Statement of ownership, management and circulation required by Act of October 23, 1962; Section 4369, Title 39, United States Code.
1. Date of filing: Sept. 30, 1965. 2. Title of publication: Connecticut College Alumnae News. 3. Frequency of issue: 4 times a year, December, March, May, and August. 4. Location of known office of publication: Princeton Printing Co., 176 Alexander St., Princeton, Mercer Co., N. J. 08540. 5. Location of headquarters of the publishers: Sykes Alumnae Center, Connecticut College, New London, Conn. 06320. 6. Names and addresses of Publisher, Editor, and Managing Editor: Publisher, Connecticut College Alumnae Association, Inc., Sykes Alumnae Center, Connecticut College, New London, Conn. 06320; Editor, Eleanor Hine Kranz (Mrs. John R.), 755 West Saddle River Rd., Ho-Ho-Kus, N. J.; Business Manager, Miss E. Elizabeth Speirs, P. O. Box 98, Windsor, Conn. 06094. 7. Owner: (If owned by a corporation, its name and address must be stated also immediately thereunder the names and addresses of the individual owners must be given. If owned by a partnership or other unincorporated firm, its name and address, as well as that of each individual must be given.) Membership corporation, no stock holders. 8. Known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages or other securities: None.
"And as for me, though that my wit be light,
On bookes for to read I me delight,
And to them give I faith and full credence,
And in my heart have them in reverence
So heartily, that there is gane none
That from my bookes makest me to gone."

The Legend of Good Women
Geoffrey Chaucer
The
Palmer
Library today

The Library Holds the Heart of Connecticut College. To this busy building, to this house of books, heads each student and each professor, time and time again, in the constant search for facts, for ideas, for knowledge.

"The primary purpose of a college library is to provide books, journals, and other instructional materials in support of the academic program of the college," it has been said. The Connecticut College Library is attempting to fulfill this primary reason for its existence. The circulation in the Reserve Room alone reached 8200 during October, 1965; and this is only one room of the five-level library.

Hazel A. Johnson, librarian, explained, "We are concerned for all departments; we are trying to build the Library's collection in all fields covered by the curriculum. The Russian Department is fairly new and we are trying to build up our collection of Russian books. The Chinese Department is just getting started. All take time; building collections is a continuing process."

Miss Johnson said that at the end of the last fiscal year (June 30, 1965) "we had a collection of 209,882 volumes and 135,000 pamphlets. Last year we subscribed to, and/or received 913 periodicals and newspapers. We are growing rapidly, so of course these figures are constantly changing." Purchases from allotted funds account for most of the new additions. Besides, many books are contributed continually; these help to build the collections. For instance, five large boxes of books from the personal library of the late Rosemond Tuve are waiting to be unpacked.

"students and faculty formed a chain . . . "

The Library opened simultaneously with the parent college. From 1915 until 1923, it was housed in New London Hall. In 1923 Mr. and Mrs. George S. Palmer of New London made possible the central section of the present building. To transfer the books from New London Hall to the new Library, students and faculty formed a chain . . .

Newspapers (U.S.) received daily at the Connecticut College Library are:

- New York Times
- New York Herald Tribune
- Christian Science Monitor
- Hartford Courant

Washington Post
St. Louis Post-Dispatch
Atlanta Journal
Courier (New York Courier) Pittsburgh edition
(A Negro newspaper)

CONNECTICUT COLLEGE ALUMNAE NEWS
chain; the books went to their new home from hand to hand.

A further gift from Mr. and Mrs. Palmer in 1931, together with a grant from the Carnegie Corporation, provided funds for three spacious additions to the original building. On its five levels the library houses book stacks, reading and reference rooms, a reserve book room, a typewriting room, 112 carrels for individual use, three seminar rooms. Individual desks are placed wherever there is space among the stacks, for the use of all faculty and students. The Palmer Room, on the top level, provides a cozy setting for poetry readings, lectures and public meetings.

From 1935 until 1959 the Connecticut College Library served almost as a public library for much of southeastern Connecticut. By 1959 the enrollment had increased so much that it became necessary to establish rules limiting service to the community to some extent, notably to students in other schools and colleges. Many other college and university libraries throughout the country are also unable to give service to the growing number of students enrolled in schools in their vicinities. Nevertheless, residents of the nearby community do visit the Palmer Library to read and study, to consult government publications and other materials. It is open to the public until six in the evening.

Growth of the collections

The collection of historical papers and publications also grows. The first printing and, in fact, all of the printing done in the state of Connecticut from 1709 through 1755 was done in New London. Among the materials printed were the Governors' proclamations, the Colony's laws, election sermons preached at the beginning of each session of the Colony's General Assembly (before separation of church and state), the first book of poetry published in Connecticut, almanacs, and many publications of religious interest. The items published in New London and elsewhere in the County after 1753 are also collectors' treasures, and are of considerable historical interest and value. William H. Putnam, past president of the Board of Trustees, bought many of these items for the Library as they turned up. This past year, when the New London Public Library decided not to keep its collection of local imprints, "the items we did not have" were offered to Connecticut College; special gifts made the purchase possible.

"I can't begin to tell you how many have contributed to our Library, people from the community and from outside too," Miss Johnson commented. Sometimes a collection begins with a need, such as the O'Neill collection. "In 1952 it was decided that because of his long association with New London, the College would honor Eugene O'Neill with an exhibit and series of talks while he was still alive. The Library of Congress and the Yale University Library loaned us manuscripts, and friends and members of his family still living in New London loaned us photographs and memorabilia. Three talks about O'Neill were given in connection with the exhibition.

"In the course of planning for these occasions, we learned how limited the Library's holdings of O'Neill materials were, and we undertook to obtain what might be available. Through the years since, by gift and by purchase, the Library has acquired his first editions and some other published works. Interested friends gave us some O'Neill letters, and we have received photographs through the kindness of O'Neill biographers who have come here for material about the part of his life spent in New London."

Sometimes the growth of a collection takes a great leap by virtue of a gift (such as the poetry collection). "In 1948 the Connecticut College Classes of 1923, 1924, 1925, 1926, 1927, and 1928 and also the Class of 1920 made a generous gift of money for the establishment in the Library of the Benjamin T. Marshall Collection of Modern Poetry. The books of poetry added for this collection were recommended by members of the English Department. The volumes acquired greatly strengthened our holdings, and they also stimulated interest and further efforts to enrich us in this category.

"In 1961-62 the Library received a grant of $500 through the American Library Association from the U.S. Steel Company and other contributors, also for the purchase of books of poetry. Regular recommendations by the faculty of the English Department for purchase of volumes of poetry constantly increase our collections. Years, Frost, Auden, Lowell, Pound and Spender are only a few of the poets whose works are well-represented. Many other sections of the Library's contents—for example, comparative religion, African studies, British history, philosophy, and German literature—have been given substantial boosts through the years."

When books are given, the staff must first check them to see if the Library already has copies. Next the faculty is contacted. "We depend upon the faculty heavily in deciding on the value of the books to the students for their class work." Once the books, bought and given, are classified under the Dewey Decimal System, and placed on the shelves, they are listed according to academic departments in the Connecticut College Library Reporter, a mimeographed list which goes to every faculty member each month through the school year.

(text continues on page 8)
Hazel A. Johnson came to Connecticut College as head librarian in 1943. A graduate of the University of Oregon and the School of Library Service of Columbia University, she had previously served seven years at the Scripps College Library in Claremont, California, and another six at Reed College in Oregon. She holds the title of "Librarian with rank of Professor" at CC. The possessor of a fine collection of cook-books, she enjoys a considerable reputation in faculty circles for gourmet cooking, a hobby she pursues enthusiastically.

Charles B. Palmer, present-generation member of the Palmer family who made the original building possible, who frequently assists at the Library, says "Miss Johnson's constant effort has been aimed at helping the Library provide effectively for all academic departments." Her unbounded enthusiasm for her job has led her to work voluntarily in her spare time cataloguing the Art Library at Lyman Allyn Museum so that its resources will be available to the community, and so that the students will not miss the benefit of these additional volumes. Like all good librarians, she earnestly desires to have books used, so it is no surprise that the student Library Handbook contains the following admonition:

"Nothing is more important to the staff than that you find what you need. A staff member who appears busy is only waiting for you to ask a question. If your first request does not produce the required results, ask and ask, again and again!"
Faculty and student committees

The total college community is involved in the Library's progress. There is a faculty library committee composed of eight members elected in rotating fashion by the faculty, together with the librarian (ex officio). Its duties are to study library needs, to help plan library resources for better use, to uphold the requests of the Library for adequate financial support and to assist in the allocation of book funds. There is also a student library committee consisting of a president, secretary, and two members elected from each of the four classes, which meets as a discussion group, usually once a month. Its duties are to serve as a liaison between the student body and library staff for discussion of needs and problems, and to assist in the study of current and future needs.

"... we are not a university library"

"We recognize that we are not a university library," Miss Johnson pointed out. "The faculty often have to go to Yale or Harvard for specialized work. Through the interlibrary loan, however, we are able to borrow books for them. Since it would be impossible to have every book, what we have tried to do is to build our bibliographical collection so that faculty and students can know what is being published in their fields." The bibliographical collection includes such publications as abstracts, periodical indexes, subject indexes, and national lists.

Government publications and micro-film

The Library is a depository for Connecticut State publications and U.S. Government publications, including Supreme Court Reports, and it subscribes to the British Parliamentary Debates. A collection of materials on microfilm was given a substantial start with the graduation gift of the Class of 1942 and a grant from the Charles E. Merrill Trust. For instance, the New York Times, from 1913 to date, the London Times from 1892 to date, and the Wall Street Journal from 1925 to date, are available in this medium, among many others. The full texts of all books published in the United States between 1639 and 1800 can be read from cards by way of the Readex Microprint. There are three microfilm readers and two microprint readers frequently in use.

Alumnae working in the Library are:

Helen K. Aitner '46, Reference and Documents Librarian
Eleanor H. Geisheimer, ex '39, Order Librarian
Thelma M. Gilkes '39, Catalogue Librarian
Lucille Witzke Morgan '24, Assistant Main Desk
Jean Rinicott Shelburn '50, Assistant Order Department
No description of the Library would be complete without mention of the "cage," a room housing a number of the special collections which have been given or bequeathed. Of considerable note in this category is the American Woman's Collection consisting of letters and/or papers of distinguished American women. First or limited editions of the writings of William Faulkner, Gertrude Stein, Walt Whitman, Virginia Woolf and others enhance the shelves, as well as a number of fine editions such as the Kelmscott Chaucer, sets on birds and quadrupeds by James J. Audubon published in the 1850's, some Siren titles on Chinese art, St. Augustine's *De Civitate Dei*, libri xxii, and others. Additions to these collections continue to come in, and are eagerly sought. The Palmer Room contains the Early American Travel Collection from the personal library of Mr. George Palmer. Finally of note is an extensive collection of ballads, folksongs and folklore, together with a harpsichord, bequeathed by the sister of Miss Loraine Wynn. These volumes are especially strong in English, French, and American ballads.

(Text continued on page 14)

The American Woman's Collection consists of letters and/or papers of many women of note, among them:

   (see opposite page)

b. Miss Eveline Warner Brainerd, a leader of the woman suffrage movement in Connecticut, who was also interested in and wrote of the history of her community and state.

c. Mrs. Belle Moskowitz, political advisor to Governor Alfred E. Smith of New York. Chiefly photographs and family papers. Historians from all over the country come to study these.

d. Mrs. Alice Hamilton, American toxicologist, physician, and educator. (Edith and Alice Hamilton House, in the north dormitory complex, is named for her and her sister, the distinguished classicist.)

e. Mrs. James W. Morrison. Personal papers. Mrs. Morrison was a founder of the League of Women Voters, and for many years a member of the College's Board of Trustees. She is now its Honorary Secretary as well as one of the three honorary members of the Alumnae Association.

f. Miss Frances Perkins. Official papers. Miss Perkins was U.S. Secretary of Labor from 1933-1945, the first woman ever to be appointed to the Cabinet.
The story of Prudence Crandall

In the light of today's civil rights struggle, the story of Prudence Crandall is particularly interesting because it took place over a hundred years ago in the state of Connecticut. At the time, it intensified the conflict between abolitionists and southern sympathizers in the North. From the Dictionary of American Biography, the story follows:

"Prudence Crandall was born in Hopkinton, R.I., of Quaker descent. The family had a tinge of fanaticism in their blood and her younger brother was imprisoned for nearly a year in Georgetown, D.C., without trial, for spreading Abolitionist doctrines there. Prudence moved from Rhode Island and after a brief career as a teacher at Plainfield, settled at Canterbury, Connecticut where, in 1831, she opened a school for girls.

"A colored girl wished to attend and received Miss Crandall's permission. Immediately there were protests, whereupon Miss Crandall decided to keep a school for Negroes only. A town meeting was held on Mar. 9, 1833, to prevent her. She was denied opportunity to be heard in defense by counsel, although she offered to retire to a more secluded place if reimbursed for her preparatory expenses at Canterbury. The leader of the movement against her declared that no Negro school should be established anywhere in Connecticut, but Miss Crandall continued firm in her resolution and opened her school. Dishonest forms of intimidation were used against her. Her well was filled with refuse, physicians refused to attend the sick in her home, she was forbidden to enter the church, her house was attacked and narrowly escaped burning, and she was threatened with personal violence.

Her opponents secured (May 24, 1833) the passage of an act in the state legislature making it illegal for anyone to set up a school for colored people who were not inhabitants of the state without the consent of the selectmen of the town in which the school was to be located (Public Statute Laws of the State of Connecticut, 1833, chap. ix). Under this law, she was arrested and imprisoned. By this time the case had attracted wide attention in Abolitionist circles, the Rev. Samuel J. May and Arthur Tappan took up her cause, eminent counsel were retained in her behalf, and a newspaper, the Unionist, of Brooklyn, Connecticut, edited by C. C. Burleigh, was established to defend her. The first trial resulted in a divided jury but a new case was made up and she was tried a second time. Her counsel claimed that the law was unconstitutional, as Negroes were citizens and it infringed that clause of the Federal Constitution which gave the 'citizens of each state . . . all privileges and immunities of citizens in the several states.'

"The case, however, was decided against her. It was then appealed to the Supreme Court of Connecticut which reversed the decision of the lower court on the ground merely of insufficient evidence and dodged the real issue. The Supreme Court decision was rendered in July 1834 and the next month Miss Crandall married the Rev. Calvin Philleo, a Baptist clergyman and the couple moved to Illinois. After her husband's death in 1874, Mrs. Philleo lived with her brother Hezekiah in southern Kansas, dying at Elk Falls in that state. She retained both her mental vigor and her great interest in the colored race until her death." Dictionary of American Biography, vol. 2
The College Archives

The Library has an extensive collection of papers, publications, photographs, and other memorabilia which record the history of the College. For example, Miss Elizabeth Wright's correspondence relative to its founding came to the Library after her death. Below is a letter from a doubting Thomas whose name, in this case, happens to be "Howell."

All of this material, as well as other personal and historical papers, is greatly in need of organization by a trained archivist. Vassar and Smith are among the colleges having well-arranged collections of their archives and memorabilia, and it is hoped that Connecticut will soon find the means to accomplish the same because good organization vastly increases usefulness. This kind of work differs from the ordinary cataloguing of books, journals and pamphlets which now takes up all of the present staff's time.

South Manchester, Conn.,
May 16, 1910.

Miss Elizabeth C. Wright,
#908 Farmington Ave.,
West Hartford, Conn.

Dear Madam:-

I am in receipt of your letter of May 5th and regret that I have not replied to it sooner.

I do not doubt but that there is room for a college for women in Connecticut and that great good would accrue through the establishment, on a sound basis, of such an institution. Your letter refers to several educators who are interested in the project. Might I ask if you have as yet any definite scheme for supporting such an institution, and if so, what it is? Did you intend to appeal for state aid, or have you private endowments in mind. To secure favorable state action it would be necessary to show that the institution had a sound financial backing, which I am afraid it would be very difficult to secure.

Yours truly,

[Signature]

CONNECTICUT COLLEGE ALUMNAE NEWS
This is the recording alcove, which is stocked with poetry readings chosen by members of the English Department. Columbia Records made a gift of sixty music recordings, to which some students like to listen as they study, a much-questioned practice. Temporary and makeshift, the alcove will give way in the future to a permanent poetry reading room housing books of poetry already being assembled and recordings of poetry readings only.

Miss A. Katharine Martin presides over a room in the basement called the Processing Room, a kind of hospital for books. To her come the worn volumes, tired and dog-eared, some with broken backs, and some with no backs at all. She mends, glues, re-covers, even rebinds them, and sends them back to the shelves. A former commercial artist, she also does most of the fine lettering and numbering on new books and old for the Dewey Decimal System.

Miss Martin will be remembered by alumnae as the Physical Education Department's instructor in riding from 1931 until World War II, when riding was temporarily discontinued. An accomplished horsewoman all her life, she has taught at many schools and camps, is a supporting member of the United States Equestrian Team, and is still actively engaged as a judge, visiting horse trainer and guest instructor at nearby estates. She likes to recall her first horse show at age nine, when she caused consternation by entering the ring, not in the approved side-saddle fashion of the day, but astride her mount.
Without doubt, Connecticut College has one of the better college libraries," This was the considered opinion of Keyes D. Metcalf, Librarian Emeritus of Harvard University, who devotes his time to advising colleges with library building problems. President Shain invited him in 1964 to see "what we should do about expanding."

As for the growth of contents, Mr. Metcalf said that the average growth of good college libraries at the present time is about 4½% annually. This figure refers to older long-established institutions which have had more time to acquire basic volumes. Mr. Metcalf thinks the Connecticut College Library should increase at the rate of 5% annually to "catch up" to the collections of these older colleges.

As for the building, Mr. Metcalf reported that "it is a good one and usable." However, he predicted that by 1967, or 1969 at the latest, there will be no space left. "I think that it can continue in its present building without an extension but with minor changes and alterations (such as better seating arrangements, lighting, etc., some of which have already been effected.—Ed.) for some three to five years without too great inconvenience, but I believe that to wait longer than that without the provision of additional space would seriously interfere with your educational program," he wrote to Mr. Shain.

In addition he underlined the need for airconditioning. "The useful length of life of the books will be greatly increased if better atmospheric conditions can be provided, and much as I like to spend money for books, I think it is worth spending (it) to lengthen the lives of those you now have and will acquire later."

Miss Johnson has high hopes for the expansion of the Library, among them increased study space for students, more stack space for books and journals, more working space for the staff, and better facilities for handling microreproductions and newspapers. Besides the proposed new poetry room, the George Haines Memorial Room, a browsing room, for which alumnae and students have already contributed some funds, will become a reality.

With a special sparkle in her eyes, she concluded earnestly, "It is our hope that through the years ahead the Library may continue to grow in strength, in richness, in usefulness—in all the ways that will best serve the needs of the students and faculty of the College."

A glance at statistics published by the American Library Directory, 1964 edition (figures as of June 30, 1963) bears this out. The variations are explainable in terms of date of founding and size of enrollment. A random sampling follows:

- Connecticut College, Palmer Library, founded 1915
  - Volumes 196,166; enrollment 1339
- Smith College, William Allen Neilson Library, founded 1909
  - Volumes 466,874; enrollment 1339
- Wheaton College Library (founded as Wheaton Female Seminary 1834, adopted present name 1912)
  - Volumes 98,767; enrollment 876
- Skidmore College, Lucy Scribner Library, founded 1911
  - Volumes 100,908; enrollment 1252
- Bryn Mawr College, M. Carey Thomas Library, founded 1885
  - Volumes 298,053; enrollment 1028
- Wesleyan University, Olin Library, founded 1831
  - Volumes 503,414; enrollment 1146

Preliminary plan for proposed expansion of the Library extends the present wings back creating two inner courts. It will provide critically needed shelf space as well as much more satisfactory seating space. (At present only 33% of the student body can be seated at once; libraries at Smith, Vassar, and Wellesley can seat 45-55% of their students.) The size of the present building will be doubled, providing temporary space for class rooms, seminar rooms, and faculty offices, space which will gradually give way to stacks as the book collections grow.
One section of the Library is reserved for books published by the faculty, administration, alumnae and students of the College. Some have been purchased, some given. Alumnae publications are by no means complete. "We buy them when we hear about them," said Miss Johnson. Naturally, the publication of a book is a matter of pride to its author, but alumnae should remember that it is also a matter of pride to the College. We respectfully suggest that alumnae authors or illustrators send the Library a gift copy of any book published in their name.

Welcome, too, of course, would be additions to the other collections, first editions, and rare books. It is hoped that alumnae will keep the Library in mind for gifts of this sort—and don’t forget—they’re tax deductible.—Ed.

"The difference between a college man and a man lacking in college is that he has the resource of books, that he knows there’s a book-side, to everything. He may use it or not, but he knows he has the resource—a book-side to everything... That makes the library the heart of the whole thing."

Robert Frost
(speaking at Amherst College, September 1962)
WEE BEASTIES
on the Icefield Ranges

An alumna spends the summer
in biological research
in the Canadian Yukon

Text and illustrations
by A. HARRIET TINKER '48

CARRYING A BIG DUFFEL BAG full of mouse traps, wearing a huge knapsack, with rifle on shoulder, boots slung around neck and skis and kayak paddles under arm, I appeared in Washington, D.C. one hot day last June. Soon others, similarly laden, converged upon the headquarters of the Arctic Institute of North America in that city. After a night of "rest" on the floors of the Institute building we, scientists all, loaded an unbelievable heap of gear (including one airplane propeller), a frisky puppy, and ourselves into a "tired and retired" bus which, like its occupants, proudly wore a shoulder patch proclaiming that it was the joint property of the Arctic Institute and the American Geographical Society. A final count showed twelve college teachers, a nurse, a medical student, two college boys, two high school students, the director of Arctic Institute, and an unaffiliated naturalist, all competing with the dog for the best seats atop the luggage. Four of us were females, the rest males. We took off, the director and the medical student alternating as drivers. Sometimes the bus ran for twenty-four or more hours without a stop; sometimes there was an overnight camp-out for rest. Sharing the duties of living together in close quarters produced an "esprit de corps" which was to contribute much to the success of the whole venture.

The venture itself was the Icefield Ranges Research Project conducted by the Arctic Institute of North America and the American Geographical Society, and financed by a grant from the National Science Foundation.

"The professors went to Washington"
It had a manifold purpose: to explore in depth a total environment about which little is known; to educate scientists of the future; and to provide opportunity for teachers to conduct research beyond that which their own institutions could make available. My assignment was to investigate the small mammals population in the research area.

The ten days spent in crossing the United States and Canada were an education in themselves. Along the way the teachers taught each other a great deal about our country's history, geology, and natural resources. When we reached the Alaska Highway, the Institute director took over the group's education for he had helped to build it and could tell us much about what we were seeing. Our destination was the Project's base camp at mile 1054 on the Alaska Highway in Canadian Yukon Territory, and there we were met by more scientists from the United States, Canada, Japan, New Zealand and other places, with their wives and children.

Base camp consisted of an aircraft landing strip, two Jamesway huts, and a city of colorful tents. The huts held a radio communications center, office, library, kitchen and dining hall. A generator provided electricity to power the radio and other instruments as well as a washing machine which stood outdoors beside a handpump capable of filling it with icy water. The women took turns doing household chores, baby sitting, and manning the radio transmitter and weather station. They were required to remain at the base camp when their husbands went out to camps in the field. The scientists were always on the move in and out of camp. As a result, the wives never knew whether to prepare a meal for a dozen people or for two or three dozen, and soon became adept at expanding whatever was cooking by adding a can of this and a package of that. The odd assortment of personnel led a reporter from the Whitehorse Star to write about "Research Family Style," and to comment on the "baskets of clean diapers tucked in between sophisticated scientific instruments." It also led the driver of a commercial bus,
my assistant and I flew out for an aerial reconnaissance of the area in which we were to work. Then we took off by ourselves on a kayak trip some seventy miles along the shores of Kluane Lake, largest in the Yukon, to explore and to trap mice and other wee beasts living there. We carried a two-way radio for reporting our location, progress, and state of health the required three times a day. Listening to radio chatter kept us informed of the work going on in all the other field camps. We carried maps, compasses, food, bait, traps, tools, and of course rifles. The guns were not used, but were kept in constant readiness against the possibility of marauding grizzlies. (Several times the bears sniffed about our pup tent during rest hours.) At first the load of supplies was so big that there was no room in the kayak for both of us. One girl paddled while the other hiked along the shore. Before long, however, enough supplies were used or jettisoned to allow both to ride. Our schedule became a routine like this: get up, tend traps, skin out1 animals and make records while listening and reporting on the radio, prepare a meal, pack the boat and move on; land the boat, set up a new camp, hike into the hills and set up a new trap site; and start all over again. Although we carried ample camp food we delighted in "living off the land." A typical field menu consisted of lake trout seasoned with wild sage, roasted wild tubers, boiled wild greens or a salad of same, fireweed tea, and a dessert of fresh berries to top it off.

Our lake trip occupied most of the season despite a big assist from a passing motor boat. The trapping was highly successful; many specimens were taken. Many animals were captured alive, marked, and released to become a basis for next summer’s work. Notebooks were filled with data.

At the end of the kayak trip we returned to base camp and established a trapping grid there. (We were filmed at work for a TV release.) Near the end of the summer we were flown to one of the glacier camps—a fairyland moon-country of snow, ice, and tortured mountain peaks. Temperatures there were much like those in winter at home, and the snow was 7000 feet deep! We observed glaciologists at work and scouted possible sites for studies in the summer of 1966. As an added dividend we were

1The animal is literally taken out of its skin. The skin is then sprinkled on the inside with chemicals, stuffed with cotton, and put together again.—Ed.

CONNECTICUT COLLEGE ALUMNAE NEWS
allowed to drive home, exploring the trans-Canada highway and a large part of eastern Canada en route, in an Arctic Institute station wagon. Ten days and many flat tires later we made it.

Now I'm on the job teaching biological sciences at Lasell Junior College, and in addition, thanks to an academic year extension grant to Lasell from the National Science Foundation, I am continuing to study the specimens and data of the wee beasties of the Canadian Yukon. The summer of 1966 will, I hope, find me back on the Icefield Ranges.

Harriet Tinker, or "Tink" as she is known to her classmates, is no stranger to outdoor life and scientific investigation. After graduating from Connecticut College in 1948 she worked seven years at Dartmouth College's Museum of Natural History and two years at Nevis Biology Station of Columbia University. Collecting, stuffing, and cataloguing animals were some of her duties. She has lived for days and weeks, winters and summers, in the mountain areas of New England, gathering specimens. For the past eight years she has been an instructor in biological sciences at Lasell Junior College in Auburndale, Massachusetts. The assistant mentioned in her article is Virginia Vincent, a University of Vermont graduate, who has worked with her before in scientific undertakings.
“how to find life worth living”

. . . All of the foreign offices, embassies, etc. are concentrated here and the atmosphere is as cosmopolitan as you could desire in any part of Turkey . . .

The food is excellent. If you ever come to Turkey, don’t even think of vitamin pills. In Peace Corps files, Turkey is listed as one of the most developed underdeveloped countries there is. Coming from a Pacific island (Hawaii), I thought I’d be miserable not having fish regularly. I have yet to feel deprived. Fish is flown into the markets daily and everything else from vegetables to meat is fresh and delicious . . .

I am an instructor of English as a foreign language at the Nurses’ college of Ankara Medical Center and at the Medical Faculty of Ankara University which includes the Nurses’ college. The place is huge and new and expanding at a rapid rate. I’m glad to be a brick in the building of this center.

I haven’t much free time. I’m in class 26 hours a week and the rest of the time am concerned with lesson plans which must be done since we teach through the direct mimicry-memorization Georgetown University method. During my really free hours I have the ballet, the concert hall, the opera, and numerous English cinemas at my disposal. If these don’t interest me, there are the usual parties and dinners that are the form of entertainment in any capital city . . .

As for “intellectual stimulation,” I’ve never felt it more since I left the womb of intellectualism prematurely. My friends . . . keep making me wish that I’d read more subjects while I was at Connecticut. Most of them are from Oxford or Cambridge Universities, whether they’re Turks or Englishmen. The others are of the same breed—the intelligentsia of Ankara.

I think you’ll know I’m happy with my work here by my statement that I can’t believe I’ve actually been here five months . . . I recommend this experience to anyone who wants a valuable education in plain learning how to find life worth living . . .

Ankara, Turkey

Leilani M. G. Luis ’64

“All of my projects have failed”

I am now teaching secondary literature and history in a small settlement town called Clay-Ashland. I live in a house with a Liberian family. I have a roommate and we are the only Americans in the town, which is very isolated . . . Most of my time has been taken up in teaching although I have started various projects such as a school garden, school newspaper, typing classes, and attempts at getting a CARE kitchen built to serve food to the kids at lunch time. All of my projects have failed. I sometimes have a great deal to do and at other times have nothing to do and am often bored since there is nothing in my town except the school and nowhere to go outside of the house where I live. There isn’t even a market in my town. I spend a lot of time reading books I never got around to in college . . .

Clay-Ashland, Liberia

Nancy Sloan Kinnebrew ’63

“In a month the town will have electricity. I can hardly believe it.”

Naturally (at first) I was a little put off balance by the lack of running water and electricity, but was actually a trifle horrified that my bathroom, toilet, shower and kitchen were (and still are) all outside the main part of the house; I live in the country, with only the weird
insects and animals for neighbors. I have since become quite at ease in the house and can say that I actually like it. At that time, however, before the football field was cleared, the thick forest crept right up to the back of my house and it was not unusual to have snakes hanging around in great numbers. My nearest human neighbors were (and are) the school director and his wife, who live about 150 yards away. Then, nothingness. Quite a shock after Bouake, where life teemed around me.

The survival instinct took over. Once the unearthly silence of it all ceased to give me unbecoming shivers, I made myself at home, that is, unpacked my suitcase, and explored the possibilities of the house. Kerosene lamps and refrigerator. Hmm. A sort of plumbing system. Water is delivered occasionally by a truck, drawn from the local stream. The system which passes for plumbing was often tear-provoking in these early days. The water is poured into a fairly large cistern outside the back of the house; then it must be pumped up by hand into an elevated barrel which feeds into the bathroom, kitchen, etc. But that barrel doesn't hold much water so the tiresome activity of pumping became part of everyday life. It also determined my extremely speedy showers and the number of toilet flushes and dish washings allowed. (Sounds like New York . . .)

In the classroom you can really be frustrated if you expect the same kind of motivation and performance that you can often find in the states among American children of their age and academic level. Of course you find the desire for "things" and status, but rarely do you find it to the degree that it occurs here. I gave one lesson in English where the students had to complete a sentence beginning, "If I had all the money in the world, I would . . . ". A tremendous number said, "leave the country." I imagine that since the coming of the white man they have heard time and time again, "What a god-awful place!" and they believe they've developed a certain amount of chic if they imitate his attitudes. Moreover, from the pictures they see of Europe and America they can't believe that the Ivory Coast could ever be as rich as that. So they study to make money, status, and get out or else be so high up in the government here that they will be able to spend all of their time travelling. How can you encourage these children to stay home and do something about what they find miserable? A lot of their attitude goes back to strong cultural feelings about responsibility for oneself and one's family, the others be damned. Also there is a kind of fatalism about the lot of the black race stemming from early (and some current) missionary work which teaches that the black are particularly damned among the peoples of the earth and must therefore only expect to have to work harder than anyone else to gain salvation. This kind of feeling about yourself and your race can really kill humanitarianism. Thus, there is very little intellectual fervor in the classroom. School is a drudgery, a means to an end, and far less work in their eyes than cultivating the yam fields. Once they've gotten into school the magic door is open, because at this stage so few of them get that far. Naturally this is changing as the competition gets stiffer. We see in our younger students real dedication to excellence and rising interest in subject matter. There's hope . . .

The signs of the mysterious Africa which we know through movies just aren't to be seen that often by white eyes. I do hear a lot of drums, though, which are played mainly for entertainment. You have to be with the people of the small villages for some time to get close to the actual ceremonial and ritual aspect of their life, and to arrive at an understanding of how alive and pervasive their animist religions and fetishes still are. And then you see how change in the sense of modernization ("enlightenment") will have to be accompanied or rather preceded by intense and incessant education and supervision. For example, there are many international and local health campaigns on now in Africa. The people of the villages are lined up (often with threats from politically powerful persons) and given their vaccinations against this and that disease. Often, however, no one tells them why they are being given the shot. Alas, particularly after a smallpox vaccination when there is a small sore if it takes, they resort to native herb-mud compounds to draw out the irritating stuff. Of course, tremendous infections arise from the tampering and finally when there is a huge ugly scar, the vaccination itself is blamed, because their medicine has been around a lot longer and is more trusted. They hide themselves and their children the next time the truck comes around. Many of the mass programs, which are so widely acclaimed, have in this respect negative effects, although they do manage to get the vaccine into the arms. Those concerned with education first and application afterwards (or concurrent) are doing the real work . . .

This year with the addition of two teachers, and the arrival of two other Peace Corps volunteers my social life has expanded somewhat. Although the two girls have their own house we eat dinner together at mine, for which nightly occasion we have a cook, trained in la cuisine française and very good. Now, every Thursday (a school holiday here, but there are classes on Saturday) we stock up on vegetables and any goodies we might be craving (just about everything is available in Bouake if you are willing to pay) and a fresh fish truck comes
twice a week with frighteningly reasonable prices. We also have a "boy," euphemism for servant, to do the washing and ironing and housecleaning, also to pump the water. It's all disgustingly wonderful, since I can devote much more time to my schoolwork and to getting out and around in the small villages. Having the girls here has been like opening a door for me to the local culture, since they spend every day in a village teaching hygiene and what have you. In a month the town will have electricity. I can hardly believe it. I suppose I regret a little the loss of the primitiveness of yesteryear, but not enough to deny the comfort of the situation this year. Give me another few years here and I'd be living like any other non-volunteer American or Frenchman here, that is, in as much comfort as possible. And why not? I do not believe the white man proves to any African that he is one of them by living as they do. I'm not rationalizing my good fortune, for my job is teaching, and to teach well, I need to be healthy and not overloaded by the simplest yet most time-consuming household tasks. I hope this doesn't offend the image you may have of Africa. It's all disgusting wonderful, since I can have a sweating, untiring, undaunted youth, building up a good muscle tone and collecting disciples for America. They exist I'm told, but they are not often teachers in a Frenchified society. And there it is . . . a little of the life of one Peace Corps volunteer in one little town. Tiebissou, Ivory Coast, Africa JULIA CAVAN '64

A Husband and Wife Team in Peru

. . . We lived for the entire two years in Chucuito (13,000 ft., population 300 families in and around the village, mostly Aymara Indians speaking some Spanish) and did a variety of things in addition to the jobs assigned us. (Dan was an auto-mechanics instructor in a U.N.-Peru trade school and I an extension home economist.) We taught English at the University in the provincial capital. We did some experimental farming demonstrating the use of fertilizers, fodder crops, and a plastic greenhouse. We started up some commercial looms which had been locked away for two decades, and trained some Indians to use them. The samples, alpaca tweeds, have been sent to Rome and Paris as well as to the International Crafts Festival in New York. Dan did extension work helping to promote and install village water pumps. We ran a first aid station . . .

We both felt the Peace Corps was fulfilling its aims better than other forms of American aid which we saw. There were few communists in our area and those seemed to be preaching an idealistic form which salved their consciences about the terrible conditions they found their people living in . . . We developed genuine affection and respect for some of the Indians, but the people of the middle class (upper class in the province) we didn't get along with—found them not only frustrating to work with but impossible to understand. On the other hand, we felt that it was important to keep working with them because they are the policy makers, and so kept trying . . .

Redwood City, California BARBARA BAILEY BAUER '59

Palatial libraries in Nepal

. . . My major job is professional library work with some advice on setting up technical and school libraries being requested by Volunteers from time to time. The Library has been organized as a cooperative between Americans and Nepalese. The Head Librarian is a young woman of Nepal who has earned her library degree at George Peabody College in Nashville, Tennessee. She is efficient, diplomatic, and ambitious for her library and her country so that it is a pleasure to work under her.

The book collection consists of 25,000 books, of which 9,000 are catalogued. Nepal was ruled for almost a hundred years by Ranas, who lived in luxury, and built many palaces in the Kathmandu Valley. Now these palaces are used for most of the public buildings, and our library is one of them . . .

The Nepalese eat a large meal at nine in the morning, tiffin at five or six in the evening, then a large dinner about nine at night. This means that they do not eat lunch. However, I stated that I need lunch so I have a lunch hour from one to two.

One of the members of our group is a blind man who has come here to set up a program for teaching the blind. He and two others and I have a house, which is truly delightful; a one-story, brand new one with a flat roof on which we can sunbathe almost every day. We do our own cooking which enables us to have either American or Nepali type food. Some treats are scarce or expensive, but we can get rice, meat, fruit, and vegetables in the city. We have bicycles provided by the Peace Corps on which we can travel the mile to the center of town . . . Do convey my pleasure and satisfaction with the Peace Corps.

Kathmandu, Nepal DOROTHY FRIEND MILLER '32

Editor's note: This is the last of the Peace Corps letter series begun a year ago. Doubtless some of these alumnae have now returned home, and there are new volunteers in the ranks. We would be delighted to hear from them about their experiences, and to publish their letters as we can.
In Memoriam

Mr. Augusto Centeno

Augusto Centeno, Professor of Spanish and Chairman of the Spanish Department of Connecticut College from 1952 until 1963, died on Christmas morning 1965 in Pasadena, California at the age of sixty-four.

A native of Seville, Spain, his career was rich and colorful. During World War II he served as instructor, interpreter and translator for the Inter-American Defense Board Joint Chiefs of Staff. Before coming to Connecticut he taught at Princeton, the University of Colorado, and Oberlin College, and was the author of a number of Spanish grammar books. His wife Elizabeth survives him. (Her address: Mrs. Augusto Centeno, 115 Cordova St., Pasadena, Calif., 91106)

from Koine'

Professor Augusto Centeno, named Professor Emeritus after he retired as Head of the Spanish Department during the Summer of 1963, personifies both the ability and dynamic knowledge of the "teacher." Aside from exemplifying the true national character of his native Spain, and possessing an extensive and intensive knowledge of its literature, Mr. Centeno brought to each class a precious touch of his own life and very rich personal experience. In his college years, he was part of a surrealist group of which Frederico Garcia Lorca, the Spanish dramatist, was a member. These early associations and friendships contributed to the personal approach he took in his teaching. The injection of his own vibrant personality often bridged the gap between his students and the subject matter, and made the language of literature alive. Mr. Centeno is more than deserving of the silent tribute in the hearts of his students, who will long remember him with deep appreciation and admiration.

"El silencio es mas elocuente que la palabra."

Mathematics a creative art?

College mathematics, that precise and frequently awe-some science, is presented in humanized form as a crea-tive art in a new textbook written by Dr. Julia Wells Bower of Connecticut College.

*Introduction to Mathematical Thought*, prepared by the chairman of the College’s mathematics department and recently published by Holden-Day Co., is specifically intended to demonstrate to students not majoring in mathematics that this subject is a comprehensible part of their intellectual tradition.

The course for which the text was written presents mathematics not as a tool or technique, but as a creative form of abstract thinking. Miss Bower first introduced this course for non-math majors into the Connecticut College curriculum in 1954, and since then its strength and popularity have consistently attracted about 30 stu-dents each semester.

“Students with merely superficial knowledge of mathematics frequently have a fear and awe of it which is incompatible with a liberal education and an impediment to the proper understanding of the age in which they live,” Miss Bower has noted in her preface to the college text.

“By doing mathematics well within their range of comprehension, they gain sufficient acquaintance with the subject so that they can discern and appreciate its logical structure and learn to use its precise language. As their pursuit of mathematical ideas becomes rewarding, they become willing to approach and consider the mathematical aspects of their world.”

A grant from the Carnegie Corporation supported the preparation of Miss Bower’s new mathematics textbook during the 1962-63 academic year when she was a visiting scholar at the University of Miami.

Bernice Wheeler ’37 now full professor

Dr. Bernice Wheeler ’37 was one of twelve faculty members recently promoted by the Board of Trustees. Beginning with the opening of the 1966-67 academic year, she will be a full professor of zoology.

Miss Wheeler is an ecologist who, since 1961, has been studying the probable food sources of Niantic River scallops and other shellfish. During the 1962-63 academic year she took leave from her teaching duties to collaborate on this research project with Dr. Nelson Marshall of the Narragansett Marine Laboratory of the University of Rhode Island. She holds an M.A. degree from Smith College and a Ph.D. from Yale University. She taught at Smith, Yale, and Westbrook Junior College before joining our faculty in 1947.

The Greeks had a word for it

Keeping one’s brains honed to a sharp edge demands physical as well as mental exercise, or so the ancient Greeks believed. Apparently there are followers of this doctrine on campus; we present this picture as evidence. One cold gray winter day we learned to our surprise of a new IN group in the college community, namely the “early morning runners.” Comprised of students, faculty, and even one faculty wife we know of, these dauntless doers meet early in the morning for a hearty jog about the campus, an exhilarating “tune-up” for the intellectual rigors of the day. We persuaded good-natured Phil Biscuti, the college photographer, who made no secret of his dis-dain for the hour of the appointment, to be on hand for picture-taking. From Mr. Desiderato, chairman of the Psychology Department, came a delighted, “The Psychology Department loves publicity!” So here they are, Mr. Desiderato in the lead followed by Messrs. Murstein, Psychology Department, and Williston of the French Department.
"Bleakness gives way to action" for parents of deaf children

The center of learning for the preschool deaf child is in the home, and his parents are his teachers. A trained teacher of the deaf, skilled in the techniques of counseling, can provide supportive guidance and counseling through weekly visits to the home. The results are exciting. Bleakness gives way to action on the part of these young parents. Just getting into motion takes most of the E out of "emotion."

There is a definite correlation between a deaf child’s satisfaction with his home environment, particularly in the mother-child relationship, and his eagerness to run toward life with curiosity, self-reliance, and a sense of humor. The earliest possible start in speechreading, through an awareness on the part of a deaf child of his environment, makes for richness of his inner language or conceptualization. This in turn motivates him to listen, to watch, and to respond by talking. Parents can encourage this through natural conversation about his daily activities as they occur, exciting the deaf child’s interest in language and stimulating his desire to express his thoughts and reactions in spontaneous, though very imperfect, oral communication.

Language is a series of circles. Circle I is composed of the deaf child’s stable speechreading vocabulary which he understands without any help. "Daddy’s coming!" or "Let’s go outside." How does a child understand these phrases? Three or four are selected initially by the parents, to use in the appropriate situation (never varying the wording) until the deaf child gradually has a true understanding of their meaning. Then one or two new phrases are added, and the original phrases are varied for added depth of meaning. Only after a word or phrase has become a firm part of his comprehension and is truly a part of Circle I will he attempt to say it spontaneously. Circle II consists of the words and phrases a child understands with eye clues, by means of a glance at the situation or object at hand. When the deaf child is in the sandbox, for instance, and looks up, a parent might say, "Shovel some sand," then glance at the nearby shovel. The child will reach for it without fully comprehending the language involved. Circle III is the perimeter of language which the parent uses during the day. The child pays general attention to the conversation. "You’re getting fat!" "Let’s run fast!" "Your dress is so pretty." There is interest shown in what is said, for mother always waits for a glance before speaking, but no specific comprehension of it.

The purpose of parent counseling is to enable parents to enlarge and extend the circles of comprehension. Gradually, the deaf child begins to sense an auditory, visual, and kinaesthetic ‘feedback’ as he plays and as his parents talk about his thoughts and activities and his reactions to them. Through the use of a hearing-aid worn daily, the fragments of residual hearing are trained early and the deaf child gradually begins to speak himself, in a natural, relaxed voice.

Magic? No. Hard work? YES! The counselor is merely the catalyst who capitalizes upon the instinctive eagerness of parents to "get back in the driver’s seat" as effective forces in their deaf child’s life. Gradually they come to realize, first-hand, the meaning of the expression, "Happiness as deep as tears."

WINIFRED NIES NORTHCOTT '38

Winifred Nies Northcott '38, an Alumnae Trustee, is working on a doctorate in Educational Psychology at the University of Minnesota; specifically, she is completing requirements this year for a Specialist Certificate in the Administration of Deaf Education, for which she has been awarded a fellowship.

Last September she directed a three-day professional, state-wide Study Institute concerned with the counseling and guidance of parents of preschool deaf children. "Language Development Through Parent Counseling and Guidance," a paper she gave at the Institute, was published by Volta Review, the professional journal for educators of the deaf, in March, 1966. She presented a paper on the same subject at the International Convention of the Council for Exceptional Children in Toronto in April, and will teach a short course at the National Convention of the Alexander Graham Bell Association of the Deaf in Kansas City, in June of this year.

She writes, "Now all my eggs are in the professional basket of education of the deaf and I find the study, relating, and writing exhilarating but incredibly demanding. AND a lesson in humility."
The Alumnae News is crowing about Cecelia Holland '65, its newest alumna author, whose book The Firedrake has just been published. In his column In and Out of Books, in the Book Review section of The New York Times of January 9, 1966, Lewis Nichols wrote:

A little later this month, Atheneum will publish "The Firedrake," by Cecelia Holland. It is a first novel, but a couple of things set it apart from the normal run of such things. It was written when the author was 21—she has been 22 for the last 10 days—and instead of being a story of adolescence, a normal proceeding for the age, it is a historical novel about the events in and around Hastings in 1066. The advance reports are very good indeed.

She is forthright, blonde, says that some days she is taken for 16, which will not be disputed. She was born in the west, moved east, went to high schools in New Jersey and Connecticut, graduated last June from the Connecticut College for Women at New London. She has been interested in history as far back as she can remember, and while at New London turned into a creative writing course the beginnings of "The Firedrake." David Jackson, mentor, sent it to a friend at Atheneum.

Although "The Firedrake" is concerned with English history, she does not regard English history as her particular field. That field is the Hungarian Renaissance, and a second book, already accepted by Atheneum, has such a background. She studied at Columbia for a time last fall, gave it up, recently has been working as a file clerk at Brentano's—where until recently no one knew she had written a book. She lives alone, save for a cat, cooks—intricate stuff, not ham and eggs—has a record collection, and when writing goes at it over 12 to 15 hour stretches, subsisting on coffee and cigarettes. She likes to spend money, normal. In the best dress, bought with much of the month's take-home pay, and striding down Fifth Avenue, she looked all of 16 and made a man feel all of 1066.

In The Firedrake Miss Holland has written a story of violence and risk; it deals with heroic action and high policy and only incidentally with the life of the common man. She writes of an eleventh century Irish soldier of fortune, Laeghaire of Tralee (or Laeghaire of the Long Road), and how he came to participate, as an important lieutenant of the Duke of Normandy, in the Battle of Hastings.

The fusion of Laeghaire's story with history is skillfully accomplished. On the spectrum of historical fiction that ranges from The Scarlet Letter (a novel with a historical background) to Mrs. Bowen's John Adams (fictionized biography that is 98% history), I should place The Firedrake slightly to the Scarlet Letter side of the midpoint. I place it there because the unifying theme of the book is the problematical destiny of Laeghaire of Tralee. He faces repeatedly the question: how can a knight errant remain a knight errant? Rootless and restless, neither tied to society through love of woman or child, nor inhibited from action by the pain of thought or a sense of guilt—can a man of action remain just that? In one memorable scene—a moonlit night when Laeghaire looks out over the Channel and the moored invasion fleet—the balance seems to move away from the life of the road and the exhilaration of battle toward security, occasional boredom, and family (with his devoted, Drusilda-like paramour Hilde).

He remembered riding alone in the forest of Germany. It was gone. He would never have it again. Now he would be a lord and live like a lord with a lord's duties. Everybody has to grow up. (p. 225)

As any college senior will admit, it is an issue that reduces to nothing the nine hundred years that separate us from that October evening.

The Firedrake is successful as history first because of several carefully-drawn scenes, scenes that are at once
interesting and historically enlightening: the scene of a lone knight returning from Thuringia, passing through a narrow defile with a dense forest on one side, a river and crag on the other, reminds us of a time when Europe was a pretty wild piece of real estate; the scene of the continuous brawling and drinking of William’s invasion army awaiting embarkation reminds us of the large input of barbarian energy into the medieval world (some people spent very little time in contemplation of the Great Chain of Being); the scene of the invasion fleet sailing west with torches lit on each ship as evening approached deprives us of the parochialism of thinking of Overlord as the cross-Channel operation.

A second factor in the historical interest of the book is Miss Holland’s perspective. She makes full use of the enlivening prerogative of the historical novelist of seeing events from the limited perspective of the participants. Thus she can make the past a risky and uncertain present. (The secret of the tameness of formal history is its determined quality; both writer and reader know how it will turn out, in the short run at least.) Probably reflecting his creator’s views, Laeghaire ridicules anyone who tries to strike an attitude for the historic record, or who tries to intensify his sense of life by an appeal to the “we’re-making-history” theme. Laeghaire has the extreme pragmatism of the professional soldier; if he could ever allow himself so much reflection, he might agree with the statement of Tolstoy:

Nowhere is the commandment not to taste of the fruit of the tree of knowledge so clearly written as in the course of history. Only unconscious activity bears fruit, and the individual who plays a part in historical events never understands their significance. If he attempts to understand them, he is struck with sterility.

Miss Holland has written a fine book, in a spare, forceful style that is well adapted to a tale of action. The Firedrake meets the main requirements of the historical novel in that it conveys a sense of the past and it whets one’s appetite for reading history. It sent me to Green’s Short History of the English People and Hall and Albion’s A History of England—books that give a good spectator’s view of 1066. But in The Firedrake one is at times participant.

RICHARD D. BIRDSALL
Associate Professor of History

Mr. Birdsall is the author of Berkshire County: A Cultural History, published by the Yale University Press in 1959. He will have one semester’s sabbatical leave during the academic year 1966-67 in order to complete a book-in-progress on the cultural history of Federalist New England.—Ed.

Sandy Holland, a history major at Connecticut, was raised in Metuchen, New Jersey and Woodbridge, Connecticut. She always had a strong interest in history; her idea for this book had been germinating since age 16. She worked on her book independently during her senior year at CG, always with the encouragement of the faculty. She graduated Phi Beta Kappa and magna cum laude.

There were almost no changes made by the editors on The Firedrake and she is now working on the third draft of her second novel, which she feels is better structurally than the first. This, too, has been accepted for publication by Atheneum.

Among Miss Holland’s future plans are a trip to Hungary and the Balkans this summer, and a third novel, already in mind.

Pictured here with Miss Holland is Professor F. Edward Cranz, Chairman of the History Department, at an autographing party at the Connecticut College Bookshop on January 19, 1966, a happy occasion. Her praise for the faculty is unrestrained: “They were great. They gave me everything, including freedom.”

RHODA MELTZER GILINSKY ’49
Book Review Editor

(Copies of The Firedrake may be ordered from the Connecticut College Bookshop. The price is $5 plus 35¢ for postage and handling. Residents of Connecticut should add 18¢ per copy sales tax.)
"Is a truly academic atmosphere possible only at the expense of friendship?"

The purpose of this column is to give the alumnae insight into college life from the student's point of view.

During exams, academic pressures produce a fervor unsurpassed at any other point in the year. The atmosphere becomes selfish. Each student is intensely pursuing her own course of study. Relationships in the dormitories become strained. College, we think, is a time to grow, a chance to grow intellectually as well as in other ways. However, to achieve a harmonious balance between the academic and the social (a vague lumping-together of all activities extra-curricular) is difficult, and the effort itself is part of the growing process.

Exams give a student the chance to round out her knowledge. It is one time when knowledge seems to fall into categories, and an overall picture of what has been learned emerges. However, this is often achieved at the expense of the student's relationships with her fellow students, for at this time only the most superficial effort is made to avoid injuring other people's feelings.

Selfishness, so flagrant at exam time, is understood and accepted in a college community. Everyone has similar commitments to the academic and everyone feels that her commitments are paramount. Since consideration of others is of the utmost importance in group living, the willingness of students to accept such an unnatural atmosphere is the result of the intensity, excitement, and stimulation of academic endeavor itself. Examination period, then, produces a necessary evil, that of a strained dormitory life, in order to attain a necessary good, the feeling of academic understanding.

Inter-session (the brief respite between semesters) is a much-needed break. The beginning of the second semester is marked by the healing of wounded friendships; the lack of consideration displayed during the last several weeks is quickly forgiven. The atmosphere in the dormitories again becomes relaxed.

The question that arises is, however, how the intellectual intensity of examination period, which seems ideal in the educational sphere, can be maintained evenly throughout the year along with the friendship of one's comrades. Is a truly academic atmosphere possible only at the expense of friendship? The college years are a time of questioning, and it must be remembered that questioning is not necessarily a form of rebellion, but rather an indication of healthy intellectual growth.

Alert to Cape Codders

The Connecticut College Club of Boston is sponsoring a gathering of alumnae on Cape Cod sometime this summer. It will be a bring-your-own picnic, for husbands and children as well. Details as to time and place will come in the May issue of the News. In the meantime, any helpful suggestions, especially concerning a good location, will be welcome. Kindly address:

Anne Flemming Lessels (Mrs. David J.),
38 Myrtle Street, Belmont, Massachusetts
02178
BEGINNING WITH THIS ISSUE, the Alumnae News reports on each class twice yearly, the odd year classes in March and August, the even year classes in May and December. Reunion classes may have notes in both May and August issues (i.e., before and after reunion) if they desire. Your comments on this or any other section of the magazine are always welcome.

CORRESPONDENT: Mrs. Enos B. Comstock (Juline Warner), 176 Highwood Ave., Leonia, N. J. 07605

As usual Alumnae Day, Oct. 9, meant a minor reunion for 19, this year highlighted by the presence of Ruth Trail McClellan of Klamath Falls, Oregon, whose visit to her brother in Groton coincided with the date. She brought news of her three children and 13 grandchildren and called herself "the luckiest of all alumnae" with her entire family in the immediate vicinity of her Oregon home. Ruth and husband Clifford enjoyed another spring in Hawaii, a favorite vacation spot. She hears occasionally from Dr. Helen Bishop of Klamath Falls, Oregon, whose daughter, Mildred Fenelon, visited Alumnae Day.

Alumnae Day was planned by Marion Rogers Nelson, bringing greetings to 19 from Miss Howe, who lives now on Salem Turnpike, Norwich. Marion Rogers Nelson brought the July issue of the magazine "Industrial Quality Control" containing a photograph and biographical sketch of her son, Dr. Lloyd Nelson, consulting statistician for GE Lamp Division, Cleveland, and announcing his appointment as chairman of the editorial board. The publication also contained an article by Esther Batchelder of the U.S. Dept. of Agriculture on "Clothing and Textile Research in the USDA from the Consumer Viewpoint," a reprint of an address made by Batch in Philadelphia in February 1964. Esther has been living in Rome since May with trips to Puerto Rico, Scandinavia and back to the U.S. for trustees meetings and other business in the fall. From Esther Barnes Cottrell, Luna Ackley and Polly Christie your correspondent heard of the activities of Mildred Wadham Grammer in Groton, of Beatrice Ashtab Maher and her work with the New London DAR, of Edith Baker Rowland still in the Kimball Nursing Home in New London, and of the death some time ago of Mary Strange. Mildred White visited the New York and New England areas in the fall after a summer in Woodstock, Vt., filled with raising, preserving, and selling vegetables. Alice Horrax Schell 20 called on her while her husband was at the school of Photography. Ruth Avery French's 1965 account reads like the précis of an essay on country living: banking church fires, brailing rugs, home decorating in winter days, gardening flowers and vegetables in summer in spite of drought, insects, deer and coons, working for Ladies' Aid and cancer drive, grandmothering the newest baby and entertaining relatives and friends throughout the year. Dorothy Gray Marion had summer visits in Connecticut, Pennsylvania and North Carolina before returning to hospital work, ceramics, sewing and socializing at her home in Aiken, S.C. and anticipating a holiday reunion with her son's family of four children. Florence Lennon Romaine, still doing part-time teaching in Hartford, entertained Ruth Trail McClellan, Dorothy Peck and Winona Young in October for an afternoon of reminiscences. Alison Hastings Thomson has returned after a summer at Twin Lakes, to their winter home in Melbourne, Fla., and the diversions of AAWU, fishing, sun-bathing, and her husband's carnations. Mail brought greetings from Margret Mitchell Goodrich in Portland, Conn., Luci Marth Haskell, Sand Lake, N.Y. (disappointed that her godchild did not choose CC), Edith Harris Ward, New Milford, Conn. (glad that two young friends did choose CC), Florence Gams in East Berlin, Wimona Young enjoying retirement in Hartford, and Miss Nye in Oklahoma City.

The sympathy of her classmates goes to Dr. Josephine Emerson Stiles of Walnut Creek, Calif. upon the recent death of her husband, Dr. Frank Stiles, while she was recovering from an operation. She has given up her practice and moved near her two sons and nine grandchildren. In January she planned to take a three months' cruise around the world.

Eleanor Hastie spent seven "bliflawful weeks" at her beach cottage at Edisto Beach, midway between Charleston and Beaufort, S.C. "Lots of swimming, crabbing, entertaining and just plain loafing." She has accepted the presidency of the County Unit of the American Cancer Society, which entails a great deal of hard work, organization and revamping of the program in that area. Dorothy Wulf Weatherhead spent eight weeks in Africa. She went via Greenland, stopped in Copenhagen, to Johannesburg, drove along the Indian Ocean from Cape-town to Durban, saw Victoria Falls, went on a three-weeks, 3,000 mile safari into East Africa, flew to London, and having toured southern England returned to Los Angeles. She spent the holidays in Hawaii. Mildred Fenelon spent last winter in NYC and attended many activities at the Lincoln Center and the United Nations. She saw Viviene Mader '23 who has become a real name in the dance field. Marion Keene Hauser's older son, who is comptroller of the Chemical Division of Mobile, has three boys. Her younger son is a partner in a law firm in NYC. Laura Dickinson Swift and her husband Ray, finding that retirement has meant more leisure to move about, have taken several trips to Florida and to Hawaii. Last April they attended a meeting of the American Institute of Nutrition at which time Ray was made a fellow of the society. Dorothy Pryde's latest trip, in March, April and May, took her to Tahiti, Fiji, New Zealand, Australia, Papua, New Guinea, the Philippines and Hawaii. It covered 25,000 miles, most of it by air, which was a departure in mode of travel for Dot who "doesn't enjoy flying." Rachael Smith has "retired" from the rat-race, alarm-clock world and is loving my work. I still do my em-

MARCH 1966
broidery bit." She spent some very interesting months with a pupil, the only delegate from Kenya, Africa, to the U.N. General Assembly, interested in starting cottage industries in the villages, developing things which might be exported or sold to tourists—all with definite flavor. Helen Rich Baldwin writes, "Our Trux returned safely from a classified mission to Vietnam and are we thankful." Billy hears from Edith Sheridan Brady often. Marion Kofsky Harrig, 19 and Billy attend the Washington, D.C. Conn. College group's activities. Elsbel Mason Demptry looks forward to the coming year with optimism though she had a heart attack in April. Anna Mae Bressou comes had a wonderful family Christmas gathering with her daughter Joyce, her husband and their three children, who live only 35 miles from Anna Mae, as well as with son Alan, his wife Hillary, and their son 5 weeks old. Anna Mae and Al are off to Florida soon. Louise Avery favorite talked with Kay Hulbert '20 recently. Louise's daughter is now located in Boston, the mother of Ruth McCollum Basset and Ella McCollum Valibech celebrated her 100th birthday this past summer and was honored by family, friends and the press. Marian Lyon Jones moved to Huntsville, Alabama in December 1964. She will be flying to Acapulco in February to visit friends. Two of her grandchildren will graduate in June, one in Kalamazoo, Mich. and the other in Alabama in December. Marion will "try hard" to be at 21's 50th reunion. On Dec. 13 Emory and I went to the Shubert Theatre in New Haven, Conn. to see the opening performance of "The Hostile Witness." Ann Hony, Kenneth Cooper, Dorothy Henkle's husband, had a leading role and we went backstage to introduce ourselves. Dor was with him and we had a brief chat with both. The Corbins in August spent three weeks with daughter Susan's family looking after Pam 6 and husband Gene while Sue presented us with a grandson, Adam Corbin Fusco. We attended the World's Fair many times, staying with son Albert who was working with the Baird Marionette Show at the Chrysler industrial exhibit. Sue and family were with us for Christmas but Al is now in "The White Devil" at the Circle in The Square. At present I am doing a small role in "The Old Lady Shows Her Medals" by Barrie at the New Britain Repertory Theatre but feel that this may be my "swan-song."

A salute to our class and to Mary Birch Timberman, Virginia Eddy, and Helen Barkov nesting Newberg who worked so hard and "in the heat of the moment" to get the majority of our alumni names to the Liquidation Committee. Virginia Root Trainer has moved from McLean, Va., to Bowie, Md. Mary P. Wheeler is working half time at the Yale Med. School. Katherine Frances Stover lives near Melvina Mason Rose and sees her often. Kay Moss visits them frequently. Kay, who owns a cottage at Atlantic, spends part of her vacation there and part with a son and his family in Wisconsin. She has a full-time job as head social worker with a psychiatric clinic. Jean F. Pegram does volunteer work in the crippled children's hospital in Newark, N.J. and is on the Women's Board. Recently she saw Mary Weikert Tutto, who had a trip to Europe last spring. Helen Avery Bailey and husband are spending two months this winter in Tucson, Ariz. Mildred Seely Trotman is very interested in brain-damaged children, of whom she has eight in her large nursery school. She is involved in many community organizations and is "too busy to grow old." Margaret Heyer gets to College often. She works in the Art Dept. museum training program, by supplying children for museum trips. She wrote, "Last summer Emily Hopton and I had an extensive trip to Yugoslavia—from the primitive Albanian borders where we visited our very old Byzantine churches to the plush Dalmatian coast resorts—all very interesting but like all "borders" we visited, no bathroom has all fixtures in order at the same time." Betty Moyle Gould has a new grandson in Arizona and a great-granddaughter in Connecticut. Hope Freeland Allen tells of 18 grandchildren. One from Mrs. Ethel Wilkin tells of a busy season with her children and grandchildren. Marion will introduce ourselves. Dot was with him and we had a brief chat with both. The Corbins in August spent three weeks with daughter Susan's family looking after Pam 6 and husband Gene while Sue presented us with a grandson, Adam Corbin Fusco. We attended the World's Fair many times, staying with son Albert who was working with the Baird Marionette Show at the Chrysler industrial exhibit. Sue and family were with us for Christmas but Al is now in "The White Devil" at the Circle in The Square. At present I am doing a small role in "The Old Lady Shows Her Medals" by Barrie at the New Britain Repertory Theatre but feel that this may be my "swan-song."

CONNECTICUT COLLEGE ALUMNAE NEWS
1927

CORRESPONDENT: Mrs. L. Bartlett Gatchell
(Constance Noble), 6 The Fairway, Upper Montclair, N. J. 07043
Urging every classmate to return to her 40th reunion in June, our president Lynda Chanfeld Sudduth stresses the interplay of importance it holds for us—catching up with the College and with one another. Lynda, who visited Maine on a visit to her house, Halsted Heffron in Maine, said "Naturally this is the most important reunion of all; how many of us will be able to come back for our 50th?" The Silvers keep their vineyard going and have their grandchildren run in. Fran Huling '28 has a new home in southern California. This summer Sally Carlisle is taking a trip to Texas. Mary Whitecross's first grandchild, Mary Eileen, celebrated her first birthday in Honduras, the place where she was born. She and her parents will be there for another year. Frances Andrews Leete and her husband are enjoying a trip through Europe. On their return their two daughters and families visited them on Leete Island, near Guilford, Conn. where Edith Clark teaches school. Pat Treadwell's activities include "the arts." Amy Ferguson Croach and Gene are going to the Mediterranean this summer, she with her sketch book and he with his camera. Carolyn Howe Nick has moved to Washington where her daughter teaches at the Univ. of Washington. Her youngest son is also at this university working for his doctorate in oceanography. Carol's other two children are in Boston, the eldest an architect. In April Carol flew to Japan. Sue Chittenden Cunningham and Ted have bought a home with a Japanese garden in the suburbs adjacent to the Univ. of Washington. Sue is working for her doctorate at Denver Law College. Sue "had a happy and profitable trip to Washington, D.C. for consultation with the Federal Reserve Board and members of the Economic Council." Sue's name is listed in Who's Who in American Women. Your correspondent, as chairman of cultural arts for the College Women's Club, planned an "Afternoon with the Arts" in January: exhibits of paintings and handicraft displays; a program of music, poetry readings, and a slide show entitled "Painting with Light" comprised of pictures taken on her holiday cruise in the Caribbean.

Word has been received of the death of Isabel Grinnell Simons. The class sends sympathy to her husband and mother. We have also just learned of the sudden death of Margaret G. (Buddie) Elliott.

We send our sympathy to two classmates who have recently lost their husbands: Margaret B. Winneloe, whose daughter is our class baby; and Lydia Chafeid Sudduth, our class president.

Peggy Rose Griffith Grey couldn't attend reunion, as she was having a reunion of her own—her son, a major in the Marine Corps, due back from nineteen months in Vietnam, his wife and their four daughters were coming from California for their first visit. Prill in five and a half years. Prill's unmarried son makes his home with her and her married daughter lives about 30 miles away. Reunion weekend at the campus was quiet but didn't do much work in an antique shop called "The Switching Post," the profits from which go to a school for emotionally disturbed children. One son practices law in St. Louis and the other teaches English in Clayton High School. Betty Sevitt Turen's daughter Barbara was married in June. Her son Peter attends Paul Smith's School of Forestry in the Adirondacks. Betty is a staff leader at the Greenbrook Sanctuary and has a summer class for 8-10 year olds at the Tenafly Nature Center. Florence Moxon Tomlinson moved from Framingham, Mass. to Brewer when her husband died four years ago. In Brewer, Florence remodelled the old Georgian house they had been using as a summer home. That project completed, Florence was planning to assume the position of Head of House and Librarian at MacDuffie's in Springfield. Faith Grant Langreth still calls Pittsburgh home though with her family scattered far and near she does much travelling. Faith holds offices in the 20th Century Club, College Club, Garden Club, and Reviewers Group of Mt. Lebanon Women's Club. Dot Adams Gram and husband Bill live in Redding, Conn. where Bill is an architect here and there in the area and Dot a sometime teacher in the high school. Her married daughter, Sylvia, is in graduate school in Texas working toward a master's degree in history; daughter Emily is still living in Virginia; and son Barreett is home and in high school. Terry Homes Cameron has completed 14 years as an elementary school teacher. She has spent the last several summers at the Middlebury Spanish School, as she wants to be ready to apply for a 2-year teaching position for elementary school children as soon as languages are offered to that age group. Jean Hamlet Dudley wrote from North Carolina of a daughter married in the summer of 1964, a son in the USCG, and another son in the Air Force. Jean has gone back to painting.

Mrs. Fred R. Harriff (Mary More), 22 River Brook Road, Great Neck, New York 11024
This year, our president Mary More Harriff and husband Fred spent a weekend in November with Dorothy Rose Grinnell and husband Harlan at their beautiful home in Woodbury, Conn. built in 1765. For some years they have provided residence for Cultural Exchange Foreign Students. This past summer they and their two children welcomed the students and their families. First they went to Lebanon where son Clark, who had been teaching for a year at the American University in Beirut, guided them through Lebanon, Jordan, Syria and Damascus. Then to Sicily where a former student guest guided them all the way from the toe of Italy to Milan. They visited one of their Foster Parents Plan boys in his home in Bagnoire, S. Italy, a war orphan whom they had supported for several years. A Swiss boy who lived with them for a summer while at MIT showed them around Switzerland and for a weekend lived in their home in New York City as host. Son Clark is now back in the USA teaching English literature at Waterbury Junior College. Daughter Marion is preparing for a fund raising drive at Radcliffe. Daughter Sally is in high school in Woodbury. Lois Truesdale Gaspar's son Jay is teaching at the Harvey School in Katonah, N.Y. Son Bill 19 is at Boston University but is very interested in semi-pro baseball which he played on Cape Cod last summer. Susie is a typical teenager in high school. Elinor Smart Smith and husband Bud arrived back from Europe the same weekend as reunion. Two months later their daughter Betsy was married. Marjorie Smith Sikes and Ken are fine. Ken had a slight heart condition that resulted in a stent being put in their boat but as cruising has been their recreational life for the past ten years, they expect to be "aboard" again when Ken retires. Daughter Pat has two children, Daniel 4% and Rebecca 1½. Her husband is an engineer with Sylvania. Daughter Pam graduates from Keuka College in June, is a member of a National Society in English Literature, and spent the summer on a college
the odd years report . . .

program in Argentina. Betsy is a sophomore at Heidelberg College in Ohio and a member of a National Honor Society in biology. Jeannette Shible Morris' husband King has retired but has many avocations, photography, short wave radio, and volunteer work at the School for the Blind repairing talking book machines. Son Tim is working at National Steel Co., after two years in the Navy. His hobby is sports car racing and he has trophies to show but the cellar is strewn with engine parts getting ready for next season. Jerry keeps busy with church work and knitting ski sweaters. Jane Williams Howell is doing "Yeoman's Job" for our class "Alumnae Laurels' drive and spends a lot of time on the Alumnae Annual Giving Program at Connecticut College. Beatrice Whitcomb retired from the Army in April 1962 as a full Lt. Colonel of the United States Army. She is now living in Clearwater, Fla. where she keeps busy doing physical therapy work in the Medical Center in Clearwater. Evelyn Whittemore Woods and husband Foster moved to Bethlehem, Conn. four years ago when he bought a Morgan Weanling horse. They had to move to have fenced fields and a barn. Now the filly is a mare and they are looking forward to a foal, an event that will mean no winter vacation and sharply curtailed ski trips. They boarded the horse for a couple of months this fall and were free to take a week in Vermont in September, a few days for mountain climbing in New Hampshire and then to fly to Texas for a delightful vacation in Corpus Christi and the Rio Grande valley, ending with a week in Austin where their daughter is living while her husband attends law school at the university. Marcel Williams is living with her spy but elderly father in Montclair, N. J. where she keeps house and does part-time cataloguing for the Montclair Public Library. Virginia Yancey Stephens works as Director of Volunteers at the Genesee Hospital in Rochester, N.Y. and has about "200" schedules to contend with. She has three grandchildren. Anna Colfrances Guida had a busy summer, as her daughter Martha, CC 61, was married Aug. 28 to Lt. John Rawston Young, a graduate student in naval architecture and marine engineering at MIT. A few days later Anna flew to Madrid, spent 3 weeks in Spain, then flew to Rome to visit friends and relatives and then home.

Betsy Overton Bryan's daughter Anne is with the Peace Corps in Sierra Leone, having entered in June upon graduation cum laude from Lawrence Univ. She is teaching in a secondary girls' school, is a Girl Guide leader and has an adult literacy class. She finds life "stimulating, enjoyable, occasionally frustrating." Last summer Betty, Bill and Rich vacationed in Grand Teton National Park. Joanna Eakin Despres and family spent the Xmas holidays vacationing at Squaw Valley with three members coming from Michigan, two from U. of C. Berkeley, and one from Stanford. Ruth Ferrer Wessel's daughter Jane was married in August to Fred Schlegel, a student at the Univ. of Michigan School of Law. Jane graduated from Michigan in June 1965. The Wessels are hosts this year to a Danish boy exchange student who attends high school in West Hartford with their son Steve. Victoria Stearns, after a year of it, finds retirement great. Dorothy Krall Neuman and class president Sarah Buchstane enjoyed a brief reunion last June when Dot visited Hartford to attend the Interstate Labor Statistics Conference for which she arranged part of the program.

The class extends heartfelt sympathy to Martha Johnson Hoagland upon the death of her husband on Nov. 29.

Virginia Golden Kent is an elected member of the Chatham Borough Board of Education on the Teachers and Public Relations Committee and finds her time full of reading and meetings. Susan, a graduate of Univ. of California working as a case worker for the Welfare Dept. in N. Y.; Jeffrey is at the Univ. of Vermont majoring in English. Barbara Hervey writes, "Everything seems different, now that I have Eastern for I am doing things I have never had an opportunity to do before in my life." On a drive to Washington in October, she spent a night with Mildred Wanner Wilson and in the city lunched with Constance Turner Red, Corinne Dewey Walsh, and Charlotte Bell Letter. Catherine Cartwright Backus devotes one day a week to the Pro Christos Laborantes Committee and volunteer work at the entire family flew to Holland and toured the European continent and Ireland and England. Stephen is a freshman at Boston College; David a junior and Paul a freshman at Fairfield Prep. Ruth Worthington Hendersott, whose husband is headmaster of Blake School, writes, "525 boys, their parents, our faculty of 55 (their wives and families) are my strictly unpaid, constant volunteer job." She finds time for church work, United Fund drive and Museum of Fine Arts; she is president of the Twin Cities CC Chapter, anticipating a visit from President and Mrs. Shain in January. Elizabeth Cordly Farrell teaches U. S. history and World Problems at McKinley High in Washington, D. C. She had a visit with Barbara Birney Pratt this summer. Betsy is married and has a daughter; Mary Jane takes courses at Corcoran; Ann is a sophomore at Catholic Univ.; Mike is at a Benedictine academy in Arkansas; and James 9 attends school from home and loves all sports. Harriette Webster Kyndberg and her osteopathic physician husband have retired and are back in Tucson. They have five grandchildren "unfortunately too far away" in Ecuador. Mary Wall MeLady, who has served as director on the boards of five different business corporations, is listed in Who's Who in Commerce and Industry. Her husband Jack is president of a machine tool company whose machines are in virtually every country in the free world, and it is my joy to be able to accompany him much of the time." Last spring they took Heather, a sophomore at Skidmore, to Nassau which proved to be "wall-to-wall college students." This is her first, and she is in Boston and has one son; Scotty, after teaching two years in Honolulu, is now in California teaching English and coaching tennis and has one daughter. The family go to Crescent Beach each summer. Last year Heather won a first in sailing. Says Skippy, "It has been a wonderful life, and I do feel that Connecticut prepared me well.
to live all facets of it fully." Maylah Hall-loc Park and her husband "had a glorious six weeks in the British Isles, including a trip through Ireland where we located the Park family farm in County Donegal."

Maylah plays tennis mornings, winter and summer, and serves on YWCA committees. Betty graduated from Mount Holyoke and is now married; Richard graduated from Princeton and works in Boston; Susan, a junior at Middlebury, "spends her summer on the Experiment in Austria, Germany and Switzerland. Her husband restores antique cars and twice this year has won first awards in national meets with his 1913 Buick. Stephen, after a summer in Belgium on the Experiment in International Living, is a senior at Bald-win-Wallace; Pamela, a junior at Vassar, spent her summer on the Experiment in Switzerland in '64 and went to Harvard Summer School for courses in architecture in '65; Dianne, a junior at Ethel Walker, spent her last two summers on a ranch in Colorado, from which she went on a camping trip to the Northwest and Alaska, and a tour of the Southwest USA. Doris Merchant Wiener's husband, a lawyer who has argued his 37th case in the Supreme Court, is writing a book on Court-Martial Jurisdiction over Civilians: the British Practice. After studying legal sys-tems and legal methods at George Washington Law School, Doris has been her husband's office assistant for 13 years in bookkeeping, proof-reading, checking and searching legal citations. Her high point of '65, she explains, "In September of '64 I was faced with the possibility of being crippled with arthritis, and now in November '65 I can report an almost complete remission of the disease." Audrey LaCourse Parsons, after taking creative writing courses at Radcliffe, is still searching for that leisure time in which to write; finds herself involved in every fund drive "that comes down the path," school bazaar, and geriatrics. Noelle is on a fellowship to Western Reserve Medical School after graduating from Mount Holyoke; Jay "is an enormous 15, interested in football, ice hockey and crew." Helane Jones Pressel received her B.S. in home economics at Wayne and now is busy as a hospital volunteer in Florida (winters) and Massachusetts (sum-mers) with crippled and retarded children; lives in Michigan fall and spring. She had a trip around the world this fall and re-turns for 13 years in October. Helane Jr., 27, is married, has two children, and is secretary on the Gemini Program at Cape Canaveral. Mary Spooner Hays, as full time executive director of Big Waters Girl Scout Council, travels hither and yon to help in fund-raising, public relations or recruiting; addresses PTA, Rotary or Kiwanis. Daugh-ter and son are both married and Polly became a grandmother in November. Elis-abeth Gerbert Richard received the Lions' Club award for the Outstanding Citizen of Nutley. After serving four years on the executive board of the Red Cross, she was elected chairman in '64 and now is executive director of the chapter. Judith 18, after graduating with honors and receiving the class leadership award from high school, is now a freshman at Drew Univ. Rose Cameron Stittman writes, "After a 22 year vacation, I am back to teaching English at W. M. I.—only now the school is on the CC campus." Jeffrey is a senior at Syracuse and Jean spent last summer in France at the University of Rennes. Priscilla Saultelle Ehrlich actually teaches seven music and dance classes between 8:30 and 12, followed by consultations with staff teachers and psychologist, conferences with students and/ or parents, more classes plus seminars. She had a wonderful trip to South America in '65. Sally is married and has a daughter "who visits frequently and has us under her spell forever." Barbara Scott Tolman has just finished a three year stint as New Haven Archdeaconry United Thank Offering Chairman for Episcopal Church Women of Conn. "Otherwise I am perfectly happy as a wife, housewife and mother." Nancy graduated from Wheelock in June and is teaching kindergarten; Jody is a junior at Indiana Univ. Lydia Albroe Child keeps busy on boards of the YWCA arbiters, and now in November '65 I can report an almost complete remission of the disease."

Madlyn Hughes Wasley '35 and her husband in their prize-winning 1913 Buick.
the odd years report

shire. Howard, now working on his M.A. in Seattle, has just made Jill a grandmother; Sam Jr. is studying engineering at Syracuse; Ralph is a high school sophomore and Martha an 8th grader. Margaret Baylis Hrones and Johnnie spent a month in Mexico vacationing and visiting universities and went to Vermont skiing during the Christmas holidays. Jane is spending two years with her surgeon husband in Japan, and has just returned with their first granddaughter; Steve is at Michigan Law School; Mary graduated from Wellesley in June and is studying for her M.A. in archeology at the Univ. of Michigan; John is a sophomore at MIT majoring in math.

MARRIED: Ranice Birch to the Reverend Jon C. Crosby.

Ranice Birch Crosby continues as an assistant director of the Dept. of Art as applied to Medicine at Johns Hopkins. Her husband is assistant to the rector of Grace, St. Peters and Christ Churches, chaplain to Grace and St. Peters Parochial School, instructor in science and religion in the school, and editor of the diocesan newspaper. He is also working for his master's degree. Daughter Ranice is 13, Shirley Cohen Schrager's family have now taken to the air with their own plane. Shirley's husband is the pilot but Shirley expects to have her license soon. Estelle Campbell Leech's daughter Beverly is returning Spanish, as well as being head of admissions at her school. She expects to start her master's next year. Stell's other daughter is 15 and keeps things moving.

After European duty for two years, Mary Elaine DeWolfe Cardillo and husband Bob have returned to their own home in Virginia Beach, where he is stationed as commanding officer of destroyer USS Damato out of Norfolk. They enjoyed a nice trip to Boston, Chicago, and Key West before settling down again. Having completed the college intensive program of education courses, Helena H. Jenks Ralfty is teaching 2nd grade. Daughter Peg (CC '63) taught for a year in California and is now married to a Navy man stationed in Long Beach. Another daughter, Sue (CC '65) is teaching French in Charlottesville, Va., while her husband is getting his master's at Univ. of Va. Son Steve is in college and Martha is in 10th grade. Her daughter Karen was married last year.

Department correspondence comes from Harry and Betty Warner. Betty has done some secretarial work. Their travels have been mostly camping trips, the best one out to the West Coast and back. Helen Feldman Jacobson spent last summer in Turkia, Finland, where her son Alan competed for the second year in the International Optimist Pram Regatta. The year before he sailed at Aargus, Denmark. Her daughter Marilyn is a freshman at the Univ. of Pennsylvania.

Mrs. Robert R. Russell (Martha Murphy), 14 Fairview Avenue, Arlington, Mass. 02174

Charles Newnham has just returned from a sea raising trip high up into the Andes Mts. Larry and Betty have returned to their own home in Boonton, N.J. Ruth Hale Buchanan returned to Washington to see her 3 grandchildren and daughter Bonnie after a 5-weeks pleasure trip to Europe. Her second daughter, Deedee, is married and lives in San Francisco. Her son goes to Rollins College in Florida. They are at their winter home in Round Hill, Jamaica for two months.

Betty takes Cooper and husband George (Capt. USNR Ret.) bought a new house in suburban Annapolis. She is still using typewriter and camera for business publications as their Annapolis editor. Her husband is marketing for Westminster House Defense Center. Their Geo is a sophomore and Phi Delt at the Univ. of Md. Kathryn Ekrich is head of public relations for Macy's in White Plains and has a promotion directive. When Jean Ellis Blumlein was in New York she had lunch with Middy Gieg '42 and Barry Warner. Jean keeps busy working for Welfare Fund and golfing. Her two children are Carol 13 and Ann 16 who is interested in attending an eastern co-ed college.

CONNECTICUT COLLEGE ALUMNAE NEWS
Mary Farrell Morse '41 and family

Mary and husband Roy sit on either side of empty jacket and beer stein representing son Mike who is in Germany. Standing at right is Tim who says the outlandish script on his shirt says "Get me to the top of Mr. Fuji." Mary says, "Andy (standing left) is trying to hide his braces, and I forgot my golf shoes."

Lorraine Lewis Durivan has opened her own interior decorating shop in Old Saybrook. Her oldest son is a freshman at Tulane, second son Don is a junior in high school, and daughter Nan is in grade school. Jeanne Turner Creed's son was graduated from Wesleyan. Helen Henderson Tuft's daughter is a freshman at Mt. Holyoke. Elizabeth Smith Twaddle writes, "Working on Committee for International Visitors in our area seems to be a natural outcome of a summer with the Experiment in International Living and a college French major. A world map covered with our own foreign visitors helps the children's geography immeasurably and makes us all long to travel. Our African college-age son for four years has become an integral part of the family." Mary Jane Tracey Mann and her doctor husband traveled to East Africa, Ethiopia and Egypt last fall. They have two daughters and a son. From Mary Farrell Morse comes word that husband "Roy is commuting to Ceylon, Mike (oldest son) is studying in Germany while the two Beatles (younger sons) and their mother are typical suburbia." Elizabeth Barford Graham's daughter is an art major at Wellesley and her son a sophomore at Kingswood Day School in W. Hartford. From San Diego Janice Heffernan Whiting writes that husband George will retire in June after 30 years of naval service. The Whiting's four children and plan to return East after the retirement. Frances Johnson has worked at Harvard 19 years. She is presently with the office of the Governing Boards. Dorothy Boschen Holbein's eldest son Bruce is a freshman at Dartmouth. In the same class is Virginia Newberry Leach's son Ted. Nancy Marvin Wheelock's Debby is at American Univ. in Washington. Her son Peter broke both his arms in an skiing accident but was very fortunate as nothing else was damaged, "not even his ardor for racing." Edith Patton Cranshaw's Lee was graduated from college in June and married in August. Lois Allschul Aaron is doing research and editorial work for a professor at Western Reserve Univ. in the field of education and urban affairs. Older daughter Carol is a freshman at Ohio State and second daughter Amy, a high school junior, is an exchange student in Hawaii. Lois and Chuck visited Hawaii in November and were impressed with the school. Amy is one of only four non-Hawaiian students. "Aside from the stiff academic schedule, she is learning a little hula (in gym), a little island music and a lot about another culture." Dorothy Cushing Redington's husband Ted finishes law school and will get his degree in June. Dorry is in her fifth year of teaching math in junior high.

Word is beginning to drift in about our 25th reunion in June. Many hope to come and it looks as if June 10th, 11th and 12th will be great days for the Class of '41.

Mary Jane Dole Morton is settled in the San Francisco area, a proud homeowner for the first time. The Mortons have their own pool and many fruit trees, flowers and vegetables. John is travelling for Macmillan and his territory has been extended to Hawaii. Stephen 10 is in Cathedral School and doing very well, especially as it's the first American school he has attended. The Mortons have had several visitors from Tokyo. Mary Jane is a choir mother for about 30 children. Another move for the Beers family (June Wood) has taken them back to Norfolk for the third time. Chuck has a squadron of 22 ships which "feed, fuel, and fire" all navy ships in the Atlantic. June's daughter Sue was named 1965 Betty Crocker Homemaker of Tomorrow for Alabama and received a General Mills scholarship. Sue is now at Hood College, which June says is like CC in the forties. She is close enough to Annapolis to double date with brother Skip, who is in his 3rd year. Skip had summer flight training and another week of volunteer sub duty.

From Yeames Prickett spent the night in Dryden, N.Y. with the Stevenses (Virginia King). The Pricketts were on the trail of the Southminster Presbyterian Church in Pittsburgh; Margaret Suppes Yingling ex '43 is the church's new, and first woman, minister. (see following page)
the odd years report . . .

Fairfield County Club dinner guests: left to right, Elizabeth ("Sue") Rockwell Cesare '52, Lester J. Reiss, Instructor in Philosophy; Virginia Bowman Corkran '45, President of the Fairfield County Club; and Dr. James D. Parvis, Assistant Professor of Religion. The occasion was a dinner meeting held at the Westport Hunt Club on November 5th. Messrs. Reiss and Parvis spoke on the subject "Religion in Contemporary Society."

to look at colleges for daughter Sally. Gil and Bud moved into a new home in September after much remodeling that ultimately produced a rather large house. Mrs. King and I paid them a visit in November after we were sure the heat was on. Bud is in her second term on the Board of Education. Bud is much in the public demand in her second term as mayor. In June the Yingleings (Margaret Sapper) spent three weeks in the house of an old friend. Peg was graduated from the Pittsburgh Theological Seminary with high honors in May and started immediately in a position as a minister at Southminster Presbyterian Church—their first woman minister. Oldest daughter Ann was married in August to Dave Foubert who is now at seminary. Ann is in her last year at Bethany College. June 16 is in her junior year and went to Mystic last summer with the scouts. Mollie 13 is in 7th grade. Peg's husband Ed is a section manager at the Westinghouse Bettis Atomic Laboratory and has charge of the refueling program for the atomic aircraft carrier. Dot Lens Andrus talked with Lois Creighton Abbott, Ruth Ann Likely Mittendorff, Kathryn Hadley Inskip, Barbara Andrus Collins in connection with her job as Class Agent Chairman. An address change comes from Betty Hodgeson Yeager in Louisiana who says that "the machine age finally caught up with me and dragged me into the city. Last January Betsyellen, Dan and Bruce had an accident on the way to school. All are all right and we are happily settled in an old three story home, complete with Duncan Phyfe boudoirs. Dan, Bruce and I rattle around a bit, but when the college group is home it's nice to have the room. Bill is a sophomore in the Scholars and Fellow program at Tulane Univ. Betsyellen is a freshman at Smith and every letter is more enthusiastic than the last. Danny is a sophomore in high school. Bruce is in 6th grade and played football this fall. Mama does some lecturing on the stock market to various organizations and gives a series of talks at the

YWCA every year." From Richmond Ta Hadley Inskip reports that she and Les are boat owners again with a 24' fiberglass sloop which sleeps four and has an inboard. During the summer the Inskips and two other couples chartered a 32' sloop out of Annapolis for a week. They also went to Hilton Head Island, S.C. for a week of golf in the fall. Jean Nelson Steel's family continues to enjoy the little town of Delmar, N.Y. Marion is in her second year at Hartford Hospital; second daughter Ellen will graduate in June and she too inclines toward nursing. Cynthia and Bill are still in grammar school. Janet Corey Hampton was in Farmington in October and my Dad had a nice chat with her. I talked to Anna Christiansen Carmon a couple of times in the fall. The Carmons spend the summer on the Long Island shore and winter weekends in their hunting cabin. Elizabeth Failer Woodworth writes from Bar Harbor that older son Bob is in high school and growing so rapidly it's difficult to keep him in clothes—"7" last year. He's taking the college preparatory course and right now thinks he'll go into some branch of science. Mike is in kindergarden and loves it—especially the bus ride. Ruby Zagoren Silverstein's "yearly review" states that this is the "Year of the Book." Ruby's "New England Sampler" was reviewed in last issue of the Alumnae News. Since the book's publication, each day has had its bright and exciting moments with autographing, teas, talks, radio and readings. Ruby made no mention of her being named "Woman of the Year" in the city of Torrington. The whole Silverstein family is writing. Sam had an article on bringing wildlife into the classroom in the National Science Teachers Magazine and his article on ESP appeared in England this fall. Daughter Zona's essay won first prize in the Connecticut and southern Massachusetts region among the United Synagogue Youth and her non-fiction piece describing their visit to Kendoon, Scotland, is in the December American Girl. Son Grant writes too.
Clearwater, Fla. and six months in Westfield, N.J. Their children are twins Jeff and Mark, 16; Ken, 13 and Laurie, 7 and Billy, 4. Diz is busy with Jr. League, Jim and the four other children will probably move in the near future. Patricia Hancock Blacktail says, "Steele and I and our three have just moved from our old new house to a new old house. Quite a switch from window walls to the small panes of an 1800 Colonial. This home had belonged to Steele's family. ... Our son Rick 16 is boarding at Moses Brown in Providence, Gren 9 is a day student, and Holly 14 a day student at Lincoln School. This February we are planning an exciting trip to Peru to explore the Inca ruins of Machu Picchu. ... we have made quite a study of the Mayan ruins of Chichen Itza, Uxmal, Tulun, Tikal and Dzibichkal, and I am very interested in comparing the architecture of the two Indian civilizations. I regret not having studied archeology."

Janet Pinks Welti and Dorothy Disnakes Sutman both recommend highly our big 25th reunion in 1972. Lorraine Pimm Simpson arrived at reunion wearing a back brace, having fallen through the cellar stairs! Nancy Blades Geiler was there; she has four children and manages to practice as an anesthesiologist one day a week and every third Saturday. The Weltis spent four days at Mammoth Cave in Kentucky last August with Nancy Remmers Cook and husband, and their combined eight children. Nancy's husband is judge of Jefferson County. Dic Sutman and husband Bob have two children, Lindsey 7 and Billy 4. Diz is busy with Jr. League, CC Alumnae group, and PTA but manages to squeeze in some time on the golf course. Dr. Elsa Tylk, a pediatrician in New London, last year became the fourth woman ever to serve on the City Council. In October 1965, as chairwoman of the London City Council Welfare Committee and a member of the Thames Valley Council for Community Action Committee, she received a Society of Gerontology area award for help with the elderly. She helped organize the Zona Center for Senior Citizens, and is working for the establishment of a full-time facility for the use of the elderly for entertainment and as a meeting place for established clubs for seniors. Venita Jezek DeMarco and her family moved last summer out of suburbia back into the city (Washington). The DeMarcos have added a Basseni, an African hunting dog, to their family. Dick and Nancy Beebe Spindler are in the process of building a house in Dedham, Mass. Their oldest son, Peter, is interviewing for college next year and Chris 14 is 5' 10" and quite a big man in the family. Ned and Gloria Henry Newcomb have a lovely home on the lake in Bay Village, Ohio, with their own private beach and beautiful view. Their four children are Kathy 15, Doug 13, Lynn 7 and Judy 5. Ruth Colcord Frenchs received very favorable reviews in the Phoenix, Ariz. Rep. for fall for watercolors she entered in a show by members of the Arizona Artists Guild.

**CO-CORRESPONDENTS:** Mrs. Richard T. Hall (Polly Hedlund), 34 Glen Avon Drive, Riverside, Conn. 06878

**BORN:** to Donald and Justine Shepherd Frayd a third child, first daughter, Kerry Jeanne, on Dec. 27, 1950. Judy Anderson Nicholson went to Bermuda with all 5 children for a March vacation. In June her step-daughter was married, making Joy the first mother-in-law in our class. She had to plan the wedding alone because the bride graduated 3 days before from the Univ. of Calif. Joy belongs to a discussion group on American Foreign Policy and attends a seminar on contemporary Islam. In October she went to Schenectady, N.Y. to the Monastery of Discalced Carmelites to see Francis Nevis take her final vows. Frances is now known as Sister Christine Marie. Louise Stevens Wheatley and family have moved to South Glastonbury, Conn. and Louise is teaching part time at a girls' parochial high school in Middletown, Conn. Jane Keltie had a trip to Greece and Italy in September, exploring ruins and soaking up ancient history. Joan Dings Haekel is tutoring potential school dropouts in a volunteer project in Stamford, Conn. Margaret Studley Listick graduated in June from Yale and now is teaching in Paris. Lynn is still very active in her YMCA work, travelling around the country. Betty Colgan Pitt's new home is two doors away from her old one in Glastonbury, Conn. All the Pitts are looking forward to using their ski house in Vermont, built by themselves. Chlor Bissell Jones went to Spain in the fall to find antiques. She gives lectures on antiques in New Jersey. Paula Meltner Nelson, Mel and their three children went to Florida for a family reunion at Christmas. Roldab Northrop Cameron, Norma and their five children are in Seattle, Washington. Carter Lake and ended up rock hunting in the obsidian fields of central Oregon last summer. Elizabeth Babbott is now a member of the Dept. of Biology at Wellesley College. She writes that "though two Nigerian years are gratefully held in the memory, I'm glad to..."

1953

CO-CORRESPONDENTS: Mrs. Bruce Barker (Jane Graham), 179 Lincoln Ave, Amherst, Mass. 01002

MARRIED: Ann Hutchison to William Brewster on Aug. 28; Alice Othborn to William Halsted.

BORN: to Lee and Sally B. Zellers Wallace a second son, Geoffrey Bennett, on Oct. 2; to Noble and Elizabeth Kotrskon Richards a third son, Andrew, on Sept. 3.

Ernie and Patricia Nottrom Anderson are in Newark, Del. Ernie received his doctorate from Harvard in June and is on the faculty of the Univ. of Delaware. Dave and Phyllis Coffin Hodgins live in Wayne, N.J., and recently enjoyed an evening with Joan Silverthorpe Brundage ‘54 and her family. Phyl has become interested in antiques and plans to buy and sell as a hobby. Bud and Carol Dorrance and their three children, Peter, Philip and Mark, have moved to Houston, Texas, on property they own in the southwest for Lehman Bros. They now have three children.

1954

CO-CORRESPONDENTS: Mrs. Thomas D. Kent (Ann Matthews), 81 Woodland Avenue, Summit, N. J. 07901

BORN: to Houghton and Mary Davis Carr a fourth and second daughter, Marjorie, on Mar. 23, 1965; to Charles and Cassandra Goss Simonds a fourth child, third son, Reade Holbrook, on Nov. 17.

Mother of four and PTA president is Margot Colvin Kramer. She and Marty live in Lawrence, L.I. with Tommy 8½, Johnny 6½, Peggy 4½ and Baby 1½. Last summer found Cassie Goss Simonds and Doris Deming Bundy at the World’s Fair with Mac and the three girls. Both Margot and Cassie tell of traveling husbands. Charles Simonds is now a management consultant with McKinsey and Co. in New York. DeeDee enthuses about Conn. night at the Boston Pops concert last spring which was also attended by Shirley Smith Earle and Skip. In August the Bundys gathered over lobster with Chuck and Nancy Bower MacAllister, visiting from Kansas, and Al and Cynthia Reed Workman. Another informal reunion near Thanksgiving was with Frances Stevens Baldwin and children; Frannie was a delegate to the national Jr. League conference in Coronado, Calif. last May. DeeDee writes also of the usual tennis and bowling plus two newer anaclogous games, a singing group and extensive home remodeling.

1955

CO-CORRESPONDENTS: Mrs. Richard E. Catron (Cynthia Rippee), 3165 So. Gaylord St., Englewood, Colorado 80110

BORN: to Houghton and Mary Davis Carr a fourth and second daughter, Marjorie, on Mar. 23, 1965; to Charles and Cassandra Goss Simonds a fourth child, third son, Reade Holbrook, on Nov. 17.

The gathering took place at the office of the comfort society in the Terrace Room of the Plaza Hotel in NYC for all-time-buyers in the area. Since that time the Odd Years Report has become a part of the annual giving program and has been put on in February ’65 in the Fifth Avenue Room of the Plaza Hotel in NYC. Twenty Wesleyan and CC alumnae have served as regional agents for our class during the past two years. They include Judith Hartt Acker, Roberta Baldwin, Christie Rinehart Basham, Frances Wilcox Johnson and Helen Pleasance Kirkpatrick.

1956

with their four children. She worked on the United Fund last fall and serves as treasurer to the Twin Cities Conn. Alumni Club. In the Boston area Ken and Sandra Weldon Johnson and their two children have acquired a magnificent corner clock house on the streets of Concord. This June Emily Graham Wright's husband Stewart will leave civilian life temporarily to become an Army doctor. They're hoping to be stationed in Germany for several years. Ann King Halle is up over her ears in volunteer work, especially Planned Parenthood. She and Chris, who is in the retailing business, live in the Cleveland countryside with Chip 9, Pat 7, Sam 4, plus a black labrador and a black poodle. Skiing and tennis are major Halle pastimes. Kingie sees Elizabeth Allen Wheeler who lives not far away, and Joan Stevens Bingham who is in Louisville. In a giant fashion layout devoted to Cleveland's blondes in LIFE for Nov. 19, Ann was modelling a $425 canvas coat. An exciting ten-week tour of South America, Panama and Mexico occupied all of Helene Zimmer Loew's 1965 summer. Her husband Robert and she are owners of a new house in Huntington, L.I. Plus that, they have a grandson, Greg, born in up-state, N.Y., on its advertising slogan "Headquarters for Better Hinkscraft"")...

1958

CO-CORRESPONDENTS: Mrs. Eldon Beckwith (Jane Houseman), 215 West 92nd St., New York, N.Y. 10025

Mrs. Richard Parke (Carol Reeves), 309 West 104th St., Apt. 4-C New York, N.Y. 10025

MARRIED: Andrea Telbin to James W. Parker on Nov. 13.

BORN: to Jay and Judith Eichelberger Grauer a second daughter, Suzanne Lee, on July 16; to John and Mary Elsbree Hoffman a second child, first daughter, Laura Ellen, on Nov. 15; to Nate and Carolyn Keefe Oakes a second son, Timothy King, on Dec. 7; to Karl and Martha Veale von Lamburg a second son, Christopher William, on Oct. 15.

Working at Tufts Medical School as a research technician is Phyllis Hauver Waldb. Phyl's husband Jim is in Vietnam as an advisor in Duc Hoa, near Saigon. While her husband is overseas, Phyl and her three children have taken up residence in Rockland, Mass. Linda Heit Schiovitz and family now live in Charleston, S.C. where Preston is a lieutenant commander in submarines. Lin says their house is surrounded by pine draped with Spanish moss and wisteria. She spends her leisure time playing golf, helping at a kindergarten, and writing two columns—one in verse—for different navy news publications. More recently, Francisco Bay area early in 1966 are Ed and Martha Steinmeier Speno. Ed was promoted to the San Francisco office of Koratron Corp. Marty has been back in Maryland 5, Brad 4 and Caroline 1½. Herb and Gay Hollisteds Teus decorated their house in Wilmette, Ill. last fall and are now planning a trip to Puerto Rico and Florida in the spring. Quite a reunion was held last Labor Day when Linda Pond stopped to visit with Ann Colliver Elliot in Old Lyme. Lucy Allen Separk became a great white hunter last summer when she hit a 120 lb. deer with her VW. As it wasn't deer hunting season and the car was demolished, the Separks lost out all the way around. John and Mary Elsbree Hoffman are living in Palo Alto, Calif. where John is with Raychem Corp. A week before Christmas David and Carolyn Gravish Mitchell and daughter Sarah 2 drove up to the mountains with Bob and Joan Peterson Thompson and Cindy 2½ to cut down their Christmas trees. The Los Angeles for the holidays to visit relatives and friends. The Thompsons visited Los Angeles early in December and spent an enjoyable two days with Sarah and Susan and Camph Van Tricht. Holly Wranplemmer White took a four-day trip up the coast to San Francisco with her parents, leaving Buch at home in San Diego to babysit. In Evanston, Ill. for the school year are Fred and Sarah Klein Kramer. Fred is teaching at Northwestern this summer. Sally saw Heidi Anjevins Smith and Conde Spanbuling Sears at a recent Conn. College luncheon in Chicago. Karl and Mavis Veale Von Lamburg have moved to Massachusetts where Karl is an assistant professor at Harvard and associate curator of Old World archaeology at the Peabody Museum. The Von Lamburgs are living in Arlington where they have rented a 150-year-old house on 1½ acres. On the political bandwagon in NYC this fall were Marion Friedman Adler and Olivia Hat lowell Huntington. Marion was district captain for Lindsay's campaign for mayor. Now she is our class chairman for the annual giving program. Muffy's activities as a volunteer for Lindsay were published in the N.Y. Times in November. Her husband was a district coordinator. Even their sons 5, 4, and 2 participated, "riding around in sound trucks, painting the headquarters, and telling their neighbors to vote for Lindsay." Lase King Deary Davis was married to Joseph Bates who is a field engineer for Westinghouse.

1961

CORRESPONDENT: Mrs. James F. Jung (Barbara Frick), 268 Bentleyville Rd., Chagrin Falls, Ohio 44022

BORN: to E. L. and Joan Burch Rogers a daughter, Jill, in July 1961; to John and Ellen Garland Wilson a second child, first son, Bradford Jostyn, on Aug. 18, 1964; to Kent and Sallie Morris Collins a son, Gregory Morris, on Dec. 2, 1964; to Charles and Mary Ann Smith Gitzendanner a daughter, Lesley, on Apr. 5, 1965; to John and Cheryl Cushing Campbell a daughter, Caroline Cushing, on May 3; to Tony and Miriam Monson Tyler a second child, first daughter, Deborah Anne, on July 6; to Bob and Marjorie Fisher Howard a second child, first daughter, Nancy Lynn, on July 16; to George and Joan Swanson Vazakas a son, on Oct. 5 in Thessalonike, Greece; to James and Brent Randolph Reyburn a daughter, Emily Brent, on Oct. 13; to Paul and Joan Knudsen Bledinger a second daughter, Lisa Diana, on Oct. 28.

Jack and Ann Harwich Lewis are living in Winchester, Mass., where Ann is active in the Tech Dames of MIT and in bridge and reading groups. In June, Jack will get his master's in mechanical engineering, and his engineer's degree in marine engineering and naval architecture from MIT. Then they will be transferred by the Coast Guard. In West Chester, Pa., Sally Stansfield Woodward is teaching "culturally deprived" first and second graders. Her husband Jeff is working for his Ph.D. in English literature at the Univ. of Penn. Similar teaching keeps Alice Waring Laster occupied in Bloomfield. Conn. Tom and Linda McCormick Forrestal have bought a new home in Hoffman Estates, Ill. In May Tom graduated from Wharton School of Finance and is now associated with Parker-Hannifin Corp. in Des Plaines, Ill. After 10 years of experience in the planning and management of projects involving computer visual display systems. After three years with the Army in Germany, Bob and Marjorie Fisher Howard are back in civilian life. Margie has seen many classmates, including Ann Decker Erda whose husband is stationed at Cape May, N.J. with the Coast Guard. Paula Parker Ray's activities include membership in the university newcomers' club, a book club and a gourmet cooking group. She is treasurer of the North Carolina Memorial Hospital house staff wives. Her husband John is a first year resident in pediatrics. Her new daughter Emily is keeping Brent Randolph Reyburn happily busy. Joan Summer is still in New York but has a new job with Associated Dry Goods in the import department. Now settled in Cambridge, Mass. are Phillip and Linda Michelson Markell.

Dorothy Hearns Pratt '61 and her husband Tony are both teaching at the Creative Arts Workshop in New Haven. After graduating from Connecticut, Dody studied at the Yale Graduate School under the MAT program. She also holds a bachelor of fine arts degree from Yale. In addition to her art work, she enjoys cooking gourmet style, makes her own clothes, slip covers and drapes, and cares for 2½ year old Alex.

Her husband teaches part-time at Trinity and holds a position in the department of graphic design at Yale. Their joint hobby is collecting and refinishing antiques for their home in Bethany.

Committee and singing group of the Junior League in Millburn, N.J. After an eight week, 10,000 mile trip across the U.S. last summer, Clark and Nancy Coates Whitehead are living in East Hartford, Conn. where Clark has a new job at the Hartford National Bank. He received his master’s degree in June from the Univ. of Mass. Nancy is working at the Hartford Insurance Group in the personnel dept. interviewing and testing clerical employees. Ellen Garland Wilson is occupied with her two children and a painting course. Her husband John is associated with the Manufacturers Hanover Bank in NYC. Charles and Mary Ann Smith Gim仲denmayer are settled in Birmingham, Mich. where Charles is finishing his Ph.D. dissertation.

1962

CO-CORRESPONDENTS: Mrs. Jerome Karter (Joan Dickinson), Box 45, RFD #1, Manchester, Conn. 06040
Judith B. Karr, 4 Frost Street, Cambridge, Mass. 02140

1963

CO-CORRESPONDENT: Virginia B. Olds, 8756 Preston Place, Chevy Chase, Md. 20015
MARRIED: Wallace Costes to William Husson on Aug. 14; Helen Joseph to George Bailey on Sept. 5; Sara DuRoss to Edward Massey on May 22; Victoria Voell to Alan Taylor on Sept. 4.
Wallace Costes Husson received her MAT from Trinity College in 1964. Since then she has been teaching in Madison, Conn. as head of the Latin Department.
HeLEN FRI~k Buzya~ spent ten months in the U.S.S.R. touring with a highly successful U.S.A. graphic arts exhibition. She is now studying graphic design at Yale Art School. George is a graduate student in physics at Yale. Sara DuRoss Massey lived in Munich, Germany, for seven months and then travelled in Hungary, Turkey, Greece, and Egypt. Sara and Edward live in Cambridge, Mass. where Edward is studying at Harvard Business School and Sara is working for a professor in the Divinity School. Victoria Voell is working in computers in Washington, D.C. Susan Alb~ is teaching English in a high school in Massachusetts. Marlene Daniels is studying law at Fordham Univ. and expects to graduate in June. She and Barbara Drexler will share an apartment in NYC this semester. In July Barb completed her two years as a Peace Corps volunteer teaching French in a secondary school in Sefwi Wiawso, Ghana. When she left Ghana in July, she met Susan Young and Virginia Olds in Athens. They spent the summer travelling mainly in Greece, Yugoslavia and Austria. Barb will begin her graduate studies in French at Columbia Univ. in February. Susan Young taught English for a year in New Britain, Conn. and then entered graduate school at George Washington Univ. She expects to get her master’s degree in English this June. Ginny Olds spent two years in Turkey as a Peace Corps volunteer teaching English as a foreign language in Turkish high schools. She is now back in Washington, D.C. Joanne Cannon taught English in the Philippines for two years as a Peace Corps volunteer. Jay left the Philippines this summer and travelled home through the Far East and Europe. She is now living in New York. chantal Le Houerou is living in Paris, working for the French Tourism Office. Her job involves a great deal of travelling in France. Constance Croix drove to the west coast this summer with her sister. She is now teaching 7th grade English in Wakefield, Mass. Joan Rush is in San Francisco working for an advertising firm. Penny School Lane is in Washington, D.C. where her husband is a lawyer. Cynthianna Hahn worked for the YWCA in Greenwich, Conn. for two years. She completed her Peace Corps training in Puerto Rico and then flew to Panama where she will spend the next two years. She is a Peace Corps volunteer in a community development project. Gina Planany Tunnell is in Shaker Heights, Ohio, where she is practicing law. Elizabeth Nehboisn Bodman is working for a Harvard professor while Tim finishes his law studies at Harvard. Diana Sherman is working as a secretary to the public relations manager of Varian Asn., in Portola Valley, Calif. She spent a month travelling in Mexico this past summer. Gall Martin, back from a trip to Europe, is working in a bank in San Francisco. Ann Price is teaching American literature in a high school in Massachusetts. D.C. Martha Joynt is doing research work for the election predictions a television network in NYC. Most of this news was gathered at a “summit conference” which took place in New England this fall. This meeting of the minds was attended by Helen Franx Buzya, Marlene Daniels, Barbara Drexler, Wally Costes Husson, Ginny Olds and Susan Young.

1964

CORRESPONDENT: Marilyn P. Ellman, 300 East 71st St., Apt. 17-N, New York, New York 10021

1965

CORRESPONDENT: Elizabeth Murphy, (Helen Hadley Hall), Yale Univ., 420 Temple St, New Haven, Conn. 06510
MARRIED: Nancy Martin to Edward George Casey on June 12; Patricia Gilxson to Douglas W. Webbink on June 12; Barbara Chase to Peter Winslow on Sept. 4; Stephanie Heyman to Michael Rechler on Jan. 23; Marjorie Landberg to Jay Phillip Goldsmith on June 13; Carol Lee Davis to Stuart Alan Morse on Jan. 31.
Nancy Martin Casey is working as a research assistant for the United Planning Organization in Washington, D.C. while her husband Ed is doing his 3rd year at Georgetown Law School. Pat Gilxson Webbink is acting as a research assistant to a psychologist working for a Ford Foundation project, testing babies for a number of months in London where Jon has a grant from Harvard Medical school to be a research fellow at the Lister Institute. Marge Landberg Goldsmith is working on a master’s at Univ. of Pennsylvania where her husband is in his final year of dental school. Susan Hele~r is teaching embryology and working on her master’s at the Univ. of Washington. Elizabeth Olson and Carolyn Aker are enjoying the life of a working girl in Boston. Linda Norton is working as the personal secretary to the Selective Service Adviser at MIT and generally enjoying herself in Cambridge. Barbara Iobnston has a position as secretary to the director of clinical psychiatry at the McLean Mental Hospital, affiliated with Mass. General.
Mary McKerbon is attending Katherine gobba~ in the Boston area teaching 7th grade general science at the Winsor School in Brookline. Judith Ann Jacobs is with IBM in Philadelphia. Susan Dill is working on a government project dealing with her master’s at UW. Washington. Elizabeth Olson and Carolyn Aker are enjoying the life of a working girl in Boston. Marion Niernz is enjoying Boston apartment life and her position in the Employee Development Dept. of John Hancock Life Insurance Co. in Washington, involved in advising retired military officers on getting executive type civilian jobs. After a summer with Operation Headstart in Yonkers, Susan Oly~ke began teaching at a class of 24 3rd graders in Crestwood, N.Y. Lucia Pelle~ha is currently working in Washington, D.C. in an anti-poverty program associated with the Domestic Peace Corps, VISTA.
Sandy Holland is working in New York with Brentano’s Book Co. as a production assistant, waiting for her book to be published. Sara’s book, named The Firedrake, came out to rave reviews. See page 26 of this issue. Barbara Johnstone is in NYC serving as a staff editor for Appleton-Century-Crofts Co. Karen Matzer is with the Domestic Research Division of the New York Federal Reserve Bank. Juanita campo is living in Rome, attempting to perfect her Italian.

MARCH 1966
Alumnae Annual Giving Program
1965–1966

Goal . . . . $175,000

Total as of January 31, 1966 . . . . $101,859.61

INSPIRATION-!
Alumnae Laurels . .

Alumnae Laurels is a program designed to single out and honor those alumnae who lead the way in supporting Connecticut College. They inspire the entire Alumnae Annual Giving Program.

Membership in Alumnae Laurels is achieved through the gift of $1000 or more within a fiscal year. Last year 43 alumnae became charter members. As of February 28, 1966, the following alumnae merit the laurel crown:

Lucy Marah Haskell ’19
Ella McCollum Veltreich ’21
Dorothy M. Pryde ’21
Ethel Kane Fielding ’23
Jean F. Pegram ’23
Anonymous ’26
Elizabeth Gordon Van Law ’28
Ruth Hodgkins Hodgkins ’30
Caroline Bradley Wallace ’31
Josephine Lincoln Morris ’31
Marjorie Platz Murphy ’31
Elizabeth Rieley Armington ’31
Eleanor Sherman Vincent ’32
Madlyn Hughes Wasley ’35
Margaret Aymar Clark ’37
Jean Blair Carter ’37
Florence McConnell Knudsen ’38
Janette Austin Steane ’38
Margaret Nelson Hanson ’38
Bernice Stein Newberger ’38
Margaret Jane Abell ’39
Musiel Harrison Castle ’39
Rose Lazarus Shinbach ’39
Elizabeth Percells Arms ’39
Allaync Ernst Wick ’41
Rosalie Harron Mayer ’41
Edith Patron Craneshaw ’41
Ruth L. Hankins ’42
Louise Rosenstiel Frank ’44
Katherine Wenk Christoffers ’45
Henriette Newfield Savin ’48
Norma Ritz Phelps ’50
Joanna Toor Cummings ’50
Dorothy Wood Price ’50
Marjanne Edwards Stimson ’51
Mary Hammerly Perkins ’51
Jeanne Tucker Zerker ’51
Gertrude Perkins Oliva ’52
Tabitha Andrews Huber ’55
Barbara Gordon Landau ’55
Sallie Perkins Sullivan ’59

## EXULTATION -!

### Angel Awards...

Angel Awards spring from a three-year Incentive Gift challenge by Our Three Angels.

Their incentive gift offers $25,000 each year to be earned by the classes in bonuses of $1,000 for:

- ★ Raising percentage achievement to 50% or better.
- ★ Doubling last year’s contribution.

The Alumnae Annual Giving Program exults with the following classes,* the first to give wings to their generosity:

- The Class of 1931
- The Class of 1938

*As of January 31, 1966. Alumnae Laurels and Angel Awards may be won any time before the end of the fiscal year—June 30, 1966.
An invitation for all alumnae and their husbands

ALUMNAE COLLEGE 1966
