrari, 34, and Marion Anello, 33, will represent the college at Intercollegiate Italian Reading to be held at Columbia University on Saturday under the auspices of the Columbia Students for Rome. They will be accompanied by Mrs. Leona S. Grotta. The meeting is designated as "La Sarata della Poesia Italiana" and is attended by students from colleges all over the country who will read and recite selections from the Italian classics.

During their stay in New York, Miss Canestrari and Miss Anello will attend the reception given in honor of Miss Margherita Sartori, contemporary Italian author who has recently come to America as the guest of Casa Italiana to deliver a series of lectures in this country.

STATEMENT OF SMITH COLLEGE NATIONAL CHAMBER ORCHESTRA

Most Editors of the College Press are by now cognizant of the recent attack launched against student liberalism by certain Harvard students. The headlines "Communists invading U. S. Schools" and "Reds Launch Drive to Win U. S. Youth" are sufficiently indicative of the alarming nature of these articles by Ralph Easley of the notorious National Civic Federation, which appeared in the February 25 issues of the New York Amsterdam and Boston Sunday Advertiser, and in subsequent issues of the Hearst syndicate.

The truly alarming fact of the matter is that the Eastay articles (Continued from page 1, column 3)

The speaker at the Vesper service on Sunday will be Professor Henry T. Tweedy of Yale Divinity School. Dr. Tweedy has on previous occasions addressed Lenten audiences in this city, and for a number of years has been an annual visitor to the college. Finishing his graduate work in Yale University, he continued his theological studies at Union Theological Seminary, and in the University of Berlin. He was later granted the honorary degree of D. D. from Lebanon Valley College. He has served pastorates in Utica, N. Y., and in Bridgeport, and since 1909 has been professor of practical theolo- gy in Yale Divinity School.

He is joint author of Training the Devotional Life, Religion and the War, Making War, Training in the School and Home, and is editor of the King's Highway series. He is also much in demand at youth meetings and conferences. His topic on Sunday will be "Some Modern Superstitions and Their Cure." The service is at 7:30 P. M.

BROWN POLL ON WAR IS SUBMITTED

The following is the Brown Poll which is being submitted to the students here:

1. Immediate adherence of the United States to the League of Nations.
2. National and Internal control of all armaments.
3. The severance of commercial relations with belligerents.

The entire anti-movement here is a part of a wide-spread attempt in many New England colleges to have the students pronounced. Some of the speakers to be heard at other colleges are Senator Nye, Devere Allen and Northam, Atwood, Wood of Springfield College; Senator Nye at Amherst. It is hoped that with such a youth movement people will become actively interested and perhaps even厌恶 another war.

OPINIONS ON WAR

We cannot do away with war until we face the facts and do away with the causes. The causes are neither inherent nor inevitable—but preventable. Only Human Nature stands in the way.

Dr. Morris.

... I do not approve of war and believe that this can be avoided in any intelligent society. I am heartily in favor of peace movements, but find some of them lacking in any practical grasp of political or psychological realities.

William A. Hunt.

During the World War the health of the nations involved suffered seriously. Disorders such as tuberculosis, deficiency diseases, malnutrition and shell shock resulted from the strain which war and its accompanying effects put upon us. The disturbances thus created have affected the fitness of people. Any effort to expunge war and its accompaniments must be supported and not undermined by our student demonstration.

Dr. Schweitzer.

...Born in Alsace, 1875, of purely German parents, Dr. Schweitzer, physically and mentally, symbolized the typical Teutonic-possessing health of a superior quality and that brilliance of mind which has fostered the development of science and culture. This man was energetic beyond all normal standards and just as versatile. His genius was unquenched. His works range from the composition and the recital of organ music, treatises and lectures on philosophy and theology to penning the most humane, the most rich, vibrant personality of this century.

The whole matter is a warning to one conclusion: WE MUST HAVE NO MORE WARS.

National Student League

The American public mind. It is alarming to compare the activity of the Hearst newspapers and its effect with the weak and negligible effects of passive, de-tended student demonstration.

Dr. Easley.

...It is particularly opportune that these "red scare" articles be brought to the attention of campuses during Student Anti-War Week. It is urgent that the anti-war demonstrations be supported by large numbers of students. Particular appeal is made to the large number of students who are opposed to war, but are not intending to cooperate in anti-war demonstrations. Sincere anti-war convictions are of little use so long as they remain detached and passive.

To believe otherwise is an academic illusion. Well-meaning idealism has been known to play a negative, a destructive part in history.

Miss Reynolds.

...This is a more over-dramatic, alarmist article addressed to the students. The cited Hearst articles are only a mild example of the type of文章 which may be expected to be working against us in the near future. This article is addressed to many students as will be affected by the next war, the imminence of which is universally recognized.

Faculty Gives Opinions On War
(Concluded from page 5, column 1)

War is possible because exploiting interests are always able to secure the cooperation of those whom they exploit. It can be expected to recur as long as those who oppose it are disorganized by their lack of common emotional or religious ideas.

Miss Edith Ayres.

I am unalterably opposed to war under any circumstances.

Miss Catherine Oakes.

I am a pacifist.

Dr. Gerard E. Jensen.

I am willing to oppose war.

Miss Serena Hall.

I believe in peace as opposed to war. Just because it is easier to not do all we can intelligently, peace propaganda is no reason for equal anti-war enthusiasm with war propaganda than war. Just because it is easier to make people fighting mad with reality! If the double directions of educat-

list to the medical care, experiment-

I favor any movement which will lead toward dispensing of the possibility of future wars. I urge international understanding and international-mindedness. Previously to the last war, I noted that there were many professional pacifists who changed their views when war was declared. It is against this changing attitude that peace movements should be directed if they are to be of any actual value.

Miss Cary.

If our young generation would only realize how much the future of our civilization depends upon their devotion to the cause of peace and their persevering efforts to bring this idea into reality!

Hanna Haffersrlnk.

Anti-war sentiment needs vigorous expression and definite statement if it is to do something more than a diffused feeling chiefly notable for its ineffectiveness. Here is an opportunity to crystallize college attitudes against war.

books, and payment for his organ recitals and lectures. Dr. Schweitzer established a number of hospitals in the Congo.

For a long time he has labored among the natives, returning to Europe every three years to give organ recitals, amidst the acclamations of all the Continent. A few of the natives appreciate his work. But for the most part, his efforts are rewarded only by thoughtlessness, carelessness to the point of destruction and uncooperativeness with regard to the checking of disease. Dr. Schweitzer does not seek the applause, the gratitude of the natives. He treats them kindly, sympathizing with their superstitions, their taboos and their fetishes. He does not preach, as do the missionaries, against polygamy and drunkenness. He has not pretended as many missionaries have, to break down the entire social caste of the natives. Gradually they are beginning to love him, as a true and understanding friend. His patience with them is unflagging. Ceaselessly he works for the good of the African community. His days are given entirely to the medical care, experimentation, and the playing of Bach. He is fond of saying that to play Bach beautifully, one must know peace and composer those things he has found, in the heart of Africa.

Dr. Schweitzer is a man who "followed Christ." Few have done more than he to benefit the physical existence of humankind beings. Spiritually, Dr. Schweitzer has tried to instill in the hearts of the African natives a theory of his own: "That in spite of the apparent disease, hatred,
