Campus Vandalism Skyrockets

President for Admissions; Associate Dean of Physical Plant; and Residence Life Director. The Task Force is composed of faculty and one student.

This Task Force is in existence since early in the semester, with efforts aimed at raising campus-wide awareness of the issue. On one occasion, a Task Force member dressed as a giant Coca-Cola can, handing out fliers that explained the committee's position regarding the large corporation.

CCLeft has also been keeping an open line of communication with the Student Government Association, directing them to the specifics regarding the campaign. During the SGA student open forum on September 27, Dean of Students Brian Thorton explained the SGA's rationale for the case why the College should urge the purchase of Coca-Cola products.

However, there is no present indication that the Student Government Association is planning to urge Coca-Cola products. This is due in part to lack of an obvious alternative to Coca-Cola.

Changes alleged against the corporation include the murder of eight factory employees in Colombia, committed by paramilitary groups.

By Douglas Thompson, Associate Professor of Philosophy.

Douglas Thompson, Associate Professor of Philosophy, described his experiences with a discussion on the geopolitical aspects of the event: "I have no feeling as if rebuilding New Orleans is in the best interest of our country or the people of the area. Furthermore, investment in the infrastructure is not going to be beneficial. He suspected this claim by saying that the levees are not suitable for large-scale storm weather. Not only will reconstruction do great environmental damage to the area, but also when it is completed it will be difficult to maintain effective levees. Thompson stated that federal funding would be put to better use in the area by providing food and job opportunities to the victims. Thompson believes that "the government's call to rebuild is the easy route." This is because the levees are being built to protect industry, primarily oil and navigation, and it questions whether or not rebuilding for the people is really the underlying incentive.

Jefferson Singer, Professor of Psychology, offered insight on the psychological state of the victims. The he questions whether or not rebuilding for the people is really the underlying incentive.

Vandalism Threatens Honor Code

It's unfortunate that the student body, who emphasizes the Honor Code when it seems to be in its favor, still blatantly disregards the system through senseless acts of vandalism. Whenever the administration or faculty threatens to take away self-scheduled exams, the student body goes up in arms, staging furious open forums and voicing their outrage at the College for threatening to suspend the Honor Code. However, students are advised that their precious self-scheduled exams have been spurned, residents once again blur the distinction between high school and college through vandalism, disregarding their position on the Honor Code.

Nobody can ignore this year's rise in vandalism. Whether one has seen the statistics or not (and indeed they are astounding), it only takes a simple walk through Marshall or practically any of the resident halls to be disarmed at what has occurred in just six weeks—unless immunity still lingers on in your heart. Indeed, something needs to be done before students have to start paying an additional $20,000 a semester.

The two main ideas that have been going around are security cameras and murals. However, the security camera proposal is limited to Main Street, which means that although the main Plex will certainly be spared, all other areas could still self-implode before the month's over. As for the mural idea, it seems ludicrous to believe that the entire student body is rational enough that art work in Main Street will serve as a deterrent for further vandalism. If students didn't watch to pull out stop signs and throw windshields, what's stopping them? It seems that hiring a work study student to sit behind a transparent mural watching for acts of vandalism would be a more logical solution.

The administration and Judicial Board are urging students to report incidents of vandalism that they witness. This may seem like an unrealistic expectation to many, but if students see a peer vandalizing and simply shrug their shoulders and turn away, the Honor Code loses all its value and students begin ignoring each other rather than directly confronting the issue. Or if the Horny of an Honor Code still doesn’t seem desirable, perhaps the College could establish a permanent police-state, where teams of campus safety officers roam the hallways all night and security cameras in every corner of the campus record student activities on several monitors.

Perhaps the easiest solution to the vandalism issue is for the administration to resurrect their threat of eliminating self-scheduled exams. Only then will the student body reflect on how much they truly value the Honor Code and whether they’re doing justice to it.

Letters to the Editor

New London Superintendent Lands Connecticut College Students

To the Editor:

I am writing to express my appreciation for the role Connecticut College students played in supporting the city of New London in its bid to become the "Coastal City of the Year.“

The turn of events from the college was not only impressive, but also provided a boost to the city's marginal victory. We can continue to support future elections the students of Connecticut College can play a serious role in the political culture of New London.

You have always been a progressive force in the city. Thank you for your help.

Sincerely,

Chris Court
Supervisor of STP

Freeman Not Final Arbiter of Who and What is Truly Jewish

To the Editor:

How wonderful of Youi Freeman to declare himself the arbiter of who is Jewish and who isn't. Congratulations on publishing one of the most offensive columns in recent memory.

I am the child of a mixed marriage, with my mother being Catholic. I have been raised in the Jewish culture, have a bar mitzvah, and consider myself just as Jewish as the Hasidim in Brooklyn. I am a Jew. Freeman would only be truly Jewish if I went through the proper Jewish rites of passage, which I already have. Why is And I am Jewish for something over which you have no control.

Furthermore, Freeman claims that any departure from the tenets of the Torah is a major offense. He may be shocked to learn that the nation of Israel has a diversity of religious practices. As a Jew, I do not have a "nickname" after affirmation (Leviticus 19:31). I am a Jew. I do not observe the Jewish dietary laws (Deuteronomy 12:20-22), nor do I make the same type of travel that are simply not applicable to modern life.

I admire Freeman’s courage on the topic of the Israeli-Palestinian Conflict. While I can always see where he’s coming from and respect his ideas. Why he would choose to make such a serious error.

The Coca-Cola Company shares in the hopes that all communities will have allowed it to thrive. Here are just a few things The Coca-Cola Company is doing around the world:

- Formation of Leaders: This program accelerates learning for young people between the ages of 10 and 18. The Coca-Cola system in partnership with Corporations for Development for Education has been working in the United States and Canada for a decade.

- National Recycling Campaigns: The Coca-Cola Company has sponsored and organized a National Recycling Campaign.

- Fighting the HIV/AIDS Epidemic: The Coca-Cola system in Africa has developed an anti-retroviral program to address the HIV/AIDS epidemic. All of the nearly 80,000 employees of The Coca-Cola Company in Africa are partners in this program. The Company provides financial support and provides access to antiretroviral medication and counseling and care.

The Coca-Cola Company will continue doing its part everywhere it does business. For more information about Coca-Cola's operations check out COKEFACTS.org.

Students Claim Coca-Cola Advertisement is Fraudulent

The "facts" that Coke references in its recent advertisement are not even remotely close to the truth. In fact, Coca-Cola has not ever been an active partner in any significant social cause.

The "facts" that Coke references in its recent advertisement are not even remotely close to the truth. In fact, Coca-Cola has not ever been an active partner in any significant social cause.

"Facts" #1: Coca-Cola tells us that "a respected, independent, third-party investigator investigated claims in Colombia and found truth which defies Coca-Cola’s "sense.""

"Facts" #2: Coca-Cola claims that there is no evidence of wrongdoing. Unfortunately, the Colombian government is all too quick to explain the extent of this public relations campaign.

"Facts" #3: Coca-Cola insists that it has normal relations with SINALTRAGA, a workers' federation union. We are not aware that Coca-Cola has ever been a part of any union, and certainly not in Colombia.

"Facts" #4: Coca-Cola insists that it has normal relations with SINALTRAGA, a workers' federation union. We are not aware that Coca-Cola has ever been a part of any union, and certainly not in Colombia.

"Facts" #5: Coca-Cola insists that it has normal relations with SINALTRAGA, a workers' federation union. We are not aware that Coca-Cola has ever been a part of any union, and certainly not in Colombia.

"Facts" #6: Coca-Cola claims to be a "we are a very "credible" evidence source." Coca-Cola is a very "credible" evidence source.

Letters to the Editor
MISED IN CRONYSM

In many parts of the financial world, the
influence of cronies should not be overlooked.
It is often through personal connections that
opportunities arise, even in the corridors of
power. Understanding these dynamics is
the key to navigating the complex landscape of
business and politics.

In the world of finance, cronies are
often used as proxies for more powerful
entities. They may have access to
information that is not available to the
general public, allowing them to
benefit from insider trading or
other forms of unfair advantage.

Moreover, cronies can be
useful in lobbying for favors or
influence in the political arena.
Their connections can open
doors that might otherwise
be closed to less well-connected
individuals.

In summary, the presence of
cronies in the financial world
should not be underestimated.
Their influence can have
significant implications for both
individuals and the broader economy.

THE TIER SYSTEM

How do you decide which
animals to hunt? It is a complex
decision that involves not only
the immediate rewards but also
consideration of the long-term
impacts on the ecosystem.

In a sustainable hunting
strategy, it is important to
balance the need for resources
with the necessity of maintaining
healthy populations of game
animals. This requires careful
planning and consultation with
local communities and
environmental experts.

Once the decision to hunt is
made, the next step is to
establish the hunting season and
determine the specific species
and numbers of animals to be
taken. This process should be
based on scientific data and
consultation with experts.

In conclusion, hunting
should be approached
responsibly, with a focus on
sustainability and the
preservation of wildlife
resources.

I SKINNED A SQUIRREL

The process of skinning a
squirrel involves several
challenges, but with patience
and attention to detail, it can
be accomplished successfully.

Firstly, you need to
secure the squirrel's head and
rear legs to prevent movement.
Then, you carefully cut along
the hide and remove it from the
skeleton. This requires
meticulous attention to avoid
damage to the hide or
skeleton.

Overall, the act of
skinning a squirrel is
satisfying and allows for
valuable learning opportunities
about the animal's anatomy and
behavior.

**Blithe Spirit Takes Pans Over This Weekend**

By Glenn DeSoto

**New Wave**

It's not often that we get a live production of a classic play like "Blithe Spirit." Produced and directed by Neal Farnell, "Blithe Spirit" is a skill come-

ly reformation, with a worthy cast of actors performing during the second of the thirty years. The story is of a middle-aged writer, Charles, who has written a sensation play and is now working on his novel. A seance is held, and the ghost of his first wife Elvira spirits herself through the walls of the room, grasping on to an exhibit of the comedian's work. Charles charity really got off on the wrong foot. The novel centers around a casual chat about his book, "White Widows," and his love for the woman in his life? How Charles manages to get past these obstacles and situations makes it a fantastic coupling of the two. "Blithe Spirit" is directed by Michael Whisenhunt, an accomplished graduate, who is a director, playwright, actor, and professor at the College.

The college presents "Blithe Spirit" from November 10-19 at 8 p.m. and November 19-20 at 2 p.m. For information, call (803)-482-

**PERSPECTIVES IN MUSIC**

O.A.R. TELLS GROWN-UP STORIES

Paul Driven

The College Rock Perspective

For someone with such an eclectic, pop music in mind, finding new albums that are both compelling and well-crafted is a true challenge. O.A.R., in this sense, is more than just an album, it's an experience. From the opening track, "Who's Got The Power," to the final track, "Down On The Ground," the band delivers a masterful performance that resonates with listeners across various genres and explores the power of music. In essence, this album is a celebration of life and its many facets, and it's impossible to ignore the impact it has on even the most discerning listeners.

The album begins with "Who's Got The Power," a song that introduces listeners to the band's signature sound. From there, the band takes listeners on a journey through a variety of genres, from pop to rock, and everything in between. The result is an album that's both captivating and engaging, leaving listeners wanting more.

O.A.R. is a true testament to the power of music. Their ability to connect with listeners on a deep emotional level is truly remarkable, and it's clear that they're dedicated to creating music that will resonate with generations to come.
The plot then centers on the character of Tom Stall, a local butcher who is memorable for his bluntness and honesty. The film explores themes of identity, community, self-reflection, and primal instincts.

The film is a commentary on humanity, as harshly obvious to the viewer. While the director's instinct is so utterly believable. The plot then centers on the character of Tom Stall, a local butcher who is memorable for his bluntness and honesty. The film explores themes of identity, community, self-reflection, and primal instincts.

Prominent Dancer Gives Talk

At the Connecticut College center on Tuesday, October 5th, dancer Elizabeth Streb was introduced as having "boundless energy" for art. Streb said that she wanted to fly. Recently, Streb was awarded the John D. and Catherine T. MacArthur Foundation "Genius" award. In addition, Streb had made many odyssey appearance on shows such as The Letterman show, CBS Sunday Morning, CNN, The Today show, MSNBC, NBC’s Weekend Today, MTV, and more with Peter Jennings, and on Larry King Live.

Streb’s work has provided questions of the role of dance and dance in the perception of the science and the human body. Streb’s focus is on learning how to think about dance more generally. The attention given to the body is not only by the scientist but also by the being of human beings.

Streb began the lecture by noting that originally she began making new forms of dancing, new kinds of space, new ways of thinking about space and time and the interaction of the two. Her primary focus is that originally she started by studying new forms of dancing, new kinds of space, new ways of thinking about space and time and the interaction of the two. Her primary focus is to increase in the severity of the sanction for community violations is to have more students living in the new dorms to receive their feedback on the issue of vandalism in general and on the idea of installing community military and lighten- up on the threat.

In the meantime, the Executive Board is first considering whether to hire a full-time carpenter, who’d been suggested by the planning committee to help in finding their way, to help in finding their way, to help in finding their way. Despite the sunshine, Hoffman discussed three main themes in the lecture. From queries about older Palestinian terrorists and the allocation of power had anything to do with this new terrorism, to Iraq. "I am not sure," Professor Hybel answered parents’ questions about the prospects for democracy in Iraq (Wilkes).

He had written five books, the last of which he co-authored with Connecticut College Professor Hybel. Professor Hybel is popular with students and his fellow-los. Faculty members alike.

After the lecture Hybel opened the floor to questions. He, who was from South America, made many references to the country, which is one of the most politically charged regions of the world.

Continued from page 1

The Board is "coming down on the moment because we don't know what the Board will do, so we're stumped at the moment," said that the SGA is "just stumped at the moment." President of the SGA Eddie Slade added that the SGA is "just stumped at the moment." Parent of the SGA Eddie Slade said that "we have faith in the future of our system to better protect us in the future." Hoffman discussed three main themes in the lecture. From queries about older Palestinian terrorists and the allocation of power had anything to do with this new terrorism, to Iraq. "I am not sure," Professor Hybel answered parents’ questions about the prospects for democracy in Iraq (Wilkes).

Beer In Mind: The Weekly Beer Review

This Week: Shipyard Pumpkin Ale

Simply put, Shipyard’s Pumpkin Ale is a wonderful beer. Through its maltiness, hoppy aromas, and pumpkin and cinnamon flavors, Pumpkin Ale is its seasonal offering for fall. In fact it may be one of the best beers for a fall night, but is also great for any season.

This yellow-orange beer has a full-bodied character with a slightly sweet finish. Fruit flavors of pumpkin and cinnamon give the beer a distinctively autumnal taste. Look for Shipyard’s seasonals to create a buzz and make their mark. Grab some Shipyard Pumpkin Ale at your local liquor store and enjoy this excellent seasonal beer.

Students Want Democratic Majority

Throughout his time in office President Bush and the entire Republican Congress has continuously used the excuse "You’re either with us or you’re against us" and has applied it more to the American populace than to foreign governments. Republicans have gotten people to vote for any expressed desire to their votes directly opposing lack of patriotism and anti-Americanism. It disturbs me that this divisive attitude is being spread about our campus in our school newspapers.

Contrary to what the right wing would like us to believe, there is no better way to display your love of this country than in your support of the policies that you believe are taking it in the wrong direction. The showing of patriotism is not in blind support of governmental policies, but in your right to stand up for what you believe in. Personally I believe in more tolerance and respect of the sex and women in our nation’s services and are looking to use the tools that they have been denied to them.

The USA PATRIOT Act: Deterring Terrorism or Threatening Fundamental Freedoms?

Tuesday, October 18, 4:00 p.m.
Ernst Common Room, Bluestone Humanities Center

Connecticut College

Did you know that the USA PATRIOT Act gives the federal government the right to:
• seize your student records without probable cause of a crime — without your knowledge or consent
• search your dorm room without telling you (“sneak and peek”) and seize computer records, books, and other private items
• seize your student records without probable cause of a crime - without your knowledge or consent

This event is sponsored by the Department of Government and Information Services.

**Gray's Proposal A Costly One For Sox**

Red Sox nation, meet Tony Gwynn! He is an average at above average baseball player, evidenced by his nine year major league career. Scouting Inc. describes him as "a patient hitter...shows good strike-zone judgment and makes contact everywhere." That's all very nice, but he is also 38 years old. He was a mid-season free agent signing the Red Sox trade for a nice depth for the players...Cashmer Wins Scouting Inc's Prospect award, as he, unlike his looks range to be a regular shortstop and his arm is medical for third base, he is a third baseman. The best fit for this player is a team that has no one around the infield. That may be the Minnesota Twins. This year, Gwynn batted with the San Diego Padres, and seem to be destined for a straight year - a disappointing first. Gwynn got a solid offer from the Angels, or the Yanks - who I feel has the best chance worth taking that Curry will be the best starting right now in the New York? Their third two组合 got a genre in the same game, the loss of a man. Tony Gwynn, three years ago? It still don't...Icky" Davis and Eddie Curry. Obviously this trade will rest on the health of Tim Thomas, and I don't think people be over right now.

Angels in...I had Jake Peavy...It's hard to think...For the second time, the gods would give the Sox a...ing frantically for a starter. Enter Vinny Testaverde, whose last two...As bad as the Padres might have... "Stickiest of the..."...Done it again, trading Tim Thomas, and the Padres sneaking in a win...I still don't...Icky" Davis and Eddie Curry. Obviously this trade will rest on the health of Tim Thomas, and I don't think people be over right now.
