SENIORS PLACE MASCOT.

Colonial Door Receives Lion Knocker.

The Lion Knocker, mascot of the class of 1926, was permanently placed on the door of Colonial at a dedication exercise held Sunday, February 28, at 3:30. The day was the first anniversary of the unveiling of the mascot at Junior Banquet, and so was peculiarly fit for the permanent placing of the symbol of '26.

After the seniors had sung their mascot songs again, Miss Helen Hood, class president, spoke to the assembled audience concerning the ideals for which the Lion Knocker stands to the class of '26, of the great game of mascot hunt which as Juniors the class had played with 37, of the hope that this year's hunt will bring, under the surface of the sport, the friendship which playing a great game will foster.

The Rampant Lion, which has so many unforgettable associations for both Juniors and Seniors, was then placed on the door of Colonial, there to stand, opening doors to future, "when we have gone our separate ways."

IDO AND ESPERANTO.

Mount Holyoke offers its students a course in the Ido language while Vassar includes a course in Esperanto. Ido and Esperanto are the two international languages which have been most efficiently developed.

Dr. Harlow Shapley, Professor of Practical Astronomy at Harvard University, has been appointed Visiting Lecturer to the universities of Belgium. Dr. Shapley recently spoke at Convocation here.

ASSEMBLY—ENTIRE STUDENT BODY

FINAL REORGANIZATION PLAN.

VOCATIONAL ADVISER TO COME HERE.

Miss Emma P. Hirth, Director of the Bureau of Vocational Information in New York City, will be on the campus March 8, 9 and 10, during which time faculty and students may secure interviews with her. Miss Hirth is the Visiting Vocational Adviser of the Personnel Bureau, and in the past four years has given much counsel and advice to undergraduates during her visits here. This will be her first visit this year, for Miss Hirth's time is in great demand, both in her own office, where she is sought by hundreds of young girls and young women for vocational advice, and where investigations of opportunities for women in business and professional fields are carried on, and in many educational institutions which desire her services. Much of her time during this visit will be given to conferences with the officers of the Personnel Bureau and with committee meetings of both faculty and students. However, Miss Hirth will hold a few student conferences particularly with Seniors who may be interested in securing information and advice about one of the more specialized occupations. If there are students interested in the same vocational problems they may come together for a short conference. Interviews may be signed for on the Personnel Bureau Bulletin Board, or by seeing Miss Hirth at the Personnel Bureau on Monday, March 10. All conferences will be held in the office of the Personnel Bureau.

Miss Hirth appeared in the January issue of Everybody's Magazine which tells of the fine work which she had been doing in the Bureau of Vocational Information.

AMALGAMATION MEETING.

Final Reorganization Plan Discussed.

Last Thursday night at seven o'clock the students gathered in the gymnasium for an amalgamation meeting.

There was a short meeting of the Dramatic Club for the purpose of accepting Marjorie Halbrooks's resignation from the Dramatic Club office of treasurer and calling this position. Eleanor Wood was elected treasurer. Miss King then made some announcements about the inter-class competition plays. The meeting was then turned over to Miss Hewlett for a Student Government meeting. Due to Eleanor Chamberlain's resignation as secretary of the Student Government Association, it was necessary to elect a new one. Margaret Elliott was elected secretary. Miss Hewlett then showed the students a new diagram of the modified plan for a new government organization. The main difference was the combination of the legislative body and the social, and the presence of only a Cabinet, House of Representatives, Honor Court, and Assembly. The different parts of this plan were then explained by girls. Helen Hood told about the Cabinet. It is to consist of the President of Student Government, and the Vice-President, the Class Presidents, and the Presidents of the other organizations, and a Secretary-Treasurer, appointed by the Cabinet, the Speaker of the House of Representatives, and the President of Honor Court. The duties of this body are to be purely executive.

The Cabinet will form the connecting link between the Faculty and Students, as the present Council does. There will be two faculty committees at present. The Faculty Committee on Continued on page 3, column 2.
OUTSIDE SPEAKERS COME TO CONCERT COLLEGE.

There have been lately several outside speakers who have given departures in the College. On Wednesday, February 24, Mrs. Harry A. Burham, chairman of the division of Language and Literature of the Pedagogical Art of Women's Clubs, addressed the Art of Language class. She spoke of the changing standards of the home, and the greater opportunities for the housewife to extend her efforts into outside interests. In spite of the transformation, however, there seem certain fundamental requisites that must still enter into its ideal composition, and these she summed up as: religion, as an active power in everyday life; 2, rhythm, a sane sense of values; and 3, reality, a sense of humor and the power of smiling through the tears.

Also in the Art of Living class, Mr. Halali Hull, a New London lawyer, lectured on Friday and Monday, February 24 and March 1, upon the subject, "Law in the Home." He explained such fundamental topics as persons, status, citizenship, domiciles, contracts, wills and inheritance, and courts and legal procedure, a knowledge of which is of vital value to the members of a family.

Miss Drummond, who has addressed the House of Women Voters in March, before, spoke to the Economics and Sociology classes on Saturday morning. She told of her position in women in industry, what she expects from her position, and why she has not up to the present time very largely attained it.

LECTURES ON PREHISTORIC MAN.

On Tuesday afternoon, March 2, Dr. Glenn R. MacCurdy (Mrs. George Grant MacCurdy), lectured upon "The Life and Art of Prehistoric Man." The lecture was held under the auspices of the Zoology department. Mrs. MacCurdy is the wife of Professor George G. MacCurdy, Curator of Anthropology in the Peabody Museum of Yale University, and Director of the American School of Prehistoric Research in France. Together, Dr. and Mrs. MacCurdy have studied prehistoric art in the wonderful caves of France and Spain.

Mrs. MacCurdy illustrated her lecture with lantern slides. The most interesting feature was the rise of art. First the animals drawn on the walls were the only outlines, no features, no feet, and only two legs. The next age gave eyes to the animals, and on following ages came four legs.

Thousands of years later, the engravings were of excellent quality with rather amply painted. Then came painting in perfect colors. MacCurdy also pictured stories of clay figures found in the caves. After the lecture she showed her collection of primitive implements.

GRADUATE TO DO RESEARCH IN SOUTH AMERICA.

The trip which Gloria Hollister '24, is making to South America to a certain amount of interest to all at "C. C." Miss Hollister is the friend of Mr. and Mrs. W. H. C. McQueen, for British Guiana for a Zoological exploration in the jungles. At Georgetown, they will be spending much of their time in the natural history museum of the city. Mr. McQueen will be pushing into the jungle, by rail and by boat, until they reach the Kukerale Falls, when they will strike out with a force of men and work and they will spend some time.

One of the things on their expedition is to study the golden frogs which are said to live in the caiman plants at the head of the falls. These frogs have been reported nowhere else. Miss Hollister expects to study the habitat of the frogs during back speculation. They also plan to identify and list the birds found in that locality and to study vertebrate life along the river.

The section of British Guiana has never been prospected. Miss Hollister and her friend will stay there until the end of the month when the season begins. At that time it is too hot in the jungle for white people. They will bring back a collection of invertebrates, and hope to find some new birds for the American Museum of Natural History.

During Alumnae weekend, Dr. Dedrick has invited many students interested in Zoology to meet Miss Hollister at her home where she told them about her plans.

MARTINELLI CLOSES CONCERT SERIES.

Probably one of the most popular of the College concerts will be the fifth concert in the Concert series, on Friday, March 5, Giovanni Martinelli, was the only tenor who could be secured by Caruso, was the artist.

If still a comparatively young man, he has gained a world renown. In London, Milan, and New York he has been enthusiastic, and by the end of the first half, they were leading by a good margin. However, in the beginning of the second half the Sophomores began a furious offensive attack and by a series of passes from center to forwards they succeeded in making the score even. Drake and Gribble, starred for the Sophomores, their passes being particularly effective.

From then until the end of the game, the score "see-sawed" back and forth. The teams appeared to be very evenly matched and both showed good team work. Some brilliant playing was done on both sides.

The Juniors proved victorious in a second team game with the Seniors, the team being the Neighbors. The team seemed to work very hard, although there was some exceedingly good individual plays. Drake and Woodworth did some very good defense. The Seniors and the Juniors were starred for the Seniors. The line-ups were as follows:

CHEMISTRY ESSAY PRIZES.

Again this year the American Chemical Society will offer six $1,000 prizes for the best undergraduate essays on Chemistry.

To live in the exact plants at the head of the falls. These frogs have been reported nowhere else. Mrs. Hollister expects to study the habitat of the frogs during back speculation. They also plan to identify and list the birds found in that locality and to study vertebrate life along the river.

Summer Camp Work for
Undergraduates.

Miss Hazel K. Allen, Camp Secretary of the National Board of the Young Women's Christian Associa-
tions, will be on campus, Saturday, March 20, to interview undergraduates who are interested in work for summer
camps during the summer of 1926. Positions of leadership as counselors, or specialized work in athletics, as well
as those of stenographers, bookkeepers and such technical work are available in a number of the Y. W. C. A. camps.
Students desiring further information, or wishing to interview Miss Allen, may sign on the Bulletin Board of the Per-
nonal Bureau, or see Miss Lesby.

Opportunities for College Women in
Department Stores.

Seniors and Juniors interested in learning of opportunities for college women in Department Stores may secure
this information from Mr. H. E. Von Kersburg, Employment Manager of Macy's, New York City, who will be
on campus, Saturday, Thursday, March 15, to interview undergraduates. Interviews with Mr. Von Kersburg
may be secured by signing on the Bulletin Board of the Personnel Bureau, or by seeing Miss Lesby. All interviews
will be held in the office of the Personnel Bureau.

WHAT'S THE ANSWER?

The College for Women at Boston University has launched the ultimate culture revolution with its newly adopted requirement: "Your future self will dream of modern times."

From now on, the college's official motto, "Love and Marriage," will be a guiding principle in all aspects of university life. The administration is excited about the new approach, saying it will help students navigate the complex world of modern relationships.

"We believe in empowering our students to make informed decisions about their future," said President Elizabeth Donovan. "By requiring a "Chair of Love and Marriage," we are equipping them with the tools they need to thrive in the 21st century."
