Gaudiani Unveils THINKWORKS
by LAUREN MITCHELL
associate news editor

The idea for THINKWORKS is not new. The student run Project THINK was an idea that was conceived at the end of the last school year because of the number of goals, many students, and administrators set for the year. It was an idea that people were excited about. But the concept has been expanded and reimagined in a way that makes it more effective in fulfilling its goals. THINKWORKS is the culmination of that work and the beginning of a new chapter in the life of the college.

The concept of THINKWORKS is to bring together all aspects of the college community in a way that is inclusive of everyone. It is a platform for the college to communicate its values and goals to the community, and for the community to provide feedback and input on those goals. THINKWORKS is a way for the college to be more transparent and accountable to the community.

ALTHOUGH THINKWORKS is new, it is not a complete departure from previous efforts to bring together the college community. THINKWORKS builds on the work of THINKPROJECTS, the student-run project that was established in 2011. THINKPROJECTS was a way for students to propose and implement projects that would benefit the college community. It was a way for students to take ownership of their college experience and contribute to the college in a meaningful way.

The College Voice

Day Too Harsh on Gaudiani

The Day, New London's local newspaper, clearly seems to be at odds with the College. Though the editorial team did not want to criticize the College, they seem to have been influenced by the growing number of objections raised by the入住 students. This has led to a feverish pace. Gaudiani, who serves as president of the New London Campus, seemed to be questioning her very decision to achieve her goal. When she does that, there is a constant pressure to cut College. Some officials at NET reported that once it completes the peninsula development, they will not more harmonious in its relationship with the government. A letter to the Editor: Hassell '02

The College Voice

Editorial/Opinion

LETTERS TO THE EDITOR

To the Editor:

I can also say that I and the Dean of Student Life and her staff are mindful of the importance of presenting movies on the satellite television system. They want large schools with many students to be able to see these films, and they are working to make sure that happens. The Rocky Mountains are the setting for this summer's film, and I hope that many of our students will enjoy it.

Sincerely,

Charles

The College Voice

LETTERS TO THE EDITOR

To the Editor:

I believe that the majority of students select Conn, and in turn, because of its strong academic programs and size of College, it is acting in a role as a public face for society. The College has the responsibility to ensure that all students are treated with respect and dignity in our buildings. If we are to have a successful future together, we must recognize and respect our differences. Anything less is not an acceptable way to live.

The Day

THE COLLEGE VOICE

Continuing a Fine Tradition in Journalism Since 1915

The College Voice is a non-profit student-produced newspaper. Editorial offices are located in Room 215 of the Collis Center. The reporting, writing, and design of the newspaper is handled by a team of students who work together to produce a quality publication. Letters to the Editor are welcome, and should be sent to the Editor-in-Chief at the College Voice office. The College Voice reserves the right to edit letters for clarity and space.

Technical Flaws Continue with Satellite TV

Since the day satellite TV was introduced at Conn, or supposed to be introduced at Conn, it has been named by technical problems. In response, the production of the show has been delayed for several months. Now, we are hoping to have a chance to showXM without any glitches.

Students Still Paying Too Much For Cell Phone Service

CT CONNECTICUT COLLEGE PHONE RATES

Peak Rates (weekdays from 7:00am-8:00am. and 10:00pm-7:00am.)

24 cents per minute

R-Peak Rates (weekdays from 8:00am-7:00pm. and 7:00am-10:00pm.)

16 cents per minute

“Weekend Rates” (Friday Midnight-Saturday 11:59pm. and Sunday 11:59pm.-12:01am.)

14 cents per minute

Students still pay too much for cell phone service at Connecticut College.

J-Board Must Put the Past Behind Them

J-Board’s mission was to create a comprehensive alcohol policy that could be beneficial for both students and the faculty. However, the current policy is one that actually creates more harm than good for everyone involved. The J-Board policy was implemented in early fall, and it is in effect through the end of the semester.

Tensions between students and the faculty have been growing ever since the housing lottery fiasco of ’98, when students were forced to live in disarray, and the administration seemed to be solely focused on student leaders. The administration was heavily criticized for perceived as arbitrary treatment of student leaders, most notably the student leaders of student organizations. Most notably the administration’s handling of the situation was not between J-Board members or between the students and the administration, but rather between the J-Board and student organizations.

The J-Board’s poor handling of the situation led to a complete lack of respect from both the students and the administration. The J-Board’s decision to implement the new alcohol policy was met with widespread criticism from both the students and the administration.

The administration has been working hard to address the concerns raised by the students and the J-Board. However, the implementation of the new policy has been met with mixed results.

The new policy has been met with mixed results. Some students have welcomed the new policy as a necessary step to promote a healthy lifestyle. Others, however, have been critical of the policy, arguing that it is too restrictive and does not take into account the unique needs of each student.

Music and Photography Unite in Lyman Allyn Museum's Herman Leonard: Jazz Memories

By GRACE Albison

The photography exhibit currently on display at the Lyman Allyn Art Museum provides you with the chance to translate this into photography. As a result, it offers not only the viewer a glimpse into the lives of the musicians, but also an attempt to capture the essence of the working jazz clubs of Manhattan. The exhibition, entitled "Herman Leonard: Jazz Memories," consists of a series of photographs taken by the famous jazz musician of the world's most famous jazz musicians. The viewer gets a sense of the intimate setting of the working jazz club, sitting in a crowded 1940's jazz club, listening to the music of Billie Holiday, Duke Ellington, Nat "King" Cole, and others, and getting to know the personal side of these great artists.

Herman Leonard earned a degree from the city's only school at the time to offer a fine arts degree in photography. He graduated from college, his passion for photography and jazz music brought him to the clubs of Manhattan. I, as a viewer, got to see the personal side of the exhibited photographs.

Tiring of the music scene, he moved to Paris in 1950 and worked continuously to further his photography. Only after moving to the island of Ibiza in 1980 to raise his two children, did Herman discover the joy of photography. He began to document the lives of his chosen time period, the beauty of his songwriting. Stipe had a great deal of versatility that was not a huge radio success. "The End of the World, We Know It (and I Feel Fine)" was the final song of the night. The show drew to a close with a dateable beginning as the first real "college" band. When you like to do it.

MaryLou Lord Wheat

In their 20 years of existence, their versatility and exciting periods. The low energy level was unbelievable. Everyone singing in unison at the top of their lungs. "Sweetness Follows" and "Losing My Religion" had everyone singing along.

The Basics of Health Services:

New Director Kate Moffett Talks to The Voice

About Sex, Drugs, Alcohol and Date Rape

JESSIE VANGROFSKY

Health Services has had a difficult time this year because of cutbacks. However, Kate Moffett, new director of Health Services, believes that the department has been transformed for the better.

"We're trying to be a much more open board. I have a lot of faith in the process.

Matthew Iversen
I-Board Chair '96-'00

issues, but I don't want to dwell on that. It's one of the problems specific to last year's board."

If Iversen has this way, his board's third year will be different from the first two. He says that the board is still having to iron out some problems. "We're trying to do the little things. The first year we try to do the big things."

He added about last year's board, "there was a lot of confusion. People had different interpretations of the process. We're trying to be a much more open board. I have a lot of faith in the process. It's the best way to go about creating a disciplinary system.

**The Basics of Health Services:**

New Director Kate Moffett Talks to The Voice About Sex, Drugs, Alcohol and Date Rape

By JESSIE VANDERVOORDE

It is the past two weeks along.
Health Services had to deal with four cases of sexual assault, two non-consensual incidents involving drugs, two reports of drug use, two reports of alcohol use, and a complaint from a student who was underage drinking.

"For the most part, Health Services is open to dealing with other pressing issues for the student community. However, according to the demand in the system, the Service will address this same urgency in order to provide care, various methods of contraception are available in the clinic," Moffett said.

"We've been advising students to use birth control, and also to make informed decisions about their sexual health," she added.

Moffett said that Health Services is able to provide free condoms on campus, and that they encourage students to use them.

"Health Services is also able to provide students with HIV testing, and if needed, can refer them to local resources," the director said.

"We're trying to be much more open about the process." Matthew Ivenson

J-BOARD

The voice is a digital newspaper published by The College Voice.

**EDUCATION**

It is designed to "speak to a large group of people that we believe are important to understanding our culture," according to its co-founder, Lesley A. P. Abelson.

"We believe in showing respect for the voices of others and in creating a community that values diversity," said P. A. Abelson.

**ALUMNI**

The increase in alumni giving this year comes as a result of efforts to increase awareness of the college's annual giving campaign.

"The college has been able to raise $1.4 million in the past year, which is significantly higher than in previous years," said P. A. Abelson.

"We're trying to be much more open about the process." Matthew Ivenson

# RESULTS OF THE COLLEGE VOICE FRESHMEN ALCOHOL SURVEY

The current debate over the College's alcohol policy and the perception of many students that the administration is con-

 frontline down on drinking caused the Voice to take an in-
depth look at this year's freshmen class's drinking habits.

In cooperation with the Office of Student Life, a survey was distributed to all members of the class of 2003 after the first house meetings where they were filled out and returned to the househeads before the freshmen were allowed to leave. This method allowed

for a return of 88% of the surveys distributed.

The survey results were not startling. 56.5% of freshmen drank over orientation and 33.5% considered themselves drunk. The mem-

bers steadily rose over the first weekend, as 65.5% drank while 37% got drunk. Only slightly below national averages, 34% drank to get drunk during their first 10 days at school. Furthermore, 76% of first-years drank the summer before arriving at Comm, a good indication that they will partake while at college.

NOT JUST A THREE HOUR TOUR:
Yachting Camels Are Up for Another Good Year

The Connecticut College sailing team is very excited going into this 1999 season. Returning from runners-up last year is coach, Matt DeNatale W, James Smith WD, Sam Lester '02, Becky Saulson '99, Brian Zimmermann '98 and Ari Lorngott '98. The team lost a few seniors from last year, but a lot of their experience is being replaced by some new sailors, including Charles Macor, a skipper from Buckhead, Va.

The team came in 11th out of 23, at The Harry Anderson Trophy at Yale on September 5. At The Capitan Hurst Bowl at Dartmouth on September 12, the team came in 4th out of 22, despite rough conditions on the lake. "It took some time to adjust to the lake, but it was a good learning experience," said Brian Zimmermann.

The coach of the team, Jeffrey Brennahan, is starting off his eighth season at Connecticut College. In the last seven years, he has coached 4 All-Americans and five All-Americans. The Camels Finished third place in season at the Intercollegiate Yale Racing Association National Championship Women's National Dinghy Championship. was the team's sixth New England Champions. With the energy of many young sailors, the team will have the experience of racing a new boat, the Vanguard 15, which was just released into the college circuit. "With the new sailors and the new boat we are looking to build a lot of experience with this team," said Zimmermann. "I'm very excited." Their next competition will be The Nevins Trophy at Kings Point on September 18, and the Match Brown Trophy at MIT on September 19.

Yachting Camels Are Up for Another Good Year

...
Connecticut College Women Net a Win over Bridgeport!

After losing their first game, women's volleyball bounces back.

By CHARLES HASSELL

The women's volleyball team had their first loss last Saturday, versus Salem State. Salem State, behind two strong performances from their outside hitters, was able to defeat the Lady Camels, 3-0.

Though the Lady Camels battled well, the result was certainly not what they were hoping for. According to assistant coach Mark Bauer, "We had a rough start at the net, but got it going towards the end of the first. As a result, we lost by a score of 6-15. In the second set, we stepped it up a notch which was great, as we were barely out of sight of the match, 12-15. An encore Bradley Lombardy '01 stated, "Salem State was better than we thought they were, but the team still played a great game. As well as being a great game, it was all about us. We all wanted it."

After the loss, the women had nothing but praise for each other and their coach. specialties both praised the Lady Camels for their efforts, stating, "I was disappointed in our team. We didn't give our best. On the other hand, the Lady Camels were responding to the loss, stating, "We played very well in this game. We were able to play our best and win."

Bauer continued, saying, "This is exactly what we thought we would be able to do. We did it and we're still on top."

"The reason we're on top is the fire," said Lisa Barry '01. "I think we're all just excited about the game. We all want to win.

Despite losing, the Lady Camels were able to bounce back the next day, winning 3-0 over Montclair State. Lombardy stated, "Montclair State was marred by sloppy defensive play, and the loss was expected. We were able to rebound past Montclair State goaltender Stephanie Zachko '01, two insurance goals late in the game against backup goalkeeper Eliaht Zenere '98, who had replaced Zachko in the second half. Lombardy went on to say, "We were able to win the game, but it was expected that we would win.

"We had a new team with a lot of people who had not played together. We have a lot of people who didn't get to play their last game last year, and with seven seniors, we were not sure who would have been together," said Lombardy. "We did well in this game, and we played well."

Despite losing 0-3, Conn did play a more sound and solid game versus Western Connecticut State, who beat Salem State the day before. Playing with a lot of fire.

"It's a good day," said Lisa Barry. "I'm going to call him the quiet as-
