UN IN ACTION COMES TO CONNECT. COLLEGE

Benefit To Offer Faculty Auction Tonight at 8:00

The Connecticut College Glee Club and the Yale Glee Club will present this year's Bach B Minor Mass on Sunday afternoon, March 26, in Fanning Auditorium. The past two years tickets have been sold out through subscription. Next week tickets for the Bach B Minor Mass will be placed in campus mail boxes for the faculty and students may have the first choice of seats.

Each dorm will have a special copy of the Bach B Minor Mass on loan from the UN Music Library. These copies may be borrowed for a period of one month. Those subscribng for ten dollars or the preparatory commission intended to encourage indept'd reading period in the program as subscribers, and visitors to the Greek delegation at question 9. Reading period was planned to encourage independent and mature work. Do you think it fulfilled its purpose as far as you were concerned? However, we found that 24 girls had said no. We were undecided as to whether the work was satisfactory, and 27 said yes.

The seminar room will be pur- chased at first glance. Those subscribing in various special capacities will have the first choice of seats. The chairs are donated by the United Nations, a gift from New Guinea to the Dutch East Indies. Used A.D. 1919. MUSIC. Organized and directed by Mr. George W. L. Townsend, an expert on the United Nations, the UN music library. Mr. Townsend will be on hand to help answer any questions.

A unique feature of the program is the UN Music Library. The UN Music Library is open to the public.

The UN Music Library will be open to the public.

On Saturday evening, Mr. Don- neldon, senior social worker in the UN Secretariat Office, will give a talk on the UN Social Affairs Department, which includes the UN program of technical assistance for under-developed countries.

A former member of the psychology department of Harvard University, Mr. McGrathman joined the O.S.S. during the war and later served as intelligence of the European theater as a major in the U.S. Army.

Mr. McGrathman on Saturday morning will be Mr. George W. L. Townsend, area specialist in the trusteeship division of the UN Secretariat. Townsend, an expert on the UN Secretariat, will give a talk on the UN Social Affairs Department, which includes the UN program of technical assistance for under-developed countries.

The names of these men have been engraved on the panels of Woolsley Hall in memory of their work for the United Nations. The University has organized a service to native peoples from New Guinea to the Dutch East Indies.

A unique feature of the program is the UN Music Library. The UN Music Library is open to the public.

Student Elections March 15; Petition Directions Issued

Student elections will be held on March 15. The petition for another office is circulated around for signatures. The petition may carry the petition to the Student Government room either the candidate or her representatives. The petition is to be taken out for an office is advised to have at least 150 signatures. The petition will be issued from one to one for News, and one for the bulletin board in Fanning.

Petitions Issued

Petitions will be issued from the Student Government room at certain times on the following days:

A. President of Student Government - Monday, March 6
B. Chief Justice of Honor Court - Tuesday, March 7
C. Speaker of the House - Wednesday, March 8
D. Vice-President of Student Government - Thursday, March 9
E. President of AA - Thursday, March 9
F. President of Service League - Friday, March 10
G. President of Service League - Friday, March 10

How to take out a petition:

1. Petition is available to any student who selects the proper qualifications for the office, and is willing to sign and support the petition. Petitions must be signed at the Student Government room.
2. Do not take out a petition unless you feel that you will be able to obtain the necessary 150 signatures on it. It is a good idea to obtain the signatures of your friends.
3. Remember that ONLY the girl is selected for a position. The petition around for signatures.
4. Petitions may take out only one petition.

Summer Activities of Vassar and CC Students Compared

In the light of an article in the New York Times on January 23, 1950, reporting on the summer work status of Vassar girls for the last summer, the Personnel Bureau has made the following comparative study which it feels will be of interest to all concerned.

Summer of 1949

Vassar College

Student Enrollment: 1,284
Percent Active (Work or Study): 70%
Percent holding paid jobs: 32.5%
Percent doing volunteer work: 40%
Percent who studied: 15%
Earnings: Students earned $78,010 or $61.87 per student

Connecticut College

Student Enrollment: 1,493
Percent Active (Work or Study): 87%
Percent holding paid jobs: 52.2%
Percent doing volunteer work: 20%
Percent who studied: 15%
Earnings: Students earned $80,002 or $57.02 per student

Petitions for any of the above offices must be filed between 3 and 5:30 p.m. in the Personnel Bureau in the Brandeis building on the following dates:

- Monday, March 5
- Tuesday, March 6
- Wednesday, March 7
- Thursday, March 8
- Friday, March 9
- Saturday, March 10
- Sunday, March 11

General Rules:

All petitions for office must be supported by at least two signatures. Each petition must have a stated purpose of the event. The petitions will be considered by the Student Government room.

A Forum of Opinion from Vassar

A Forum of Opinion from Vassar will be held on in the Men's Faculty Lounge in Fanning from eight to er girl.

Lecture and Discussion, "This Is Our Concern"

Lecture and Discussion, "This Is Our Concern" will be held on Friday, March 3 at 7:00 p.m. in the Faculty Lounge in Fanning.

A Framework of Opinion from Vassar - "This Is Our Concern"

A Framework of Opinion from Vassar - "This Is Our Concern" will be held on Thursday, March 2 at 7:00 p.m. in the Faculty Lounge in Fanning.

Informal Discussion and Social Gathering of Delegates

Informal Discussion and Social Gathering of Delegates will be held on Monday, March 5 at 7:00 p.m. in the Personnel Bureau in the Brandeis building.

Lecture and Discussion, "The United Nations Program"

Lecture and Discussion, "The United Nations Program" will be held on Thursday, March 8 at 7:00 p.m. in the Palmer Auditorium.

Lecture and Discussion, "Examination of the First Annual Report of the administering Authority of a Trust Territory;" Mr. Stavropoulos,

Lecture and Discussion, "Examination of the First Annual Report of the administering Authority of a Trust Territory;" Mr. Stavropoulos, will be held on Thursday, March 8 at 7:00 p.m. in the Palmer Auditorium.

Vesper Speaker

Rabbi Salit To Be Vespers Speaker

The second speaker in the 18th annual interfaith month now in progress at Connecticut College will be Rabbi Norman Salit of New York City. He was educated at the College of the City of New York, Columbia University, New York University, and received his theological training in the Jewish Theological Seminary, N. Y. He has served as rabbi of synagogues in the Bronx and in Far Rockaway, N. Y., has been president of the intercollegiate Zionist association, and now vice-president of the synagogues council of America. He is a member of the board of governors of the Jewish Theological Seminary, and of the executive council of the rabbinical assembly of America.

MARRIAGE LECTURE

Reverend J. oatlach Waggum of Storrs' Congregational Church will lead a discussion on marriage, sponsored by the Student Christian Association, tomorrow at 7:30 p.m. in the Commuter's Room.
Guiding Hand of Internat'1 Weekend -- Professor Holborn

by Annie Russillo

When one walks into the Woodworth house office of Miss Louise Holborn, the air is filled with a light, unassuming government, and, effectiveness, nor for an hour at a time but an entire day. The Miss Louise Holborn feature of the complete activity. Books and papers are stacked high filling the room. To say that she is ever present, amock scene before the work, it is not easy to find the woman who happily says that over in her spare time she works, because work is a way of life.

An International weekend at Connecticut would not be complete to any student unless it included the guiding hand of Miss Louise Holborn. From the moment she came to the United States in 1935 when she received her doctor's degree at Radcliffe College, Miss Holborn's activities in the University, both on and off the campus, have been the life blood of the student. Her generous spirit has represented a member of each class, and by officers of various campus organizations.

The weekend opened with a lunch in the Faculty dining room at the home of the Alumnae Association president, Roberta Thompson. The guest of honor was Miss Frances Rich, and she, Dr. Holborn, and the college president presided. Some of the campus activities sponsored by the Alumnae Association were the social evening at Pequot Hall, held this meeting there were smaller club meetings for refreshments in the Snack Bar, Monday night, during the Holborn, Miss Roberts, and some students, gave a very fine dramatic reading of the WACs' activities at Connecticut College.

Sunday at 10 a.m. Miss Holborn and Miss Roberts filled a window on the fourth floor of Fanning Hall with alums of the college. The morning meetings and making recommendations for the future. The meeting was released by the Connecticut CouncilWeekend.

Guests were at the Mohican Hotel, and a special was employed to take them from the main events on campus.

Senior Class Offered Interviews on Health

Health conferences with Dr. Warne with an interview and the students were given a place to call in at any time. The high place as an expert in international affairs.

In Germany she studied at the University of Berlin and at Heidelberg. She then traveled to the London School of Hygiene and then left Germany with the advice of the N.Y. State Medical Society and the United States in 1935 when she received her doctor's degree at Radcliffe College.

The conflict between the fields goes back into history, as the "new" movement of natural science developed independent of the existing schools, and so was associated with the versatile man; but we can see today that the contrast is artificial, and that the humanities and the natural sciences are dependent upon each other for conditions and ideas.

"Physiology is on the verge of re-making age-old theories of the natural sciences in a way that has yet to learn even a small part of the molecular's tremendous potentialities. If this is true, it is to be expected that the humanities will come back and lock the wonderful secret of cell propagation, and astronomy is trying to see what is evolved in that field. The nature of the conflict between the fields, and how it is connected to the "new" movement of natural science, is basic to all other sciences. The difficulty which they face is that they embody is the key to all educational problems.

The philosophy of humanism according to Mr. Butterfield, is this: "Human experience is an utterly mysterious and wonderful phenomenon. The highest embodiment of the spirit in man is in the recognition of and confidence."

The difficulty which they face is that they embody is the key to all educational problems.

Aims of Trusteeship System Explained at Model Session

by Nancy Sherman

By way of explanation and in traditions of an American Trusteeship Council is this prologue con- vention of the Trusteeship System and the of the purposes of the Model Session, which will take place Saturday, February 25, at 2:30.

The Trusteeship System applies equal treatment in social, economic, and educational matters for the different territories held under the system by the states responsible for their administration. The territories which may be detached from them are: Tanganyika, West Malaysia, the Pacific Islands, or any other areas that may be added in the future.

Aims of the Model Trusteeship Council

The objectives of the Trusteeship System include the encouragement of self-government, the protection of human rights, and the advancement of the personalities and conditions of the peoples under the system.

The meeting is divided into three parts: a general discussion, a trial session, and a discussion of the results. The general discussion covers the principles and purposes of the Trusteeship System, while the trial session is a demonstration of the procedures and methods that will be used to carry out the council's decisions. The third part involves the discussion of the results of the trial session.

The objectives of the Model Trusteeship Council are to:

- Promote the political, economic, cultural, and educational development of the territories and their inhabitants.
- Encourage respect for human rights and fundamental freedoms.
- Insure equal treatment in social, economic, and commercial matters.
- Provide for the progress of the territories.

The model session will include the presentation of a picture of the Pacific Islands Trust Territory, and the presentation of discussions and procedures that will be followed in the advancement of the territories.

The model session will be followed by a discussion of the issues and questions that arise during the trial session. These questions will be clarified and the council will consider the results of the trial session.

The meeting is divided into three parts: a general discussion, a trial session, and a discussion of the results. The general discussion covers the principles and purposes of the Trusteeship System, while the trial session is a demonstration of the procedures and methods that will be used to carry out the council's decisions. The third part involves the discussion of the results of the trial session.

Audience Applauds Boston Symphony's Inclusive Program

by Rachel Otter

The Boston Symphony Orchestra, last Tuesday night in Palmer Auditorium, was the largest audience that we have seen in some time. The orchestra was well-received and played to a capacity audience.

The objectives of the Boston Symphony's Inclusive Program were to encourage the participation of all students in the music program, to provide for the development of cultural and educational programs, and to advance the social and educational development of the territories.

The objectives of the Model Trusteeship Council are to:

- Promote the political, economic, cultural, and educational development of the territories and their inhabitants.
- Encourage respect for human rights and fundamental freedoms.
- Insure equal treatment in social, economic, and commercial matters.
- Provide for the progress of the territories.

The model session will include the presentation of a picture of the Pacific Islands Trust Territory, and the presentation of discussions and procedures that will be followed in the advancement of the territories.
Profiles
EVA BLUMAN

She walks, she talks, she's Eva Bluman, commonly known as "Bloomin' Eva," the recently elected president of the freshman class. The name Bluman is a familial one on the Connecticut campus, for Eva has been preceded by her sister Marlis, now a senior.

Why Eva came to CC is, as yet, something of a mystery. At her senior year at Montclair High School, she was heard to declare that she would attend any college in the nation except the one studied by the Thames. Apparently, she was of the opinion that one sister should not follow another to the same college, but, regardless of this argument, she is here.

Eva was born in Hamburg, Germany, in 1931, and did not come to this country until 1939. In that year her father was in the United States on business, and Mrs. Bluman, with Eva and Marlis, was planning to join him there.

Ship Recalled

On the day arranged for their departure, Hitler marched into Poland, and their ship, a German liner, was recalled. They returned to Paris where, for two weeks, they attempted to get passage to the United States. "Soft-hearted English or keep my mouth shut," Eva finally managed to obtain berths for them on a Dutch ship, and they escaped from France before war broke out.

Upon arriving in Montclair, N.D., which is still her home, Eva was of the opinion that one sister should follow the other at the college. As for sports, skiing rates first; it seems she learned in Switzerland at the age of six.

When queried about her prospective major, Eva replied that the outcome of future quizzes would probably influence her decision. Whatever field she chooses, Eva will doubtless be given the enthusiasm and ever-present sense of humor which are typical of her.

The following girls were initiated: Joan Andrew, Nancy Budd, Deirdre Coons, Carol Crane, Joan De Mino, Barbara Harvey, Alice Hess, Pidge Hondley, Arlene Hockman, Ruth Kaplan, Barbara Melby, Jane Mulir, Peggy Park.

Recital of the year is scheduled for May.

FASHION FARMS has been selected by Mademoiselle College Board members as the shop most popular with the girls at Connecticut College.}

W. and C. Initiates Sixteen Members

Palmer Auditorium was the scene of the Wig and Candle initiation, held on Tuesday, the 21st. Sixteen girls who have earned twenty points by working on various phases of productions were admitted into the club by presenting a skit for the entertainment of the members.

The following girls were initiated: Joan Andrew, Nancy Budd, Deirdre Coons, Carol Crane, Joan De Mino, Barbara Harvey, Alice Hess, Pidge Hondley, Arlene Hockman, Ruth Kaplan, Barbara Melby, Jane Mulir, Peggy Park.

Wearing of Overnight Permission during recital period caused several girls to voice objections, on grounds that the student should be able to plan her time and activities for herself.

There is not room here to include all interesting figures and opinions; anyone who is interested in learning more about the results of the survey should contact Elita Petrie, Wincham 296.

Reading Period (Continued from Page One)

Prof. Wagner Lecture Scheduled for Feb. 24

Mary Wagner, professor of education at Smith, will give an informal lecture on her experiences at the Spencer Trust College for board of nursing children in Los Angeles on February 24 at 4:20 in the Nursery School. All interested students are invited to attend.

With smokers who know... its
Camels for Wildness

Yes, Camels are SO MILD that in a coast-to-coast test of hundreds of men and women who smoked Camels—and only Camels—for 30 day periods, making weekly examinations, reported

NOT ONE SINGLE CASE OF THROAT IRRITATION due to smoking CAMELS!
Caught on Campus

Anne Russello

There is something about a vacation; be it the briefest on record as such or a long-term semester that compels us all and sundry to meet, become acquainted and then to announce their engagements to each other. We do not infer that all three stages can be a consequence of one mid-semester vacation, but one of the three is bound to strike.

Jan Surgeon, well-known proxy of the senior class, is engaged to Bob Hill of West Hartford, Connecticut. Bernie met Bob, who is working for the Hartford Electric Company, one year and a half ago when she saw him and promptly walked up to her and asked for a date. Bernie says that as yet no date has been set for the wedding.

Mimi Woodbridge, another Emily Abbeke, has announced her engagement to Ennis Bernard Thompson who graduated from the Coast Guard Academy in 1948. Bernie is now on duty in Alaska for an immediate wedding. They will probably live in New London for a year and then return to New England where Dave lives and where he will return to the university.

Chele Romance

Pete Hoyt and his fiancée Steve Dimmock of Boston met thru the conspiracies of well-wishing relatives. Due to their mutual consuming interests in music they were bound to meet anybody in the choice of a church to Boston Steve, who is head auditor at the New England Trust Company, promptly walked up to her and became enamored of and engaged to Dave Fraser, Wesleyan '48. Elaine and Dave, who is now working in the New London Daily office have met two years ago and plan to be married sometime this summer. Five further information, see Ginger Dravis!

Holly Barrett, also 50, has announced her engagement to David Harris who is stationed at the Submarine Base here. Holly and Dave met one year ago at Christmastime and plan to be married this summer. They will probably live in New London for a year and then return to Maine where Dave lives and where he will return to the university.

Margenau

(Continued from Page Four)

the newly apparent waning of gravity---" science is a dynamic field, Dr. Margenau stated, and its lessons are never ceasing.

In a world whose geographic frontiers have ceased to exist, science offers the modern explorer a never-ending way to expand. A more leisure time occupation in a society which it has provided with no escape, science is a constantly progressing discipline. Science can not be certain, but can only seek, the answers to eternal questions and problems and that since science is constantly changing, no one can fairly claim that science is materialistic.

We demand a scientific code of ethics, but the ethical norms of human society are not respected (Prime exemplifies this view). The laws of nature are not really for all things, when they are not obeyed, but they are useful, and are for all practical purposes they are valid. Dr. Margenau ended his letter by asking why such a disappear of attitude existed, and asking whether an understanding of the natural sciences might not show that simple truths such as that of usefulness is possible for human ethics.

Libby and Sheldon

Junior Nancy Libby and sophomore Mary Sheldon were winners in the recent Time Circulation Letter Judgment Contest. It has been announced by Miss Hyla M. Snider. About fifty Connecticut College girls and more than 5,000 students throughout the country participated in this contest.

Prices were given to students who ranked the two most successful letters in a series of eight in order of their relative polling power. Winners of the contest were entitled to their choice of a six-month's subscription to Time or Life or a six-month's subscription to Fortune.

Margenau mentioned the three chief objections to natural science and answered them by pointing out that imagination is among the most essential attributes of the modern scientist, that science is a constantly progressing discipline and that since science is constantly changing, no one can fairly claim that science is materialistic.
