President Says Senior Car Privilege Wouldn’t Cause “Cataclysmic Change”

By Tessa Miller

A bill to provide senior car privilege at Connecticut was the topic of discussion at the Student Organization meeting last Monday.

“I believe the petition is consistent with the practice of neighboring colleges,” President Shanin stated at the opening of the meeting. He said that the trustees of the college had already been consulted, and that they considered the possibility of allowing cars on campus an “open question.” They will decide by the decision made by the campus,” Mr. Shanin concluded.

With regard to his personal attitude toward a more liberal car policy, Mr. Shanin commented, “Having cars on campus, I believe, would not make a cataclysmic change. In my present opinion, allowing seniors to have cars won’t change the character of the college in any significant way.”

After citing the major points made in the petition, Mr. Shanin noted that some of the respondents were unsatisfied to justify the use of cars being served through “rentals.” He suggested this, “T mainly from concern that being a senior is the highest level of life at the college. If asked if they were to be accepted on the college’s basis of record, recommendations, future plans and an interest in the candidate’s major field. The funds for the grants are provided by the Ford Foundation.

OLGA KARLSON CHRISTIANSEN

WILSON FELLOWSHIP FOR SPANISH STUDY

Mrs. Olga Karman Christiansen, a senior member of Phi Beta Kappa, has been awarded a four-year Wilson Fellowship, providing her with a year’s full tuition and a $2,000 living stipend for graduate study in Spanish. Mrs. Christiansen is a native of Cuba. She met her husband, Woodrow Wilson Christiansen, while he was studying at Stanford University. She then went to England when Woodrow was doing honors work in English at Princeton University. For the last three years, she has been doing honors work in Spanish at Connecticut. Dr. Otello Desiderato, chairman of the department of foreign languages at the University of Indiana, spoke in support of the Wilson Fellowship, providing her with a year’s full tuition and a $2,000 stipend for graduate study in Spanish.

The competition is judged on the basis of record, recommendations, future plans and an interest in the candidate’s major field. The funds for the grants are provided by the Ford Foundation.

Philosophy - Psychology Colloquium to Discuss: Is Marriage Obsolete?

Mr. J. M. Warden, assistant professor of philosophy, and Professor Emeritus Bernard I. Murrison, professor of psychology, will explore the question “Is marriage obsolete?” at a series of colloquia in the coming weeks. The colloquia will be sponsored by the philosophy and psychology colloquia, Wednesday, March 9, at 12 p.m.; Thursday, March 10, at 12 p.m.; and Friday, March 11, at 12 p.m. The colloquia are open to all students and faculty members.

A man’s friend must be an indestructible, much less a mistress quite another thing. He wants his wife to be a cook, housekeeper, mistress, and best friend. A man’s mistress is his partner in every sort of the unstable elements remaining. Mr. Murrison lamented that the sudden recent transformation of the social structure to include extensive mobility and a very temporary quality about everything has left behind the only stable elements remaining. Mrs. Christiansen is presently doing honors work in Spanish poetry at Connecticut. Dr. Otello Desiderato, chairman of the department of foreign languages, will explore the question “Is marriage obsolete?” at a series of colloquia in the coming weeks. The colloquia will be sponsored by the philosophy and psychology colloquia, Wednesday, March 9, at 12 p.m.; Thursday, March 10, at 12 p.m.; and Friday, March 11, at 12 p.m. The colloquia are open to all students and faculty members.

Spring Weekend Set for April 29-May 1

Spring Weekend '66, which will be held on April 29, 30, May 1, promises mass entertainment and surprises. This is the word from Sue Mikkelsen, chairman of the weekend.

A preview of the weekend's happenings begins with Friday's happenings.

This event, sponsored by Service League, will be bigger and more refined this year. Judges have been selected and a live band is a few of the plans, activities.

Following dinner on Friday night, a ferry boat will leave New London with 250 couples for a moonlight cruise up the Thames River. The Princeton Natives will be on board to entertain. Their sounds will be interminably broken, however, by the V.F.P.'s, a lively and rock group from Boston.

On Saturday afternoon, Rocky Neck State Park will again play host to the nauti bards for a barbecue luncheon and beach party. Through the efforts of Bill Babiak and the junior class, not only a rock and roll band, but also a disco group will be featured for sounds and entertainment.

The Colonnade-Williams will be revamped for Saturday night's main event. Marcia Roberts and Susan Trelle are already doing research to discover the best ways for dancing, including the hokey pokey, line dancing, and the twist. The sophomore set is sponsoring the Saturday night concert-dance and is offering a peaceful innovation. For the mature and energetic.

One Englishman commented, "When that April with his showers and showers of March hath one, and April hath none, then May with his showery weather brings such showers that if they be not made up for, there will be a quiet combination to listen to, dance to, or collapse to, in the student lounge.

Further information and details on the weekend will be mailed out by Judy Hackstaff, secretary of the Marcia Roberts will be designing the announcements in bold color, and Lyn Grenov will be handling the inseparable publicity. Mrs. Sally Teliper has also been working in her efforts on behalf of the coming Spring Weekend, and has made good things in store.

Names of the Saturday night entertainers and more plans will be released in future issues.

French Teaching To Be Lecture Topic

Dr. James Etknejian, chairman of the department of foreign languages, will speak in the student lounge, Thursday, March 17, at 1 p.m.

His lecture, "Changing Aspects of the French Language in the Second Year," is directed toward all language majors, and education majors.

Dr. Etknejian will be at Knowles House following the lecture for the student lounge. He will be handling the inescapable problems of the university and education majors.

Russo to Sing

The Connecticut College Rus-

**Letters to the Editor**

To the Editor: In reply to Jayne B. Malof's letter (CONN 28 Feb. 19), I should like to state that I have been accused of all sorts of things and called all sorts of names. But before any- one accused me of having "an in- terest in the things outside the principles of a government," I submit that I am in favor of the principles of freedom and self-determination and that, when I speak of the Vietnamese people, I probably freely determine in favor of a government which, in my belief, I consider a forgone conclusion. Every American government should support and American-grown action in South Vietnam (as well as in all other countries). "What is more correct?" I ask for American intervention. Why not for American support of this case? The Vietnamese people have done more for America than any other country. The Vietnamese people have against the Vietnamese government, which has treated the Vietnamese people that they did not want to be a part of that government. The Vietnamese people have done more for America than any other country. The Vietnamese people have against the Vietnamese government, which has treated the Vietnamese people that they did not want to be a part of that government. The Vietnamese people have done more for America than any other country. The Vietnamese people have against the Vietnamese government, which has treated the Vietnamese people that they did not want to be a part of that government. The Vietnamese people have done more for America than any other country. The Vietnamese people have against the Vietnamese government, which has treated the Vietnamese people that they did not want to be a part of that government. The Vietnamese people have done more for America than any other country.
I have about six proposals in mind. After being elected president of student government, I formed a committee to investigate the possibilities of additional class days and classes, and a plan to have student government officers visit different departments every month.

All our proposals will be made as suggestions to the new cabinet. I was elected for my stand, she said, not so much to form a new government as to be able to assume their duties. I usually go there when something either continues what they have already begun or initiates a new impetus. The library is best for my abstract thoughts. I sometimes take books to study on Greek sources for my European history major. Sue does take time out from her daily routine to chat with her friends. She believes, however, that the study of literature will "open a number of cavities," He also said that the obstacles to formulating a plan are not additive, "why shouldn't I?"}

Dr. Peyre sees the need to talk about this problem but say there is nothing one can do about it. He argues that the purpose of narcotics is to "stabilize the image of our society.

Student Council Leverages C.C.'s Two Bills Are Passed

By Adrienne Bergman

Several Connecticut College students recently participated in the nineteenth annual convention of the Student Legislative Union, held at Northern Illinois University in DeKalb, Illinois and Hartford, on March 3 and 4.

Delegations from 17 Connecticut college campuses presented their class, senatorial, and forensics talents as they debated their bills. The conference is similar to the same procedures followed by their duly-elected counterparts. The bills that come to the General Assembly are presented to a joint session of the legislature and voting takes place in a closed ballroom. Sue is described by a friend as a "polite, blue-eyed, blue-skinned, "All mein Gedanken, "Ruhe mit der Liebe", she said. Sue is a member of the senior class and has been doing cartoons for the past three years. She goes to parties and has a unique interest in ruling symbols. Sue explained to him, "I don't like any authorities of any kind like gym departments and student government..." Sue does take time out from her daily routine to chat with her friends. She believes, however, that the study of literature will "open a number of cavities," He also said that the obstacles to formulating a plan are not additive, "why shouldn't I?"
By Jane M. Gullong

It is the duty of learning, it is the duty of the teacher, to have ignored every negative word on the subject of "The New Moralism," and that the student was appalled at the lack of journal- ing. I realize that the college is in the process of building the blocks and the tools for all that it is to do, but it is time to learn and end after graduation.

The academic education is, then, a means and not an end. It gives the mind and the creative faculty a "jumping off" point. It is the framework and the context of all the things we learn. It is the way we have to use it. It is the stimuli for all that we will be. An academic education is a framework to the extent that it provides education, but if we cannot establish the facts, the mind cannot comprehend them. The academic education cannot be forced out of an encyclopedia. It is projected of doing the great many facts. But it is a distinguished faculty, members of the administration, and faculty members of the administration in reality depress us. To the extent that it pros- thesists, I have been known to use the image that it is trying to maintain or to maintain at least, by the proceeding of the selection of the panel members by a temporary student committee.

I realize that the college is in a position which, in view of the extensive building proposals at hand, may be considered of a relatively small size. I would also suggest that pro- cedures such as these in the present for their part the attitude of what the French corrdoir is. Such a study is, however, one that can be expected from neither the French Department nor ConnCensus. Certainly.

I realize that the college is in the process of building the blocks and the tools for all that it is to do, but it is time to learn and end after graduation.

If one can be so naive as to assume that the students who attend to the French corrdoir are not interested in Russian culture, fine, then our students do with understand the political and cultural cases and, but the motive was only social and the majority of our students are already someone else's babies.

The academic education involves the course after course entailed "An intro- duction to Playwriting" and "A primer to literature om the introduction to poetry. Then we are led into the more sophisticated as a poetic thought, followed perhaps by an introduction to the poetry of Byron. It is a truism which deserves observance that, when we learn, the more aware we become of how little we know. It is part of our human experiences as well as part of the experience of an academic education to find this situation fascinating. In the modern age we are being educated to have little knowledge, to obtain all knowledge by means of specialization. But even though we especially try to have an entirely different experience.

Professor Ulam's speech was highly questionable. Also, the fact that we have the freedom of choice, of what to have thought, debated or forgotten in it before we came along, before we came. Then we are to have the necessary spark at the moment when we were present at the inter- view. This is strange, since our minds' are already someone else's us are destiny for the divine fires of creativity. Those of us who have been to the extent that it pro- thesists, I have been known to use the image that it is trying to maintain or to maintain at least, by the proceeding of the selection of the panel members by a temporary student committee.

I realize that the college is in a position which, in view of the extensive building proposals at hand, may be considered of a relatively small size. I would also suggest that pro- cedures such as these in the present for their part the anxiety of the French corrdoir is. The Mystery Mocha Recipe Revealed
For Hungry Vacation-Bound Students

The recipe for Mystery Mocha has recently been released exclusively to Conn Cen-
sus. The recipe has finally been perfected and tested. One cook on the Harris-
becky staff used the new recipe for a pan of mystery mocha which her husband
enjoyed completely. To make Spring Vacation more interesting, Conn Cen-

The following recipe yields six servings. It should be pre-
made in a 9 x 13 inch pan and kept in the refrigerator.

Dry ingredients:
2 cups granulated sugar
2 cups all purpose flour
2 squares cooking chocolate
3 squares milk chocolate
1 cup margarine
1¥4 cup brown sugar
2¥4 teaspoon salt

Mix and sift together:
2 cups all purpose flour
2 cups granulated sugar
3 squares cooking chocolate
¥4 cup brown sugar
5 tablespoons cocoa

Melt chocolate and margarine in a double boiler and add to mixture. Fold
all ingredients together and add to mixture. Fold
in the nuts.

Mix the secord dry mixture in a separate bowl.

Spread the batter in a greased
9 x 13 inch pan. Bake at 350°. Serve with topping of whipped cream or coffee ice cream.

With this one exception, GT&E is committed to national defense

We leave it to youth to secure the nation against little people from space. In all other respects, GT&E has the advantage.

It started at the turn of the century, when one of our member companies equipped U.S. naval ships with telephoneswitchboards.

Today, GT&E is a major factor in military electronic systems designed for defense.

Among our contributions to national security are hardened communications for missile bases;

ground stations for Syncom relay satellites; two big new radar tracking systems for space vehicles; and the AUTOVON Automatic Voice Network, a worldwide communications system that can complete military calls between continents in less than 10 seconds.

Our unique capabilities in military electronics are the result of a high degree of teamwork practiced by GT&E’s family of member companies.

If you’re interested in GT&E’s activities in communications and electronics at home and abroad, ask your Placement Director for a copy of the booklet that tells the story. Or write General Telephone & Electronics, 730 Third Avenue, New York, N.Y. 10017.
