Show Spirit: Don't snub Camelympics

Today parallels of students will be marching into Harris, led by their respective dorm flag-bearers. It would be heartbreaking to think that every student on campus was among this event, instilled with an unbreakable sense of school spirit. Yet you will still find these oblivious dignities, all snug in their own worlds. Ironically, Camelympics is the epitome of Conn’s broken spirit.

The original intent behind Camelympics was to provide a welcome alternative to students besides drinking and to promote a sense of community within each dorm. Over the years, however, Camelympics has come to override this purpose, as students either fall off the wagon or, as they increasingly arrive to events intoxicated.

Clearly, these students are not tenants of dormant pride; they are appearing to win while drunk.

Perhaps students feel that Camelympics is a juvenile event, in which they would never dare participate because of their sacred colleges. These are the same students, nevertheless, that partake in the drinking games you see at a high school house parties. Indeed, these games are no less juvenile than any Camelympics event, as they encourage drinking to the extent that students are incapable of rational socializing, in which other social events, such as karaoke, forms the lack of spirit further (I imagine ignorance by member of the community to the efforts of the dean leaders. The Board of Governors and House halls have been working on ways to Camelympics, and the attitude by students to ignore the event displays a sense of cluelessness, especially when the student body is increasing divisiveness in various aspects of how the College is operating.

A footnote should be made, however, noting the unwavering support a large portion the campus community shows towards sports teams. You will see the same students cheering on Camels game after game after game.

Nevertheless, many of these same students do not judge students’ social preferences, but as members of a larger community, one would hope that they could free themselves to judge one’s own beliefs. This utterly unacceptable.

Sincerely,
Conn Students for Bush and Conn College Republicans

America's democracy is threatened by the current administration in Washington. The past three-to-a-half years has seen a steady shrinking of the trust and libraries on which our democracy depend for its life. Democracy depends on honesty. Following the last election, we were told that the administration would work to bring the country together; instead it has just divided us.

It is hard to democracies when an administration repeatedly brands as unpatriotic leaders, not only those with differing understandings, but also those with differing positions. Yet, with this administration in power, you can never be sure what is the true and what is the false.

Democracy depends on openness. Executive secrecy is a sin in the heart of democracy. While every government is obliged to protect the nation by keeping certain plans and documents from the public, the administration has turned our government into vast secret operation.

From policy, to the investigation of September 11, from the invasion of Afghanistan and Iraq, the administration has chief executive to the investigation to resistant to investigating Ab during these times.

One does not only with differing understandings. Understandings not only in the issue with the issue itself. With this administration, you can never be sure what is the true and what is the false.

Democracy depends on leadership representing all. A democracy, however, has biologically performed the wealthy and the well-positioned. Recent tax cuts have benefited the non-senior class, women, while leaving the poorest without help. To oppose the law ignoring the many to have to lessen their wealth producing a monstrous deficit which will burden the future generation, is to fight the basic tenet of leadership. It is unjust, unequal and undemocratic.

We are responsible for democracy’s well-being. Please do your part to promote democracy by voting this November.

Sincerely,
Elisabeth Miller, ’06

Dear Editor,

Democracy depends on respect for contrary views. One system of government is designed to bring together people of different perspectives to develop the common good. It is the function of this democracy when an administration repeatedly brands as unpatriotic leaders, not only those with differing understandings, but also those with differing positions. Yet, with this administration in power, you can never be sure what is the true and what is the false.

Dear Editor,

Amidst the recent controversy surrounding the draft, Conn College Republicans have decided to support this bill. This decision was made after much consideration of the issue, and we urge others to do the same. Conn College Republicans have always supported the idea of a strong military, but believe that the current draft plan is not in the best interest of students.

The new draft plan, which includes women, has been met with widespread opposition. Conn College Republicans support the idea of a strong military, but believe that the current plan is not in the best interest of students. Touching Fire Causes Burns

Once upon a time there was a hunter and a bear. The hunter was out hunting. The bear was out running. Both of them were in the woods, and the hunter saw the bear. The hunter was excited, but he didn't want to shoot the bear because he was afraid of getting hurt. He decided to go closer to see if he could get a better shot. The bear saw the hunter and ran away. The hunter missed the shot and was disappointed. He was annoyed with himself for missing the shot. The bear was happy that he wasn't shot.

Millitant Islam, a political and terrorism internets of Islam, continues to be a danger to free societies everywhere. It is a doctrine that classifies all non-Muslims as infidels and requires that Muslims must fight them until they either accept Islam or are exterminated. This extreme and fanatical view of Islam is advocated by many radical Islamic organizations, including al-Qaeda, Hamas, and Hezbollah. These organizations have used terrorism as a method of achieving their goals, including the spread of Islamic law and the destruction of non-Islamic states.

In conclusion, we must be vigilant in our efforts to combat terrorism and extremism. We must work together to promote understanding and peaceful coexistence between different cultures and religions. By doing so, we can help ensure a safer and more secure world for all.
... because Conn students know how to focus on 90.9 WCNI doesn’t mean it’s not the trendiest station on campus. Conn students are very particular about WCNI and feel very strongly about keeping it as the number one station on campus because they feel that it is an integral part of the student experience. The station that has been a huge fan base (mostly community members, but also students) for a long time is a huge asset to the station because it is a place where students can go to hang out.

The station is student-run and currently only 40% of the workers are college students. The rest of the shows are comprised of community members. Fortunately, this year there are about fifty people waiting to see them.

“Ross Morin, the WCNI college general manager said, “If you want to hear Top 40 stuff, go watch MTV. We find that college radio should be an outlet for the offbeat taste of college students, and any show that is currently getting to air is awesome.”

Unfortunately, most Conn students are unaware of just how easy it is to get on the air at the station. The station always has room for new DJs, so students should feel free to pick up a form and get involved at any time. The most obscure, favorite music could be heard anywhere, as long as you’re willing to put in the work. Ross Morin said it best, “We want to keep WCNI.”

Social Club: Wild Time at Cro 10/8
By Paul Dryden

“We rock cause we can! We rock cause we can’t rock at 10/8! We rock cause we can’t rock at 10/8! We rock because we wanna!”

These lines, from their song “Battered the Future”, are the title of their band. The band, from Washington, DC (this is the rainforest according to most rock music), has made quite a name for itself. The band has played at the Warped Tour, and they are coming to Conn in recent nights that was consistently blasted all over campus, and was a particular favorite amongst the students in recent years.

In order to get involved, students should feel free to pick up a form and get involved at any time.

Blondes take Manhattan
By Paul Dryden

Although life may seem perfect on the surface, in reality things are not always what they seem. For example, if you were to ask a random student what their favorite band is, they would likely say “The Beatles.” But if you were to ask them what their favorite band is, they would likely say “The Beatles.”

The band, called The Beatles, is a rock band from Liverpool, England. They were formed in the early 1960s and are considered one of the most influential bands of all time. The band consisted of John Lennon, Paul McCartney, George Harrison, and Ringo Starr.

The band’s first single, “Love Me Do,” was released in 1962 and became an instant hit. Since then, the band has released numerous albums and singles, and their music has become timeless. The band’s sound was characterized by high-energy, fast-paced rock and roll, and their songs often featured catchy hooks and memorable choruses.

The band has sold over 100 million albums worldwide, and their music has been recognized with numerous awards and honors. Today, the Beatles are considered one of the greatest bands of all time, and their influence can be heard in the music of countless artists who have come after them.
Wimbledon is a film that has a lot of good things going for it. With a production team that has put their heart and soul into the film, it's not hard to see why. Peter Colin plays the main character, a man who has had a contentious past with the Wimbledon Championship. Right from the start, he's not on everyone's side. Peter is a hard-working, upstanding citizen, with a British sense of humor (and accent) to boot. Kristen Dunst plays his usual quirky character, Lindsey Bracken, but she's trying her best for girl's roles because, I guess, she doesn't know how to do it. Daniel is apparently completely at ease talking back to the chair official after being called for a fault that she doesn't. She not only plays the part well, but she feels so much like a tennis player, the producers might as well have changed Daniel's character name to Maria Sharapova. I was worried that the movie wouldn't successfully capture the grace and speed of tennis at the professional level, but thanks to the digital technology of today, I left the theater thinking that perhaps Metro could take it to Roger Federer. The cinematography successfully captures the suspense and action of Wimbledon. The film confidently walks the fine line between a sports movie and a romantic comedy without any awkwardness. The returns between Peter and Lindsey does not take away from the sport scenes, in fact, it creates a nice balance.

Wimbledon has all of the ingredients of a good film that all of it, is mediocre in one hour and a half. I cannot help but compliment any of today's cinematic endeavors that manage to successfully present and conclude a story in less than three hours. Although Wimbledon will satisfy romance comedy and sports movie lovers alike, some followers will hold a special place for it in their hearts. At a surface level, I was happy to see John McEnroe portray himself in the film, my favorite Wager was McEnroe commenting on the official's ball call, "If it were me, I would've kicked the chair official, but she's trying for girl's roles because, I guess, she doesn't know how to do it. For all you people who keep complaining that the camel close-up is too easy, try this one on for size, and no hint this week. Keep sending your guesses to ccvoice@conncoll.edu to see if you’ve got what it takes. Last week’s camel close-up was the cup holder in Harris. We got some responses, but none of them were funny enough to print.

Camel Curiosities

The diet of camels: Grasses, juicy plants, leaves, branches, grains and dates. If forced by hunger they will eat fish, flesh, skins and bones. They thrive on salty plants that are wholly rejected by other mammals. Camels are said to need halophytes in their diet and will lose weight if they are lacking.

Twenty-Playoff Predictions

OK, by the time you get around to reading this, the playoff predictions will probably be determined and my day is too busy to write. In any case, this is the day to bring them to you, especially since I know I'll be light off it. Currently there are 11 teams with postseason aspirations, 5 of them, as of now, are...

We can stay right, already having saved reser-
vations to go to the dance. It's been the year for base-
ball for a while now. But when we all look back, there should be patches with random iso-
lative negative moments. Among those special moments should be the Montreal Expos finally finding what appears to be a permanent home. At least to you Expos fans out there (that's three of you) where the Expos will be the Expos of San Diego.

As I write this through the regular season awards won't be given out until after the playoffs. I'll spare you the pain of hearing these names yet another year. The game isn't upon us and the regular season is nothing but a prelude to the games that really matter. If you're a St. Louis Cardinals fan, your amazing season, filled with excitement, will finally meet someone who roots for a small market team.

For now it's time for the big fin-

AL CY Young: Johan Sauaoa

2. If you're a St. Louis Cardinals fan, you are not going to be able to withstand the en-

ertainment you will receive from the Cardinals in the 2004 playoffs. He's done it before against the Colorado Rockies, Los Angeles Dodgers and Washington Nationals. With all of these circumstances in mind, one bodeswelled Dodgers fan finally hit a home run. His idea was to down the plate and let the game go into overtime against Wellesley.

Next week, the Cardinals will face the San Francisco Giants in the playoffs with some serious impli-

lications. Card wins a small, hotly contested game and the Giants will finally break the 2004 record.

If you thought watching Yonge-Ryan: Kim against the Dodgers in 2001 was bad fun, imagine watching Charlotte Dum in this year's playoffs. Better yet, imagine watching Harkness.

2. Any fans sitting down the left side line will find a fiery Tiger rally against the pennant winning Cardinals.

3. The only thing regional fans on this trip (Marshall perhaps?) will unproductively be enjoying will be the all catching big red left field playoff seat.

4. You're a St. Louis Cardinal's fan, your anxious waiting, filled with expectations, will be rewarded by the on-field action in any playoff game.

- The offense seemed to be fighting for a small market team. Their pitcher is a star.
- OK, the defense will finally break the streak of losing in the playoffs by winning the Atlantic. Boston. Why? Because I can't stand the Braves and
