**Merrill Named New Dean of Admission**

By Bob House

A&E

Two students, Alex Band '02 and Kate Keene, are on a mission to bring American fare to the campus. Their goal is to create a dining hall that meets the needs of the American student. The hall will be designed to accommodate a variety of dietary preferences, from vegetarians to meat-eaters. The students believe that by creating a dining hall that is reflective of American culture, they can help to foster a sense of community and belonging among the students.

**Two Students Work to Bring New York Times to Campus**

By Gary Wise

Einion-Cap

Two students are on a mission to bring American newspapers to the campus. Their goal is to create a place where students can read the latest news and events from around the world. The students believe that by providing access to the New York Times, they can help to foster a sense of engagement and awareness among the students. Their efforts have been met with some resistance from the college administration, who have expressed concerns about the cost and logistics of providing access to the newspaper.

**Nation's Diversity Woven into Understanding of Flag**

By Ken Vosmege

The concept of the American flag has been woven into the fabric of American culture. The flag is a symbol of national pride, and its stripes and stars represent the diverse cultures and traditions that make up the United States. The students in this article discuss how the flag has been used throughout American history, and how it continues to be a symbol of unity and diversity today.

The flag is a symbol of national pride, and its stripes and stars represent the diverse cultures and traditions that make up the United States. The students in this article discuss how the flag has been used throughout American history, and how it continues to be a symbol of unity and diversity today.
EDITORIAL & OPINION

Balcony Collapse a Symptom of the Disease that is Poor Maintenance; College Must Evaluate Housing Safety

A week ago, two students fell through a River Ridge balcony wall and were severely injured. According to witness accounts, the student fell through while leaning against it. The wall was made of cement.

An investigation is currently underway. Physical Plant has contacted an engineer, who has recommended re-verification of the balconies on campus. The fact that an engineer has recognized a community that has recycled so many and accordingly, the administration must stop waiting for an accident to occur. Hopefully, this accident will prevent any further, avoidable injuries.

Soon, more students could be moving into off-campus housing at the College-looks for creative solutions to the impending Spring housing crunch. Physical Plant should perform a thorough check of any off-campus housing before they are occupied. They should not wait for a balcony to collapse before calling in an engineer.

This fall, the administration has taken the appropriate responsive steps. They are investigating the accident, they have contacted an engineer to consult on the building maintenance, and they are planning to fascinated the River Ridge balconies.

Letters to the Editor

That is what we need—knowledge about the consequences of recycling. We need it and need it to know what's going on and to tell others what's going on... We miss the contact!

-Darren Diugo ’02

To the editors:

On Thursday, October 25, 2001, while passing through Cro, you might have noticed some students realities of the bags, we found glass bottles, aluminum cans, office supplies, and other recyclable materials. However, not all the content of the bags was recyclable. In talking to the Environmental Coordinators, the purpose of the study was to assess the efficiency of our recycling process on campus.

Trash was collected from the non-recyclable bins in offices, academic buildings, health services, and Cro. At the end of the investigation, the bags we found glass bottles, aluminum cans, office supplies, and other recyclable materials. Some of the materials were broken by roadways and could not be recycled.

Aside from acquiring statistics to determine trends throughout the year, the trash composition study also serves as a reminder. As a college community we have a well-developed and long-standing recycling program. Recycling facilities are provided in every building on campus to encourage the public of any information. Letters should be single-spaced, no longer than 500 words, and must include a phone number for verification. Please send all letters to the College Voice at ccvoice@conncoll.edu

Author Su Tong Raises Interest

By Brad Kazer

Pass the Potatoes and Tofu at SEAL Vegetarian Thanksgiving

In each scene of the film, the relations between men and women in early twentieth-century Northern China is dry and "in Southern China, the setting of his novel is adapted to film format. Su Tong's words were filtered through a cinematic lens, and the film's strong performances that make him write. He spoke to about "Raise the Red Lantern," based on his novel Blush.

Many changes occur when a novel is turned into a film. Su Tong said that one of the greatest difficulties he faced was the transition from his novel "Raise the Red Lantern." As the change of location, Su Tong said that he was not happy with the women of past literatures, and he wanted to create a group of real women and to show the background of historical China.

In the beginning of the film, a seventeen-year-old girl agrees to be married to placate her mother with a smiling face over a painted wedding album. "Blush" would be dead by now, but it's not. The director of the movie, Su Tong, raised his voice to describe the characters and the plot of the film; if it is liked, it is because it is good, not because it is liked because it is the director's choice. After the film was shown, discussions were opened to the audience. Questions, comments, and Su Tong's words were filtered through a translator, at times simultaneously creating three conversations. Su Tong's motivation comes from his writing, with writing as a chance to communicate with his audience: "What matters is that I want to do something beautiful but I'm not sure because I want to." If a writer's talent is measured by his publications, Su Tong's work is a testament to that. He has many books to his name, and the fact that he has a book of his own doesn't change his name. He has a lot of friends but few interactions of human interaction will undoubtedly bring that to fruition.

Backstreet's Back...Again...Al...I

By Kevin Barre

Are you enjoying a warm Thanksgiving meal among friends on Thursday night (below)?

Baklava, greek stuffed peppers, pumpkin and apple crumb pie. The apple pie was excellent—event, but not too sweet, with a little filling, but not too sweet, with a little filling, and campus community members. SEAL has turned the event into an educational, as well as a religious, event. Two numbers of SEAL spoke, and a third led a Native American prayer. This was a very educational event. There's nothing quite as uplifting as being entertained as much as can be humanly possible, and whatever the inside of a woman. Like many of the people who attended, I am a vegetarian, and I felt enlightened and armed with an unspoken to the (chili). There's simply no way you can have a positive dinner conversation about killing 40 million turkeys this Thanksgiving. There comes a point where it's important to just let it be.

The prayer was delivered in a similarly dignified fashion. Although the prayer was essentially about giving thanks, it was delivered in an airy tone, which helped to create the message of the prayer and the concept of the giving thanks.

The "food" list, while not the greatest this side of the Mississippi, is yet another way SEAL is attempting to increase awareness of the need. Hopefully next year, SEAL will have obtained the food to go along with, or at least simulate, the pumpkin and apple crumb pie. The

"Twelfth Night" Brings Beach Chaos to Tansill This Weekend

By Danielle Burke

It is set at the beach resort town of Illyria, where Duke Orsino (Channing Tatum) and Lady Olivia (Maggie Gyllenhaal) are involved in a love triangle. Orsino is infatuated with Olivia, but she is not interested in him. Instead, she is attracted to the young gentleman Cesario, who is actually Viola underneath. Through a series of misadventures, Orsino is tricked into believing that Cesario is a gentleman and not a woman, and they fall in love. Eventually, the truth is revealed, and Orsino is overjoyed to discover that his love is mutual.

The play runs slightly over two hours, but despite the length, it is well worth the time. Audience members were captivated by the acting and the production values. The sets were elaborate and the costumes were eye-catching. The play is a must-see for Shakespeare enthusiasts and for anyone who enjoys a good comedy.
Be Kind, Rewind: Best of the Best

Last week, I provided you all with two movies to see close in one weekend. They were the perfect companion to each other in terms of genre, style, and pacing. This week, we have the perfect companion films for your weekend: two films that are not only critically acclaimed but also evoke a sense of nostalgia for simpler times.

The first film is "The Dance Club Department Store," which features a young woman named Sarah who is trying to find her way in the world. She lands a job at a dance club and quickly becomes involved with the performers, who are struggling to stay afloat in the tough economy of the 1990s. The film is a poignant reminder of the importance of art and creativity in even the most difficult of times.

The second film is "The Crow," a film about a young man named Eric Draven who is killed by a corrupt police officer. In the afterlife, he is given the ability to return to Earth and seek revenge against the officer and those who wronged him. The film is a compelling exploration of the themes of revenge, justice, and redemption.

In conclusion, these two films are a perfect pairing for your weekend. Whether you're looking to laugh, cry, or simply be entertained, these films have something for everyone. So sit back, relax, and enjoy the show.
In the realm of Conflict and Culture..."narm Ground Common Hour Illustrates Roots of Faith and Conflict...

...unmon Ground Common Hour Illustrates Roots of Faith and Conflict. The discussion raised several questions concerning the events of September 11th, but few professors focused on the broader issues of faith and conflict. Professor Bhatia observed, "We've been told this is not a time for religion," and Professor Bhatia observed, "What is the reason for conflict? Is it because of religious beliefs?" and "We've been told this is not a time for religion," and Professor Bhatia observed, "What is the reason for conflict? Is it because of religious beliefs?"

Throughout their expressed differences, they all agreed to one goal: to listen and to learn. "We must find a new avenue within which to see the humanity in each other and to form a platform for peace," said Professor Bhatia.

Young women and girls, and the Women and Girls Fund, have been critical in making the programs a success. "We believe in the power of education to change lives," said Professor Bhatia.

The program, created in response to the September 11th attacks, has been a success. The Women's and Girls Fund, an organization that supports women and girls, has been instrumental in making the programs a success. "We believe in the power of education to change lives," said Professor Bhatia.

Local Nuclear Plant Increases Security

Security at the Millstone Nuclear Power Plant in Waterford is at an all-time high following the September 13th terrorist attacks. Within hours of the attacks, the FAA declared the entire area was restricted and visitors faced tightened security.

Governor Rowland also extended extraordinary measures for an indefinite amount of time. A discussion on whether this new plan is actually working is the subject of future meetings. The report states, "The Coast Guard is responsible for this," and "the Coast Guard is responsible for this.

Millstone station's security was beefed up as a result of the threat posed to the plant. This marks the first time high following the September 13th terrorist attacks. Governor Rowland also extended extraordinary measures for an indefinite amount of time. The report states, "The Coast Guard is responsible for this," and "the Coast Guard is responsible for this.

The Nuclear Regulatory Commission said that the station is not required to be successful in the event of an attack. "The Coast Guard is responsible for this," and "the Coast Guard is responsible for this.

But there seems to be a question of what would happen if a portrayal of the United States is not popular. "The Coast Guard is responsible for this," and "the Coast Guard is responsible for this.

Currently in state by state, there are plans for better security at the nuclear reactor site. "The Coast Guard is responsible for this," and "the Coast Guard is responsible for this.

America's Diversity Reflected in View of Flag

continued from page 1

BOSTON (AP) — A third of all Americans say there is too much emphasis on the national flag in events and ceremonies, according to a poll released Tuesday.

In a survey of 1,000 adults, conducted by St. Norbert College, Green Bay, Wis., and the University of Wisconsin at Madison, 33 percent said the flag is used too much, while 27 percent said it is used too little.

"The flag is not a symbol of unity," said Richard Schaefer, a professor of political science at the University of Wisconsin-Madison. "It's a symbol of division."

Underdog Camels Prepare for Difficult Opening Weekend

Dr. Matthew W. Pepeper

Dayton Amslon's Changing Face

"It's 5:30 p.m. Monday night, and a student hockey team was playing in the new (but not yet finished) rink. All the kids were singing. I felt slim, not because I am watching five children play hockey, but because of what I just experienced. So we are not watching. As I lean against the wall, a handbag in the handbag, waiting to talk about the upcoming season. We areHamilton's, I am surrounded by members of the team, the team's coach, and a group of business people, all getting dressed all around me.

While many college sports would have to be paused until the fall, sports fans that are used to watching hockey games have been able to enjoy playing in the new rink. It feels too much like the rink because of the way the new facilities have been designed. We are excited to see what is going to happen here at the new rink."

Toni Woynik

Daytonian

The Connecticut College Men's Hockey Team knows that it is not going to be easy to open the 2003-2004 season. They will have to prepare for the worst, but also focus on the best. In the last two years, they have beaten the Camels up in recent years, using speed and as invariable defense to beat Conn by a combined score of 18-5 in the past two years (2001-2002 season).

For the game plan, it is very simple. The Underdog Camels would open the 2003-2004 campaign with a huge victory over the Purple Knights. "We're going to go for it and we're going to try our best," said Rogowin.

Rogowin is going to play very well, and we're going to be ready for any challenge. The Camels are extremely strong. A successful beginning is going to set the tone for the rest of the season. They hope to return to the playoffs after a two-year hiatus. It is important for the Camels to have the underdog mentality.

The Underdog Camels are a team that the Camels feel prepared to face. Carmine Martin "02 said, on top of his game, "it's a dream come true." The Underdog Camels are a team that the Camels feel prepared to face. "The Underdog Camels are an excellent team. It's a dream come true," said Martin.

The Underdog Camels are a team that the Camels feel prepared to face. "The Underdog Camels are an excellent team. It's a dream come true," said Martin.
