Peace Organization To Form At Meeting Tonight At Windham
Greenhouse To Be Scene of Flower Exhibit This Year

Science and Art Classes to Contribute Shares to Annual Show

On Saturday, April 23, Connecticut College is to have its annual Flower Show and Science Exhibit in New London Hall. The Flower Show and Art Exhibit will be open on Saturday from 2 P. M. until 9 P. M., and on Sunday from 11 A. M. until 9 P. M. The Science "Open House" will be on Saturday from 11 A. M. to 5:30 P. M.

The Flower Show this year will be held in the new greenhouse, as well as in the Botany Laboratories. There are to be displays by New London Florists and the Plant Estate. Students in landscape gardening are making a model of a village. Stump and Wharf, bulb specialists, are sending an exhibit of new named varieties of tulips, and an orchid display is expected from greenhouses in Summit, New Jersey. The plant hormone laboratory will also be open with samples and experiments in progress.

The Art Exhibition will include work done by the Fine Arts students and prints of several well known artists. An aquarium containing animals (Continued to Page 6, Col. 1)

Officers Elected at Executive Meeting of N. E. Model League

The Executive Committee of New England Model League of Nations met in Knowlton House Sunday, April 19 for the election of officers for the Model League for the year 1936-37. The results of the election which was preceded by a business meeting are as follows:

President, Tucker Dean, Harvard, '37, Chicago, Ill.
Vice-President, Virginia Blume, M. Holyoke, '37, Brooklyn, N. Y.
Secretary-General, Doris Cohn, Smith, '37, Buffalo, N. Y.
Treasurer, Robert Taylor, Clark University, '37, Stoneham, Mass.

The outgoing treasurer of the Model League is Elise Randall, '36, of Watertown, Conn. It has been an honor to the Connecticut League to have been associated with the outgoing treasurer of the Model League. Elise Thompson, '37, of States Island, N. Y., was in charge of the arrangements for the Executive Committee Meeting.

The League of Nations is the (Continued to Page 6, Col. 1)

Student Government Elections Will Be Held Monday, May 18

Harvard Orchestra To Present Musical Program Saturday

Tickets Grant Admission to Dance Knowlton Afterwards

Sponsored by the Service League and the Music Club of the College, the Harvard University orchestra will present a program in the college gymnasium Saturday evening, April 26. Conducted by Malcolm H. Holmes, it has a membership of about thirty men, and comes here through the Persian Sociad of 1906, an organization of the University in its one hundred and twenty-eighth concert season. The orchestra will be as follows:

Wagner: Overture to Tannhauser (5540.79) Symphony in G minor
Hindemith: Funf Stucke (String Pieces)
DeFalla: First Spanish Dance from La Vida Breve (Performed by the Harvard University orchestra)

Petitions Out Now; Results to be Given in Chapel Tuesday, May 19

The old order changeth -- Announcement has been made that Student Government elections will be held on Monday, May 18. Petitions for nominations for the office of President of Student Government were taken out Monday, April 20. They will be called in on Thursday, April 23. Petitions for Chief Justice will be opened Monday April 24 and called in on April 28; for Speaker of the House, April 29, to be called in May 2; for Vice-president of Student Government, April 30, to be called in May 3; for Secretary of the Student Government, April 30, to be called in May 4; and for Secretary of the Student Government, May 6, to be called in May 12.

A Student Government Meeting will be held either May 18 or 19, at which time ballots will be counted and campaign speeches made. The results of the elections on May 18 will be announced the same day at President Blunt's chapel.

Elections Committee

Elizabeth Beals, '36, is Chairman of the Elections Committee which includes Alice Cobb '36, Margaret Woodbury '36, Edith Burnham '37, theodore Hobson '37, Sally Kingsdale '38, Doris Olin '38, Ruth Kellogg '38.

Dr. or members of her committee will be in the election room in Brondford basement on the days appointed for the issuing of petitions from 8:00 on the morning.

The rules concerning elections are the same as last year when this means of electing Student Government officers was initiated, with the (Continued to Page 6, Col. 1)

Dr. Henry H. Tweedy
Vesper Speaker, April 26

Dr. Henry H. Tweedy, professor of practical theology in Yale Divinity School, will speak at Vespers on April 26. Dr. Tweedy has in previous occasions addressed Lenten audiences in New London and has visited the college annually for many years. He is a regular speaker to young people's religious conferences. After finishing his undergraduate work in Yale, he studied at Union Theological Seminary and the University of Berlin. He was later granted the honorary degree of D. D. from Lebanon Valley College.

Dr. Tweedy is the author of "Training the Devotional Life," "Religion and the War," "Moral and Religious Training in the School and Home" and editor of the "King's Highway Series".
While I read this text, I don't find any 200 character statements within the text.
Demonstration of Anti-War Sentiment at Chapel

The Anti-War Demonstration at chapel today consisted of speeches by three student speakers, Dorothy Pike '60, Margaret McConnell '36, and Barbara McDonald '38. The speeches led into an announcement by Dorothy Pike concerning an organization meeting for a Peace Group, which is to take place by night.

Margaret McConnell, as the first speaker, commented on the situation now facing the United States. She graphically compared the 1936 War Department budget with the total government budget for 1936-17. The Military Discharge Bill signed by the President limits both free speech and teaching. Oaths are sworn as testing for a Peace Group, which is to take place by night.

Dr. Powell, Hunt Receive Grants for Research Work

Two members of the faculty have recently received grants from the freshman class. One is a grant from the American Academy of Arts and Sciences. The other is a grant from the Permanent Science Fund of the American Association for the Advancement of Science. These grants will be used to defray the expenses of travel and living expenses in the conduct of research.

Religion's Relation To Maturity Told By Doctor Vlastos

Professor Vlastos, a professor of theology at Queen's College, Kingston, Ontario, spoke at vespers on Sunday, April 19th. Being one of the most acute religious thinkers on this continent, he was able to deliver a most interesting and convincing sermon on the relationship between religion and maturity.

The freshman class is going mad! Mild Form of Insanity

Through Religion, Professor Vlastos maintains, one may attain maturity because it teaches that there is something greater than human beings. The fact that the world and religion are in conflict with accepting the idea of our possibilities, the church, the state, and the world. However, the student is not really mature until he recognizes that this is the case. The freshman class is going mad and is in need of some guidance.

Quartet Presents Fine Program; Fifth One Here

Composed of both similar and unusual numbers, the program presented by the Manhattan String Quartet in the College gymnasium last night was the fifth of its kind presented here by this organization in four years.

The Quartet bore the distinction of being the first all-American group to make an extensive tour of Europe, from which they brought back many first-rate compositions, and they have been trained in New York, and are back in New York, all very excited. Their last performance was a rapturous one.

Dr. Roberts is Awarded Guggenheim Fellowship

Dr. Morris Roberts, former instructor in English at Connecticut College, is one of three Americans who were recently awarded fellowships in the field of American literature by the trustees of the John Simon Guggenheim Memorial Foundation. The fellowships are given to promising young scholars who have shown promise of being the most promising in the future.

Perseverance Is Real

Carrie Chapman Catt has been the keynote of Carrie Chapman Catt's life. Her work as a suffragist, her battle for women's rights, and her dedication to peace have been an inspiration to many.

Perseverance Is Real

Carrie Chapman Catt was forced to drop her defense of the weaker sex in order to consider the problem of obtaining a college education. She was a school teacher, and was forced to leave her job in order to pursue her education. She was determined to obtain a college degree and did not give up until she had succeeded.

The Tatler also tells us that Nona Michelle girl is known by her pack !!!!

Let us close with a cryptic telegram from the C.R.L.: Abbe Erased Afford analyze hurt 11 infectious dead.

And if you’re not sure of the message intended we will see that it is printed next week’s column.

Carrie Chapman Catt Speaks on the Causes and the Cure of War

Mrs. Carrie Chapman Catt, one of the great women of our time, spoke in the gymnasium on Monday, April 19th at 4:00 p.m. She is the head of the Conference on the Cause and Cure of War, a former president of the National Women’s Suffrage Association, and the founder and honorary president of the League of Women Voters.

Mrs. Catt spoke on the Cause and Cure of War. She said that war is a universal custom in the far-a-way past. Men have been fighting for four millennia or so long as there has been earth. Six thousand years ago mankind came out of oblivion fighting. No one knows what they fought for, but war has been going on ever since.

The reason why the approach to peace has been so slow and hesitating is that we did not understand the history of war. The first weapons of war were the flails, then pointed stones, and then the bow and arrow.

The competition with armaments commenced with the bow and arrow, and pursued every people to the present day. Then came the gun. War many new weapons were used, such as poison gas, tanks, submarines, and airplanes. Since the World War the armaments have increased. Everybody prepares for defense, but nobody knows what defense.

Mrs. Catt suggested a new gun that we all should play. It is called the “War Game”. To play it, one must understand the history of war. Then ask herself if she is for, against, or in different toward war, and state her reasons for such a belief.

Mrs. Catt gave three reasons why we see by the Brown Daily Herald that students have to be urged to call for their N. Y. A. checks. Maybe money grows on trees in college.

The Goucher College Weekly send this bit to the Daily. A professor to be urged to call for their N. Y. A. checks. Maybe money grows on trees in college.

EXCEPTIONAL positions, where college attainments have practical value, are now being sought by graduates of our Special Course for College Women, combining secretarial training and modern business. Jobs are plentiful in the known print makers of the United States whose work is being exhibited in the First National Print Show being held at the Albright Art Gallery in Buffalo from now until May 1st.

Among Mr. Logan’s works now being shown is “The Freight Sheds” of his eight-year period which has been purchased for the collection of the Luxembourg galleries at Paris, and by the Detroit Detroit Art Institute. “The Code Names”, a print owned by the Morgan Memorial Art Museum of Hartford, as well as several other smaller dry points.

OFFICERS ELECTED TO EXECUTIVE MEETING AT N. E. MODEL LEAGUE

(Continued from Page 1, Col. 2)

only way to peace", said Mr. Chase Kinball, who is in his address to the Executive Committee. Mr. Kinball is a member of the National Board of the League of Nations Association and a member of the executive committee of the International Peace Bureau.

The meeting was held at the National Press Club in Washington, D.C., and was attended by over 200 delegates from all parts of the country.

JOURNALIST LECTURES ON RECENT TRENDS IN NEAR EAST AFFAIRS

(Continued from Page 1, Col. 3)

Director of Resident Students at Alfred College.

With war and nationalism abroad in the Near East today, Professor Young's presentation, which is the result of ten years of travel both in and out of Egypt, Palestine, Syria, Turkey, Iraq, and Iran, should be especially interesting at this time.

A. P. Representative in Persia

After completing his college work at Indiana University in 1925, where he majored in English and Journalism, Mr. Young went abroad as an instructor in English at Tehran College and representative of the Associated Press in Persia.

In the summer of 1937, Mr. Young flew from Teheran to Mosc, where he did a series of feature articles on the economic and political situation. Then he flew across northern Europe writing Sunday feature articles on various countries for the Indianapolis Star.

Professor of Literature in Teheran

Returning to Persia in 1924 as professor of literature in Teheran, he and his wife spent some time in Central Europe and the Balkans, writing of his impressions on their way home. During the past seven years, he has lived in Persia, travelling to all corners of the Near East and acting as correspondent for the United Press Association. This summer he returned to the States by way of Russia, Poland, Germany, Holland, and England. During this year he will be completing his Ph. D. degree at the University of Pennsylvania in the field of Near Eastern History.

Professor Young is a Fellow of the Royal Geographic Society, a member of the American Oriental Society, the Royal Asiatic Society, and a member of many other professional organizations. He is a contributor to the World Book Encyclopedia, and a regular contributor to newspapers and magazines on Near Eastern affairs. He is a member of Phi Beta Kappa, honorary educational fraternity, and Sigma Delta Chi, professional journalistic fraternity.

CHAPEL SPEECH OF PRESIDENT PRAISES LATE JANE ADDAMS

(Continued from Page 1, Col. 4)

platform of this party was the basis for President Wilson's fourteen points. She and forty-two delegates were present at the Hague for the Women's International Congress for Peace and Freedom. The twelve nations represented at this meeting sought for continuous mediation by neutral nations.

Jane Addams knew the definition of direct devotion to cause. It is little wonder that a year ago on the twentieth birthday of the Woman's International League that each of the speakers at the dinner spoke of Jane Addams and peace. On her touchstone, the two great centers of her work and devotion are commemorated:

"Jane Addams of Hull House and the Woman's International League for Peace"

It's a myth. According to physical education department statistics from several universities, the average freshman gets lighter and shorter every year.

The average student in 1935 was 5' 10" tall and weighed 150 pounds. In 1936, the average Freshman was 5' 9" tall and weighed 145 pounds. His height and weight have been on a downward trend for the past ten years.

The trend is a result of improved health and diet. As the nation's economy has improved, the average family has been able to afford better food and medical care. This has led to a decrease in the average weight of high school students.

In addition, the increase in sports and physical education programs has contributed to the decrease in average height and weight. Students are now encouraged to participate in physical activities, which have a positive effect on their overall health.

The trend is also influenced by the increasing emphasis on academic success. Students are now placed under more academic pressure, which can lead to a decrease in physical activity and a corresponding decrease in height and weight.

While the trend is concerning, it is important to remember that the average student is still considered to be healthy and fit. The emphasis on weight and height should be placed on promoting overall health and well-being, rather than just physical attributes.
GREENHOUSE TO BE SCENE OF EXHIBIT

(Continued from Page 1, Col. 2)

from the Arboretum lake is being prepared by the Zoology department. There will be also charts showing the inheritance of hemophilia (excessive bleeding) in man, and the evolution of the brain from fish to man. Other students will give a demonstration of the preparation and coloring of slides. Exhibits in physiology and ornithology will be on display.

Chemistry students are planning to depict the history of the development of chemistry; demonstrations of color photography and of caffeine extraction. An exhibit which sounds most amusing is that of a 100 pound chemistry girl.

In Home Economics there are to be many displays concerning the science of foods, their preparation and cost, as well as plans for a Home Economics House.

The Physics department is setting up a large number of demonstrations, among which are "the uses of polarized light in eliminating headlight glare," and "an electrocardiograph". The observatory will be open for views of sun spots in the daytime and other things in the evening.

There will be a charge of ten cents to cover general costs.

Statistics indicate that 200,000 children now attending school in the United States will probably become criminals.

Probably the oldest co-ed in the country is a woman candidate for a master's degree in archaeology at Brown. She is eighty-one.

Cady Prize Contest To Be Held Monday

(Continued from Page 1, Col. 1)

friendly or family circle. Emphasis is put on appropriateness of the selections, understanding of the matter, and sympathetic and appreciative rendering of it, pronunciation, enunciation, use of voice, personal bearing, general effectiveness toward the end desired.

Contestants must sign up on the English Department Bulletin Board before Monday, April 27, at 2:00.

STUDENT GOVERNMENT ELECTIONS MAY 18

(Continued from Page 1, Col. 5)

exception that this year two girls, instead of only one, may take out one petition for a candidate. The girls taking out the petition must be accompanied by their nominee when they appear before the Elections Committee or have her written agreement to the nomination. The petition must be returned at the required time and must have 150 signatures in order to make it valid.
