DEBATING CLUB GAINS INTERCOLLEGIATE RECOGNITION

Scottish Debate Scheduled For December 11th

Connecticut College is being noticed in the intercollegiate world as a debating school. This week the college received two new challenges from Middlebury College and another from Boston University. Lettres were also received from Vaille Sigma Xi, the honorary international debating fraternity enclosing a copy of their constitution that we may consider adopting. We are going to Geneva, Switzerland, offering helpful material if we should acquire the privilege of discussing the subject of International Law. All of which points to the fact that we are being recognized as having debating ability worthy of attention.

The biggest feature in our cap is the coming debate with the Scottish team which is scheduled for December 11th. The Scottish team represents the representatives of Scotland and comes to use through the cooperation of the Transatlantic Association of America. The subject is:Resolved: "that this meeting affirms its esteem for the practical and formal aspects of liberal education in the United States than its international flavor. It will be noted that the presentation of material be planned. As a result, information and discussion will exclude the debate. It is a no-decision debate and the audience will determine the outcome. It is our second debate with men from Scotland. In November we hope to hold a dual debate on the same subject in London and at Hartford with the men of Trinity College, Scotland. Should both sides compose the team for the debate—two and one alternate to be used at London, and two and one alternate to speak from home. From the team, all trained in the Trinity debate, will be chosen two to compose the team for the Scotland debate. Trypts for these debates will be held this coming week.

Because debating in Connecticut's only intercollegiate activity and because our debating teams have won for the college such a pronounced success, resulting in recognition of our ability in the world of activities, we feel that a definite plan must be made. (Continued on page 1, column 2)

LAMENTATION

What good are Senior Privileges on the campus for us?
For though I reach my box unscathed No mail there is for me.

And if I use the "Senior walk" I have to mix with common folk To see if I hear a "Junior"

And when I walk the curbstones To impress the passerby I just can't keep a balance

No matter how I try

We should have had our privileges While we were young and sprightly; They grew and we were lavish Now I just can't use them rightly.

Dear Editor:

If you happen to be interested in the history of our school, you may have already heard of Edith. She was one of the first students at the University of California, and is considered to be the founder of the university system. She was a very important figure in the early days of the university, and her legacy lives on to this day.

Edith was a strong advocate for women's rights, and she worked tirelessly to ensure that women had access to education and opportunities. She was also a dedicated scholar and a prolific writer, and her contributions to the field of education are still felt today.

Edith was a true pioneer, and her legacy continues to inspire us today. We are grateful to have a school that was founded by such a remarkable woman, and we are committed to upholding her legacy in all that we do.

Sincerely,

[Your Name]
When Girls Were Girls

Quoted from News, 1920

(From the standpoint of little sister)

There is no doubt in my mind that a college education is very valuable. I remember very little about my older sister before she went away, but because she is home I can see great improvement. Moreover, she is because of her college education. The fudge she makes is wonderful! In fact, all her cooking is fine. She makes things now without a recipe, and uses any utensile that are handy, natty little box, screwdriver, or faucet parts, it matters not. Then, too, she says she has really learned to dance. That is a great asset to any young lady that knows how to dance well! I thought she danced nicely before she left home, but according to sister, there is nothing like experience in college, and good dancing. (I guess she had lots of practice from the books of her Memory Book, which is just full of dance programs).

I agree they are a marvel to me. I never cease to wonder how she gets them into the house and makes them look as she does. She'll take a piece of mat and another of tuft, put them together, and, behold,—an adorable evening dress. I know she never knew how to do that before she left. Then, too, there are the men who come to see her. She met them all when she was at college. I think every girl should go to college to find a man to marry, and by learning how to cook and dress, to prepare herself for her future home.

Now and later at important functions of the winter season, you will see the smarter women wearing gowns and wraps like these.

Transparent velvets, satins, taffetas, crepes, chiffons; shoulder straps of sparkling rhinestones, great bows, graceful drappings.

Also accessories to go with them.
