DISCUSSES WOMAN'S CONTRIBUTION TO POLITICS.

On Tuesday, October 18th, Mrs. Noel Brown, introduced as speaker of the Convocation period, Mrs. Raymond Brown, Member of The Woman Culture, Mrs. Brown began her address on "Woman's Best Contribution to Citizenship" by speaking of the new force which has been set free in our country since the ratification of the nineteenth amendment. The speaker emphasized the point that although women cannot bring the millennium, they do bring it into the world with a joy of which they will see finer. At the present time women are shy because they feel knowledge of history and political situations. Nevertheless, they are bringing to the task of helping in the government of the country some qualifications which men possess in a much smaller measure. For instance, women display more common sense and give more attention to detail than do men. Also, women are thrifty. To quote Mrs. Brown, "When you have money going to be spent, it shall be spent in the right way." Moreover, as she pointed out, women have more leisure time than men and of this very fact, it will not be long before the men will be coming to the women for information about their political problems. If we have the courage to vote as our consciences dictate, we will bring an invaluable contribution to our country.

Mrs. Brown stated emphatically that no woman has any excuse for saying that she does not find government interesting. Women are the person most personal affairs any man (or woman) has, and she says she has no interest in her child's homework, but she is anxious to find out who will give her a job, how much to expect, and where she can work. This is why she urged Mrs. Brown, "Don't be led. It is the best contribution we can make to our national life.

THE SOPHOMORE CABARET.

There was the spot-light, the smooth, polished floor in the center, surrounded by tables and chairs, and a large audience, all of which gave the effect that this was Freshman night; the tall, good-looking waiter; all the atmosphere of a cabaret. And the entertainment—well, there is just about everything from our own last year's musical comedy to the Broadway Folks. We never knew there were so many good-looking men in the Freshman class until last night. Most of them had evidently had a hard day at the golf course and the rest were the Allenites who stop and flirt with the hostess at玫瑰 gardens—and then wished more had followed her example—at the "woman in the even-

WANTS ALL GIRLS TRAINED AS NURSES.

That women need and should use the vote is required by law for special training for nursing as a compulsory training for every young woman because women will be taught nursing, the practical as well as the theoretical side of the subject," said Mr. Frank. "In our present system of education, we make all arrangements to give women a general knowledge of various subjects, from the culinary arts to music and drawing, etc., but it is the fact that we do not teach nursing, the practical as well as the theoretical side of the subject. The eyes of the representatives of the five great nations of the world are on America. The Washington Conference demanded, the people of the world are demanding, and the representatives of the five great nations all over the world are demanding that educational facilities be provided for the training of nurses.

"NOW THE DAY IS OVER."

A very lovely custom has been started at Connecticut College this year. The singing of an evening hymn as a blessing at dinner seems to bring to a fitting close, a day full of study, comradeship and loyalty to our Alma Mater.

Many are the days when we are so happy as to forget the cares of the world. The bright sun shines, the birds are singing their evening songs, the sky is a deep blue, and the western sun takes aImmortal in its soft, golden rays. For us students this is a fine opportunity to reflect on the day, to think of the things which have happened, and to review the day's work.

In the morning it is fine for us to realize:

"So here hath been dawning Another blue day,
Think, wilt thou let it Slip useless away?"

With this thought before us, we cannot fail to do our work a little better.

Then when night falls we will be able to sing the evening hymn with a full consciousness of time well spent and tasks well done.

DO YOU READ "EXCHANGES?"

Are you interested in seeing what other students are doing? Do you sometimes wonder what other students are saying and thinking? If you are, and if you think that to be, you will find satisfaction in the plie of papers on a certain shelf in the library. This is the "Exchanges," a place marked in bold letters, "Exchanges."

By reading these other college newspapers you will discover that other students are more than you are doing. You will find your ideas confirmed, and you will receive a lot of new ideas and suggestions and hints of which you have never dreamed. You will learn that student papers are working hard to raise an Endowment Fund in numbers unique ways. If you feel that the rules and restrictions at Connecticut are a bit heavy, read the papers and you will soon decide that you are not so annoyed, after all. Freshmen, you thought that you have been harshly treated by the upper classes and the alumni? Such thought will flee after hearing of what Freshmen have had to work when you will find it valuable, also, to see what different clubs are doing and to take lessons from them. You can become acquainted with great men who speak to other students, and likewise find satisfaction in seeing that speakers who have visited Connecticut have not addressed our class.

All of these items of interest cannot be compressed into the Exchange column of the News. It is expected that everyone should read not only the Exchange but also take advantage of the opportunity that is given of access to the weekly newspapers of a number of other colleges.

Direct from Broadway came Merry" in styleles in a lovers' lane. It is being done through clipping. We saw the management in the last week and declare ourselves in favor of the Merry styles interpretation.

After Anna Rogoff's playing of some of her own compositions which every one seemed to come upon, Lights on a Tropic in Three Roles—a very clever bit of silhouette in which we particularly enjoyed Cleo-Shimmy and the Sprting Board-Alligator.

Kay Skatizer, with Amy Hilker, Virginia Hayes and Ruth Krlonthal as chorus did her Irish dance from "Florist the Pirate" and was violently recalled. And the Freshmen could not give her any more than those who had seen it before.

Next—ye memories of Shakespeare—was Romiet with his touching sweet tunes and Julia. Oh, where did she get that voice? What do we want to know who played Romiet to Catherine Holmes' Juliet. Rebounding from was from the Pollies you know, and they are reported to be the best looking girls to be found anywhere. We wish to advise of the following—Evelyn Ryan was the heroine of "Romiet," the Pirate, the Young Man of the Town. The Tucker Brothers were a hit.

After this came an echo from the Music Department Concert. Grace Balsley played her selection with the Music Department orchestra, and is now assistant manager of the Stater Street, New London.

TO THE NEW ALUMNAE BABIES.

Last June we sisters of Nineteen
Did welcome Marilynn,
And paid her to the homage

And to his daughter, our new niece,
We send (though not hygienic)
A big class kiss apace.

3. An additional specific pledge by Britain and the United States to aid France in case of a renewal of un-
provoked German aggression.

It was in consideration of these three things that France somewhat reluctantly agreed to abandon the idea of attempting to form an independent, unarmed, neutral "buffer" state be-

MANDOLIN CLUB TRY-OUTS.

Tryouts for Mandolin Club were held Monday nights, October third and tenth. The girls accepted were as follows:

Mandolin—Sally Crawford, Margery Field, Elizabeth Allen, Lena Clarke, Henrietta Barnes.

Vioin—Grace Demarest, First Hier.

Guitar—Olive Hubert, Gloria Hostetter.

The first regular meeting was held Tuesday evening, October eleventh, in the gym. The possibility of having regular meetings on some night other than Tuesday was discussed. The Club is beginning the year with increased enthusiasm, and the girls will start immediately on the music which will constitute the program for the regular annual concert, to be held in March. The purpose of the club is to create among the girls an opportunity to increase their musical ability so as to be of service to the college social functions, and also to have a social time together.

PRESS BOARD BEING ORGANIZED.

On Monday evening, October 17th, the group interested in the organization of a Press Board met in New London Hall to discuss plans and to get information from Mr. Edward F. Loonin, who has been in this line of business since 1899, spoke on the different kinds of material which might be used by the members. Mr. Loonin also told something of the organization and business methods of other Press Boards which he has known. After his remarks, the members were given the opportunity to ask questions and the meeting ended with a general discussion of further methods of procedure.

TAIL LIGHTS.

What with parties anything, the Freshmen have got us as green with envy that we cry secretly into our pillows at night and long for the gay and boisterous days of our past. Now Lizzie decided she'd go as a boy if the gym was thực. downdoll up like a lady.

PAY day is over, thank goodness! (Deep and profound sigh!) Now we can really look upon our meagre resources with the fond eye of possession— that is, for a while.

Muse Reeder thinks that an unhung bulletin board which spends its time hanging instead of hanging against the wall is absolutely no use at all unless for foot notes.

Economics 11-12—C. C.'s new battle-ground, where there is more excitement, a minute than in a Woman's Club in a month.

The History Club has celebrated with its first picnic. Now we're all waiting breathlessly until the Spaniards announce the date of their Ice Cream Festival.

The Faculty are resolved to wrest victory from the Seniors at any cost. Already, grilling on the soccer field has begun. We cry secretly into our pillows at times, but by October eleventh, in the gym, the possibility of having the Seniors as a team will be a reality.

Might one suggest that foreign members of our Faculty be a bit more careful in adopting American slang? For instance one member, in comparing the insincerity of the American people with the sincerity of her own race, remarked that Americans talked of doing things for the good of humanity while they were really doing them for a selfish purpose. In other words, they "knew that it was a good string."
